## **Independent Auditor's Report**

To the Plan Administrator of the  
Iiff School of Theology Retirement Plan

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the financial statements of the Iiff School of Theology Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Other Matter - Supplemental Schedules Required by ERISA**

The supplemental schedules, Schedule H, Line 4a: Schedule of Delinquent Participant Contributions and Schedule H, Line 4i: Schedule of Assets (Held at End of Year), as of or for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### Note 1 – Description of the Plan

The following description of the Iloff School of Theology Retirement Plan (the “Plan”) provides only general information. Participants and all others should refer to the Plan document, summary plan description and individual contracts for a more complete description of the Plan’s provisions.

**General.** The Plan, which was established effective November 1, 1954, amended and restated February 26, 2018, is a defined contribution plan under Code Section 403(b) available to qualifying employees of Iloff School of Theology (the “Institution, Employer, or Plan Sponsor”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

**Custodian and Administration of the Plan.** The custodian of the Plan is Teachers Insurance Annuity Association of America (“TIAA”) and College Retirement Equities Fund (“CREF”) (collectively, the “custodian”). The recordkeeper of the Plan is TIAA. The administrator of the Plan is the Institution. The custodian holds all assets of the Plan in accordance with the provisions of the service provider agreements with the Institution and individual participants.

**Plan Amendments.** In connection with the SECURE 2.0 Act of 2022 (“SECURE 2.0”), during 2024 (i) the Plan expanded the sources available for hardship withdrawals and (ii) the Plan’s involuntary distribution amount was increased from \$5,000 to \$7,000.

**Eligibility.** Employees are eligible for the Plan upon date of hire. Employees are eligible for Employer matching contributions on the first of the month after attaining the age of 18. Non-resident aliens and students enrolled and attending classes are not eligible to participate in the Plan. Leased employees, adjunct faculty and employees that are customarily employed part time, temporary, or on an irregular basis for less than 1,000 hours a year are not eligible for Employer matching contributions.

**Contributions.** Participants may contribute up to 100% of their eligible annual compensation on a pre-tax basis as an elective deferral contribution. Additionally, participants may contribute a percentage of their after-tax compensation and designate it as a Roth contribution. These contributions are subject to certain Internal Revenue Code (“IRC”) limitations (\$23,000 for 2024).

The Plan also allows catch-up contributions for participants over the age of 50 based on IRC limitations (\$7,500 for 2024). Special 403(b) catch-up contributions are available to those participants with at least 15 years of service as further described in the Plan document.

The Institution makes an Employer matching contribution of 9% of eligible compensation for all eligible participants that deferred and contributed 5% or more of their eligible compensation. Participants must work 1,000 or more hours of service in a Plan year to receive Employer matching contributions. The 1,000 hours of service will not apply, however, if the participant dies, becomes disabled, or if age 55 or greater.

**Vesting and Forfeitures.** All participant and Employer matching contributions are fully vested. There were no forfeited accounts held by the Plan as of December 31, 2024 and 2023, or during the year ended December 31, 2024. Forfeitures, if any, are used to offset future Employer matching contributions.

**Participants’ Accounts.** Each participant’s account is credited with the participant’s contribution (pre-tax and Roth), catch-up contribution, rollover contribution, the Employer matching contribution, and an allocation of net Plan investment earnings or losses and administrative expenses. Participants may direct the investment of their account balance into various investment options offered by the Plan. Currently, the Plan offers registered investment companies (“RICs”) and insurance contracts as investment options for participants. Participants may elect to transfer balances between funds within their account as described by each contract.

### Note 1 – Description of the Plan (continued)

**Notes Receivable from Participants.** A participant may, with the consent of the Plan administrator, borrow a minimum of \$1,000 up to the lesser of \$50,000 less the highest balance of loans outstanding in the previous 12 months, or one-half of their vested account balance. Participants may not have more than three loans outstanding at any time subject to certain other limitations. The maximum loan term is five years, except for a loan to acquire a participant's principal residence, which is ten years. Loans are subject to certain other restrictions outlined in the individual participant contracts with TIAA. Loan repayments are made ratably through payroll deductions. The participant's account is reduced by the outstanding loan balance and is shown as a note receivable from participant on the Statements of Net Assets Available for Benefits.

A participant may also initiate a loan with TIAA using their account balance as collateral for the loan and their account is not reduced by the outstanding loan balance. These loan repayments are made directly from the participant to TIAA. Loans transacted directly between the participant and TIAA using the participant's balance as collateral are not considered notes receivable from participants and are not reported on the Statements of Net Assets Available for Benefits. As of December 31, 2024 and 2023, there were no such TIAA initiated loans.

**Payment of Benefits.** Upon termination of service due to death, disability, retirement or separation of service, a participant may elect to receive a distribution of their vested balance or roll over their balance to another qualified retirement plan. Distributions of benefits will generally be made in an annuity, lump-sum installments or ad-hoc as defined by the Plan document. Immediate lump-sum distributions are to be made to terminated participants if the participant's vested account balance is \$7,000 or less. Certain in-service and hardship distributions are also allowed by the Plan if certain criteria are met, as further discussed in the Plan document.

### Note 2 – Summary of Significant Accounting Policies

**Basis of Accounting.** The accompanying financial statements have been prepared on the accrual basis of accounting.

**Use of Estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Valuation of Investments and Income Recognition.** The Plan's investments are stated at fair value, except for the benefit responsive insurance contracts which are valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year and is net of certain administrative and investment expenses charged.

**Notes Receivable from Participants.** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

## Notes to Financial Statements

December 31, 2024 and 2023

---

### Note 2 – Summary of Significant Accounting Policies (continued)

**Contributions.** Participant contributions and related Employer matching contributions are recognized in the period during which the Employer makes payroll deductions from the participant's compensation.

**Payment of Benefits.** Benefits are recorded when paid.

**Expenses.** Certain expenses of maintaining the Plan are paid directly by the Institution and are excluded from these financial statements. Administrative expenses paid by the Plan during 2024 consisted of quarterly service provider fees and loan fees. Additionally, certain costs of administering the Plan and investment services are charged to participants by netting expense ratios with the return of the individual investment. The expense ratios of the investments ranged from 0.24% to 1.05% for the year ended December 31, 2024. Net appreciation in fair value of investments as shown in the accompanying Statement of Changes in Net Assets Available for Benefits is net of such expenses.

### Note 3 – Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

**Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

- **Registered Investment Companies.** Valued at fair value based on the daily closing price of the shares/units as reported by the funds or TIAA.

# Iliff School of Theology Retirement Plan

## Notes to Financial Statements

December 31, 2024 and 2023

### Note 3 – Fair Value Measurements (continued)

- Insurance Contracts, Non Benefit Responsive.** Non fully benefit responsive insurance contracts are valued at fair value, which approximates contract value, by TIAA. Contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. Fair value approximates contract value by using a theoretical transfer (exit value) methodology and by using a discounted cash flow valuation methodology where the interest rate for these fixed annuity contracts are reset at least annually and by considering the credit-worthiness of the issuer (see Note 4).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	Fair Value Measurements at December 31, 2024			
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
Registered Investment Companies	\$ 17,663,483	\$ -	\$ -	\$ 17,663,483
Insurance Contracts, Non Benefit Responsive*	-	-	4,756,065	4,756,065
<b>Total Investments at Fair Value</b>	<b>\$ 17,663,483</b>	<b>\$ -</b>	<b>\$ 4,756,065</b>	<b>\$ 22,419,548</b>

	Fair Value Measurements at December 31, 2023			
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
Registered Investment Companies	\$ 17,453,527	\$ -	\$ -	\$ 17,453,527
Insurance Contracts, Non Benefit Responsive*	-	-	4,777,883	4,777,883
<b>Total Investments at Fair Value</b>	<b>\$ 17,453,527</b>	<b>\$ -</b>	<b>\$ 4,777,883</b>	<b>\$ 22,231,410</b>

\* fair value approximates contract value.

**Changes in Fair Value of Level 3 Assets.** The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan Sponsor evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. During 2024, there were no transfers in or out of Level 3 assets.

### Note 3 – Fair Value Measurements (continued)

**Changes in Fair Value of Level 3 Assets (continued)**. The following table sets forth a summary of certain changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2024:

<u>Instrument</u>	<u>Purchases</u>	<u>Issuances</u>
Insurance Contracts, Non Benefit Responsive	<u>\$ 209,050</u>	<u>\$ -</u>

### **Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements**

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

<u>Instrument</u>	<u>Fair Value*</u> <u>December 31,</u>	<u>Principal Valuation Technique</u>	<u>Significant Unobservable Inputs</u>	<u>Range of Significant Input Values</u>
Insurance Contracts, Non Benefit Responsive	2024: \$ 4,756,065 2023: 4,777,883	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	2024: 3.65%-6.75% 2023: 4.00%-7.00%

\* fair value approximates contract value.

### Note 4 – Investment Contracts with Insurance Company

**TIAA Traditional.** The TIAA Traditional Annuity ("TIAA Traditional") is a traditional unallocated fixed-annuity contract that is fully and unconditionally guaranteed by TIAA. TIAA Traditional provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%, but in some contracts between 1% and 3%) and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1. Additional interest is not guaranteed for future years. Crediting interest rates as of December 31, 2024 and 2023, ranged from 3.00%-6.75% and 3.25%-7.00%, respectively. Contributions to a participant's account purchases a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan.

There are various fixed annuity account options within the TIAA Traditional. The type of contract through which a participant enters into determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional amounts paid, the degree of liquidity of the participant's account and the options for receiving income upon retirement. Restrictions may include restrictions on lump sums, certain surrender charges, and requiring cash withdrawals spread over a period of up to 10 annual installments. In general, the contracts are not fully benefit responsive due to the restrictions noted above; however, some of the contracts do not include such restrictions and are deemed to be fully benefit-responsive.

## Notes to Financial Statements

December 31, 2024 and 2023

### Note 4 – Investment Contracts with Insurance Company (continued)

**TIAA Traditional (continued).** The fixed annuity contracts that are non benefit responsive are presented on the face of the statements of net assets available for benefits at fair value, which approximates contract value. The fixed annuity contracts that are benefit responsive are presented on the face of the statements of net assets available for benefits at contract value since this is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. TIAA maintains the accounts in the general account of TIAA which is credited with earnings and charged for withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value, which approximates contract value, of the fixed annuity contracts that are non benefit responsive at December 31, 2024 and 2023, was \$4,756,065 and \$4,777,883, respectively. The contract value of the fixed annuity contracts that are benefit responsive at December 31, 2024 and 2023, was \$171,167 and \$161,796, respectively.

**TIAA Stable Value.** In 2014, the Plan entered into a traditional benefit-responsive investment contract with TIAA. TIAA maintains the contributions in a non-unitized separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a guaranteed interest rate between 1%-3% to the Plan.

This contract meets the fully benefit responsive contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2024 and 2023, was \$89,410 and \$80,007, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rate is reviewed on a semi-annual basis for resetting.

There are certain investment restrictions associated with this investment contract. Direct transfers to competing funds in the Plan's investment lineup are prohibited (industry standard "equity wash"). Transfers may be made to a competing fund following a 90-day waiting period after being transferred to a noncompeting fund. In addition, transfers into TIAA Stable Value may not be made for 30 days following a transfer out. Should the Plan Sponsor choose to terminate the Plan's investment in the TIAA Stable Value contract, the Plan will receive contract value in, at most, two years. If the two-year payout applies, a discontinuance fee will be assessed which has the effect of reducing the interest credited during the two-year period by, at most, seventy-five basis points.

The investment contract does not have a defined maturity specified in the contract.

### Note 5 – Certified Information

The following information disclosed in the accompanying financial statements and ERISA-required supplemental schedules was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, the custodian of the Plan:

- Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023
  - Investments
  - Notes Receivable from Participants

### Note 5 – Certified Information (continued)

- Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024
  - Net appreciation in fair value of investments
  - Interest and dividends
  - Interest income on notes receivable from participants
- Notes to Financial Statements
  - Investment information and activity
- All investment information included in the Supplemental Schedule
  - Form 5500 – Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024

### Note 6 – Party-In-Interest Transactions

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

The Plan invests in registered investment companies and insurance contracts offered by TIAA and CREF. TIAA and CREF act as custodian for the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Additionally, the Plan maintains notes receivable from participants. In addition, the Plan has a service agreement with TIAA for administration of the Plan that renews annually unless cancelled by either party with prior written notice.

### Note 7 – Nonexempt Prohibited Transaction

During 2023, the Plan Sponsor had a nonexempt prohibited transaction relating to a participant's contributions not remitted to the trust in a timely manner as listed on Schedule H, Line 4a: Schedule of Delinquent Participant Contributions. The principal amount of the late contributions have been remitted into the Plan's trust. The Plan Sponsor corrected this transaction by remitting lost earnings into the Plan's trust in August 2024.

### Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Institution has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participant accounts will become fully vested and non-forfeitable.

### Note 9 – Tax Status

The Plan Sponsor has adopted a TIAA ERISA 403(b) Volume Submitter Plan document (“volume submitter plan”). The volume submitter plan received an advisory letter from the Internal Revenue Service (“IRS”) on August 7, 2017, which stated that the volume submitter plan is qualified under Section 403(b) of the IRC. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### Note 10 – Concentrations, Risks and Uncertainties

The Plan provides for various investment options in registered investment companies and insurance contracts. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts presented in the statements of net assets available for benefits. As of December 31, 2024 and 2023, there were one and two investment(s), respectively, which individually represented more than 10% of net assets available for Plan benefits. See supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2024.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

### Note 11 – Subsequent Events

Management has evaluated subsequent events through July 2, 2025, which is the date the financial statements were available to be issued.

During 2025, the Plan Sponsor elected to adopt an increase in the catch-up contribution limit for participants aged 60-63 under the SECURE 2.0 Act. The new limit for 2025 is the greater of \$10,000 or 150% of the regular catch-up contribution limit (\$11,250 for 2025) which is indexed annually.
