For the Year Ended December 31, 2024**

## **INDEPENDENT AUDITORS' REPORT**

To the Trustee and Participants of the  
Boston Barricade Holdings, Inc. Employee Stock Ownership Plan:

### **Opinion**

We have audited the accompanying financial statements of the Boston Barricade Holdings, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

## **Supplemental Schedule Required by ERISA**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

### **1. DESCRIPTION OF THE PLAN**

The following brief description of the Boston Barricade Holdings, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

#### **General**

On July 15, 2019, Boston Barricade Holdings, Inc. (the Company) established the Plan effective as of that date. The Plan operates as a leveraged employee stock ownership plan (ESOP), which includes a qualified cash or deferred arrangement and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Advisory Committee (the Committee) consisting of employees of the Company, which includes the trustee of the Plan (the Trustee). The Plan was most recently amended effective January 1, 2024 to allow for quarterly entry dates for eligible employees.

In 2019, the Plan purchased 1,000,000 shares of common stock from existing shareholders of the Company totaling \$400,000 through a note payable to the Company (Note 5) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible participant accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock of the Company. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately, the assets and liabilities and changes therein pertaining to:

- a. The accounts of participants with vested rights in allocated common stock (allocated), and
- b. Common stock not yet allocated to participants (unallocated).

#### **Eligibility**

The Plan covers substantially all employees of the Company. In order to participate in the Plan, an eligible employee must have attained the age of 18 and completed at least 1,000 hours of service during 12 consecutive months. Prior to January 1, 2024, eligible employees became participants effective as of the earlier of the first day of the Plan year or the first day of the seventh month of such Plan year coinciding with or next following the date such employee met the eligibility requirements. Effective January 1, 2024, eligible employees will become participants effective as of the first day of the earliest to occur of the first, fourth, seventh or tenth month of such Plan year coinciding with or next following the date such employee met the eligibility requirements. Certain employees are ineligible to participate in the Plan including employees of affiliated employers, unless such affiliated employers have specifically adopted this Plan in writing, independent contractors, individuals who are not reported on the payroll records of the Company as common law employees, leased employees (within the meaning of IRS code 414(n)(2) and 414(o)(2)), employees whose employment is governed by the terms of a collective bargaining agreement, and employees who are nonresident aliens (within the meaning of IRS code 7701(b)(1)(B)) and who received no earned income (as

defined by IRS code 911(d)(2)) from the Company which constitutes United States source income as defined by IRS code 861(a)(3).

#### **Contributions**

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan’s dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan. As of December 31, 2024 and 2023, an aggregate of 384,155 and 338,290 shares, respectively, have been released and allocated to the participants due to repayment of debt, respectively. Participants are not required or permitted to make contributions to the Plan.

#### **Participant Accounts**

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a system of allocation points, as defined in the Plan document. In any given Plan year, a participant is credited one allocation point for each full year of service and one allocation point for every \$1,000 of compensation earned during the Plan Year. Plan earnings are allocated to each participant's account based on the ratio of each participant’s allocation points to the total allocation points of all participants’ eligible allocation points during a given Plan year.

Allocation of dividends and distributions under IRC Section 1368(a) on S-Corporation stock are allocated based on the total number of shares in the participant’s stock account to the total shares of all participants’ Company common stock sharing in the cash dividend or distribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

#### **Allocations**

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”) and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

#### **Vesting**

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service after 2 years and are 100% vested after 6 years of service. Effective upon Plan termination, all active participants become 100% vested. If a partial Plan

termination were to occur, all active participants who left the Company, for any reason, during the Plan year become 100% vested.

#### **Forfeited Accounts**

Forfeitures of terminated participants’ non-vested accounts may be (a) allocated on a pro-rata basis to participants who had compensation deferrals during the Plan year or (b) used to pay Plan expenses, for the Plan year in which the forfeiture occurs. Expense allocations are based on participant earnings, account balances, or specific transactions as defined. Forfeitures allocated to participants totaled \$5,132 during the year ended December 31, 2024.

#### **Payment of Benefits**

Participants are eligible for retirement benefits upon the latter of attaining the age of 65, the participant’s 10<sup>th</sup> anniversary of participation in the Plan, or the date the participant terminates their service with the Company. Participants who terminate due to death or disability are fully vested in the Plan. Distributions of a participant’s account may occur at the participant’s or participant’s beneficiary’s discretion. Effective January 1, 2023, if a participant’s vested benefits are below \$1,000, the benefits will be distributed in a lump-sum payment. If a participant’s vested benefits are above \$5,000, the benefits will be paid in installments over a period that shall not extend beyond the earlier of the participant’s life expectancy or a period of five years. If the participants vested account balance is more than \$1,000 and less than \$5,000, and the participant or the participant’s beneficiary does not elect to have the distribution paid to an eligible retirement plan specified by the participant, then the Plan administrator will pay the distribution in a single lump sum direct rollover to an individual retirement account designated by the administrator. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash, Company stock, or both. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan, if the shares are not publicly traded or if the shares are subject to trading limitations.

#### **Voting Rights**

The Trustee receives instructions from the Committee, and all Company stock held by the Trust is voted by the Trustee in accordance with instructions from the Committee. Participants are entitled to exercise voting rights attributable to the shares allocated to his or her account for any vote required for the approval or disapproval of any proposed merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the assets of the business. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

#### **Put Option**

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The

put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase either with a single payment or over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### **Plan Expenses**

As provided in the Plan agreement, the Committee may direct the Trustee to pay from the Trust all fees and expenses incurred by this Plan, unless the Company pays the fees and expenses. The Company paid the majority of the operating expenses for the Plan during 2024.

#### **Basis of Accounting**

The financial statements of the Plan are prepared using the accrual method of accounting.

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets available for benefits and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Specifically, the Boston Barricade Holdings, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal based on an income approach (Note 4). Because of the inherent uncertainties in estimating the fair value, it is reasonably possible that the estimates used will change within the near term and such changes may be material.

#### **Risks and Uncertainties**

The Plan investments consist primarily of the Company’s common stock, which is exposed to various risks, such as interest rate, market, and credit risk, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

#### **Investment Valuation and Income Recognition**

The shares of Company common stock are valued at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are

### 4. FAIR VALUE MEASUREMENT

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Level 3 inputs are only used when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value.

*Interest in Company common stock:* Valued on an annual basis by a third party valuation performed by independent corporate financial analysts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date.

### 4. FAIR VALUE MEASUREMENT – cont’d.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Interest in Company common stock	\$ -	\$ -	\$ 2,370,000	\$ 2,370,000
Total investments, at fair value	\$ -	\$ -	\$ 2,370,000	\$ 2,370,000

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Interest in Company common stock	\$ -	\$ -	\$ 5,150,000	\$ 5,150,000
Total investments, at fair value	\$ -	\$ -	\$ 5,150,000	\$ 5,150,000

The following table sets forth a summary of changes in the fair value of the Plan’s Level 3 assets for the year ended December 31, 2024:

Balance, beginning of year	\$ 5,150,000
Net depreciation in fair value of Company common stock	(2,780,000)
Balance, end of year	\$ 2,370,000

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the period above are reported in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

The Boston Barricade Holdings, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon the income approach which is consistent with the transaction valuation.

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a preliminary report that Plan management, along with the Trustee, reviews in detail, discusses, and approves.

### 5. NOTE PAYABLE TO THE COMPANY

During 2019, the Plan entered into a \$400,000 term loan agreement with the Company (the Term Loan). The proceeds of the Term Loan were used to purchase 1,000,000 shares of the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. As the debt is repaid, shares are released from collateral based on the proportion of debt service paid during the year to total remaining debt service (principal only). This resulted in 45,865 shares being released and allocated for the Plan year ended December 31, 2024.

The agreement provides for the loan to be repaid over 22 years. The effective rate of interest is 2.50% and related interest expense totaled \$6,700 for the Plan year ended December 31, 2024. The balance of the note payable was \$252,000 and \$268,000 as of December 31, 2024 and 2023, respectively.

The following is a schedule of future principal payments for the fiscal years ending December 31,:

2025	\$	16,000
2026		16,000
2027		16,000
2028		16,000
2029		16,000
Thereafter		<u>172,000</u>
Total	\$	<u>252,000</u>

### 6. TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan invests in Company common stock. Certain accounting and administrative functions of the Plan are performed by employees of the Company at no cost to the Plan. As described in Note 2, the Company paid all Plan expenses during the year ended December 31, 2024. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

### 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. In the event of a Plan termination, the Trustee will pay all liabilities and expenses of the trust fund and sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan, when applicable.

### **8. TAX STATUS**

The Plan received its latest determination letter from the IRS dated May 18, 2020 which stated the Plan was in compliance with the applicable requirements of the code. The Plan has been amended since receiving the favorable opinion letter; however, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ASC 740, *Income Taxes*, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Given the Plan is tax exempt and has no unrelated business income, the provisions of ASC 740 do not have an impact on the Plan's financial statements. The Plan recognizes interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts relating to interest and penalties as of December 31, 2024 and 2023.

The Plan is subject to routine audits by the IRS and Department of Labor; however, there are currently no audits for any tax periods in progress.
