INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee and Participants of
The Compass Systems, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C)

We have performed audits of the accompanying financial statements of Compass Systems, Inc. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Compass Systems, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section-

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis of Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Compass Systems, Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Compass Systems, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining. On a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Compass Systems, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Compass Systems, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion -

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Compass Systems, Inc. 401(k) Plan provides only general information. Participants should refer to the Plan agreement for the complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Compass Systems, Inc. The Plan was established January 1, 2004 and has been amended from time.

All full-time and part-time employees, age 21 and older, excluding leased employees and consultants, are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan Assets

The Plan is administered under a service agreement with Principal Financial Group (the Trustee).

Contributions

Participants may contribute up to 75% of their compensation and may separately elect to contribute 75% of any bonuses paid to the extent that their contributions comply with Internal Revenue Code (IRC) limitations. These contributions are not subject to Federal income taxes until withdrawn, in accordance with section 401(k) of the IRC. Catch-up contributions are also permitted for participants who reach 50 years of age by the end of the year.

The Plan provides for Company matching contributions. The contribution is at the Company's discretion. The Company's matching contribution is based on the amount and rate of salary-deferral contributions. The company matches 50% up to 3% of pay in 2024 and 2023.

The Plan also allows participants to make rollover contributions from other tax qualified plans, which will always be fully vested. Rollover contributions are included in the accompanying financial statements as a component of participant contributions.

Participants direct the investment of their contributions, Company matching contributions, and Company discretionary contributions into various investment options offered by the Plan.

Participants Accounts

A separate account is maintained for each investment option of a participant by type of contribution. Each participant's account is credited with the participant's salary-deferral contributions, rollovers, employer matching contributions, and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements**

1. Description of Plan (Continued)

Vesting

Participants are immediately vested in their salary-deferral contributions, rollovers, and employer matching contributions plus actual earnings thereon.

Payment of Benefits

On termination of service or retirement, a participant may elect to receive payment of their account balance in a lump sum amount from the trust fund. However, if the value of the vested balance is less than \$1,000, a lump-sum distribution will be made regardless of whether participant elected to receive it. In the event that a participant dies before retirement, the participant's beneficiary will receive periodic payments over the life of the beneficiary. Under a special rule, participants may elect to waive the annuity form of distribution. Alternative forms of distribution are single lump-sum payment in cash, installments over a period of not more than the assumed life expectancy of beneficiary or the purchase of a different form of annuity. Participants qualifying for hardship withdrawal may receive portion of their contributions, plus investment returns earned thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25%-9.5% which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Plan Termination

Although it has not expressed any intentions to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provision set forth in ERISA.

Forfeited Accounts

At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$243 and \$301, respectively. These accounts will be used to reduce future employer contributions. Also, in 2024, employer contributions were reduced by \$0 from forfeited nonvested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and, if any, disclosure of contingent assets and liabilities. Such estimates include those regarding fair value. Actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Excess Contributions Payable

The plan had excess contributions of \$979 and \$8,683 for 2024 and 2023, respectively. These amounts are recorded as liabilities and were paid in the following year.

Payment of Benefits

Benefits are recorded when paid.

**Compass Systems, Inc. 401(k) plan
Notes to Financial Statements**

2. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investment. During the years ended December 31, 2024 and 2023, administrative expenses totaled \$55,049 and \$54,314 respectively.

Date of Management's Review of Subsequent Events

The Plan has evaluated subsequent events through August 12, 2025, the date the financial statements were available to be issued.

3. Tax Status

The Company adopted a Prototype non-standardized Profit-Sharing Plan (Prototype Plan), which received a favorable opinion letter from the Internal Revenue Service (IRS) on June 20, 2002. The letter stated that the Prototype Plan is designed in accordance with applicable standards on the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements. Therefore, earnings on contributions to the Plan are not subject to tax under present income tax laws and contributions to the Plan are not subject to Federal income tax to the employees until distribution from the Plan. Management believes that amendments adopted since receipts of the determination letter do not affect the tax status of the Plan.

The Plan's trustees have determined that no uncertain tax positions exist at December 31, 2024 which require disclosure in accordance with Accounting Standards Codification 740-10.

Federal tax returns could be subject to audit by taxing authorities, generally for three years after filing; hence the Plan's tax returns for the years 2020 and onward remain open to examination.

**Compass Systems, Inc. 401(k) plan
Notes to Financial Statements**

4. Financial Information Certified by the Trustee

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following items in the accompanying financial statements are completed and accurate: investment balances at December 31, 2024 interest and dividends and net appreciation in fair value of mutual funds for the year ended December 31, 2024 and all related financial information provided in the notes and supplemental schedule.

5. Fair Value Measurements

In May 2017, the FASB issued ASU 2017-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 16, 2017. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 16, 2017. Early adoption is permitted. Management elected to early adopt the provision of this new standard.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-ended mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

**Compass Systems, Inc. 401(k) plan
Notes to Financial Statements**

Level 2 Fair Value Measurements

The fair value of corporate bonds and U.S. government securities are calculated using a market approach on yields currently available on comparable securities of issuers with similar credit ratings. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. The fair value of the certificates of deposit is based on amortized cost or original cost plus accrued interest.

5. Fair Value Measurements (Continued)

The following tables set for, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023.

6. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by The Principal Financial Group. Principal is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**Compass Systems, Inc. 401(k) plan
Notes to Financial Statements**

8. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	December 31,	
	2024	2023
Net assets available for benefits per the financial statements	\$ 9,891,182	\$ 8,767,953
Excess contribution payable other fair value adjustments	<u><5,848></u>	<u>8,683</u>
Net assets available for benefits per Schedule H to the Form 5500	<u>\$ 9,885,334</u>	<u>\$ 8,776,636</u>

9. Investment Contract with Insurance Company

In 2012, the Plan entered into a benefit-responsive group annuity contract (PFIO) with The Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charges for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2024 and 2023 were \$1,080,698 and \$965,343, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and is reset on a semiannual basis. Such interest rates are reviewed on a quarterly basis for resetting.

**Compass Systems, Inc. 401(k) plan
Notes to Financial Statements**

9. Investment Contract with Insurance Company (Continued)

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probably of occurring.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the schedule maturity date.

Changes in future interest crediting rates will not affect the amount reported on the statement of net assets available for benefits representing the adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value as fair value is considered book value less early withdrawal charge.

The interest rate history summarized above is prior to any plan-level recordkeeping expenses being deducted. Any difference between the above summarized interest rates and the actual earned crediting rates for each plan participant would be due to the Rate Level Service Fee. The Rate Level Service Fee is a direct offset to the interest rates summarized above. Please see Article II of the Service Agreement for information regarding the Rate Level Service Fee.

10. Subsequent Event

Management has adopted ASC 855, subsequent events (formerly SFAS No. 165) effective for interim and annual periods ending after June 16, 2017. Management has evaluated events occurring after the date of the Statements of Net Assets Available for Plan Benefits through August 12, 2025 and determined that no material transactions have occurred that would impair the financial position or results of operations as of December 31, 2024.
