To the Plan Administrator
Agri-Power, Inc. 401(k) Retirement Savings Plan
Hopkinsville, Kentucky

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of Agri-Power, Inc. 401(k) Retirement Savings Plan (the Plan) as of and for the year ended December 31, 2024, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Principal Life Insurance Company that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiencies in the Plan's internal control to be material weaknesses:

2024-001 (Recurring Finding) Management Oversight of Financial Reporting

Condition: The Plan lacks management oversight over the financial reporting processes for the preparation of the financial statements and footnote disclosures in conformity with generally accepted accounting principles (GAAP).

Criteria: Proper management oversight over financial reporting should include the preparation of the financial statements and footnote disclosures in conformity with GAAP.

Effect: The financial statements and footnote disclosures may not be in conformity with GAAP.

Recommendation: We recommend that management implement review procedures to ensure that the financial statements and footnote disclosures are prepared in conformity with GAAP.

Response: A cost-benefit analysis of the financial reporting process deemed it cost-prohibitive to obtain third-party assistance to prepare the financial statements and footnotes in accordance with GAAP prior to the independent audit. However, we believe that our knowledge and experience enables us to review the financial statements and footnotes and understand them fully. We take full responsibility for the financial statements and related notes.

2024-002 Deferrals Exceeded Compensation Limit Stated in Plan Document

Condition: The Plan Document specifies that elective deferrals must stop once a participant's compensation reaches the annual IRS compensation limit (\$345,000 in 2024). One participant continued to have elective deferrals withheld after reaching this limit.

Criteria: IRS rules require plans to be operated in accordance with their governing documents.

Effect: The Plan was not operated in accordance with its terms, potentially affecting the Plan's tax-qualified status.

Recommendation: We recommend that management should correct the issue under EPCRS and implement monitoring controls to ensure that elective deferrals cease at the compensation limit in future years.

Response: Management acknowledges that elective deferrals were withheld on compensation in excess of the annual IRS compensation limit, contrary to the Plan's provisions, which state that elective deferrals are to be calculated only on compensation up to that limit. The issue resulted from a configuration oversight in the payroll system, which did not automatically limit deferrals once the compensation cap was reached. Management is working with its third-party administrator and payroll provider to identify all affected participants and determine the necessary corrective action under the IRS Employee Plans Compliance Resolution System (EPCRS).

The Plan's written responses to the material weaknesses identified in our audit has not been subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the Plan administrator and is not intended to be, and should not be, used by anyone other than the specified party.
