Report of Independent Auditors

To the Participants and Trustees of
United Food and Commercial
Workers Pension Plan for Salaried Staff

Opinion

We have audited the financial statements of United Food and Commercial Workers Pension Plan for Salaried Staff (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of November 30, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of United Food and Commercial Workers Pension Plan for Salaried Staff as of November 30, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of November 30, 2023, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 11, subsequent to year end, the Plan sponsor approved termination of the Plan and developed a plan of liquidation, under which the Plan will purchase annuities to settle the remaining liabilities associated with the Plan's accumulated benefits. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of Management for the Financial Statements (continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed;
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements; and
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

United Food and Commercial Workers Pension Plan for Salaried Staff

Notes to Financial Statements

November 30, 2024 and 2023

Note 1. Summary of Significant Accounting Policies

Method of Accounting - The accompanying financial statements of United Food and Commercial Workers Pension Plan for Salaried Staff (the Plan) have been prepared using the accrual basis of accounting.

Investments - The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell that asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date (the exit price). Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Purchases and sales of the investments are reflected on a trade-date basis.

Dividend income is recorded on the ex dividend date. Interest income is recorded on the accrual basis.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service which employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Expenses - Certain investment related expenses are included in net appreciation in fair value of investments.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Subsequent Events - Subsequent events have been evaluated through June 24, 2025, which is the date the financial statements were available to be issued.

Note 2. Description of the Plan

The Plan was established to provide retirement benefits for eligible salaried employees of United Food and Commercial Workers Unions and Employers Midwest Health Benefits Fund (the Plan Sponsor). The Plan is a defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pursuant to the transition of the Plan Sponsor's operations to a third-party administrator during the year ended November 30, 2018, active participation in the Plan ceased, and the Plan Sponsor elected to freeze the Plan wherein no additional benefits were accrued thereafter. However, all participants became fully vested with the Plan. Benefits will continue to be paid based upon the number of service credits earned through the freeze date of August 1, 2018. Additionally, the Plan Sponsor will continue to contribute such amounts as required under accepted actuarial principles to meet the minimum funding standards of ERISA.

Prior to the Plan being frozen, participants were eligible to participate as of the earliest December 1 or June 1 following the date they earned at least 400 hours of covered employment.

Participants are eligible for a normal pension upon attaining age 60. A normal pension is based on the participant's average monthly compensation multiplied by a maximum of 20 years of credited service, plus 2% of the participant's average monthly compensation multiplied by the years of credited service in excess of 20 years, up to a maximum of 15 years. The Plan also contains provisions for early retirement benefits and benefits for surviving spouses.

Effective July 1, 2009, no further increases in salary were considered in determining the participant's average monthly compensation in calculating the monthly benefit amount. For participants who had no months of covered employment prior to July 1, 2009, or who changed positions after July 1, 2009, compensation for any month represents the lesser of the participant's actual compensation or their monthly compensation as of July 1, 2009, but not greater than the compensation as of July 1, 2009 for the highest paying position worked that month.

Participants should refer to the summary plan description for more complete information.

Note 3. Priorities upon Termination

The right to discontinue the Plan is reserved to the Plan sponsor. Termination shall not permit any part of the Plan assets to be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations. Whether or not a particular participant will receive full benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at that time and the priority of those benefits.

Note 3. Priorities upon Termination (continued)

In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of plan amendments in effect for less than five years. Some benefits may be fully or partially provided for while other benefits may not be provided at all.

As described in Note 11, subsequent to year end, the Plan sponsor approved termination of the Plan and developed a plan of liquidation expected to be completed in 2025.

Note 4. Actuarial Information

An actuarial valuation of the Plan was made by The Segal Company as of November 30, 2023. Information in the report included the following:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$ 14,306,341
Other participants	<u>1,158,831</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 15,465,172</u>

As reported by the actuary, the changes in the actuarial present value of accumulated plan benefits during the year ended November 30, 2023 were as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 16,135,801
Increase (decrease) during the year attributable to:	
Benefits accumulated and net gains and losses	\$ (85,691)
Interest	863,084
Benefits paid	(1,335,858)
Change in actuarial assumptions	<u>(112,164)</u>
Net (decrease)	<u>(670,629)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 15,465,172</u>

Note 4. Actuarial Information (continued)

The actuarial valuation for the Plan was made using the unit credit actuarial cost method. Some of the significant actuarial assumptions used in the valuation are as follows:

- Mortality - Pri-2012 White Collar employee, retiree and contingent survivor mortality tables (sex-specific) projected generationally using 2024 Adjusted Scale MP-2021 (updated from Scale MP-2021 in the prior valuation)
- Retirement age - Determined from percentages based on ages from 55 through 65
- Investment rate of return – 5.60%, net of investment expenses, as well as 0.40% for administrative expenses

The actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. Pension benefits in excess of the present assets of the Plan are dependent upon contributions received and income from investments.

Since information on the accumulated plan benefits at November 30, 2024 and the changes therein for the year then ended are not included, these financial statements do not purport to present a complete presentation of the financial status of the Plan as of November 30, 2024, and the changes in its financial status for the year then ended, but a presentation of the net assets available for benefits and the changes therein as of and for the year ended November 30, 2024. The complete financial status is presented as of November 30, 2023.

On August 17, 2006, the Pension Protection Act (the PPA) was signed into law. Included in its many provisions are numerous revisions surrounding new funding rules for defined benefit plans that may significantly increase required contributions for underfunded plans. The PPA establishes minimum funding standards and limits benefit increases and accruals for underfunded plans. Plans with a funding percentage below 80 percent will be required to implement certain benefit limitations such as restricting lump sum payments and restricting the plan from amending the plan to enhance benefits. Further limitations such as freezing the accrual of all future benefits will be required for plans that are underfunded by more than 60 percent until such time as the percentage increases above 60 percent. Additionally, pursuant to the PPA, each year actuaries are required to certify to a plans funding percentage. The Plan received such certification for the Adjusted Funding Target Attainment Percentage (AFTAP), which is one way of measuring the funding status of a Plan using actuarial assumptions mandated by the IRS, and the actuary determined that the AFTAP for the Plan was 103.30% as of December 1, 2023.

Note 5. Funding Policy

The Plan Sponsor contributes such amounts as required under accepted actuarial principles to meet the minimum funding standards of ERISA or at the discretion of the Plan Sponsor if those standards have been met. The Plan's actuary has advised that the minimum funding requirements of ERISA are being met as of December 1, 2023.

Note 6. Tax Status

The Plan's latest determination letter is dated October 2, 1999, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan's administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. They therefore believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. The Plan is subject to tax, however, on any unrelated business income. The Plan receives a flow-through of partnership income through its investments structured as limited partnerships.

Accounting principles generally accepted in the United States of America require the Plan to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Related Organizations

The Plan is related to two organizations: United Food and Commercial Workers Health Benefits Fund and United Food and Commercial Workers Midwest Pension Fund.

Note 8. Fair Value Measurements

The *Fair Value Measurements and Disclosures* Topic of the FASB Accounting Standards Codification established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable

As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Level 1 Measurements

The Plan's investment in the Fidelity Long Term Treasury Bond Index Fund, which is a mutual fund, is classified within Level 1 of the fair value measurements hierarchy. The fair value of the mutual fund is determined by reference to the fund's underlying assets, which are principally marketable fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value on the last business day of each period presented.

Measurements Using Net Asset Value as a Practical Expedient

All of the Plan's other investments are valued at the net asset value per share, used as a practical expedient to estimate fair value. In accordance with generally accepted accounting principles, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient are not required to be classified in the fair value hierarchy. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

Except for the American Core Realty Fund, such investments are direct filing entities (DFEs) and file a Form 5500 annual report with the U.S. Department of Labor. The Plan is not required to disclose the significant investment strategies of DFE investments. The MCG Equity Group Trust, MCG Fixed Income Group Trust and Comerica Short Term Fund can be redeemed daily without notice.

Note 8. Fair Value Measurements (continued)

Measurements Using Net Asset Value as a Practical Expedient (continued)

The fair value of the American Core Realty Fund, which is structured as a limited partnership, is determined by the general partner without further adjustment and is generally equal to the net asset value, based on the fair values of the underlying real estate properties. The composition of the underlying assets was approximately 34% industrial, 28% residential, 19% office, 14% retail and 5% other at November 30, 2024, and 36% industrial, 26% residential, 21% office, 13% retail and 4% other at November 30, 2023. Redemption requests are effective at the end of the calendar quarter in which the request is received, although as of November 30, 2024, there is a redemption queue in place. The Plan has requested a full redemption of their investment and has been receiving partial redemption amounts on a quarterly basis.

Note 9. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. The current economic environment has increased this degree of uncertainty.

The Plan has an ownership interest in a real estate investment fund. The estimated fair value of this fund, as determined by the investment manager, may vary significantly from the prices at which the real estate investments within the fund would sell, and the amounts could be material.

Note 10. Concentration of Plan Investments

As disclosed on the statements of net assets available for benefits, as of November 30, 2024, the Plan held units in the MCG Fixed Income Group Trust with a fair value of \$7,483,316 (approximately 48% of net assets) and the Comerica Short Term Fund with a fair value of \$6,648,206 (approximately 42% of net assets). The MCG Fixed Income Group Trust invests in diversified fixed income securities and the Comerica Short Term Fund is a money market fund. As of November 30, 2023, the Plan held units in the MCG Fixed Income Trust and MCG Equity Group Trust with a total fair value of \$11,868,460 (approximately 78% of net assets). These funds invest in diversified fixed income and equity securities, respectively.

Note 11. Subsequent Event - Plan Termination

Subsequent to year end, the Plan sponsor approved termination of the Plan as of April 1, 2025 and is developing a plan of liquidation.

Any contribution amounts from the Plan sponsor that may be required during the liquidation process depends on the outcome of several variables, which are currently undeterminable.

The Plan sponsor will provide all required notices pertaining to the Plan's termination to Plan participants and applicable regulatory agencies. As of the date the financial statements were available to be issued, the Plan is in the process of obtaining regulatory approval to liquidate Plan assets. Once approval is received, the Plan will purchase annuities to settle the remaining liabilities associated with the Plan's accumulated benefits. The plan of liquidation is expected to be completed by December 31, 2025.

Schedule SB, Part V - Summary of Plan Provisions

2023 Form 5500 Schedule SB Attachment

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan status

Benefit accruals frozen as of August 31, 2018

Normal retirement

- **Age Requirement:** 60 (65 if terminated before December 1, 1995)
- **Service Requirement:** Five years of plan participation
- **Amount:** 2.5% of average monthly compensation multiplied by credited service up to 20 years, plus 2.0% of average monthly compensation multiplied by credited service in excess of 20 years to a maximum of 15 years, minus 100% of the benefit accrued after January 1, 2006 and 50% of the benefit accrued before January 1, 2006 under other defined benefit plans sponsored by the employer (e.g., the Industry Plan).
 - The benefit formula under the Industry Plan is a flat dollar per year of credited service. The flat dollar varies based on the employer contribution rate and ranged from \$4 to \$53 through 2010 and from \$2 to \$35 in 2011 and thereafter.
 - Average monthly compensation is the average of the highest 36 (consecutive) months of compensation, frozen as of August 31, 2018. Compensation after July 1, 2009 is limited to the participant's pay rate (or rate for their current position) as of July 1, 2009.
 - Benefits were frozen for all participants as of August 31, 2018.

Early retirement

- **Age Requirement:** 55
- **Service Requirement:** Five years of eligibility service
- **Amount:** Normal pension accrued, reduced by 1/3% per month preceding normal retirement age

Schedule SB, Part V - Summary of Plan Provisions

2023 Form 5500 Schedule SB Attachment.

Special early pension

- **Age Requirement:** 55
- **Service Requirement:** 30 years of credited service at date of termination or retirement
- **Amount:** Normal pension accrued (unreduced)

Late retirement

Participants who worked past their normal retirement date had their benefit suspended and, therefore, only earned additional accruals to their actual retirement date.

Disability

- **Age Requirement:** None
- **Service Requirement:** Five years of eligibility service
- **Amount:** Normal pension accrued including accrual of credited service while disabled until the earlier of recovery or normal retirement date and based on average monthly compensation at date of disability, payable at normal retirement date.

Vesting

- **Age Requirement:** None
- **Service Requirement:** Five years of eligibility service or active at the August 2018 closure of the Fund Office
- **Amount:** Normal or early pension accrued based on plan in effect when last active

Schedule SB, Part V - Summary of Plan Provisions

2023 Form 5500 Schedule SB Attachment.

Spouse's pre-retirement death benefit

- **Age Requirement:** None
- **Service Requirement:** Five years of eligibility service
- **Amount:** 50% of the benefit employee would have received had he or she retired the day before he or she died and elected the 50% joint and survivor option. If the employee died prior to eligibility for an early retirement pension, the spouse's benefit is deferred to the date the employee would have been age 55.
 - If the employee died within 3 calendar years of earning credited service or during the disability period, the spouse would be eligible for 50% of the normal pension accrued (not subject to any reduction for early commencement or form of payment) payable immediately after the death of the employee.
- **Form:** Monthly annuity for the life of the spouse

Participation

January 1 or July 1 following completion of 400 hours of covered employment. The Plan is closed to new entrants as of August 31, 2018.

Service

- **Eligibility:** Participants were credited with one year of eligibility service for each calendar year in which the participant earned 400 or more hours of service
- **Credited:** Credited service earned in each calendar year is the ratio of the number of hours worked to 1,600 hours, subject to a maximum of one year of credited service per calendar year. No credited service is earned if less than 400 hours are worked in a year, or after August 31, 2018.

Note that pre-employment periods with Local No. 28 are limited to five years.

Schedule SB, Part V - Summary of Plan Provisions

2023 Form 5500 Schedule SB Attachment

Forms of benefits

- **Normal Form**
 - Life annuity, if single
 - 50% joint & survivor, if married
- **Optional Forms**
 - 75% or 100% joint & survivor
 - Social Security level income option, to age 62 or age 66

Optional form conversion basis

- **Joint & Survivor**
 - Actuarial equivalence based on the 1971 Group Annuity Mortality male table, without margins, projected to 1976 by Scale E, weighted 60% no setback / 40% 7-year setback for participants and 40% no setback / 60% 7-year setback for beneficiaries, and 7% interest
- **Social Security Level Income Option**
 - Based on 417(e) assumptions using the applicable interest rate for the October prior to the plan year of determination

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

2023 Form 5500 Schedule SB Attachment

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations.

Interest

The interest rates used for the 2023 plan year are the 24-month average corporate bond segment rates for August 2023 (a four-month lookback) subject to interest rate stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around the greater of 5.00% and a 25-year average of those same bond rates. For 2023 through 2030, the stabilization corridor is 5%. Under current law, it is scheduled to increase by 5% per year, starting in 2031, until it reaches 30% for 2035. The rates are as follows.

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization	4.75%	5.00%	5.74%	5.16%
Current Year, without stabilization	3.42%	4.33%	4.43%	4.28%
Prior Year, reflecting stabilization	4.75%	5.18%	5.92%	5.33%
Prior Year, without stabilization	1.27%	2.99%	3.51%	3.04%

The segment rates used to determine the PBGC variable-rate premium are:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
Current Year	5.50%	5.76%	5.83%
Prior Year	5.09%	5.60%	5.41%

These interest rates are based on the plan sponsor's election for the 2013 plan year and are subject to constraints established by law.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

2023 Form 5500 Schedule SB Attachment

Mortality rates

RP-2006 separate employee and annuitant healthy mortality tables (sex-specific) projected generationally using scale MP-2021.

This assumption is one of the choices allowed by the regulations.

Retirement from inactive status

Age 55 for those with at least 30 years of credited service, age 65 for terminations before December 1, 1995, age 60 for others, or current age, if older. Based on a review of the assumed ages compared to historical experience, in light of the plan provisions and professional judgment, this assumption reflects a reasonable expectation for the future.

Percent married

85%

Spouse sex

100% opposite sex of participant

Age difference

Male spouses are assumed to be four years older than female spouses.

Form of payment

All participants are assumed to elect the life only form of payment.

Administrative expenses

Plan-related expenses of \$65,000 expected to be paid by the plan during the year were assumed for the 2023 plan year.

This assumption is based on the average of non-PBGC premium expenses paid during the last five years (\$81,008, \$52,823, \$46,215, \$74,652, \$42,753), adjusted to the 2023 plan year with 2.50% annual inflation for 3 years, plus the 2023 PBGC premium and adjusted based on professional judgment.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

2023 Form 5500 Schedule SB Attachment

Asset method

As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 6.00% for the plan years ended November 30, 2022 and November 30, 2023, not to exceed the applicable third segment rates of 6.11% and 5.92%, respectively.

Funding method

Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.

If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within fifteen years. Once that is achieved, or for overfunded plans, the required contribution will generally equal the target normal cost reduced by any overfunding.

Funding relief

This valuation reflects the default application of interest rate relief (effective for the 2020 plan year) under ARPA. The default amortization relief under ARPA was effective starting with the 2022 plan year.

Models

Segal valuation results are based on proprietary actuarial modeling software. The actuarial valuation models generate a comprehensive set of liability and cost calculations that are presented to meet regulatory, legislative and client requirements. Our Actuarial Technology and Systems unit, comprising both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible actuary.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
