To the Plan Administrator  
ISYS Technologies 401(k) Plan

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the accompanying financial statements of ISYS Technologies 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Independent Auditor's Report**

---

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

## **Independent Auditor's Report**

---

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Note 1 - Plan Description

The following description of ISYS Technologies 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

#### General

The Plan is a defined contribution plan covering all eligible employees of ISYS Inc. d/b/a ISYS Technologies (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The trustee of the Plan, who is an officer of the Company, and the Company as the plan administrator, are responsible for the oversight of the Plan. The Plan's retirement committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the trustees.

On December 29, 2022, the Securing a Strong Retirement Act of 2022 (SECURE 2.0 Act) was signed into law. The SECURE 2.0 Act introduces numerous provisions intended to improve retirement savings opportunities and administration for retirement plans. There are both optional and required provisions as a result of the Act which become effective at various dates through 2028. As of December 31, 2024, the Plan Sponsor has evaluated the provisions of the SECURE 2.0 Act and the key provisions the Plan has adopted or intends to adopt are outlined below:

Required Minimum Distributions - Effective January 1, 2023, the Plan adopted the required minimum distribution age of 73

Mandatory Distribution Threshold - Effective January 1, 2024, the Plan increased the mandatory distribution threshold to \$7,000.

Catch-Up Contributions - Effective January 1, 2025, participants aged 60 to 63 may be eligible to make higher catch-up contributions.

The Plan Sponsor is working with its Plan partners and advisors to ensure timely compliance with relevant SECURE 2.0 Act provisions as they become effective. The impact on the Plan's financial position, changes in net assets, and plan operations is not expected to be material as of the date of this report.

#### Eligibility

The Plan covers all employees who are 18 years of age and older. There is no minimum service requirement to participate in elective deferrals and the entry date is the first day of each month. To participate in the safe harbor match, the employee must complete one year of service and work at least 1,000 during the year. The entry date for the safe harbor match is the first pay period following meeting eligibility requirements. Employees covered by a collective bargaining agreement, leased employees, and non-resident aliens are excluded from the Plan.

### Note 1 - Plan Description (continued)

#### Contributions

Each year, participants may contribute a percentage of pretax and after-tax annual compensation, as defined by the Plan. Deferral and after-tax Roth contributions shall not exceed certain limits set forth by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company makes safe harbor matching contributions not to exceed 100% of the first 4% of employee contributions.

#### Participant Accounts

Each participant's account is credited with the participant's contributions, the Company safe harbor matching contribution and allocations of Plan earnings (losses) and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of their account to any of the investment options available under the Plan.

#### Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and a fully benefit responsive investment contract as investment options for participants. Participants may change their investment options at any time.

#### Vesting

Participants are immediately vested in their elective deferrals, rollover contributions and Company safe harbor matching and qualified non-elective contributions.

#### Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000, or the lesser of 1) 50% of their vested account balance, or 2) \$50,000. Note terms range from one to five years, or up to 30 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate. A note will carry the same rate of interest throughout its term. Principal and interest are paid through payroll deductions.

### Note 1 - Plan Description (continued)

#### Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan also allows for in-service distributions upon attaining the age 59 1/2. Benefits will be paid as soon as administratively feasible following the date on which a distribution is requested or otherwise payable. Hardship withdrawals are available if the participant meets certain criteria.

### Note 2 - Significant Accounting Policies

#### Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

#### Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

#### Investment Valuation and Income Recognition

Investments are reported at fair value, except for the Plan's fully benefit-responsive investment contract which is carried at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to a fully benefit-responsive investment contract because contract value is the amount participants would normally receive if they were to initiate permitted investment transactions under the terms of the Plan. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net change in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

## Notes to the Financial Statements

---

### Note 2 - Significant Accounting Policies (continued)

#### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. Delinquent participant notes receivable are reclassified as benefits paid to participants based upon the terms of the Plan's participant loan policy.

#### Payment of Benefits

Benefits are recorded when paid.

#### Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net change in fair value of investments.

#### Subsequent Events

Subsequent events have been evaluated through August 3, 2025, which is the date the financial statements were available to be issued. Plan management has not identified any material subsequent events that require reporting or disclosure.

### Note 3 - Information Prepared and Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company ("Voya"), the custodian of the Plan, has certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023.
- Interest and dividends, interest on the guaranteed investment contract, net change in fair value of investments and interest on notes receivable from participants as shown in the Statements of Changes in Net Assets Available for Benefits.
- The schedule of assets held at end of year included as supplemental information.

This information has not been audited by the Plan's independent auditors.

### Note 4 - Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level; Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1); and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 2 or Level 3 inputs for the periods presented.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2024 and 2023.

**Pooled Separate Accounts:** Pooled separate accounts are invested primarily in mutual funds and are valued at the daily closing price as reported by the fund and have Level 1 inputs and are considered to be actively traded.

# ISYS Technologies 401(k) Plan

## Notes to the Financial Statements

### Note 4 - Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

| <i>December 31, 2024</i> | Level 1       | Level 2 | Level 3 | Total         |
|--------------------------|---------------|---------|---------|---------------|
| Pooled Separate Accounts | \$ 11,890,803 | \$ -    | \$ -    | \$ 11,890,803 |

| <i>December 31, 2023</i> | Level 1      | Level 2 | Level 3 | Total        |
|--------------------------|--------------|---------|---------|--------------|
| Pooled Separate Accounts | \$ 9,548,454 | \$ -    | \$ -    | \$ 9,548,454 |

### Note 5 - Fully Benefit Responsive Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract with Voya. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The investment contract held by the Plan is a traditional guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Voya. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with the Plan participants is not probable.

## Notes to the Financial Statements

### **Note 6 - Party-in-Interest Transactions**

Certain plan investments are managed by Voya. Voya is the custodian and recordkeeper and Ascensus provides third party administration services including preparing the Form 5500 and performing compliance testing. Olson, Reyes & Sauerwein performs the annual audit of the Plan. Transactions with these companies qualify as party-in-interest transactions. For the year ended December 31, 2024, the Plan made direct payments totaling \$20,083 to service providers, which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations. Certain investment-related fees incurred by the Plan are included in investment income (loss), since they are paid through revenue sharing rather than by direct payment. In addition, the Plan also issues loans to participants which are secured by the vested balance of the participants' accounts. Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

### **Note 7 - Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

### **Note 8 - Tax Status**

The Plan utilizes a volume-submitter plan which obtained a favorable determination letter from the IRS dated June 30, 2020, stating that the volume-submitter plan is qualified under the applicable sections of the IRC. The plan administrator and Company management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, management believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

### **Note 9 - Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
