Independent Auditors' Report

To the Participants and Plan Administrator of
KI Employee Stock Ownership Plan

Opinion

We have audited the financial statements of KI Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

KI Employee Stock Ownership Plan

Notes to Financial Statements
December 31, 2024 and 2023

1. Description of the Plan

The following description of the KI Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan (ESOP) established by Krueger International, Inc. (KI), which includes the following subsidiaries of KI as adopting employers, KI Trucking, Inc., Spacesaver Corporation, Spacesaver Storage Systems, Inc. and Motus Space Solutions (collectively, the Company), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan covers substantially all employees who have completed twelve consecutive months of service and attained 18 years of age. Participants are eligible to join the Plan on the first day of the month after meeting eligibility requirements.

The Plan's Administrative Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Plan Transfers

The Plan allows eligible participants to diversify out of the Plan by transferring a portion of their investment into the KI 401(k) Savings Plan once a year. During the years ended December 31, 2024 and 2023, \$17,603,890 and \$9,975,839, respectively, was transferred from the Plan into the KI 401(k) Savings Plan.

Contributions

Each year, contributions in the form of cash, Company stock, or a combination thereof, shall be made to the Plan in an amount that is determined by the Company's Board of Directors, up to the maximum amount under Section 404(a)(3) of the IRC. Participants are eligible for an allocation of the Company contribution if they are employed on the last day of the Plan year and worked 1,000 hours during the plan year. Participants who terminate employment as a result of retirement, death or disability are also entitled to the contribution allocation. No employee contributions are permitted in the Plan.

In September 2025, the Company will make a cash contribution of \$12,107,706 for the year ended December 31, 2024. In September 2024, the Company made a cash contribution of \$13,097,928 for the year ended December 31, 2023. These amounts are reflected as employer contribution receivables as of December 31, 2024 and 2023, respectively. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year, with an allocation of current year Company contributions and forfeitures of terminated participants' nonvested accounts. Participant accounts may be charged with an allocation of administrative expenses. Allocations are based on the participant's total compensation, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

KI Employee Stock Ownership Plan

Notes to Financial Statements
December 31, 2024 and 2023

Vesting

Vesting in Company contributions plus actual earnings thereon is based on years of continuous service in accordance with provisions of the Plan as follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

In addition, participants who terminate due to death, disability or attain normal retirement age are considered 100% vested.

Payment of Benefits

Benefits will be paid to a participant upon death, disability, attainment of normal retirement age or diversification. Distributions from the Plan will commence as soon as administratively feasible, as described in the Plan document. Participants may receive the value of the vested interest in their account in the form of a lump-sum distribution or annuity payments. Normal retirement age is 59 1/2.

Forfeited Accounts

As of December 31, 2024 and 2023, there were no forfeited nonvested accounts. Forfeitures are used to offset employer contributions made and allocated to participant accounts. During the years ended December 31, 2024 and 2023, \$623,203 and \$371,593, respectively, were allocated back to the participants in the Plan from forfeited nonvested accounts.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balance.

Diversification of Investments

Participants over 55 years of age and who have at least 10 years of participation in the Plan may annually elect to diversify up to 25% of their Company stock balance by transferring the amount to the KI 401(k) Savings Plan. In their sixth election year only, participants may elect to diversify up to 50% of their Company stock balance.

Voting Rights

The Plan's administrator has the sole responsibility for determining when a corporate matter has arisen that involves the voting of Company stock. GreatBanc Trust Company (GreatBanc) shall vote as directed by the Plan's administrator any allocated shares of Company stock, subject to its fiduciary duties under ERISA. Each participant may be entitled to direct GreatBanc to exercise any voting rights attributable to their allocated shares of Company stock with respect to the approval or disapproval of any corporate merger, consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all of the assets of a trade or business, or such other transactions which may be prescribed by regulation.

Notes to Financial Statements
December 31, 2024 and 2023

Put Option

The Company shall issue a put option to each participant who receives a distribution of Company stock if, at the time of such distribution, the Company stock is not then readily tradable on an established market. The put option shall permit the participant to sell such stock at its current stock value, as determined by an independent appraiser, to the Company after the date the Company stock is distributed to the participant. The Company then has the ability to assign the put option to the Plan. The Company or the Plan, can pay for the purchase with interest over a period of 5 years. Notwithstanding the forgoing, distributions shall not be made in the form of Company stock during an S corporation year if it would cause the Company to fail to constitute a 'small business corporation' within the meaning of section 1361(b)(1) of the IRC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 3 for discussion of fair value measurements.

Shares of the Company stock are valued at estimated fair value as of December 31, 2024 and 2023. Fair value is determined annually by an independent appraiser appointed by GreatBanc, Trustee, who also approves the final fair value of the Company stock. As of December 31, 2024 and 2023, the Plan held 2,386,452 shares of Company stock at a value of \$248.08 and \$208.79 per share, respectively. The cost basis of the Company stock was \$71,827,412 as of December 31, 2024 and 2023.

Company stock shareholder distributions represent distributions made by the Company to the Plan. Distributions received by the Plan are recorded as income on the distribution date. Stock shareholder distributions are generally used to repurchase shares arising from participant distributions.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis, dividends are recorded on the ex-dividend date, and participant distributions are recorded on the distribution date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Recent Regulatory Updates

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodology used as of December 31, 2024 and 2023.

Company stock is valued at the estimated fair value as of the valuation date, as determined by an independent appraiser. This appraisal is based upon a combination of the income and market approaches. The appraiser takes into account current and historical financial information, market comparables, and other information regarding current and historical economic conditions.

4. Related-Party and Party in Interest Transactions

The Plan owns 100% of the outstanding shares of stock of the Company, which are 100% allocated to participants as of December 31, 2024 and 2023. The Company is the Plan's sponsor and, therefore, is a party in interest. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

5. Tax Status

The IRS has determined and informed the Company by a letter dated March 8, 2022, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The Plan invests in Company common stock. Company common stock is exposed to various risks, such as interest rate, market and credit risk. Market risks include global events which could impact the value of investment securities, such as pandemic or international conflict. Due to the level of risk associated with the investment in Company common stock, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2024 and 2023, the Plan had an investment of \$592,031,012 and \$498,267,313, respectively, that was concentrated in Company stock.

7. Administration of Plan Assets

The Plan's assets are administered under a contract with Principal Financial Group (Principal), recordkeeper of the Plan. GreatBanc, Trustee, invests funds received from contributions, investment sales, interest, dividend income, and shareholder distributions and Principal makes distribution payments to participants.

8. Subsequent Events

The Plan has evaluated subsequent events through August 8, 2025, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.
