INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Peoples Bank Texas 401(k) and ESOP Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Peoples Bank Texas 401(k) and ESOP Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Plan management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Plan management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section —

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that plan management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Plan Management for the Financial Statements

Plan management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Plan management's election of the ERISA Section 103(a)(3)(C) audit does not affect plan management's responsibility for the financial statements.

In preparing the financial statements, plan management is required to evaluate whether there are conditions or events, considered in the aggregate, which raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Plan management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by plan management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, which raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Information Required by ERISA

The supplemental information as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental information, other than the information in the supplemental information that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that plan management determined meets the requirements of ERISA Section 103(a)(3)(C).

PEOPLES BANK TEXAS 401K AND ESOP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN

The following description of the Peoples Bank Texas 401(k) and ESOP Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

Peoples Bancorp, Inc (the “Company”) established the Plan effective as of January 1, 1990. The Plan operates as a defined contribution plan that qualifies as an Employee Stock Ownership Plan (“ESOP”) under Sections 401(a), 501(a) and 4975(e)(7) of the Internal Revenue Code (“Code”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Trustees are responsible for oversight of the Plan.

Plan Restatement

Effective January 1, 2024, the Plan was amended to allow long-term, part-time (“LTPT”) employees who have completed at least 500 hours of service in each of three consecutive years, beginning with the 2021 Plan Year, to become eligible to make salary deferral contributions. LTPT employees who have not satisfied the standard Year of Service requirement (1,000 hours) remain ineligible for employer contributions and other types of contributions.

Additionally, the plan was amended to include a diversification election provision which allows participants who are at least age 55 and have completed at least 10 years of participation in the Plan may qualify to diversify a portion of their Company Stock Account. Eligible participants may direct the Plan to diversify at least 25 percent of the value of their Company Stock Account over a six-year period, beginning with the Plan Year in which they first become eligible. In the sixth year, the eligible amount increases to 50 percent. Diversification elections must be submitted in writing within 180 days following the end of the applicable Plan Year. All distributions made under a diversification election are paid in cash equal to the fair market value of the stock; distributions of actual shares are not permitted.

Eligibility

Employees of the Company who are age 21 or older are eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours of service during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of the Plan year are generally not eligible for an allocation of the Company discretionary matching contribution for such year. Participants can enter the Plan on January 1st or July 1st following the participant’s satisfaction of the service requirements.

Contributions

Each year, participants may elect to contribute up to 100 percent of pretax annual compensation, as defined by the plan document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes a safe harbor match annually. The Company’s matching and profit-sharing contributions are discretionary. For the year ended December 31, 2024, the Company made safe harbor contributions equal to 100 percent of salary deferrals up to the first four percent of eligible compensation and a profit sharing contribution equal 100 percent of the first three percent of plan compensation. Contributions are subject to certain Internal Revenue Service (“IRS”) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company safe harbor contribution, as well as allocations of the Company's discretionary match, profit-sharing contribution, and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and non-elective contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service. Participants are fully vested in the safe harbor matching contributions at the time of contribution.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25 to 10.5 percent. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant or participant's named beneficiary may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. A participant whose vested balance is \$5,000 or less is subject to mandatory cash out provisions as defined by the plan document.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees are permitted to vote any allocated share for which instructions have not been given by a participant as well as any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries as instructed by the Plan Administrator.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and the participants is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy shares of stock distributed to participants for which there is no market at the current fair market value at any time during two option periods. The first put option period runs for a period of at least 60 days commencing on the date of distribution of Company stock to the Participant. The second put option period runs for a period of at least 60 days commencing on the first day of the subsequent plan year. If a participant exercises the put option, the Company must purchase the Company stock at fair market value upon the terms provided in the plan document. The Company can pay for the purchase with a lump sum or in equal installments over a period not exceeding five years. The purpose of the put option is to ensure that the participant has the ability to obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period.

Forfeited Accounts

As of December 31, 2024 and 2023, forfeited non-vested accounts total \$259 and \$0, respectively. Forfeitures may be used to pay plan expenses or used to reduce future employer contributions. In 2024, \$683 of forfeitures were used for plan expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Concentrations

The following table presents investments that represent ten percent or more of the Plan's net assets available for benefits as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Peoples Bancorp Inc. common stock	\$ 10,584,460	\$ 8,711,073
Vanguard 500 Index Fund	\$ 5,538,447	\$ 3,527,992

3. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

Plan management has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The custodian, Charles Schwab Trust Bank, has certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate as of December 31, 2024 and 2023, and for year ended December 31, 2024:

	<u>2024</u>	<u>2023</u>
Investments at fair value	\$ 14,506,762	\$ 12,354,248
Cash, non-interest bearing	\$ 44,831	\$ 44,137
Net appreciation in fair value of investments	\$ 2,441,084	\$ 1,342,412
Dividends	\$ 619,604	\$ 453,852
Interest	\$ 17,004	\$ 18,035

4. SELF-DIRECTED BROKERAGE ACCOUNTS

The plan document allows participants of the Plan to invest their retirement funds in self-directed brokerage accounts. The fair value of investments in self-directed brokerage accounts totals \$66,558 and \$57,127 as of December 31, 2024 and 2023, respectively. Net appreciation in fair value of the self-directed brokerage accounts totals \$10,203 for the year ended December 31, 2024, and is included in net appreciation in fair value of investments in the accompanying Statement of Changes in Net Assets Available for Benefits.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Registered investment companies: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Interest bearing cash: Valued daily based on the face value and the stated rate disclosed in the contract.

Self-directed brokerage accounts: Accounts primarily consist of cash and registered investment companies that are valued daily on the basis of readily determinable market prices.

Peoples Bancorp Inc. common stock: The fair value of the Company common stock is based on an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches consistent with prior years. The appraiser took into account significant unobservable inputs including historical and projected cash flow and net earnings, weighted average cost of capital, market comparable, and applicable discounts and premiums. The Employee Benefits Administration Committee, under the supervision of the Trustees and plan management, determines the fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024:

	Investments at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 13,621,854	\$ -	\$ -	\$ 13,621,854

Changes in Fair Value of Level 3 Investments and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended December 31, 2024.

<u>Year Ended December 31, 2024</u>	<u>Company Common Stock</u>
Balance, beginning of year	\$ 8,711,073
Purchase and sales:	
Shares purchased	605,800
Shares sold	-
Unrealized appreciation of net assets available for benefits	1,267,587
Ending balance	<u>\$ 10,584,460</u>

The amount of total gains or losses for the year included in changes in net assets available for benefits attributable to the change in unrealized gains or losses related to investments held at the end of the reporting period

\$ 1,267,587

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Plan management accumulated the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The Trustees review information and projections that are sent to the appraiser. When the draft report is ready, the Trustees review the report for accuracy and reasonableness of the assumptions used by the appraiser, and the final value calculated.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Trustees believe their valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock. This is a related party and party in interest transaction which is exempt from prohibited transaction rules.

Certain plan investments are held and managed by Charles Schwab (“Schwab”). Schwab is the custodian and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Certain fees incurred by the Plan for custodial services are paid by the Company and excluded from these financial statements. Fees not paid directly by the Company are included in both administrative expenses and net appreciation in fair value of investments.

Certain plan investments are held and managed by First Financial Bank (“First Financial”). First Financial is the custodian and financial advisor, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees not paid directly by the Company are included in both administrative expenses and net depreciation in fair value of investments.

Plan transactions and records are administrated by Leverage Retirement Inc. (“Leverage”). Leverage is the record keeper and third-party administrator as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Certain fees incurred by the Plan for third party administrative services are paid by the Company and excluded from these financial statements. Fees not paid by the Company are included in administrative expenses.

7. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon termination of the Plan, the Plan Administrator directs the Trustee to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participants or his or her beneficiaries at the time prescribed by the Plan terms and the Internal Revenue Code (“IRC”). In the event of plan termination, participants would become 100 percent vested in their employer contributions.

8. TAX STATUS

Plan management adopted a prototype plan offered by the third-party administrator. The IRS has determined and informed the custodian by a letter dated June 30, 2020, that the Plan is designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan, disclose within the footnotes to the financials any potential impact to the Plan, and recognize a tax liability at the Company level if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISKS AND UNCERTAINTIES

The Plan investments consist of investment securities and the Company’s common stock which are exposed to various risks, such as interest rate, market, and credit risks as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with certain investment securities and investment

in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of investment securities and common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through July 24, 2025, the date the financial statements were available to be issued, and determined there were no other items to disclosed.

As of the date of the report, plan management is in process of retroactively amending the plan to clarify that RBC compensation, personal use of company vehicles, group term life insurance, and cash awards are to be excluded for purposes of employee and safe harbor contributions. W-2 wages will be used as the definition of compensation for profit sharing contributions and regular company matching contributions.
