Independent Auditor's Report

To the Plan Administrator
Gerald H. Phipps, Inc. Employees' Stock
Ownership Plan

Opinion

We have audited the financial statements of Gerald H. Phipps, Inc. Employees' Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of October 31, 2024 and 2023 and the related statement of changes in net assets available for benefits for the year ended October 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of October 31, 2024 and 2023 and the changes in net assets available for benefits for the year ended October 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 5, the financial statements include investments valued at \$50,004,000 and \$44,918,000 (approximately 93 percent and 96 percent, respectively, of net assets) at October 31, 2024 and 2023, respectively, with fair values that have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by an independent third-party appraiser. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator
Gerald H. Phipps, Inc. Employees' Stock
Ownership Plan

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of October 31, 2024 and reportable transactions for the year ended October 31, 2024 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of Gerald H. Phipps, Inc. Employees' Stock Ownership Plan (the "Plan") provides only general information. Participants and all others should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan established on November 1, 1965 and amended and restated effective November 1, 2000 as an employee stock ownership plan (ESOP). The Plan was subsequently restated effective November 1, 2015, with the most recent amendment occurring on September 10, 2020. The Plan covers nonbargaining employees of GH Phipps Construction Companies; GH Phipps Wyoming, LLC; and MB BIM Solutions, LLC (collectively, the "Company") who are 18 years of age. Hourly field craft workers are excluded from eligibility. Effective November 1, 2015, employees become eligible and enter the Plan on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In July 2021, the Plan purchased 6,000 shares of the Company's common stock for \$2,004,000 by using the proceeds of borrowings from the Company. The common stock is held in a trust established under the Plan. The borrowings are to be repaid over a period of 10 years via company contributions to the Plan. The balance of the note is to be repaid in annual installments of \$200,400 plus interest beginning in 2022, which includes 1.00 percent interest and matures in October 2031. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible participant accounts in accordance with applicable regulations under the Internal Revenue Code. During 2024 and 2023, 600 shares released were allocated to participants.

The borrowings are collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated to participants. Accordingly, within the statement of net assets available for benefits as of October 31, 2024 and 2023 and the statement of changes in net assets available for benefits for the year ended October 31, 2024, the assets and liabilities pertaining to the accounts of employees with vested rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated) are shown separately. The unallocated shares as of October 31, 2024 and 2023 totaled 4,200 and 4,800, respectively.

The board of directors of the Company appoints plan trustees (the "Trustees") to oversee the Plan and approves changes to the plan document. The Principal Financial Group is the third-party administrator of the Plan. The administrative committee oversees the maintenance of the Plan's records.

Administration

The Plan's assets, which consist principally of Gerald H. Phipps, Inc. common shares, are held by the Trustees of the Plan.

Benefit Payments, Forfeitures, and Put Option

Each participant's account balance will be distributable upon death, disability, or termination of employment. All vested cash in an account shall be distributed in a lump sum. Eligible participants with vested company stock balances of \$50,000 or less will receive cash in one lump sum equal to the vested amount of their account balances. Eligible participants with vested company stock balances in excess of \$50,000 will receive their distributions in three substantially equal annual installment payments, with a minimum distribution of \$50,000 each installment until a lower installment payment completes the payout of the vested balance. As of October 31, 2024, participants who terminated in 2023 and prior or initiated diversifications prior to the 2024 plan year are due to receive future distribution installments totaling \$2,308,408 based on account values as of October 31, 2024, which will be recorded as deductions from net assets when paid. Distributions are made in the form of cash in accordance with plan provisions. Distributions of benefits occur once per year.

Note 1 - Plan Description (Continued)

Under the provisions of the Plan, the Company is obligated to repurchase participant shares that have been distributed under the terms of the Plan and then either recycle or retire those shares. As of October 31, 2024 and 2023, the Company was obligated to distribute \$5,699,072 and \$5,490,672, respectively, in future periods for vested participant account balances of terminated and normal retirement age employees.

At the time of termination of employment, if a participant is not 100 percent vested, forfeitures of the participant's account shall be placed in a separate account and may be made available to reinstate previously forfeited account balances of former participants, used to offset company contributions to the Plan, used to pay administrative expenses of the Plan, or allocated to the accounts of eligible participants. Total forfeitures allocated to participant accounts during the year ended October 31, 2024 were \$76,315. There were no unallocated forfeitures as of October 31, 2024 and 2023.

Under federal income tax regulations, if common stock that is held by the Plan and its participants is not readily tradable on an established market or is subject to trading limitations, it is subject to a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Employer Contributions and Dividends

Each year, the Company's board of directors determines the amount of the contribution, if any, to be made to the Plan. The allocation of the contribution is based upon the percentage of a participant's eligible compensation to total eligible compensation. The contribution is subject to certain limitations. Participants must be eligible to participate in the Plan and be employed on the last day of the plan year to be eligible for an allocation of the contribution.

Dividends, if and when declared and paid by the Company, are allocated to participants based on the number of company shares each participant has in his or her account at the last day of the plan year before the dividend is paid.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments that are more diversified. Participants who are at least age 50 with at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. In each of the first 5 years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year and beyond, the percentage increases to 50 percent. Participants who elect to diversify receive a cash distribution or roll over into another qualified retirement plan.

Participant Accounts

Each participant's account is credited with allocations of the Company's contribution, dividends, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of any losses and administrative expenses. Allocations are based on participants' eligible compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

October 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. If the Plan is terminated for any reason, all participants become 100 percent vested in their accounts, and the plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Vesting

Effective November 1, 2015, the Company's discretionary contributions, if any, vest according to the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	20 %
2	40
3	60
4	80
5	100

A participant's account becomes 100 percent vested upon death; attaining normal retirement age (the age of 62) if employed by the Company on or after that date, provided he or she has accumulated two years of service; retirement due to permanent disability; or if the Plan is terminated.

Voting Rights

Each participant is entitled to exercise certain voting direction rights attributable to shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are exercised. The Trustees are required to vote any unallocated shares, or any allocated shares not directed by the respective participant on behalf of the collective best interest of plan participants and beneficiaries.

Party-in-interest Transactions

The Plan's holdings include common stock in the Company and qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value. The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recognized on the ex-dividend date.

See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including July 31, 2025, which is the date the financial statements were available to be issued.

Note 3 - Investments in Common Stock

The Plan's investments in company stock at October 31, 2024 and 2023 are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	95,800	4,200	95,200	4,800
Fair value	\$ 47,903,832	\$ 2,100,168	\$ 42,761,936	\$ 2,156,064
Cost	\$ 9,851,308	\$ 1,402,800	\$ 9,650,908	\$ 1,603,200

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Note 5 - Fair Value Measurements (Continued)

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include the fair value of the Company's common stock held by the Plan, which is valued at estimated fair value based upon an independent appraisal. The Trustees select an independent appraiser each year, and the resulting appraisal is reviewed and approved by the Trustees. This appraisal was based upon a combination of the market, tangible asset, and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income based upon company growth rate assumptions, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities, coupled with a discount for lack of marketability. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis:

Assets Measured at Fair Value on a Recurring Basis at October 31, 2024

Notes to Financial Statements

October 31, 2024 and 2023

Note 5 - Fair Value Measurements (Continued)

The fair value of the interest-bearing cash was determined based on the outstanding value, which approximates fair value. The objective of holding the interest-bearing cash is to maintain low-risk liquidity in the Plan to fund future distributions.

Note 6 - Notes Payable - Employer

The Plan has a note payable to the Company to be paid in annual installments of principal and interest at 1.00 percent until October 2031. The note payable is collateralized by unallocated shares of the Company's common stock. The balance of the note was \$1,402,800 and \$1,603,200 as of October 31, 2024 and 2023, respectively.

Minimum principal payments on this loan to maturity are as follows:

Years Ending	Amount
2025	\$ 200,400
2026	200,400
2027	200,400
2028	200,400
2029	200,400
Thereafter	400,800
