Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BROWN PLUS**

(2) EIN: **25-1644159**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

Independent Auditor's Report

Trustees of the NORCAL Insurance Company Pension Plan
and Plan Administrator
San Francisco, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of NORCAL Insurance Company Pension Plan, previously known as the NORCAL Mutual Insurance Company Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated Plan benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits and of changes in accumulated Plan benefits for the year ended December 31 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as, and for the year then ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from issuance.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance; and therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year and reportable transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to, or is derived from, the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NORCAL INSURANCE COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2024 (with comparative information at December 31, 2023)

1. Description of Plan and summary of significant accounting policies:

The following description of the NORCAL Insurance Company Pension Plan, previously known as the NORCAL Mutual Insurance Company Pension Plan (the Plan) of NORCAL Mutual Insurance Company (the Company and Plan Sponsor) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General:

The Plan is a noncontributory defined benefit pension plan covering all employees of the Company hired before January 1, 2014. The Plan was established on October 1, 1978, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On October 13, 2015, senior management and the Employee Benefits Committee approved to amend the Plan to freeze benefit accruals for all participants effective December 31, 2015. As a result of the amendment, a participant's accrued benefit at any time equals the amount of his or her benefit under the Plan as of December 31, 2015. Accordingly, service and pay discussed in the pension benefits section below are recognized only through December 31, 2015 in the calculation of accrued benefits.

The Company became a part of the ProAssurance Corporation through an acquisition which closed May 5, 2021. There currently is no impact to the Plan.

Pension benefits:

The normal retirement age is 65, with a late retirement option in which benefit payments must begin after age 70 1/2 only for employees no longer working. The Plan also provides an optional early retirement age of 55, provided the participant has completed a minimum of five years of vesting service (as defined). The normal monthly retirement benefit is calculated as 1.5% of the participant's average compensation multiplied by the number of completed and fractional years of service, not to exceed 30 years.

However, the normal monthly retirement benefit for active participants who were former PMSLIC participants is calculated as the sum of (a) as of December 31, 2010, an amount equal to 1.6% of the participant's average compensation, plus .5% of final average compensation in excess of covered compensation for each year of service, up to a maximum of 30 years and (b) on and after January 1, 2011, an amount equal to 1.5% of the participant's average compensation multiplied by the number of completed and fractional years of service, not to exceed 30 years.

Average compensation is the average monthly salary derived from the five highest pay years while employed at the Company, excluding the year in which the employee terminates employment. Compensation is defined as earnings, without exclusion for bonuses, commissions or qualified elective deferrals. Employees may elect to receive the value of their accumulated Plan benefits as a life annuity payable monthly from retirement or in the form of a joint and survivor annuity (a single sum payment is available equal to the present value of the benefit accrued as of December 31, 2010 if such present value is less than \$20,000 for former PMSLIC participants). The Plan includes a single sum death benefit payable to the participant's beneficiary. In the event of termination prior to retirement, the participant's retirement benefit is calculated as a percentage of their benefits earned as of the date of termination.

NORCAL INSURANCE COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2024 (with comparative information at December 31, 2023)

1. Description of Plan and summary of significant accounting policies (continued):

Pension benefits:

When a terminated participant's total retirement benefit is between \$1,000 and \$5,000 and no instructions have been received from such participant, the amount will be rolled over to an individual retirement account as designated by the Plan administrator. A retirement benefit less than \$1,000 will be distributed directly to the participant as a lump-sum payment.

A participant may elect to receive a single sum payment at any time after a severance from employment provided the participant has not again become an employee. The single sum benefit shall be equal to the present value of the deferred monthly retirement benefit the participant would be entitled to on his normal retirement date and payable under the normal form.

Death and disability benefits:

If a vested participant dies before beginning to receive a retirement pension benefit, their surviving spouse will receive benefits, but only if they have been married for at least one year. Payment will begin on the earliest date on which the participant first would have been eligible for retirement. The amount of the survivor benefit is equal to the 50% survivor benefit payable under the joint and 50% survivor pension option, based upon the pension accrued to the date of death and reduced for early commencement of benefits, if applicable. If a participant becomes disabled, they shall receive credit for all years of service during the period of their disability and their benefits will be determined based on their compensation during the last full year of employment. The participant will receive disability retirement benefits starting at the normal retirement date, or upon any earlier qualifying date on which they elect to retire.

Early retirement benefits:

The Plan permits early retirement at ages 55 to 64 with completion of five years of vesting service. The early retirement benefit is equal to the monthly benefit the participant would have received if they had retired at their normal retirement date, reduced by .5% for each full month the early retirement date precedes the date age 62 is attained.

Late retirement benefits:

The late retirement benefit will be an amount equal to the monthly benefit the participant would have received if they had retired at their normal retirement date, multiplied by a factor corresponding to the number of years their late retirement date follows their normal retirement date.

Vesting:

Employees with at least three years of service are 20% vested, with 20% additional vesting for each year of service thereafter, resulting in 100% vesting after seven years of service. This schedule also applies to former PMSLIC participants who had less than three years of vesting service as of January 1, 2011. Former PMSLIC participants who had at least five years of vesting service as of January 1, 2011 are 100% vested. Former PMSLIC participants who had at least three years, but less than five years of vesting service as of January 1, 2011, will be 20% vested after three years, 40% vested after four years and 100% vested after five years of vesting service.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2024 (with comparative information at December 31, 2023)

1. Description of Plan and summary of significant accounting policies (continued):

Basis of accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investments:

Fair value of the investments in pooled separate accounts are valued using NAV of the respective pooled separate account, which are invested in publicly traded securities. Shares may be redeemed on a daily basis. There are no significant notice periods associated with the pooled separate accounts.

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees for audit and investment advisory services, PBGC insurance premium, and fees charged directly to the participant's account for the administration of distributions are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of pooled separate accounts, as they are paid through revenue sharing, rather than direct payment.

Actuarial value of accumulated Plan benefits:

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

- (1) retired or terminated employees or their beneficiaries,
- (2) beneficiaries of employees who have died and
- (3) present employees or their beneficiaries.

1. Description of Plan and summary of significant accounting policies (continued):

Actuarial value of accumulated Plan benefits:

The actuarial present value of accumulated Plan benefits is determined by an actuary from Principal Financial Group and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as withdrawal, retirement or death) between the valuation date and the expected date of payment. Certain significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023 were as follows:

	2024	2023
Interest rate used to value liabilities	5.00%	5.00%
Mortality	Pri-2012 White Collar with Principal Mortality Improvement Scale based on MP-2021 study and Principal-selected assumptions	Pri-2012 White Collar with Principal Mortality Improvement Scale based on MP-2021 study and Principal-selected assumptions
Basis for lump sums:		
Segment rates:		
Short-term	3.55%	3.55%
Intermediate	3.95%	3.95%
Long-term	4.95%	4.95%
Mortality	Same as above but with 50/50 blend of male and female mortality and improvement rates	Same as above but with 50/50 blend of male and female mortality and improvement rates
Retirement:		
Active	Age 65	Age 65
Inactive	Age 65	Age 65

The foregoing actuarial assumptions are based on the assumption that the Plan will continue. If the Plan terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NORCAL INSURANCE COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2024 (with comparative information at December 31, 2023)

1. Description of Plan and summary of significant accounting policies (continued):

Benefit Index (allocated contract):

Benefits for retired lives are fully guaranteed at retirement by Principal Life Insurance Company (Principal), which has an A.M. Best rating of A+, under an allocated contract arrangement (Benefit Index) with Principal, which is a flexible pension investment contract. The contract has a Benefit Index option, under which Principal guarantees a specific benefit will be paid to all certificate holders. The Benefit Index option allows Principal to provide a retiree with the guarantees associated with a purchased annuity, while not requiring the immediate pricing of an annuity benefit. Retirees become certificate holders under the Benefit Index and have a legally enforceable right against Principal for their benefit. The guarantee by Principal to pay the Plan benefit is irrevocable and Principal is contractually entitled to the amount of assets designated under the Benefit Index to guarantee the benefit. For financial statement reporting, due to this allocated contract arrangement, the retiree benefit obligation is not a reported Plan obligation and is excluded from the Plan's reported accumulated benefit obligation and the Benefit Index assets are not included in the reported Plan's statements of net assets available for benefits.

Principal invests and reports investments of both the Benefit Index investment funds and the Plan's (unallocated portion) investment funds under one assigned Employer Fund. As long as the fair value of the investment funds held in the Employer Fund are at least equal to the present value of the Benefit Index, then the benefit payments are charged directly to and paid by the Plan (unallocated portion). If not, the Benefit Index retirement funds would be used to purchase annuities to make the retiree annuity payments.

The Benefit Index is calculated as the present value of the amount necessary to provide the guaranteed retirement benefits based on current market conditions with additional consideration given to the investment mix of the Plan's assets. The present value calculation fluctuates due to changes in current annuity contract rates and the value of the Plan's pooled separate account funds. The change in present value of the Benefit Index between the beginning and end of the Plan year is reported on the Plan's statement of changes in net assets available for benefits for the year ended as the transfer to or from Benefit Index (allocated contract) due to change in present value of retiree benefits. During 2024, \$1,115,753 was transferred from the Benefit Index assets to unallocated Plan assets due to the increase in present value of the Benefit Index as noted below.

Under the terms of the flexible pension investment contract with Principal, the Plan does not directly purchase annuity contracts to satisfy the Benefit Index obligation; however, a pro-rata share of the Plan's pooled separate account investments is allocated to the Benefit Index on a periodic basis. The allocated funds are generally not invested separately from the rest of the Plan assets held. The allocated contract present value of this Benefit Index, as determined by Principal, is \$38,974,591 and \$37,858,837 at December 31, 2024 and 2023, respectively. As discussed above, these allocated contract amounts have been excluded from the Plan's net assets available for benefits in the accompanying financial statements in accordance with generally accepted accounting principles.

In determining the actuarial value of accumulated Plan benefits, the corresponding benefits to be provided to retired lives under the allocated contract are excluded from the accumulated Plan benefits. Annually, the actuary calculates an estimated benefit obligation for new retirees under the allocated contract to transfer out of accumulated Plan benefits (unallocated).

NORCAL INSURANCE COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2024 (with comparative information at December 31, 2023)

2. Funding policy:

The Company's funding policy is to make annual contributions to the Plan, which are actuarially determined and within the limits established by ERISA. No employee contributions are permitted. There was no employer contribution receivable at December 31, 2024 and 2023.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

3. Plan termination:

Upon termination of the Plan, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits of the Plan are insured by the PBGC upon termination. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

4. Tax status:

The Internal Revenue Service has determined and informed Principal Life Insurance Company in a letter dated February 28, 2023, that the volume submitter from which the Plan is adopted is designed in accordance with applicable sections of the Internal Revenue Code. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NORCAL INSURANCE COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2024 (with comparative information at December 31, 2023)

5. Information certified by custodian of the Plan:

The Plan's investments are held by Principal Life Insurance Company, the custodian of the Plan. Investment information disclosed in the accompanying financial statements, schedule of assets held at end of year and schedule of reportable transactions, specifically investments held at December 31, 2024 and 2023, investment loss and transfer to Benefit Index (allocated contract) due to changes in present value of retiree benefits and reportable transactions for the year ended December 31, 2024, was obtained or derived from the information supplied to the Plan administrator and certified as complete and accurate by the custodian.

6. Fair value measurement:

The Plan ranks investments required to be reported at fair value in a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of the asset. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset. Observable inputs reflect the assumptions market participants would use in pricing the asset based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset developed on the best information available in the circumstances. The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical investment.

Level 2 – Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – Significant unobservable inputs (including the Plan's own assumptions in determining the fair value of investments).

See Note 1 for a description of the valuation methodologies used for assets measured at fair value.

The following table presents the fair value measurements for investments as of December 31, 2024 and 2023:

2024	Fair value measurements using			Total fair value
	Level 1	Level 2	Level 3	
Pooled separate accounts:				
Large cap equity	\$ 2,372,626			\$ 2,372,626
International equity		\$ 959,842		959,842
Corporate and government debt		29,159,774		29,159,774
Total	\$ 2,372,626	\$ 30,119,616		\$ 32,492,242

NORCAL INSURANCE COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2024 (with comparative information at December 31, 2023)

6. Fair value measurement (continued):

2023	Fair value measurements using			Total fair value
	Level 1	Level 2	Level 3	
Pooled separate accounts:				
Large cap equity	\$ 2,677,127			\$ 2,677,127
International equity		\$ 1,146,163		1,146,163
Corporate and government debt		34,453,875		34,453,875
Total	\$ 2,677,127	\$ 35,600,038		\$ 38,277,165

Plan management has determined that investments in pooled separate accounts have a readily determinable fair value, that is, the NAV is published and available to current investors and is the basis for current transactions, and therefore, have been classified within the fair value hierarchy as of December 31, 2024 and 2023.

7. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions will occur in the near term and such changes could be material to the financial statements.

8. Related party transactions:

Certain Plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping services and investment management expenses are included in net appreciation in fair value of pooled separate accounts.

9. Concentrations:

Two investments accounted for approximately 90% of total investments at December 31, 2024 and 2023.

10. Subsequent events:

The Plan has evaluated subsequent events through July 30, 2025, the date which the financial statements were available to be issued.

[During benefit payment period](#)
 IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation 2.40% increase per year.
 Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return 5.25% for the current plan year.
 The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement Active and inactive participants

Age	Probability of retirement
60	5%
61	5%
62	25%
63	25%
64	25%
65	remaining participants

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.

Marriage	<p>75% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>
Withdrawal	<p>2003 Society of Actuaries Small Plan Age Table, multiplied by 1.10.</p> <p>We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.10 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.</p>
Form of benefit and basis	<p>75% of active participants will elect a benefit paid in a lump sum at the assumed retirement ages. The remaining active participants will elect a monthly annuity on the normal form at the assumed retirement age.</p> <p>75% of active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum paid immediately.</p> <p>Participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement ages.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p> <p>The single sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.</p>
Methods prescribed by law	
Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.00%.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
Lump sum payments	<p>Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.</p>

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.01%	5.13%	5.15%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 White collar base rate mortality table projected generationally using MP-2021.

Mortality base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retirees and disabled retirees - Retiree amount-weighted, male and female

Contingent survivors – Contingent survivor amount-weighted, male and female after the original participant's death. Participants in pay status who cannot be identified as survivors use the same table as retirees.

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 2" is reasonable for this plan.

Mortality improvement

MP-2021 is the most recent improvement scale published by the SOA in October 2021.

In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

Interest rate used to value liabilities

5.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%
The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

Mortality

IRS Prescribed lump sum mortality for 2024. Future years are projected to decrement date with SOA mortality improvement scale MP-2021 as adjusted by the IRS Document Number 2023-23267. This assumption reflects current law as provided by the IRS.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets
NORCAL Insurance Company Pension Plan
EIN 94-2301054 Plan No. 002

Line 2a includes assets allocated for retirees' guaranteed benefits of \$37,858,837.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 NORCAL Insurance Company Pension Plan
 EIN 94-2301054 Plan No. 002

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)
60	35.4091	0.0500	1.7705	106.2272

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 25 – Change in Method
NORCAL Insurance Company Pension Plan
EIN 94-2301054 Plan No. 002

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.
