Independent Auditor's Report

Participants and Plan Administrator
U.S. Engineering Company Holdings
Employee Stock Ownership Plan & Trust
Kansas City, Missouri

Opinion

We have audited the financial statements of U.S. Engineering Company Holdings Employee Stock Ownership Plan & Trust (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Participants and Plan Administrator
U.S. Engineering Company Holdings
Employee Stock Ownership Plan & Trust

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

General

The following description of U.S. Engineering Company Holdings Employee Stock Ownership Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

U.S. Engineering Company (USE) established the Plan effective as of January 1, 1999, with the most recent restatement occurring effective January 1, 2016. The Plan covers substantially all employees of U.S. Engineering Company Holdings (Holdings), USE, U.S. Engineering Company Innovations, LLC (Innovations), U.S. Engineering Service, LLC (Service), U.S. Engineering Construction, LLC (Construction) and U.S. Engineering Metalworks, LLC (Metalworks) (collectively, the Company) whose employment is not governed by a collective bargaining agreement. Holdings is the plan sponsor and USE, Innovations, Service, Construction and Metalworks are participating employers in the Plan.

The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the Code) of 1986, as amended. The Plan is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended.

The Plan is administered by a Plan Administrator appointed by the Company's board of directors.

Benefit Trust Company (BTC) is the custodian of the Plan's assets. The Plan's trustees are responsible for the oversight of the Plan and determining the Plan's valuation policies, utilizing information obtained from an annual independent appraisal of the Company's stock and information provided by BTC.

Eligibility

Employees of the Company are eligible to participate in the Plan upon reaching the age of 21. The plan entry date for a newly eligible participant is the later of the first day of employment or attaining the age of 21. Employees who are leased, covered under a collective bargaining agreement and nonresidents are excluded from participation in the Plan.

Employer Contributions

Contributions are determined by the Company's board of directors and allocated to participants based on the participant's share of total eligible compensation received during the plan year. Eligible participants receive an allocation of investment gain or loss for the year based on the participant's share of total account balances before allocation of contributions for the year.

All plan accounts are invested by the Plan's trustees, primarily in Company common stock, to the extent shares are available. For plan years in which the Company makes a contribution to the Plan, it may contribute shares of Company common stock or cash. If the Company contributes cash, the trustee will purchase shares of Company common stock for investment, if they are available.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant.

**U.S. Engineering Company Holdings
Employee Stock Ownership Plan & Trust
Notes to Financial Statements
December 31, 2024 and 2023**

Diversification

Diversification is offered to participants who have attained age 55 and have completed 10 years of service. These participants have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Each year, the Plan Administrator informs eligible participants of the number of shares of Company stock that they may elect to diversify.

Vesting

Participants are always 100% vested in their account balance. On termination of service, participants can choose to receive their distributions from available options depending on the account balance. If the account balance is less than \$1,000, the benefit will be paid in a single lump-sum payment. If the balance is greater than \$1,000 but does not exceed \$5,000, the benefit will be automatically rolled over into an individual retirement account unless the participant elects to have the benefit paid directly to him/her. If the balance exceeds \$5,000, the participant must give written consent before the benefit will be paid, subject to certain age limitations.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company or Plan can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

Normally, all shares of Company stock held by the Plan are voted by the plan trustee at the direction of the Plan Administrator. However, participants or beneficiaries have the right to direct the plan trustee how to vote the shares of Company stock credited to their ESOP accounts with respect to the following limited matters: the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all of the assets of the Company or any similar transaction set forth in IRS regulations. If the participant or beneficiary does not timely exercise the right to vote Company stock, the trustee, at the direction of the Plan Administrator will vote such Company stock.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end, which is considered fair value. The Plan's investment in the Company stock is stated at estimated fair value, as determined by an independent appraiser.

**U.S. Engineering Company Holdings
Employee Stock Ownership Plan & Trust
Notes to Financial Statements
December 31, 2024 and 2023**

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative and personnel expenses of maintaining the Plan are paid directly by or provided by U.S. Engineering Company Holdings or U.S. Engineering Company, participating employers, without charge to the Plan.

Note 3. Administration of Plan Assets

The Custodian of the Plan holds the Plan's assets, which consist primarily of common shares. On October 1, 2024, the Board approved 41 shares of common stock as a contribution to the Plan. The Plan received the contributed shares in March 2025, subsequent to year-end. The approved contribution is recorded as a receivable within the statement of net assets available for benefits at December 31, 2024.

Company contributions are held by the custodian and managed by the trustee, which invests cash received and dividend income. Distributions to participants are made by the plan custodian.

Note 4. Dividends

During the plan years ended December 31, 2024 and 2023, the Company paid \$285,451 and \$0, respectively, in dividends on ESOP shares.

Note 5. Investments

Benefit Trust Company holds the Plan's investments as of December 31, 2024 and 2023. The investments held by Benefit Trust Company include U.S. Engineering Company Holdings common stock and related mutual funds. All of the Plan's investments are non-participant-directed investments.

Note 6. Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023:

	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2024 and 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Mutual Funds

The mutual funds are valued at the closing price reported on the active market on which the individual security is traded.

Common Stock of the Company

The Company stock is valued at estimated fair value by an independent appraiser using the Market Approach – *Guideline Public Company Method* and the Income Approach – *Discounted Future Returns Method* as of September 30, 2024 and 2023. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities. There have been no significant changes in the Company's operations from September 30, 2024 through December 31, 2024. The appraisal also considered that a market participant would also recognize a discount for lack of marketability.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 Activity

There was no activity, transfers into and out of Level 3, during the years ended December 31, 2024 and 2023.

Unobservable (Level 3) Inputs

The following table presents qualitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2024 and 2023:

	Fair Value at		Valuation Technique	Unobservable Inputs
	12/31/24	12/31/23		
Common stock	\$ 5,453,354	\$ 4,297,098	Market Approach <i>Guideline Public Company Method</i>	- Liquidity, coverage & leverage ratios - Profitability & return ratios - Growth rates - Market pricing multiples - Premium for control - Discount for lack of marketability
			Income Approach <i>Discounted Future Returns Method</i>	- Earnings stream - Discount rate - Terminal value - Sustainable long-term growth rate - Premium for control - Discount for lack of marketability

The valuation process involves plan management's selection of an independent appraiser with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2024 and 2023, there were no transfers into or out of Levels 1, 2 or 3.

Note 7. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all plan liabilities and expenses will be paid, and the interest of each participant in the Plan will be distributed to such participant or his/her beneficiary at the time prescribed by the Plan and the Internal Revenue Code (IRC).

Note 8. Plan Tax Status

The IRS has determined and informed the Company by a letter dated May 11, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe the Plan is designed, as is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in Company common stock and mutual funds, which are exposed to various risks, such as market and credit risk. Market risks include global events which could impact the value of the investment securities, such as a pandemic or international conflict. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 10. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan invests primarily in Company common stock. The Plan has a number of service providers. Such providers are parties in interest under ERISA. Fees for trust and management services paid by the Plan were \$24,668 and \$26,658 for the years ended December 31, 2024 and 2023, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 11. Subsequent Events

Subsequent events have been evaluated through July 30, 2025, which is the date the financial statements were available to be issued.
