Independent Auditors' Report

Plan Administrator and Board of Trustees
Environmental Systems Design, Inc.
Employees 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Environmental Systems Design, Inc. Employees 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Environmental Systems Design, Inc. Employees 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Environmental Systems Design, Inc. Employees 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Environmental Systems Design, Inc. Employees 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Environmental Systems Design, Inc. Employees 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Environmental Systems Design, Inc. Employees 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following brief description of Environmental Systems Design, Inc. Employees 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the published summary Plan booklet for a more complete description of the Plan's provisions.

General:

The Plan is a defined-contribution plan covering all employees of Environmental Systems Design, Inc. (the Company). The purpose of the Plan is to enable eligible employees to save for retirement. The Plan is intended to be a qualified retirement plan under the Internal Revenue Code (the Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On June 30, 2023, the Company was acquired by another company and the Plan entered into the IRS favorable determination process in order to provide the Company reliance that the Plan is qualified in form under IRC Section 401(a) and the Plan's trusts are exempt under IRS Section 501(a). As of June 30, 2023, all Plan assets are 100% vested and loan payments continue to be withheld from participants' paychecks by the acquiree company and applied against participants' open loan balances. Effective June 30, 2023, participants are not allowed to contribute to the Plan; however, participants are allowed to make distributions from their accounts.

Participant accounts:

Each participant's account is increased with the Plan earnings and decreased with the participant's withdrawal and allocations of administrative expenses. Allocations are based on the participant's earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are always 100% vested in their employee deferral contributions and earnings thereon. At June 30, 2023, participants became fully vested in their employer matching contributions and earnings thereon.

1. Description of the Plan (continued)

Payment of benefits:

A participant becomes entitled to benefits under the Plan upon attaining early retirement at the age of 55, normal retirement at the age of 65, death, permanent and total disability, termination of employment or retirement. Upon retirement or permanent and total disability, a participant is entitled to receive the full amount in his or her account, to be paid in a manner specified in the Plan.

The Plan also allows in-service withdrawals from a participant's vested account balance for hardship withdrawals or upon attaining the age of 59-1/2.

Participant loans:

Participants loans entered into prior to June 30, 2023 were not to exceed the lesser of \$50,000 or 50% of the vested portion of the balance, with the minimum loan amount being \$1,000. The term of the loans are 60 months or less, unless the loan was for the purchase of a primary residence in which case the loan is up to 180 months.

As of June 30, 2023, participants were no longer able to take a loan. The existing participant loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

2. Summary of significant accounting policies

Basis of accounting:

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recognized on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

2. Summary of significant accounting policies (continued)

Administrative expenses:

Certain expenses of administering the Plan are paid by participants. Other administrative expenses are paid by the Company.

Expense offset arrangements:

Fees incurred by the Plan for investment management services and recordkeeping are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

Payment of benefits:

Benefits are recorded when paid.

Notes receivable from participants:

As described in Note 1, the Plan allows participants to borrow against their vested account balance and the loan is secured by the participant's account balance. Participant loans are valued at their unpaid principal balance plus any accrued but unpaid interest. Participant loans are repaid ratably through regular payroll deductions and loan defaults are treated as distributions.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Subsequent events:

The Plan Administrator has reviewed and evaluated subsequent events through August 12, 2025, the date the financial statements were available to be issued. On May 15, 2025, the Plan received a favorable determination letter to terminate the Plan. The Plan is expected to be fully liquidated by December 31, 2025.

3. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. Investments (information prepared and certified by Fidelity Management Trust Company (the Trustee))

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in these financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Trustee.

The Trustee certified the fair value of investments of \$63,987,513 and \$65,441,125 at December 31, 2024 and 2023, respectively. Notes receivable from participants of \$194,230 and \$416,620 were also certified by the Trustee at December 31, 2024 and 2023, respectively. The interest rates on these receivables ranged between 4.25% to 9.50% at December 31, 2024 and 2023.

For the year ended December 31, 2024, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value in the amount of \$6,419,009, as certified by the Trustee. Dividend and interest income was \$1,881,446 and interest on participant loans was \$20,827 for the year ended December 31, 2024, as certified by the Trustee.

5. Fair value measurements

There are three levels of inputs used to measure fair value. The definition of each input is described below:

Level 1	Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs that are unobservable inputs for the asset or liability.
---------	---

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. Fair value measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the market value of shares held by the Plan at year-end.

Common collective trust funds: Valued at the net asset value (NAV) of the units held by the Plan. The Fund invests in fully benefit-responsive investment contracts that are held at contract value. NAV is determined to be contract value, the value at which participants ordinarily transact. This practical expedient would not be used if it is determined to be probable that the Fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Investments at fair value as of December 31, 2024:

December 31, 2024	Level 1	Total
Mutual funds	\$ 58,931,064	\$ 58,931,064
Common collective trust funds measured at NAV*		5,056,449
Total investments	\$ 58,931,064	\$ 63,987,513

5. Fair value measurements (continued)

Investments at fair value as of December 31, 2023:

December 31, 2023	Level 1	Total
Mutual funds	\$ 58,787,252	\$ 58,787,252
Common collective trust funds measured at NAV*		6,653,873
Total investments	\$ 58,787,252	\$ 65,441,125

*Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2024 and 2023:

Investment	2024	2023	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust funds	\$ 5,056,449	\$ 6,653,873	N/A	Daily	None

6. Party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by the Trustee and, therefore, fees paid to them qualify as party-in-interest transactions. Administrative fees paid by the Plan to the Trustee totaled \$9,099 for the year ended December 31, 2024. Plan consulting fees of \$43,455 for the year ended December 31, 2024 were paid to third party consultants.

7. Tax status

The Company has received a favorable determination letter from the Internal Revenue Service dated June 30, 2020, stating that the Plan is in compliance with the applicable requirements of the Code. Although the Plan has been amended since receipt of the determination letter, the Plan Administrator is not aware of any activity or transactions that may adversely affect the qualified status of the Plan and believes that the Plan is currently being operated in compliance with the applicable requirements of the Code.

8. Reconciliation of financial statements to Form 5500

The Form 5500 has been prepared using the fair value of the underlying investments held by the common collective trust funds, instead of using the NAV as the practical expedient to estimate fair value (see Note 5). The following is a reconciliation of the net assets available for benefits per the financial statements to Schedule H of Form 5500:

December 31,	2024	2023
Net assets available for benefits per the financial statements	\$ 64,181,743	\$ 65,857,745
Difference in common collective trust funds investment	(86,176)	(121,003)
Net assets available for benefits per Form 5500	\$ 64,095,567	\$ 65,736,742

The following is a reconciliation of the net appreciation in fair value of investments per the financial statements to the net appreciation in fair value of investments per Form 5500:

Year ended December 31, 2024	
Net appreciation in fair value of investments per the financial statements	\$ 6,419,009
Change in the difference in common collective trust funds investment	34,827
Net appreciation in fair value of investments per Form 5500	\$ 6,453,836
