## Independent Auditor's Report

---

To the Participants and Plan Administrator of  
The Retirement Plan of Rhinebeck Savings Bank

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of The Retirement Plan of Rhinebeck Savings Bank (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C) our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of September 30, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

### *Opinion*

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Other Matter—Supplemental Schedules Required by ERISA**

The supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended September 30, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## 1. Description of the Plan

The following description of The Retirement Plan of Rhinebeck Savings Bank (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

### General

The Plan is a non-contributory, defined benefit pension plan covering a portion of employees of Rhinebeck Savings Bank (the "Bank"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employees were eligible to participate in the Plan on the first day of the calendar month subsequent to the participants' attainment of age 21 and completion of 1,000 hours of service within a consecutive 12-month period.

The Compensation Committee of the Board of Directors of Rhinebeck Bank (the "Board") has overall responsibility for the operation and administration of the Plan. It also determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports periodically to the Board.

Effective June 30, 2012, the Bank elected to freeze the Plan to new participants and the years of service accrual for all participants.

### Funding Policy

The Plan's funding policy is for the Bank to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2024 and 2023.

Although it has not expressed any intention to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

### Pension Benefits

The Plan provides monthly retirement benefits to participants who have attained age 65 and five consecutive years of plan participation. An election to retire prior to the normal retirement age is available to participants who have attained age 60 and completed 30 years or more of credited service, as defined in the Plan document. The normal retirement benefit is calculated based on 2% of the participant's average annual earnings, multiplied by years, and any fraction thereof, of credited service, up to a maximum of 30 years, with reductions for various items as stated in the plan document. Participants may elect to have benefits paid in the form of a lump sum payment by selecting this payment option when applying for benefits. This election and spousal consent, if applicable, must be made during the 90-day period before benefit payments commence. Also, if the present value of a participant's balance is less than \$1,000, the present value of the benefit will automatically be distributed to the participant.

If participants terminate before rendering five years of service, they forfeit the right to receive their accumulated plan benefits.

## Death and Disability Benefits

If a vested participant dies before starting to receive benefits from the Plan, a monthly death benefit will be payable to the participant's spouse provided that the participant and surviving spouse were married for at least one year and which marriage had not been dissolved by formal divorce proceeding at time of the participant's death. If there is no such surviving spouse at the time of the participant's death, the monthly benefit shall be divided equally among, and paid to, eligible children as defined in the plan document.

Disability benefits are provided to a participant who has a physical or mental condition for which the participant shall be eligible to receive benefits under the disability insurance provisions of the Social Security Act and, in the opinion of the employee benefits committee, as defined in the plan document. Participants are eligible for disability benefits the first day of the month coincident with or next following the date on which an active or inactive participant is deemed to incur a disability, provided 10 years of service has been completed.

## 2. Summary of Significant Accounting Policies

### Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

### Payment of Benefits

Benefit payments to participants are recorded upon distribution.

### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Compensation Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

See independent auditor's report.

## Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and years of credited service. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of October 1, 2023 is as follows:

Vested benefits:	
Participants in pay status	\$ 7,246,880
Participants not in pay status	9,445,341
Total vested benefits	<u>16,692,221</u>
Non-vested benefits	<u>-</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 16,692,221</u>

The changes in the actuarial present value of the accumulated plan benefits for the year ended September 30, 2023 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	<u>\$ 16,423,436</u>
Increase (decrease) during the year attributable to:	
Accumulation of benefits, including experience gains and losses	80,084
Change in average discount period	884,413
Benefits paid	<u>(695,712)</u>
Net increase	<u>268,785</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 16,692,221</u>

See independent auditor's report.

# The Retirement Plan of Rhinebeck Savings Bank

---

Notes to Financial Statements  
September 30, 2024 and 2023

The actuarial present value of accumulated plan benefits has been presented as of the beginning of the plan year (October 1, 2023), in accordance with ASC 960-20-45-1(c). As such, accompanying statements presenting the net assets available for benefits as of that date and the changes therein for the year ended September 30, 2023 are also included, consistent with ASC 960-205-45-3 and 45-4.

Significant assumptions underlying the actuarial computations are as follows:

- a) Mortality – Based on Pri-2012 total dataset mortality table projected generationally using MP-2021. In the prior year, the Plan had used the Pri-2012 total dataset mortality table with projection scale MP-2021.
- b) Retirement age - age 65
- c) Discount rate – 5.50% at October 1, 2024, from 6.00% and 5.75% at October 1, 2023 and 2022, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial methods and assumptions used in this valuation are the same as those used in the prior valuation except as follows:

- The statutory segment interest rates for determining minimum funding requirements and potential benefit restrictions and the Maximum Deductible Contribution were updated as prescribed by law.

## Administrative Expenses

The Plan's expenses are paid either by the Plan or the Bank, as provided by the plan document. Expenses that are paid directly by the Bank are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in the net appreciation in fair value of investments presented in the statement of changes in net assets available for benefits.

See independent auditor's report.

## 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	<b>Assets at Fair Value as of September 30, 2024</b>			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Pooled separate accounts	<u>\$ 19,033,165</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 19,033,165</u>
	<b>Assets at Fair Value as of September 30, 2023</b>			
Pooled separate accounts	<u>\$ 16,501,051</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 16,501,051</u>

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2024 and 2023.

See independent auditor's report.

# The Retirement Plan of Rhinebeck Savings Bank

---

Notes to Financial Statements  
September 30, 2024 and 2023

The pooled separate accounts are valued at the net asset per unit based on either the observable net asset value of the underlying investment or the net asset value of the underlying pool of securities, which is a readily determinable fair value. Net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding.

## 4. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

## 5. Related Party and Party In Interest Transactions

The Plan's investments are currently administered under a contract with Principal Life Insurance Company ("Principal"). Contributions are held and managed by Principal, who invests cash received, interest, and dividend income and makes distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transaction rules of ERISA.

Administrative expenses of Principal are generally paid by the Bank. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Bank. No such officer or employee receives compensation from the Plan.

See independent auditor's report.

Notes to Financial Statements  
September 30, 2024 and 2023

## 6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Bank by a letter dated May 18, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. Under Principal, the Plan is covered under their Defined Benefit Volume Submitter Plan, which was effective October 1, 2019. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## 7. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan's investments are exposed to other various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

As of September 30, 2024 and 2023, the Plan had investments of \$16,713,447 and \$14,681,874, respectively, that were concentrated in three funds.

## 8. Information Certified by Trustees

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, has certified to the completeness and accuracy of all investments reported in the accompanying statement of net assets available for benefits as of September 30, 2024 and 2023, the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of September 30, 2024, the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended September 30, 2024, and the related investment activity reported in the statements of changes in net assets available for benefits for the years ended September 30, 2024 and 2023.

## 9. Subsequent Events

There were no subsequent events which required disclosure as of July 9, 2025, the date the financial statements were available to be issued.

See independent auditor's report.

Assumptions prescribed by law

**Mortality**

**Before benefit payment period**  
 IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

**During benefit payment period**  
 IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

**Inflation** 2.40% increase per year.  
 Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

**Asset return** 6.00% for the current plan year.  
 The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

**Expected expense** The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.

**Retirement** Active participants

Age	Probability of retirement	Age	Probability of retirement
50-55	4.0%	61	10.0%
56	4.5%	62	15.0%
57	5.0%	63	20.0%
58	6.0%	64	30.0%
59	7.0%	65	remaining participants
60	8.0%		

Inactive participants are assumed to retire at age 65.

This assumption is based on the results of recent experience analysis and anticipated future experience.

**Disability** None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.

**Marriage** 80% married; husbands are 3 years older than wives.  
 This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

### Withdrawal

Table 3 from the Actuary's Pension Handbook  
Selected rates of withdrawal are shown below:

Age	Rate of withdrawal	Age	Rate of withdrawal
20	6.58%	40	3.85%
25	5.27%	45	3.23%
30	4.84%	50	1.53%
35	4.48%	55	0.34%

The rates seem reasonable and fairly in line with recent and expected plan experience.

### Form of benefit

Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

This assumption is based on the results of recent experience analysis and anticipated future experience.

### Methods prescribed by law

#### Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

#### Benefit accrual

All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.

The portion based on the plan's definition of accrued benefit.

The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.

The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 10/01/2022 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.58%	5.66%	5.56%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

### Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality** Based on Pri-2012 Total dataset base rate mortality table projected generationally using MP-2021.

#### Mortality base rates

##### Before benefit payment period

Employee amount-weighted, male and female

##### During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

#### Mortality improvement

MP-2021 is the most recent improvement scale published by the SOA in October 2021.

In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

#### Interest rate used to value liabilities

5.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 08/23/2011 including the amendment signed 03/08/2024.

#### Plan eligibility

Age	Attained age 21.
Service	One year of service in which at least 1,000 hours worked. The plan is closed to new participants as of 06/30/2012.

#### Normal retirement benefit

Age	Attained age 65.
Service	Five years of participation service.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	2.00% of average compensation multiplied by years of benefit service up to 30 years. Benefit accrual is frozen as of 06/30/2012.

#### Early retirement benefit

Age & service	Attained age 60 with five years of benefit service or 30 years of benefit service, or age plus vesting service is greater than 75.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 0.4166% for each month that the early retirement date precedes normal retirement date.

#### Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

#### Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

#### Disability benefit

Eligibility	Eligible to receive benefits under the disability insurance provisions of the Social Security Act.
Service	10 years of vesting service.
Form	Same as normal retirement benefit.
Amount	Actuarial equivalent of accrued benefit on disability retirement date.

#### Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day. If the participant died after attaining age 60 or if the age plus vesting service is greater than 65, the assumed benefit form is a qualified joint and 100% survivor annuity.

## Definitions

<a href="#">Average compensation</a>	Total compensation for the 36 calendar months out of the last 120 for which compensation was highest divided by 3.
<a href="#">Benefit service</a>	Elapsed time from date of participation. If hired after age 25, one additional year of service is included prior to the date of participation.
<a href="#">Optional forms of benefit payments</a>	<p>The optional forms of benefit payments are:</p> <ul style="list-style-type: none"><li>• Monthly annuity payable for life, or 5, 10, or 15 years certain and life.</li><li>• Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.</li></ul> <p>The optional form conversion basis is 7.5% interest and the 1979 George B. Buck Mortality Table for payments other than lump sums.</p> <p><a href="#">Lump sum provisions</a></p> <p>Small amount force out (SAFO) – allowed up to \$7,000.</p> <p>Lump sums in excess of SAFO - aren't allowed.</p> <p>Conversion – deferred rate based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.</p>

## Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

## Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 24 – Change in Actuarial Assumptions  
The Retirement Plan of Rhinebeck Bank  
EIN 14-1002430 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 5.75% to 6.00%. This rate is used in the calculation of the actuarial value of plan assets.
