Independent Auditors' Report

The Administrative Committee
Airline Hydraulics Corporation Employee Stock Ownership Plan
Bensalem, Pennsylvania

Opinion

We have audited the financial statements of Airline Hydraulics Corporation Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Airline Hydraulics Corporation Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(1) Description of Plan

The following brief description of the Airline Hydraulics Corporation (the Company) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the trust agreement for a complete description of the Plan's provisions.

General

The Company established the Plan effective January 1, 2005. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The administrative committee, appointed by the Company's Employee Stock Ownership Trust, is responsible for oversight of the Plan. The Plan was amended and restated effective January 1, 2024.

Eligibility

All employees of the Company and its participating subsidiaries (except employees whose terms of employment are determined by collective bargaining agreements) become eligible to participate in the Plan if they are age 21 and have completed 1,000 hours of service during the first full 12 months of employment or subsequent plan year. A participant's entry date is the January 1 immediately preceding the latter of the completion of 1,000 hours of service during an eligibility computation period or the date the employee attains the age of 21. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Payment of Benefits

Each participant who owns 5% or more of the Company shall begin receiving distributions of his or her account under the Plan in accordance with the IRC no later than April 1st of the year following the calendar year in which the participant attains age 73, whether or not the participant is still employed by the Company. Each retired or terminated participant that does not own 5% or more of the Company shall begin receiving distribution of his or her account under the Plan in accordance with the IRC no later than April 1st of the year following the calendar year in which the participant attains age 73. Active participants who are age 65 or older are also eligible for in-service distributions, subject to payout provisions as defined by the Plan. Terminated participants may also elect to receive distributions commencing no later than one year after the fifth year following the plan year in which such termination occurs.

December 31, 2024 and 2023

(1) Description of Plan, Continued

Payment of Benefits, Continued

Prior to January 1, 2023, the distribution of the participant's account was made in five equal installments annually in an amount equal to the number or value of the shares of the Company stock in the participant's account divided by the remaining number of annual installments to be paid. Effective January 1, 2023, the distribution of the participant's account will be made in three annual installments based on the value of the participant's account. Participants with an account balance less than \$350,000 will receive a lump sum payment equal to the value of their account. Participants who terminate employment with the Company and its participating subsidiaries with vested balances of \$7,000 or less will receive a lump sum by the end of the plan year following the plan year in which such termination occurs.

Under the provisions of the Plan, the Plan is obligated to repurchase participants' shares which have been distributed under the terms of the Plan as long as the shares have not been publicly traded. The Company makes contributions in cash to the Plan to enable the Plan to repurchase the shares. During 2024 and 2023, the Plan repurchased from participants 1,175 and 1,499 shares, respectively, at prices determined from the independent appraisal.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee shall vote such allocated shares of Company stock as instructed by participants. Allocated shares for which no instruction is received shall be voted by the trustee at their discretion.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be fully vested and will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan and the IRC. Upon termination of the Plan, the trustee will pay all liabilities and expenses of the trust fund and sell shares of financed stock, if any, held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

(1) Description of Plan, Continued

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of plan earnings, the Company's contributions and any forfeitures. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to the total Plan balance. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Vesting

Subject to certain provisions as fully described in the plan document, the portion of the participant's account that is vested (nonforfeitable) on any specified date shall be determined on the basis of his or her years of service in accordance with the following schedule:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

A participant's account shall also become 100% vested and nonforfeitable upon the participant's attainment of his or her normal retirement age (age 65) and five years of participation in the Plan while employed by the Company, or upon the participant's death or disability while employed by the Company.

(1) Description of Plan, Continued

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 and with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash or rollover distribution.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 and 2023, totaled \$270,449 and \$424,328, respectively.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common stock of the Company is stated at estimated fair value on December 31, 2024 and 2023. Estimated fair value is determined by an annual independent appraisal. Other plan assets are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued

Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation in fair value of plan assets includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Administrative Committee controls and manages the operation of the Plan. TI-Trust, Inc. serves as the trustee and custodian of the Plan. Certain administrative expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through August 13, 2025, the date the financial statements were available to be issued.

(3) Fair Value Measurements

FASB *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2: Inputs to the valuation methodology include
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Airline Hydraulics Corporation Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(3) Fair Value Measurements, Continued

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual fund: Valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

Airline Hydraulics Corporation, common stock: The Company's stock is not actively traded and significant other observable inputs are not available. Thus, the fair value of the common stock is determined by an annual independent appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraisal takes into account historical and projected cash flow and net income, return on assets, return on equity, market comparable, and estimated fair value of Company assets and liabilities. As of December 31, 2024 and 2023, the stock was valued at \$6,675 and \$5,410 per share, respectively.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(3) Fair Value Measurements, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			
	Total	Level 1	Level 2	Level 3
Mutual fund	\$ 12,632,468	\$ 12,632,468	\$ -	\$ -
Airline Hydraulics Corporation, common stock, Class A	133,500,000	-	-	133,500,000
Total assets at fair value	\$ 146,132,468	\$ 12,632,468	\$ -	\$ 133,500,000

Description	Assets at Fair Value as of December 31, 2023			
	Total	Level 1	Level 2	Level 3
Mutual fund	\$ 9,055,991	\$ 9,055,991	\$ -	\$ -
Airline Hydraulics Corporation, common stock, Class A	108,200,000	-	-	108,200,000
Total assets at fair value	\$ 117,255,991	\$ 9,055,991	\$ -	\$ 108,200,000

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

Changes in Fair Value of Level 3 Investments

During 2024 and 2023, there were no transfers into or out of the investment and no purchases of the investment included in level 3 of the fair value hierarchy. The unrealized gain on the Company's common stock is included in the net appreciation in fair value of investments on the statements of changes in net assets available for benefits.

(4) Related Party Transactions and Party-In-Interest Transactions

Plan investments are managed by TI-Trust, Inc., the custodian of the Plan, and Principal Trust Company serves as the plan record keeper. In addition, certain administrative fees were paid to TI-Trust, Inc. and Principal Trust Company. Transactions with these parties qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. The Company pays certain other expenses related to the Plan's operations directly.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan.

Airline Hydraulics Corporation Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(5) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 25, 2013, that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) Risks and Uncertainties

The Plan's investment in Company common stock is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. The Plan invests in a mutual fund which is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
