Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Jackson Lewis P.C Cash Balance Retirement Plan II (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not required parts of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the

financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of the Plan

The following description of The Jackson Lewis P.C. Cash Balance Retirement Plan II (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a cash balance defined benefit plan adopted on January 1, 2021, covering all highly compensated voting shareholders and C-suite employees of Jackson Lewis P.C. (the Firm or Employer) who have one year of service and are aged 21 or older. Eligible voting shareholders, as defined by the Plan, may begin participating in the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year coinciding with or next following the date the requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Board of Directors and Trustee are responsible for oversight of the Plan. The Board of Directors and Trustee determine the appropriateness of the Plan's investment offerings, monitor investment performance, and report to the Firm.

The participant's hypothetical account will be credited with semi-annual interest and annual contributions as defined by the Plan. After meeting the eligibility requirements, a participant must be actively employed or in active service during the Plan year to be eligible to receive an allocation.

Pension Benefits

Benefits are determined based on the participant's hypothetical account balance. A participant is fully vested in his or her accrued benefit immediately upon entry into the Plan. Participants are entitled to all benefits under the Plan upon reaching age 59.5. Payment of a participant's accrued benefit under the Plan is available upon death, disability, or retirement. If the value of the vested benefit is less than a certain dollar threshold, a distribution will be made within a reasonable time after termination from employment. Otherwise, upon reaching normal retirement age of 65, the participants have the option of receiving their accrued benefit through an annuity or lump-sum distribution.

Death and Disability Benefits

The beneficiary of an active or terminated participant is entitled to certain benefits as defined in the Plan document in the event that the participant dies prior to receiving benefit payments. In order to be eligible, certain requirements, which are fully described in the Plan document, must be satisfied. Active employees who become disabled, and such condition continues for a period of six consecutive months and by reason thereof such participant's status as an employee ceases, then the disabled participant shall be entitled to receive the actuarial equivalent of the participant's accrued benefit. The Plan administrator may direct the Trustee to commence payment of the benefits payable as though the participant retired.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

The Jackson Lewis P.C. Cash Balance Retirement Plan II

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosures of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Firm and are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan, that are paid by the Plan, are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation in fair value of investments.

Cash

For financial reporting purposes, the Plan considers all highly liquid instruments purchased with an original maturity of three months or less, excluding cash held for investment purposes, to be cash and cash equivalents.

3. Certified Investments

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedules, related to investments held as of December 31, 2024 and 2023, and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Matrix Trust Company, a qualified institution.

The Jackson Lewis P.C. Cash Balance Retirement Plan II

Notes to Financial Statements

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds - Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange-Traded Funds - Exchange-traded funds are valued at the closing price reported on the active market on which the individual securities are traded.

Common/Collective Trust Fund - The common/collective trust fund is valued at the NAV of units of a bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Jackson Lewis P.C. Cash Balance Retirement Plan II

Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Fair Value of Investments in Entities That Use NAV

The following tables summarize investments for which fair value is measured using NAV per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2024

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Trust Fund	\$ 3,212,144	N/A	Daily	None

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Trust Fund	\$ 2,453,473	N/A	Daily	None

5. Funding Policy

The Firm's funding policy is to make periodic contributions to the Plan based on the contribution credits approved by the Firm and, at the minimum, in the amounts that are based on actuarial assumptions using the Unit Credit Cost method as prescribed by the Pension Protection Act of 2006 as of December 31, 2024, such that all employees' benefits will be fully provided for by the time they retire. The Firm's contributions were \$17,150,000 and \$11,758,300 for the years ended December 31, 2024 and 2023, respectively. The Firm's contributions for 2024 and 2023 exceeded the minimum funding requirements of ERISA.

6. Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments were invested in funds managed by AllianceBernstein Holding L.P. (AB) or AB's wholly owned subsidiary, Sanford C. Bernstein & Co., LLC. AB is the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions that are exempt from the prohibited transaction rules. Certain administrative expenses of the Plan are paid directly by the Firm and are excluded from these financial statements. These include legal fees. Other administrative expenses, such as investment management, consulting, recordkeeping, auditing, and individual participant transaction fees, are paid for by the Plan.

In addition, certain administrative functions are performed by employees of the Firm. No such employee receives compensation from the Plan.

7. Plan Termination

The Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

The Jackson Lewis P.C. Cash Balance Retirement Plan II

Notes to Financial Statements

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in accordance with the following priorities:

1. To provide benefits to former participants who have retired under the Plan prior to its termination without reference to the order of retirement.
2. Equally among:
 - Retired participants and their beneficiaries to whom payment commenced at least three years prior to the date of termination.
 - Participants who could have retired and received payment of their benefits at least three years prior to the date of termination.
3. To provide benefits to participants who have reached their normal retirement date but have not retired on the date of termination without reference to the order in which they will have reached their normal retirement date.
4. To any benefits guaranteed and insured by the Pension Benefit Guaranty Corporation (PBGC).
5. To provide benefits to participants who have not reached their normal retirement date on the date of termination without reference to the order that each participant will attain normal retirement date. The benefit will be based on each participant's accrued benefit at the time of termination.
6. To all other vested accrued benefits not insured by the PBGC.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The Plan uses a pre-approved plan document sponsored by Kravitz, LLC. Kravitz, LLC received an opinion letter from the IRS, dated July 24, 2019, which states that the pre-approved plan document, as then designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan also received a determination letter from the IRS, dated March 10, 2025, which states that the Plan, as then designed, satisfies the applicable provisions of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Jackson Lewis P.C. Cash Balance Retirement Plan II

Notes to Financial Statements

9. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on the participant's accrued benefit determined as of his or her normal retirement date based on the actuarial equivalent value of the accumulation account. The accumulated plan benefits for active participants will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were as follows:

	Interest Rates per Annum, Compounded Annually		
	Adjusted 25-Year Averages (Minimum Funding) (%)	24-Month Averages (Maximum) (%)	Spot Rates (PBGC) (%)
First 5 years after valuation date	4.75	4.37	5.01
Next 15 years	4.96	4.96	5.13
More than 20 years after valuation date	5.59	4.95	5.15

The interest rates above are from the set of interest rates prescribed in the Pension Protection Act of 2006, and the American Rescue Plan Act of 2021, as published in periodic IRS notices.

Accumulation Rate (for account earnings and converting balances to annuities)	3.5% per annum compounded annually for the current year and all future years. 2% interest and applicable mortality table are used to convert balances to annuities.
Experience - active employees:	
Retirement	Normal retirement age
Death	None
Other separation	None
Earnings progression	None
Retired mortality:	
Conversion to annuities	Applicable mortality table
Funding	RP-2014 combined mortality tables for males and females, projected to 2024.
Form of payment	Lump sum
Expense loading	Assumes that current-year expenses are the same as the prior year plan administrative expenses. The resulting amount for this year is \$118,077, and is included in the Target Normal Cost.
Asset valuation basis	Market value, including discounted contributions receivable.

The Jackson Lewis P.C. Cash Balance Retirement Plan II

Notes to Financial Statements

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, 2023, there would be no material differences.

The following is a summary of the actuarial present value of accumulated plan benefits:

December 31, 2023

Vested Benefits

Active participants	\$ 29,224,499
Terminated participants	340,536
Total Actuarial Present Value of Accumulated Plan Benefits	\$ 29,565,035

The following is a summary of changes in the actuarial present value of accumulated plan benefits:

Actuarial Present Value of Accumulated Plan Benefits, December 31, 2022	\$ 21,992,833
Increase (decrease) during the year attributable to:	
Benefits accumulated	11,758,300
Decrease in the discount period	1,162,317
Benefits paid	(5,358,303)
Actuarial losses	9,888
Net Increase	7,572,202
Actuarial Present Value of Accumulated Plan Benefits, December 31, 2023	\$ 29,565,035

10. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

As of December 31, 2024 and 2023, there were three investments held that individually accounted for more than 10% of total investments. See the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2024.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

11. Subsequent Events

The Plan has evaluated subsequent events through July 25, 2025, the date the financial statements were available to be issued.

Schedule SB, Part V -- Statement of Actuarial Assumptions/Methods

Valuation Date First day of the plan year.
Current valuation date is January 1, 2024.

Actuarial Method Unit credit.

Actuarial Assumptions

- Interest Rates per annum, compounded annually
(use the rate for each participant based upon the date of payment being valued)

	Adjusted 25-Year averages <u>(minimum funding)</u>	24-month averages <u>(maximum)</u>	Spot rates <u>(PBGC)</u>
-- First 5 Years after valuation date	4.75%	4.37%	5.01%
Next 15 Years	4.96%	4.96%	5.13%
More than 20 years after val date	5.59%	4.95%	5.15%

First column, based on adjusted 24-month averages, is used to determine AFTAP and minimum contributions.

Second column, based on 24-month averages, is used to determine maximum deductible contributions.

Third column, based on spot interest rates, is used to determine PBGC standard target liabilities.

The interest rates above are the segment rates prescribed in the Pension Protection Act of 2006, and the American Rescue Plan Act of 2021.

The rates have changed since the prior year. In the prior year, the segment rates were:

4.75%, 5.00%, and 5.74% for AFTAP and minimum contribution purposes.

2.13%, 3.62%, and 3.93% for maximum deductible contribution purposes.

4.84%, 5.15%, and 4.85% for PBGC standard target purposes.

The net effect of these changes had an insignificant impact on the liabilities used to determine the plan's minimum funding requirements.

- Interest Crediting Rate (for account earnings) 3.5% per annum compounded annually, for current and all future years.
(changed from 3.00% per annum.)

- Actuarial Equivalent (for converting balances to annuities) 2% interest and Applicable Mortality table are used to convert balances to annuities.

- Experience - Active Employees
 - Retirement Normal Retirement Age.
 - Death None.
 - Other Separation None.
 - Earnings Progression None.
Compensation is based on expected Pay for the current year.

- Retired Mortality
 - Conversion to Annuities Applicable Mortality table.
 - Funding RP-2014 combined Mortality tables for males and females, projected to 2024.

The mortality rates for Funding are from the mortality tables prescribed in federal regulations and notices, as authorized by the Pension Protection Act of 2006.

- Form of Payment Lump Sum.

- Expense Loading Assumes that current year expenses are the same as the prior year plan administrative expenses. The resulting amount for this year is \$118,077, and is included in the Target Normal Cost.

- Asset Valuation Basis Market Value, including discounted contributions receivable.

Notice to Plan Sponsor about the selection of Interest Rate assumptions and Asset valuation:

The Pension Protection Act of 2006 prescribes that the above segment interest rates will be used as a default unless the Plan Sponsor notifies the actuary that he elects to use different assumptions:

- a. The above segment interest rates represent the rates for the month prior to the valuation date. The Plan Sponsor may elect to use rates applicable to 1 to 4 months prior to the latest month.
- b. Assets are valued at fair market value, without any averaging. The Plan Sponsor may ask the actuary to use an average asset value over up to 24 months.

The Plan Sponsor should notify us immediately if any of these alternative elections are desired.

Schedule SB, Part V -- Summary of Plan Provisions

Effective Date	January 1, 2021.
Definitions	
- Plan Year	January 1 through December 31.
- Compensation	Total compensation paid during Plan Year.
- Years of Service	Service for eligibility and vesting based upon entire period of service. The 1000 hours of service method is used in measuring this service. Service for benefit is based upon years of participation where hours of service is required in order to accrue a benefit.
- Accrued Pension	Actuarial equivalent of the balance of the Participant's Cash Balance Account as of Valuation Date projected to his Normal Retirement Date.
- Actuarial Equivalence	Based on the interest rate of 2% and mortality in accordance with the Applicable Mortality table.
- Cash Balance Account	Hypothetical account established for each participant. Each plan year, the account is credited with participant's Contribution Credit in accordance with the plan. Account accumulates earnings based on actual rate of return (net of expenses) on aggregate Plan assets for such period, including both positive and negative rates of return, not exceeding 6% annually.
- Contribution Credit	Contribution formula varies by participant. Contribution amounts this year range from 1.45% to 101.74% of expected compensation.

Eligibility	Employees become eligible upon attainment of age 21 and completion of 1 year of service, and enter the plan on the January 1 or July 1 following completion of the eligibility requirements. However, employees not listed in the Appendix of Eligible Employees of the Plan Document are excluded from the Plan.
Normal Retirement	
- Age	Age 65.
- Annual Pension	The participant's Accrued Benefit determined as of his Normal Retirement Date based on the actuarial equivalent value of the Cash Balance Account.
- Payment of Pensions	Straight life annuity for single employees. Reduced Joint and 50% Survivor annuity for married employees. Optional forms of benefits include single sum and annuities.
Early Retirement Benefit	Same as Severance Benefit.
Late Retirement Benefit	Actuarial equivalent of the Cash Balance Account as of the participant's late retirement date.
Disability Benefit	Actuarial equivalent value of vested accrued pension.
Severance Benefit	Accrued Benefit times Vested Percentage. The Vested Percentage is 100%.
Death Benefit Before Retirement	
- Active Participants	Actuarial equivalent value of vested accrued pension.
- Former Participants	100% of the value of the vested deferred pension.

Top-Heavy Provisions

- Minimum Benefit

For employees also participating in the The Jackson Lewis P.C. Retirement Savings Plan, contribution of 5% of total compensation to be provided under that plan.

Voluntary Contributions

Not Permitted.
