INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Deschutes Brewery, Inc.
Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Deschutes Brewery, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Deschutes Brewery, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, which raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, which raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN
Notes to Financial Statements

1. Description of the Plan

The following description of the Deschutes Brewery, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General. Established by Deschutes Brewery, Inc. (the Company) (a subchapter S-Corporation) and effective on December 12, 2012, the Plan was formed as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended. The initial debt which was used to acquire common stock of Deschutes Brewery, Inc. has subsequently been repaid. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Generally, all non-union, non-leased employees of the Company are eligible to participate in the Plan as of June 30th or December 31st, following the attainment of 18 years of age and completion of one year of service. For eligibility purposes, a year of service is defined as completion of 1,000 hours of service during a 12-month period.

Contributions. Employer contributions are discretionary. Amounts contributed to the Plan may be paid in cash, shares of company stock, or by forgiveness of indebtedness. Employee contributions are not permitted.

Diversification. Diversification is offered to qualified participants so that they may have the opportunity to move part of the value of their investment in company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan are considered qualified and may elect to diversify a portion of their account. Diversification is offered during the six-year period beginning with the plan year in which the participant first becomes eligible for diversification. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50 percent. Participants who elect to diversify have the option to receive a cash distribution or to invest a portion of their account in non-company stock investments under this plan or another plan maintained by the Company. As of December 31, 2024 and 2023, there were 16 and 11 participants, respectively, who were eligible to elect to diversify their account. There were no participant diversification elections for the year ended December 31, 2024. Participant diversification elections were \$36,988 for the year ended December 31, 2023 and accomplished by way of cash distributions to the electing participants.

1. Description of the Plan (Continued)

Payment of Benefits. On termination of service, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account. Depending on the value of the participant's vested account balance, the distribution will be made either in a lump sum or installment payments over no more than five years. Distributions are made in cash or company stock, at the plan administrator's discretion. Company common stock that is held by the Plan and its participants is not readily tradable on an established market. In accordance with federal income tax regulations, the stock investment includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants. The Company can pay for the purchase with interest over a period of five years. Under the provisions of the Plan, a participant receiving a distribution of company stock must immediately sell all shares to the Company, which is obligated to repurchase the participant shares at a price equal to the fair market value as determined by the most recent annual appraisal. During the plan years ended December 31, 2024 and 2023, the Plan did not distribute any shares of common stock subject to repurchase.

Under certain conditions, and as determined by the plan administrator, the Plan may distribute dividends or S-Corporation distributions paid on shares of company stock allocated to participants' company stock accounts to participants. No such distributions occurred for the years ended December 31, 2024 and 2023.

Voting Rights. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to the approval or disapproval of any corporate merger, consolidation, liquidation, or similar transaction. The trustee will vote in other matters and will vote any unallocated shares in a manner which is in the collective best interests of the Plan and the participants and beneficiaries of the Plan.

Participant Accounts. The Plan is a defined contribution plan under which a separate individual account is maintained for each plan participant. A participant's account is further divided between an employer stock account and other investments account. Each participant's employer stock account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account, if any. Only those participants who have completed 1,000 hours of service during the plan year and are eligible employees of the Company as of the last day of the plan year will receive an allocation of employer stock. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. The participants' employer stock accounts are adjusted for unrealized appreciation or depreciation on the shares held by each participant. Investment income and loss on the other investments account is allocated to the participants' accounts based on their proportionate share of the other investments as of the beginning of the year.

1. Description of the Plan (Continued)

Vesting. If a participant's employment with the Company ends due to retirement, permanent disability, or death, he or she will become 100 percent vested in the balance in his or her account. If termination is for any other reason, vesting is based on total years of service with the Company. A year of service for vesting purposes is defined as 1,000 hours worked during a plan year. Participants vest 20 percent per year of service beginning in their second year of service and are 100 percent vested after six years of service.

Forfeitures. When certain terminations of a participant in the Plan occur, the nonvested portion of the participant's account represents a forfeiture. However, if the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account may be reinstated. Forfeitures will be allocated to participant accounts in the same manner as employer contributions in the year the forfeiture occurs. There were forfeitures of terminated nonvested account balances of \$117,538 and \$84,418 allocated in addition to contributions for the years ended December 31, 2024 and 2023, respectively.

Administrative Expenses. The plan sponsor absorbs all significant costs of administering the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting. The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statements of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation. The Plan's investments are stated at fair value. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP also establishes a framework for measuring fair value. The fair value framework requires the categorization of assets and liabilities into three levels based upon the ability to observe the inputs used to value the assets and liabilities. The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Level One provides the most reliable and observable measure of fair value, whereas Level Three generally requires significant judgment.

(Continued)

DESCHUTES BREWERY, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
Notes to Financial Statements

2. Summary of Significant Accounting Policies (Continued)

The three levels of the fair value hierarchy are defined as follows:

- Level One - Unadjusted, quoted prices in active markets for identical assets and liabilities.
- Level Two - Observable inputs, other than those included in Level One. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level Three - Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability.

Purchase and sales of securities are recorded on a trade-date basis. The cost of investments sold for the purpose of computing gains and losses is based on average cost. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment earnings on money market mutual fund accounts are reported as interest income in the statements of changes in net assets available for benefits. The Plan presents in the statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of company stock.

Risks and Uncertainties. The Plan invests in shares of the Company's common stock. The Company is exposed to various risks, such as interest rate, market, and credit risks that affect the value of shares of common stock. Due to the level of risk associated with the Plan's investments, it is at least reasonably possible that changes in the value of investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Payment of Benefits. Benefits are recorded when paid. There were no amounts allocated to persons who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2024 and 2023.

Subsequent Events. The Plan evaluates subsequent events and the evidence they provide about conditions existing at the date of the statements of net assets available for benefits as well as conditions that arose after the statements of net assets available for benefits date but before the financial statements are issued. The effects of conditions that existed at the date of the statements of net assets available for benefits are recognized in the financial statements. Events and conditions arising after the statements of net assets available for benefits date, but before the financial statements are issued, are evaluated to determine if disclosure is required to keep the financial statements from being misleading. To the extent such events and conditions exist, disclosures are made regarding the nature of events and the estimated financial effects for those events and conditions. For purposes of preparing the accompanying financial statements and the following notes to these financial statements, the Plan evaluated subsequent events through July 23, 2025, the date the financial statements were available for issue.

DESCHUTES BREWERY, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
Notes to Financial Statements

3. Fair Value Measurement

The fair value of the Company's common stock held by the Plan is determined based upon an independent appraisal.

Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that will be used to value a participant's benefit.

The fair valuation methodology used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value could result in a different fair value measurement at the reporting date.

The following presents a summary of the Plan's investment assets measured at fair value:

Fair Value Measurement at December 31, 2024					
Description	Total	Quoted Prices in Active Markets for Identical Assets (Level One)	Significant Other Observable Inputs (Level Two)	Significant Unobservable Inputs (Level Three)

3. Fair Value Measurement (Continued)

At December 31, 2024 and 2023, the Plan had 78,961,000 allocated shares and no unallocated shares with a price per share of \$65.983039 and \$40.462588, respectively.

4. Income Tax Status

The Plan obtained its initial determination letter on May 20, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since it received the opinion letter. However, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies and the related trust is tax-exempt as of December 31, 2024 and 2023. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not, based on the technical merits, would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of July 23, 2025, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the statute of limitations for the IRS to assess taxes on a plan expires three years from the due date of the return or the date on which it was filed, whichever is later.

5. Administration of Plan Assets

The Plan's assets, which consist principally of Deschutes Brewery, Inc. common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received as well as investment income and S-Corporation distributions. The trustee also makes distributions to participants and administers the payment of interest and principal on outstanding loans, if any.

DESCHUTES BREWERY, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
Notes to Financial Statements

6. Employer Contribution

Company contributions for any plan year shall be in an amount determined at the sole discretion of the board of directors provided that the company contributions are made in an amount sufficient to allow the trust fund to satisfy any currently maturing obligations. Company contributions may be paid in cash, shares of company stock, or by forgiveness of indebtedness, as determined by the board of directors.

The Company deposited \$483,266 and \$427,963 into the Plan during the years 2024 and 2023, respectively.

7. Related Party Transaction

The Plan invests in shares of common stock of Deschutes Brewery, Inc., the plan sponsor. This investment and transactions in this investment qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA for employee stock ownership plans.

8. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions and ERISA. Upon such termination of the Plan, the interest of each participant in the trust fund will become fully vested and be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the code.
