Independent Auditors' Report

Plan Administrator and Participants
Harrison Design Associates 401(k) Profit Sharing Plan
Atlanta, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements

We have performed an audit of the financial statements of the Harrison Design Associates 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2024 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution.)

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2024 Financial Statements

In our opinion, based on our audit and the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2024 Financial Statements section:

- the amounts and disclosures in the accompanying 2024 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the information in the accompanying 2024 financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared by and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the 2024 financial statements.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2024 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2024 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the 2023 Financial Statements

Predecessor auditors performed an audit of the 2023 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Their report, dated August 6, 2024, indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2023 supplemental schedule, other than the information in the 2023 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2023 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Harrison Design Associates 401(k) Profit Sharing Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Harrison Design Associates 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan was adopted by Harrison Design Associates, Inc. (the Company) effective January 1, 1999, and was most recently restated effective June 28, 2021. The Plan was a defined contribution plan under Section 401(k) of the Internal Revenue Code (IRC) and was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective December 31, 2024, the Company became a participating employer in the Choice Pooled Employer Plan III. Therefore, all assets of \$12,193,343 were transferred out of the Plan on December 31, 2024.

Eligibility

The Plan covered all employees who had completed six months of service and were at least 21 years of age. Eligible participants were automatically enrolled in the Plan on the first day of the Plan year and the first day of the fourth, seventh, and tenth months of each Plan year following the date in which the participant satisfied the service requirements. Long-term part-time employees who met eligibility requirements under SECURE Act were also eligible to participate in the Plan.

Effective May 15, 2023, new hire eligibility began at the first of the month following 30 days of service; new hire eligibility for Employer matching contributions began the first of the month following 6 months of service; and entrance dates for currently eligible participants were the first of each month.

Participant Contributions

Each year, participants may have contributed up to 75% of pre-tax annual compensation, as defined in the plan document, up to the maximum limits of the IRC. Participants may have also designated all or a portion of their deferral and Company contributions as after-tax contributions in a Roth account. In addition, eligible participants were permitted to make catch-up contributions. Participants may also have contributed amounts representing distributions from other qualified plans (rollovers). Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan included an automatic enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan or elected a different percentage. Automatically enrolled participants had their deferral rate set at 1%, and the deferral was increased annually by 1% until a deferral rate of 6% was reached.

Company Contributions

The Company could have made a discretionary matching contribution (Company discretionary matching contributions) determined each Plan year and calculated quarterly. The Company may also have made discretionary profit-sharing contributions on an annual basis (Company profit-sharing contributions). To have received an allocation of such contributions, a participant generally must have been employed on the last day of the Plan year. There were Company discretionary matching contributions of \$285,031 for the 2024 Plan year. There were no Company profit-sharing contributions for the 2024 Plan year.

1. Description of the Plan (cont.)

Participant Accounts

Each participant's account was credited with the participant's salary deferral contributions, and any Company discretionary matching contributions or Company profit-sharing contributions, and his/her share of the Plan's income (loss). The Plan's income (loss), with respect to each investment fund, was allocated based on the proportion that each participant's account balance invested in such fund compared to the total of all participants' account balances invested in such fund.

Notes Receivable from Participants

Participants may have borrowed a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his/her vested account balance. A participant may have had only one loan outstanding at a time. The interest rates on notes receivable from participants were at prime rate at date of loan issuance. Principal and interest were repaid ratably through regular payroll deductions over a period not to exceed five years unless the notes receivable were used to purchase a primary residence in which case the note receivable terms may have exceeded five years.

Vesting

Participants were immediately vested in the value of their salary deferrals, and rollovers, plus related investment earnings. Any Company discretionary matching contributions and Company profit-sharing contributions vested according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one	0%
One	0%
Two	20%
Three	40%
Four	60%
Five	80%
Six	100%

Participants must have been credited with a minimum of 12 months to complete a year of vesting service.

A participant became fully vested in Company matching contributions and any Company profit-sharing contributions, regardless of length of service, in the event of death or disability, the Plan was terminated or contributions to the Plan were discontinued, or upon attainment of age 65.

Benefit Payments

Participant accounts may have been withdrawn upon retirement, death, disability, or termination of employment. Participants may have elected to have distributions paid in a lump-sum and were either paid directly to the participant or rolled over to another qualified retirement plan. Installments were permitted only for required minimum distributions. The Plan also allowed for in-service withdrawals at age 59½ or upon incurring a disability, along with withdrawals in the event of a financial hardship.

Notes to Financial Statements

1. Description of the Plan (cont.)

Forfeitures

The Plan allowed forfeitures to be used to reduce Company contributions or pay Plan expenses. The balance of forfeited funds was \$0 and \$3,406 at December 31, 2024 and 2023, respectively. During the year ended December 31, 2024, the Company used forfeited funds of \$3,389 to offset Company contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting. The Plan followed accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP required the Plan's management to make estimates and assumptions that affected the reported amounts of net assets available for benefits and changes therein, and disclosures. Accordingly, actual results could have differed from those estimates.

Investment Valuation and Income (Loss) Recognition

Investments were stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for information on fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income (loss) was recorded on the accrual basis. Net appreciation/(depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from Plan participants and the matching contributions from the Company were recorded in the year in which the employee contributions were withheld from compensation.

Notes Receivable

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they are incurred. No allowance for credit losses was recorded as of December 31, 2024 and 2023. If a participant ceased to make loan repayments and the Plan administrator deemed the participant loan to be in default, the participant loan balance was reduced, and a benefit payment was recorded.

Plan Expenses

Certain administrative expenses related to distributions and other participant-initiated transactions were charged to the account of the Plan participant. Other administrative expenses and investment management fees were paid from the Plan's forfeitures and through reductions of investment returns under the Plan's investment options.

Payment Benefits

Benefit payments to participants were recorded upon distribution.

3. Certified Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, Fidelity Management Trust Company (Fidelity), the Custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity and interest income on notes receivable from participants reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

4. Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below.

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

Mutual Funds - Valued at the quoted market prices of shares held by the Plan at year-end. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value (NAV) as of December 31, 2024 and 2023. The mutual funds held by the Plan are deemed to be actively traded. It is not probable that the mutual funds will be sold at amounts that differ materially from the NAV of shares held.

Notes to Financial Statements

4. Fair Value Measurements (cont.)

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believed its valuation methodology was appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023.

<i>December 31, 2024</i>		Level 1		Level 2		Level 3		Total
Mutual funds	\$	-	\$	-	\$	-	\$	-
Total investments at fair value	\$	-	\$	-	\$	-	\$	-

<i>December 31, 2023</i>		Level 1		Level 2		Level 3		Total
Mutual funds	\$	10,535,165	\$	-	\$	-	\$	10,535,165
Total investments at fair value	\$	10,535,165	\$	-	\$	-	\$	10,535,165

5. Party-In-Interest Transactions

The recordkeeping and custody functions for the underlying investments held by the Plan were performed by Fidelity. Notes receivable from participants are defined by ERISA as party-in-interest transactions. Such transactions were exempt from the prohibited transaction rules.

6. Tax Status

The Plan had adopted a Non-Standardized Pre-Approved Profit Sharing Plan with CODA (Pre-Approved Plan) sponsored by FMR LLC (doing business as Fidelity Institutional Asset Management) (FMR). The Internal Revenue Service (IRS) had opined and informed FMR by letter dated June 30, 2020, stating that the form of the pre-approved plan document was in compliance with the applicable requirements of the IRC. Although the Plan had been restated since adopting the pre-approved plan document, the Plan administrator believed that the Plan was designed, and was being operated, in compliance with the applicable requirements of the IRC and therefore, believed that the Plan was qualified, and the related trust was tax exempt.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there were no audits for any tax periods in progress.

7. Plan Termination

Although it had not expressed an intention to do so, the Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Harrison Design Associates 401(k) Profit Sharing Plan

Notes to Financial Statements

8. Risks and Uncertainties

The Plan's investments included funds which invested in various types of investment securities and in various companies within various markets. Investment securities were exposed to several risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would have occurred in the near term and those changes could have materially affected the amounts reported in the Plan's statements of net assets available for benefits.

9. SECURE 2.0 Act of 2022

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

10. Subsequent Events

The Company has evaluated, for consideration of recognition or disclosure, subsequent events through July 28, 2025, the date these financial statements were available to be issued, and has determined that no significant events occurred after December 31, 2024, but prior to the issuance of these financial statements, that would have a material impact on these financial statements.
