INDEPENDENT AUDITOR'S REPORT

The Plan Administrator
Eastern Industrial Automation 401(k) Retirement Plan
Waltham, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Eastern Industrial Automation 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of October 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended October 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Eastern Industrial Automation 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of October 31, 2024 and 2023 and for the year ended October 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Eastern Industrial Automation 401(k) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Eastern Industrial Automation 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Eastern Industrial Automation 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Eastern Industrial Automation 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) as of October 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

EASTERN INDUSTRIAL AUTOMATION 401(K) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED OCTOBER 31, 2024 **OCTOBER 31, 2024 AND 2023**

Note 1 - Description of the Plan

The following brief description of the Eastern Industrial Automation 401(k) Retirement Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Eastern Industrial Automation 401(k) Retirement Plan (the Plan) is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees, other than leased employees and interns, are eligible to participate after they have completed a 12-month period of employment with at least 1,000 hours of service and have attained the age of 21. Eastern Industrial Automation is the plan administrator. John Hancock Trust Company LLC is the trustee.

The Plan includes an employees' thrift savings plan established under the provisions of Internal Revenue Code Section 401(k). Under the savings plan, a certain percentage of employees' wages, as defined in the Plan, can be deferred as an employee contribution to the Plan.

Automatic Enrollment - Employees who first become eligible to participate in the Plan, who fail to affirmatively make any deferral election (including an election to contribute 0% of eligible compensation) within the time prescribed by the Administrator, shall be deemed to have elected to defer 3% of eligible compensation as a pre-tax contribution and be increased by 1% annually up to a maximum of 7%, unless participants elect otherwise. Contributions received under the automatic enrollment feature are invested in the appropriate American Funds Target Date Retirement Fund based on the participant's year of birth until changed by participant.

Contributions - Participants may generally contribute up to 70% of pretax annual compensation, as defined in the Plan. Deferrals can be designated as either pretax contributions or as Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make rollover contributions representing distributions from other qualified plans. Each year, a discretionary matching contribution may be made at the option of the plan sponsor. Effective November 1, 2018, the Company shall make a safe harbor matching contribution equal to 100% of 1% of eligible compensation that a participant contributes to the Plan and 50% of the next 6% of eligible compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the plan sponsor. Contributions are subject to certain limitations and eligibility requirements apply to such contributions.

Participants' Accounts - Each participant account is credited with (a) the participant's contributions, (b) employer discretionary matching contributions, if any, (c) earnings, (d) expenses and (e) an allocation of the Company's discretionary profit sharing contributions, if any. Allocations of the Company's discretionary contributions are based on participant compensation. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED OCTOBER 31, 2024 OCTOBER 31, 2024 AND 2023

Note 1 - Description of the Plan (Continued)

Vesting - Participants are immediately vested in their salary deferral contributions, plus actual earnings thereon. Participants are also 100% vested in the safe harbor matching contributions, and related actual earnings, which began effective November 1, 2018. In addition, participants who were not terminated as of November 1, 2018 became 100% vested in all Employer matching contributions, and related actual earnings, made prior to November 1, 2018. For participants who were terminated prior to November 1, 2018, vesting in the employer matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service and are 100% vested after six years of credited service.

Investment Options - Upon enrollment in the Plan, a participant may direct their contributions in one percent increments to various investment options including certain selected mutual funds and a guaranteed investment contract. Participants may reallocate their funds or redirect new contributions on a daily basis among any of the offered funds.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%, fixed at the time of issuance. Principal and interest are paid ratably through weekly payroll deductions. Generally, notes must be repaid within five years unless being used to purchase a principal residence. If a participant terminates employment with an outstanding loan balance, the participant may continue to make loan repayments directly to John Hancock. Participants may have only one note outstanding at a time.

Forfeitures - Forfeitures of matching contributions are used to pay the administrative costs of the Plan or to reduce future matching contributions. During the years ended October 31, 2024 and 2023, no forfeitures were used to pay the administrative costs of the Plan. At October 31, 2024 and 2023, there were no forfeited non-vested amounts.

Payment of Benefits - On termination of service, including upon retirement, disability or death, participants or beneficiaries are entitled to a distribution equal to the total value of the participant's vested account. A participant or beneficiary may elect to receive the value of the vested account in a lump-sum cash payment or a rollover distribution to an eligible retirement account, or a combination of both payout options. Partial withdrawals are allowed for terminated participants. If the balance is greater than \$7,000, the participant or beneficiary may elect to defer payment of benefits until a minimum distribution is required. If the vested balance is less than \$5,000 but greater than \$1,000, the account will be rolled over to an IRA unless an alternative distribution election is made by the participant. For vested balances less than \$1,000, benefit payments are automatically made to the participant in the form of a lump sum payment unless an alternative distribution election is made by the participant.

Participants may also withdraw from their vested accounts upon certain hardship situations as defined in the Plan or upon attainment of age 59 1/2.

EASTERN INDUSTRIAL AUTOMATION 401(K) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED OCTOBER 31, 2024

OCTOBER 31, 2024 AND 2023

Note 1 - Description of the Plan (Continued)

Revenue Sharing Income - A revenue sharing agreement is in place whereby certain revenue generated by the Plan's investments is credited to an unallocated account. These amounts are used for the benefit of the Plan to pay administrative expenses or to allocate to participants. As of October 31, 2024 and 2023 there were unallocated amounts of \$8,331 and \$2,344, respectively, in the revenue sharing account. No amounts were allocated to participants during the years ended October 31, 2024 and 2023.

Plan Amendment and Termination - The Plan may be amended at any time by the plan sponsor, provided that no such amendment may deprive participants of their vested benefits. Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent vested in their accounts.

Administrative Expenses - Generally, expenses not paid by forfeitures or from a revenue sharing account are paid by the plan sponsor. Fees for origination of notes receivable from participants, qualified domestic relation orders, and certain other administrative expenses are paid by the participants.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting in conformity with U.S. generally accepted accounting principles. Benefit payments are accounted for at the time of payment.

Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator and management to make estimates and assumptions that affect the amounts of net assets available for benefits at the date of the financial statements and the changes in the net assets available for benefits during the reporting period, and the disclosures of contingent assets and liabilities, if applicable, at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value in these financial statements, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is measured in accordance with generally accepted accounting principles as more fully described in Note 4. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains and losses include the plan's gains and losses on investments bought and sold as well as held during the year.

Fully benefit-responsive contracts held by a defined-contribution plan are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Notes Receivable from Participants - Notes receivable from participants are measured at the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions under the terms of the Plan document. No allowance for credit losses has been recorded as of October 31, 2024 and 2023.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED OCTOBER 31, 2024 **OCTOBER 31, 2024 AND 2023**

Note 2 - Summary of Significant Accounting Policies (Continued)

Tax Status - Effective November 1, 2021, the plan adopted a John Hancock Retirement Plan Services LLC, Non-Standardized Defined Contribution Pre-Approved Plan, which received an IRS determination letter on June 30, 2020. In the determination letter the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is generally subject to potential examination by taxing authorities for the prior three years. Currently there are no audits in progress for any tax periods.

The Plan evaluates all significant tax positions as required by U.S. generally accepted accounting principles. As of October 31, 2024, the Plan has no uncertain tax positions that would require either recognition or disclosure in the financial statements.

Subsequent Events - The date to which events occurring after October 31, 2024 have been evaluated for possible adjustment to the financial statements or disclosure is the date of the Independent Auditor's Report which is the date the financial statements were available to be issued.

Note 3 - Information Certified by Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments, at fair value, investment, at contract value, and notes receivable from participants held at October 31, 2024 and 2023, and investment income and interest income on notes receivable from participants for the year ended October 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by John Hancock Trust Company LLC (the trustee of the Plan).

Note 4 - Fair Value Measurements

Fair value is defined under U.S. generally accepted accounting principles as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Plan is required to maximize the use of observable inputs, minimize the use of unobservable inputs, and disclose in the form of an outlined hierarchy the details of such fair value measurements. The hierarchy of valuation techniques is based on whether the inputs to fair value measurement are considered to be observable or unobservable in a marketplace. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The hierarchy requires the use of observable market data. When available, these inputs have created the following fair value hierarchy:

Note 4 - Fair Value Measurements (Continued)

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than those included in Level 1. For example, quoted prices for similar assets in active markets or quoted prices for identical assets in inactive markets.

Level 3 - Unobservable inputs reflecting management's own assumptions about the inputs used in estimating the value of the assets.

Following is a description of the Plan's valuation methodologies for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2024 and 2023.

Mutual Funds

These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund and calculated at the close of business on the NYSE. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Investments in mutual funds are classified within Level 1 of the valuation hierarchy.

The following tables present the financial instruments carried at fair value, by the valuation hierarchy (as described above) at October 31, 2024 and 2023.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED OCTOBER 31, 2024 **OCTOBER 31, 2024 AND 2023**

Note 5 - Guaranteed Investment Contract

The Plan has a benefit-responsive guaranteed interest account with New York Life Investment Management LLC (“New York Life”). The Guaranteed Account is a traditional guaranteed interest contract and is part of the general assets of New York Life. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

In determining the net assets available for benefits, the traditional guaranteed interest account is recorded at contract value. Because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed interest account. Contract value, as reported to the plan by New York Life Investment Management LLC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the interest account at October 31, 2024 and 2023 was \$1,947,214 and \$1,159,329, respectively. The crediting interest rate is subject to adjustment every six months and is based on a formula agreed upon with the issuer, but it may not be less than the lesser of 3% or a rate determined by the six-month average of the five year Constant Maturity Treasury Rate, as more fully defined in the contract.

Certain conditions may limit the ability of the Plan to transact at contract value with New York Life. Such circumstances include but are not limited to total or partial plan termination, plan merger, and certain other employer-initiated events. The plan administrator does not believe that any events which would limit the plan’s ability to transact at contract value with participants are probable of occurring in the near term. The net crediting interest rates ranged from 2.45% to 3.00% during the year ended October 31, 2024.

Note 6 - Related Party Transactions

During the year ended October 31, 2024, John Hancock Retirement Plan Service, LLC (“John Hancock”) was the record keeper and its related entity John Hancock Trust Company, LLC was the trustee of the Plan. Transactions with John Hancock qualify as party-in-interest transactions. During the year ended October 31, 2024, John Hancock administrative fees amounted to \$2,079, of which \$1,550 were paid directly by participants and \$529 were paid from the designated revenue sharing accounts. In addition, during the year ended October 31, 2024, professional and fiduciary advisor fees in the amount of \$9,200 were paid from the designated revenue sharing account.

Note 7 - Notes Receivable from Participants

As of October 31, 2024 and 2023, notes receivable from participants bear interest rates ranging from 4.25% to 9.50% and mature at various dates through December 2030.

Net increase per Form 5500	<u>\$ 6,725,165</u>

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
