INDEPENDENT AUDITORS' REPORT

White Mountain Apache Tribe
Plan Administrator

Opinion on the 2022 Financial Statements

We have audited the accompanying financial statements of White Mountain Apache Tribe Enterprise 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of April 30, 2022 and the related statements of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of White Mountain Apache Tribe Enterprise 401(k) Plan as of April 31, 2022, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2022 Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the White Mountain Apache Tribe Enterprise 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about White Mountain Apache Tribe Enterprise 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of White Mountain Apache Tribe Enterprise 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about White Mountain Apache Tribe Enterprise 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2022 Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Required Supplementary Information

Management has omitted the Management's Discussion & Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Compilation of April 30, 2021, Statement of Fiduciary Net Position Financial Statements

Management is responsible for the accompanying statement of fiduciary net position of White Mountain Apache Tribe Enterprise 401(k) Plan, as of April 30, 2021, in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. We do not express an opinion, a conclusion, nor provide any assurance on the April 30, 2021, statement of fiduciary net position.

White Mountain Apache Tribe Enterprise 401(k) Plan
Notes to Financial Statements
For the Year Ended April 30, 2022

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the White Mountain Apache Tribe Enterprise 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document or the Plan Summary for a more complete description of the Plan’s provisions.

General

The White Mountain Apache Tribe, a federally recognized Indian tribal government (the “Tribe”), sponsors the Plan and the White Mountain Apache Tribe Governmental 401(k) Plan (the “Government Plan”). The Tribe operates the Plan and the Government Plan in reasonable and good faith compliance with the requirements of Section 906 of the Pension Protection Act (“PPA”), pending the publication of final PPA guidance by the Departments of Labor and Treasury.

The Plan is a defined contribution plan covering the employees of the Tribe who are deemed to be performing commercial functions for the Tribe, as determined by the Tribe on a reasonable and good faith basis in accordance with the limited guidance available regarding the application of PPA Section 906 to tribal governments. Commercial function employers of the Tribe include Hon-dah Resort Casino, the Sunrise Park Resort, and certain commercial enterprises and divisions of the Tribe (collectively “Employer”).

For the period covered by these financial statements, the Plan is operated under a shared trust with the Government Plan, as permitted pursuant Internal Revenue Service Notices 2006-89 and 2007-67. These financial statements do not include the assets and activity of the Government Plan, which is exempt from the requirements of ERISA. Within the shared trust, each participant holds a single retirement account. Each of these participant accounts is included in either the Plan or the Government Plan, depending on the participant’s employment location at the end of the Plan year or, for terminated participants, the location of their most recent employment within the Tribe. For those participants with multiple employment locations and other unique circumstances, the Tribe allocates the participants’ retirement account to a Plan on a reasonable and good faith basis. As participants move from one Plan to another during the plan year, the balance transfers are recognized on the statement of changes in fiduciary net position as “transfers.” The Tribe reserves the right to modify the classification of employees as either governmental employees or commercial employees, pending the publication of final PPA guidance or subsequent changes in applicable law.

Effective May 1, 2024, a separate trust fund was created for the Plan, and the Plan assets were spun-off from the shared trust fund in an Internal Revenue Code Section 414(l) transaction.

Contributions

Those that elect to participate must make a 2.5% Employee Basic Contribution. Participants may than make a Voluntary Contribution up to 100% of qualified compensation, as defined in the Plan, up to a maximum amount allowed by the Internal Revenue Code (IRC). The elective deferral contributions that exceed the Employee Basic Contributions can be made on a pre- tax (traditional 401(k)) basis or a traditional after-tax basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Employer Contributions to the Plan were discontinued in 2010.

Contributions are subject to regulatory limitations.

See accompanying independent auditors’ report

For the Year Ended April 30, 2022

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Separate accounts are maintained for each participant. Each participant's account is credited with the participant's contribution, the participant's portion of earnings (losses), and charged with an allocation of administrative expenses. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and collective investment trusts as investment options for participants. The benefit to which a participant is fully vested.

Eligibility

All full-time employees who have attained age 21 are eligible to participate in the Plan, regardless of whether the employee is seasonal. Temporary or part-time employees must complete one year of service, measured on an elapsed time basis, to be eligible to participate in the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their pre-tax Employee Contribution Account and Employer Contribution Account. Any post-tax Employee Contributions are not considered in the determination of the maximum loan amount. The loans are secured by the balance in the participant's account and bear interest at a fixed rate, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through each payroll period deduction. As of April 30, 2022, the rates of interest range from 4.25 percent to 6.5 percent with various maturities through 2026.

Vesting

Participants are immediately vested in their contributions and actual earnings thereon.

Payment of Benefits

Upon termination of employment, participants may elect to keep accounts invested in the Plan for retirement (with certain exceptions), roll accounts into an IRA or other employer tax qualified plan, or receive a lump sum cash distribution (subject to tax and withholding requirements) equal to the value of the participants vested interest in his or her account.

Retirement

Normal retirement age under the Plan is 65 years of age.

NOTE 2 –SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Measurement Focus

The financial statements of the Plan have been prepared in accordance with U.S. generally accepted accounting principles (US. GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles. The Plan utilizes the basis of accounting applicable financial reporting framework used by tribal entities which meet the definition of a government.

The Plan financial statements are reported using the economic resources measurement focus and the accrual basis of accounting.

Estimates

The preparation of financial statements in accordance with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

See accompanying independent auditors' report

White Mountain Apache Tribe Enterprise 401(k) Plan
Notes to Financial Statements
For the Year Ended April 30, 2022

NOTE 2 –SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in fair value of investments consists of both realized gains or losses and unrealized appreciation or depreciation of the investments held during the year. The components of investment earnings are not separate out as required by GAAP because the custodian does not provide the separate information. However, management does not believe that this GAAP departure is material to the financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans that are not expected to be collected are reclassified as distributions based upon the terms of the Plan document. The allowance for loan loss is \$-0- at April 30, 2022, and 2021.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan procedures require excess contributions to be distributed prior to April 15 subsequent to year-end. There were no material excess contributions payable as of April 30, 2022, or 2021.

Payment of Benefits

Benefits are recorded when approved or deemed a distribution.

Administrative Expenses

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Expenses relating to specific participant transactions (i.e., loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Subsequent Events

Subsequent events have been evaluated through the date of the auditor's report. This is the date the financial statements were available to be issued.

See accompanying independent auditors' report

**White Mountain Apache Tribe Enterprise 401(k) Plan

For the Year Ended April 30, 2022**

NOTE 3 – INVESTMENTS

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the Plan's deposits may not be returned to it. The Plan does not have a deposit policy for custodial credit risk. As of April 30, the Plan's deposits were exposed to custodial credit risk as follows:

	(Audited) 2022	(Unaudited) 2021
Deposits with exposure to custodial credit risk		
Amount collateralized with securities held in trust, but not in the Plan's name	3,980,352	4,096,301
Total	\$ 3,980,352	\$ 4,096,301

Fair Value Measurements

GASB provides the framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

See accompanying independent auditors' report

**White Mountain Apache Tribe Enterprise 401(k) Plan
Notes to Financial Statements
For the Year Ended April 30, 2022**

NOTE 3 – INVESTMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2022 and 2021:

Collective Trust Funds are valued at the NAV of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily.

Mutual Funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The mutual funds are classified within Level 1 of the valuation hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Assets at Fair Value as of April 30, 2022 (Audited)			
	Level 1	Level 2	Level 3	Total

NOTE 4 – INVESTMENT RISKS

Investment securities are exposed to various risks that can affect the value of the Plan’s investments such as interest rate risk, custodial credit risk, and concentration of credit risk. The Plan invests in registered investment companies (mutual funds). Mutual fund holdings in equity securities respond to such factors as economic conditions, individual company earnings performance, and market liquidity, while holdings in debt securities are particularly sensitive to credit risk and change in interest rates.

Interest rate risk – Interest rate risk arises from the likelihood that interest rates will rise or fall during the holding period of a fixed-rate security and adversely affect the selling price of the security prior to maturity. The price of a debt security typically moves in the opposite direction of the change in interest rates.

As of April 30, 2022, the Plan had the following investments subject to interest rate risk:

<u>Fund</u>	<u>Effective Duration</u>
Corporate Bond Funds	7.47

Credit Risk – Credit risk exists when there is a possibility that the issuer or other counterparty to an investment may be unable to fulfill its payments on a security under the original term. As of April 30, 2022, the Plan had the following credit quality mix in its fixed income mutual funds:

<u>Rating</u>	<u>Investment Type</u>	<u>Amount</u>
AAA	Corporate Bond Funds	478,128
AA	Corporate Bond Funds	183,476
A	Corporate Bond Funds	107,164
BBB	Corporate Bond Funds	153,143
BB	Corporate Bond Funds	46,796
B	Corporate Bond Funds	26,528
Below B	Corporate Bond Funds	13,188

NOTE 5 – PARTIES-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and cash and cash equivalents managed by Principal Financial Group, Inc. (2022) and Wells Fargo & Company (2021). Principal Financial Group & Wells Fargo is/were the plan trustee. Therefore, transactions with Principal Financial Group and Wells Fargo are considered to be party-interest transactions.

The Plan also has notes receivable from participants, which also qualify as party-in-interest transactions.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to its reasonable and good faith compliance with ERISA. In the event of Plan termination, participants will remain 100% vested in their accounts.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of fiduciary net position.

NOTE 8 – TAX STATUS

The Internal Revenue Service has determined and informed the Plan Sponsor by a letter dated February 24, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed in compliance with the applicable requirements of the IRC. The Plan administrator is conducting an in-depth review of Plan administration in connection with the audit of the Plan's financial statements and, where necessary, undertaking corrections of operational defects in accordance with the Internal Revenue Service's Employee Plans Compliance Resolution System. Therefore, the Plan Sponsor believes that the Plan is qualified and the related trust is tax-exempt.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of April 30, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. In general, the Plan's returns are subject to examination by federal tax authorities for a period of three years beginning with the later of the due date of the return or the date they are filed. There are currently no examinations in progress.

NOTE 9 – CORRECTIVE CONTRIBUTIONS

During the process of preparing for and conducting the audit of these financial statements, the Plan Sponsor became aware of two compliance matters affecting the Plan for the period spanning approximately 2018 through 2022:

- 1) Eligible employees were not enrolled in the Plan in accordance with the provisions of the Plan document; and
- 2) Participant deferrals were not remitted to the Plan on a timely basis or, in some instances, were not remitted at all.

Both of these correction issues are addressed in the Corrective Contribution Receivables shown in the Statements of Fiduciary Net Position.

The Plan Sponsor performed a detailed analysis of the identified enrollment error and corrected that error in accordance with the correction principles set forth in the EPCRS. The correction of the identified enrollment error was completed in 2024 with the deposit of missed opportunity corrective contributions and missed investment earnings. The Plan Sponsor also has performed preliminary correction calculations regarding the delinquent or missing participant deferrals and has deposited \$60,000 into the Plan in accordance with the preliminary estimates to be held in suspense pending final calculations and allocations (as noted on the Schedule of Delinquent Participant Contributions).

As of April 30, 2021, and April 30, 2022, the Plan reflects a receivable for additional amounts due to participants in connection with these corrections. These receivables are reported on the Statement of Fiduciary Net Position as Corrective Contribution Receivable. Further evaluation and formal correction procedures are expected to be completed in accordance with applicable regulatory guidance.
