Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Clark Dietz, Inc. ESOP, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Clark Dietz, Inc. ESOP as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Clark Dietz, Inc. ESOP and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Clark Dietz, Inc. ESOP's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Clark Dietz, Inc. ESOP's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Clark Dietz, Inc. ESOP's ability to continue as a going concern for a reasonable period of time.

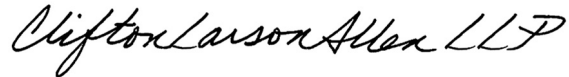

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**CLARK DIETZ, INC. ESOP
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF PLAN

The following description of the Clark Dietz, Inc. ESOP (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Clark Dietz, Inc. (Company) established the Plan effective January 1, 2009. The Plan was most recently amended effective April 25, 2024. The Plan is a defined contribution plan intended to constitute an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan covers all employees of the Company who attained the age of 21. An eligible employee will begin participation on the later of the first date of employment or the date they attain the age of 21. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments. It is subject to the provisions of ERISA, as amended. The Plan is administered by the ESOP Trust Committee (the Trustees) comprising up to three persons appointed by the Company's Board of Directors.

Vesting

Vesting of participant's accounts is based on years of credited service with the Company. A participant's account becomes fully vested after five years of credited service with the Company, under a graded vesting schedule. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Contributions

Each year, the Company may contribute to the Plan a discretionary amount as determined annually by the Company's Board of Directors. Contributions may be in the form of shares of common stock or cash. The Company made no discretionary contributions for the years ended December 31, 2024 and 2023. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must be employed on the last day of the Plan year unless termination is due to death, disability, or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. A matching contribution shall be allocated to all participants who are entitled to receive a matching contribution pursuant to the terms of the Clark Dietz Employees 401(k) Plan. The division between the Plan and the Clark Dietz Employees 401(k) Plan is determined by the Company at the beginning of each plan year. The Company allocated 25% and 0% of the match to the Plan for the years ended December 31, 2024 and 2023, respectively.

**CLARK DIETZ, INC. ESOP
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Discretionary Company contributions are allocated based on a ratio of the participant's allocation units to total allocation units of all active participants. Allocation units are based on compensation and years of service. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account and forfeitures of terminated participants' nonvested accounts.

Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocation of the Company's common stock is based on the contributions and participants' balances in other assets. Distributions from Company stock including cash and stock dividends not applied to the loan principal and interest are credited to individual participants based on allocated shares. Plan earnings from other investments are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance less any amounts withdrawn or distributed to the individual participant, to all participants' beginning of the year account balances less total withdrawals and distributions.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is achieved by transferring funds from the Plan into the Clark Dietz, Inc. 401(k) Plan, or if a participant is no longer employed at the Company, an IRA or eligible employer plan.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, a participant will receive a lump-sum distribution of their account balance without the participants consent if their balance does not exceed \$5,000. Participants can request to receive a lump-sum distribution of their account balance if their balance is between \$5,000 and \$20,000. For accounts of not more than \$1,415,000, the distribution will be made in substantially equal annual installments over a period of five years with the first installment being paid in the year after the close of the Plan year which the participant terminates employment. For accounts of more than \$1,415,000, the distribution will be made in substantially equal annual installments over a period of as many years as permitted under Section 409(o)(1)(C)(ii). The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash as long as the Company continues its election to be taxed as an S corporation.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan during specified option periods. The Company and the Plan have the right of first refusal of any sale of common stock distributed from the Plan.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 and 2023 were \$2,911 and \$26,401, respectively. There were no balances in forfeited nonvested accounts at December 31, 2024 and 2023.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at estimated fair value. See Note 4 for discussion of fair value measurements.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Purchases and sales are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Subsequent Events

The Plan has evaluated subsequent events through August 20, 2025, the date the financial statements were available to be issued. In April 2024, the Company acquired RS Engineering, LLC (RSE). Employees of RSE are eligible to join the Plan on January 1, 2025.

NOTE 3 INVESTMENTS

The Plan's initial investment in Company securities consisted of 2,000 shares of the outstanding common stock of Clark Dietz, Inc. The shares were acquired on March 30, 2009 for \$87 per share, which was the estimated fair market value, as determined by independent appraisal, at that time. The estimated fair market value, as determined by independent appraisal as of December 31, 2024 and 2023 was \$434 and \$315 per share, respectively.

During 2024, 500 shares were purchased, released and allocated to participants and 1,500 were repurchased by the Company.

The Plan's investments at December 31 are presented in the following table:

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Investments in cash are valued based on cost, which approximates fair value in a noninflationary economy and is protected by the Federal Deposit Insurance Corporation up to a limit of \$250,000. Cash equivalents include investments in U.S. Treasury Bills which are valued based on the closing prices reported in the active market in which the individual securities are traded.

The fair value of the Company common stock held by the Plan is valued at fair value based on an independent third-party appraisal. This appraisal is based upon an income valuation technique consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	\$ 2,153,753	\$ -	\$ -	\$ 2,153,753
Common Stock	-	-	9,114,000	9,114,000
Total Investments at Fair Value	\$ 2,153,753	\$ -	\$ 9,114,000	\$ 11,267,753

	2023			
	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	\$ 1,727,535	\$ -	\$ -	\$ 1,727,535
Common Stock	-	-	6,930,000	6,930,000
Total Investments at Fair Value	\$ 1,727,535	\$ -	\$ 6,930,000	\$ 8,657,535

The following tables set forth a summary of certain changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	Common Stock	
	2024	2023
Purchases	\$ 157,500	\$ -
Issuances	-	-
Transfers In	-	-
Transfers Out	-	-

NOTE 5 NOTE PAYABLE

On March 11, 2024, the Plan entered into a \$157,500 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. As of December 31, 2024, the balance of notes payable is \$-0-. The Plan paid interest at a rate of 4.13% per annum totaling \$6,505 to the Company for the year ended December 31, 2024.

NOTE 6 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Trustees shall direct the custodian to pay all liabilities and expenses of the trust fund. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company, by a letter dated March 15, 2013, that the Plan and related trust are designed in accordance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 9 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist primarily of Company common shares, are held by the Trustees of the Plan. Company contributions are held and managed by the Trustees, which invest cash received, interest and dividends income and makes distributions to participants. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company common stock qualify as party-in-interest transactions. At December 31, 2024 and 2023, the Plan held 21,000 and 22,000 shares of Company common stock and the Plan received \$723,960 and \$1,254,432, respectively, in distributions from this stock for the years then ended. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
