Independent Auditor's Report

The Plan Trustees and Administrator
TMI Corporation ESOP
Dickinson, North Dakota

Opinion

We have audited the financial statements of TMI Corporation ESOP, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of TMI Corporation ESOP as of December 31, 2024 and 2023, and the changes in its net assets (deficit) available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of TMI Corporation ESOP and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about TMI Corporation ESOP's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of TMI Corporation ESOP's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about TMI Corporation ESOP's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of the TMI Corporation ESOP (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

TMI Corporation, Inc. (the Company) established the Plan effective as of January 1, 2017. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (the ERISA). The Plan is administered by the internally appointed ESOP Trustees.

On June 1, 2019, the Plan purchased TMI Corporation, Inc. common stock using the proceeds of a note (Note 6) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under IRC.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares of the stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

1. Accounts of employees with vested rights in allocated common stock (allocated).
2. Common stock not yet allocated to employees (unallocated).

Eligibility

Employees are eligible to participate in the Plan if they have completed one year of service and are 21 years of age. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service. Participants who do not have at least 1,000 hours of service during such Plan year and are not employed on the last working day of a Plan year are not eligible for an allocation of Company contributions for such year, unless termination is due to the participant reaching normal retirement age, or due to death.

Entry Date

Employees may enter the Plan on the first day of the Plan year retroactively following the date they satisfy the Plan's eligibility requirements.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan. In addition, discretionary contributions to the Plan, if any, are determined by the Board of Directors each year. Discretionary contributions were made to the Plan during the year ended December 31, 2024 in the amount of \$40,032.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation. Plan earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Vesting is based on years of credited services as set forth in the following table for discretionary contributions:

Participant's Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants are 100% vested in their account balances upon retirement, death or disability.

Forfeitures

There was no balance in the forfeited non-vested account as all forfeitures are used in the same year they are forfeited. Forfeited accounts are allocated to eligible participants. During the year ended December 31, 2024, forfeited non-vested accounts of 249.2573 shares and \$189 of cash were allocated to eligible participants. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation.

Payment of Benefits

A participant is entitled to benefits as soon as administratively possible after one of the following events:

1. Retirement, age 65
2. Disability
3. Termination of employment
4. Death
5. Age 70 ½

Distributions for other separations from service commence in the fifth plan year following the separation from service. Distributions are made in cash. The amount to be distributed is based upon the immediately preceding valuation date. Payment will be made in a single lump sum to the extent that the Plan has cash available for distribution. Participant accounts greater than the extent that the Plan has available cash will be paid out in equal installments over no more than 5 years, unless the participant's account is in excess of \$1,380,000, which is adjusted annually under Code Section 415(d), in which case the distribution period can be extended one additional year (not to exceed five additional years) for each \$275,000 or fraction thereof by which the balance exceeds \$1,380,000. Participants with account balances less than \$5,000 may be paid out as soon as administratively feasible without the consent of the Participant. As of December 31, 2024, the Plan was committed to make payments to terminated participants in the amount of approximately \$572,147, based on the current value of the participant's account balance.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution or shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end. During the plan year ended December 31, 2024, no participants were eligible for diversification.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would become 100% vested in their account. Upon termination of the Plan, the Board of Trustees directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale will be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 2 - Significant Accounting Policies and Use of Estimates

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported above and in the statement of changes in net assets (deficit) available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefits payments to participants are recorded when paid.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets (deficit) available for benefits.

Concentration of Credit Risk

The Plan maintains its money market deposit account in various deposit accounts, the balances of which are periodically in excess of federally insured limits.

Subsequent Events

The Plan sponsor has evaluated subsequent events through July 24, 2025, the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan's investments as of December 31, 2024 and 2023, are as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Net Assets				
Plan sponsor common stock				
Number of shares	32,469	48,763	29,163	52,069

Fair value	4,058,666	6,095,375	2,287,866	4,084,810
Money market	9,791	-	9,795	-
Total Investments at Fair Value	<u>\$ 4,068,457</u>	<u>\$ 6,095,375</u>	<u>\$ 2,297,661</u>	<u>\$ 4,084,810</u>

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money Market Deposit Accounts – Valued at carrying value, which approximates fair value, based on the amount of net contributions plus any investment earnings allocated to the account.

Common Stock – The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities, including discounts for lack of marketability.

The following tables set forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Common Stock	\$ -	\$ -	\$ 10,154,041	\$ 10,154,041
Money Market Deposit Account	-	9,791	-	9,791
Total investments at fair value	\$ -	\$ 9,791	\$ 10,154,041	\$ 10,163,832
	2023			
	Level 1	Level 2	Level 3	Total
Common Stock	\$ -	\$ -	\$ 6,372,676	\$ 6,372,676
Money Market Deposit Account	-	9,795	-	9,795
Total investments at fair value	\$ -	\$ 9,795	\$ 6,372,676	\$ 6,382,471

Changes in Fair Value of Level 3 Assets

The table below sets forth a summary of changes in the fair value of the Plan’s Level 3 assets for the year ended December 31, 2024:

	Common Stock
Transfer in	\$ -
Transfers out	-
Purchases	-
Issuance/Distribution of shares	-

Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 16, 2018, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to the issuance of the determination letter, the Plan was amended. However, the Company, Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and, therefore believe the Plan is qualified and the related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Note Payable

On June 1, 2019, the Plan entered into a \$7,000,000 term loan agreement with the Company, to be repaid over a period of 20 years in quarterly installments of \$144,818, including interest. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in approximately 3,306 shares being released and allocated for the Plan year ended December 31, 2024.

The balance due on the note payable as of December 31, 2024 and 2023, was \$5,826,815 and \$6,076,957, respectively. The loan agreement bears interest at 5.5% and provides for the loan to mature in July 2039. The scheduled amortization of the loan for the next five years and thereafter is as follows:

Years Ended December 31,	Amount
2025	\$ 264,186
2026	279,019
2027	294,684
2028	311,229
2029	328,703
Thereafter	4,348,994
	\$ 5,826,815

Interest expense to the Company totaled \$329,132 for the year ended December 31, 2024.

Note 7 - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness with or guaranteed by the Company. These are related party and party-in-interest transactions.

As described in Note 2, the Plan paid certain administrative expenses related to Plan operations to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 8 - Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets (deficit) available for benefits.

Note 9 - Right of First Refusal

Company stock that has been distributed to a participant and not immediately repurchased by the Company or Trust, may be subject to a right of first refusal if so determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and the, if refused by the Company, to the Trust at fair market value as determined by an independent appraiser appointed by the Plan Trustees.
