Report of Independent Auditors

The Plan Committee
Toyota de Puerto Rico Corp. Savings and Investment Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Toyota de Puerto Rico Corp. Savings and Investment Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Toyota de Puerto Rico Corp. Savings and Investment Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Toyota de Puerto Rico Corp. Savings and Investment Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Toyota de Puerto Rico Corp. Savings and Investment Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Toyota de Puerto Rico Corp. Savings and Investment Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Toyota de Puerto Rico Corp. Savings and Investment Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The Schedule H, line 4(i) - Schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Toyota de Puerto Rico Corp. Savings and Investment Plan

Notes to Financial Statements

Note 1 – Description of Plan and Summary of Significant Accounting Policies

The following description of Toyota de Puerto Rico Corp. Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan organized on June 1, 1998, covering substantially all employees of Toyota de Puerto Rico Corp. (the Company) who are older than 21 years and have at least six months of continued service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute from 1% to 100% of pretax annual compensation, as defined in the Plan. Contribution limits of \$15,000 are effective for both years ended on December 31, 2024 and 2023. Participants over 50 years old can contribute over the limit up to \$1,500. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 100% of the first 4% of base compensation that a participant contributes to the Plan. For those employees hired on or after January 1, 2015, an additional voluntary company retirement contribution will be made based on the participant's age. Additional amounts may be contributed at the option of the Company's Charter Committee.

Discretionary profit-sharing contribution – The Company, at its sole discretion, may determine whether a discretionary profit-sharing contribution shall be made to the Plan for a plan year.

Qualified nonelective contributions and qualified matching contributions – The Company, at its discretion, may determine whether a Qualified Nonelective Contribution (QNEC) and/or Qualified Matching Contributions (QMAC) shall be made to the Plan for a plan year.

QNEC and QMAC for a plan year shall be allocated among and credited to the respective accounts of all participants who are eligible for elective contributions for the plan year under any method acceptable under the Puerto Rico Internal Revenue Code and regulations.

Additional employer retirement contributions – The Company makes an annual Additional Employer Retirement Contribution (AERC) for each eligible participant hired after January 1, 2015. Participants under 40 years old receive 5% of eligible compensation less than the Social Security Taxable Wage Base (SSWB) and 10% of eligible compensation in excess of SSWB. Participants over 40 years old receive 6% of eligible compensation less than SSWB and 11% of eligible compensation in excess of SSWB.

Participants' accounts – Each participant's account is credited with the participant's contributions and allocations of the employer's contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Notes to Financial Statements

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer’s contributions is based on years of continued service. Participants are 100% vested in employer contributions after completing four years of service.

<u>Years of Service</u>	<u>Percentage Vested</u>
Upon completion of 1 year	25%
Upon completion of 2 years	50%
Upon completion of 3 years	75%
Upon completion of 4 years	100%

Notes receivable from participants – Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the 50% of the eligible borrowers vested interest in the account. Loans awarded prior to the calendar year 2016 bear interest at 8.50%, which were commensurate with local prevailing rates as determined periodically by the Plan administrator. Loans awarded during calendar year 2016 and thereafter bear interest at 1% over the prime rate. Principal and interest is paid ratably through payroll deductions. Principal and interest is required to be paid on a recurring basis through monthly payroll deductions. At December 31, 2024, loan interest rates ranged from 4.25% to 9.50%, with various maturities through November 2029.

Investment options – The investments are made at the discretion of the participant. Upon enrollment in the Plan, participants direct the investment of contributions into various investment options offered under the Plan.

Payments of benefits – Upon termination of services due to death, disability, retirement, or other reasons, a participant will receive the vested portion of the participant’s account in the form of either a lump-sum amount or installment payments. Benefits are recorded when paid.

Plan expenses – Administrative expenses of the Plan are paid by the Company or the Plan, at the Company’s discretion. Expenses that are paid by the Company are excluded from these financial statements. Expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

Basis of accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Forfeitures – Forfeitures are the nonvested portion of a participant’s account that are lost upon termination of employment. As of December 31, 2024 and 2023, forfeited nonvested accounts totaled \$17,948 and \$15,258, respectively.

Notes to Financial Statements

Investment valuation and income recognition – Investments are stated at fair value. The Plan’s custodian, Fidelity Management Trust Company, certifies the fair value of all investments. Shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan for each investment fund at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded when earned. Net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date.

Note 2 – Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Notes to Financial Statements

Collective trusts –Units held in collective trusts (CTs) are valued using the NAV practical expedient of the CTs as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CTs, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the NAV practical expedient. The collective trusts can be redeemed daily, and there are no redemption restrictions or notice requirements.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31, 2024 and 2023:

	Fair Value Measurements at December 31, 2024	
	Fair Value	Level 1
Mutual funds	\$ 18,277,856	\$ 18,277,856
Investments measured at NAV (practical expedient)		1,903,072
Investments at fair value		\$ 20,180,928
	Fair Value Measurements at December 31, 2023	
	Fair Value	Level 1
Mutual funds	\$ 17,528,082	\$ 17,528,082
Investments measured at NAV (practical expedient)		202
Investments at fair value		\$ 17,528,284

Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Notes to Financial Statements

Note 3 – Certified Investment Information

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.
- Investments reflected on the schedule of assets (held at end of year).

Note 4 – Risk and Uncertainties

The Plan invests in various investment securities at the direction of participants among investment options offered under the Plan. Investment securities are exposed to various risks, including but not limited to, changes in interest rates, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 5 – Exempt Party-in-Interest Transactions

The Plan invests in a collective trust managed by an affiliate of the Plan's custodian. Therefore, these transactions qualify as exempt party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited transactions rules of ERISA.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their employer contribution.

Note 7 – Income Taxes

The Plan, as qualified under Section 1081.01(a) of the 2011 Puerto Rico Internal Revenue Code, as amended, is exempt from income and other taxes. The Plan obtained a favorable tax determination letter from the Puerto Rico Treasury Department dated November 16, 2020, that the Plan meets all qualification requirements currently in effect and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Toyota de Puerto Rico Corp. Savings and Investment Plan

Notes to Financial Statements

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Contributions Remittance

Under 29 CFR § 2510.3-102, every amount withheld by the employer must be forwarded to the Plan no later than the 15th business day of the following month. The Company remitted all participants elective deferrals and their respective matching contributions on time.

Note 9 – Nondiscrimination Tests

The Plan passed the Average Deferral Percentage (ADP), 410(b) Ratio Percentage Minimum Coverage, 402(g) Deferral Limit, and 415(c) Annual Additions Limit tests during the years ended December 31, 2024 and 2023, and therefore, no corrections were necessary.

Note 10 – Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through July 31, 2025, which is the date the financial statements were available to be issued.
