For the plan year 01/01/2016 through 12/31/2016

The age reported is the weighted average of the assumed retirement ages for all active participants as of the valuation date based on their funding target or target normal cost should the funding target of the plan be zero rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.

For the plan year 01/01/2016 through 12/31/2016

We could not match the previous year's valuation results within 2% of the respective values on the previous TPA's Schedule SB Filing. We have moved forward based on the prior year's benefit balances and prescribed actuarial assumptions. If our valuation results had were within 2% of the respective values noted above, there would not be an unpaid minimum required contribution.
