Mosaic Employee Stock Ownership Plan

Independent Auditors' Report

Opinion

We have audited the financial statements of Mosaic Employee Stock Ownership Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets (deficit) available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets (deficit) available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - DESCRIPTION OF PLAN

The following description of Mosaic Employee Stock Ownership Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

MediaMosaic, Inc. (d.b.a. The Mosaic Company) ("the Company") established the Plan on August 31, 2018 with an effective date of January 1, 2018. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All assets acquired pursuant to the operation of the ESOP are held by Mosaic Employee Stock Ownership Trust ("ESOT" or "trust"). The ESOT was established under a trust agreement entered into by the Company. The trustee is an individual appointed by the Company who is also a stockholder of the Company.

In 2018, the Plan purchased 1,016,000 shares of the Company's outstanding common stock using proceeds from a loan from the Company. The Plan holds common stock in a trust established under the Plan. The Plan purchased the shares at a price of \$19.24 per share for an aggregate purchase price of \$19,551,140. The stock purchase agreement executed upon formation of the Plan contained three clawback provisions, whereby if any of three specific revenue streams of the Company did not reach certain thresholds by certain dates, the purchase price for the stock was to be adjusted. During 2023, the Company determined that revenue during the specified periods did not meet stated thresholds and the purchase price of the shares was adjusted to \$18.95 per share.

The clawback adjustments totaling \$301,050 reduced the remaining loan principal amount owed to the Company and reduced net depreciation in the fair value. The loan is to be repaid over a period of 15 years by Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of shares are allocated to eligible participant's accounts in accordance with applicable regulations under the IRC. The cost of allocated and unallocated shares summarized in Note 3 is based on the adjusted per share purchase price of the common stock of \$18.95, post clawback adjustment.

The acquisition loan (Note 6) is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of the Company stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the years then ended present separately the assets and liabilities and changes therein pertaining to (1) the accounts of employees with rights in allocated common stock (allocated) and (2) common stock not yet allocated to employees (unallocated).

ELIGIBILITY

All employees over the age of 21 become a participant in the Plan on January 1 following the completion of one year of service, provided the employee is not a non-resident alien who receives no earned income from the Company, a member of a collective bargaining unit, or a leased employee. An employee is credited with one year of service if they complete 1,000 or more hours of service during the initial computation period. Thereafter, the eligibility computation period is the Plan year which includes the first anniversary of the participant's date of hire.

EMPLOYER CONTRIBUTIONS

Employer contributions shall be made in cash or common stock, at the discretion of the Company, as of the last day of the Plan year. The Company is obligated to make a minimum annual cash contribution to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. The Company made employer contributions of \$393,217 and \$813,903 to the plan for the years ended December 31, 2024 and 2023, respectively.

PARTICIPANT ACCOUNTS

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant account is credited with an allocation of shares of common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts as of the last day of each plan year. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement, a participant will receive equal annual installments not to exceed a five year period beginning in the Plan year following the participant's settlement date. For termination of service, participants will receive equal annual installments of their vested balance over a five year period beginning in the Plan year of the fifth anniversary of the participant's settlement date. The period over which distribution of a participant's account may be made may be increased by one year, up to five additional years, if the participant's account balance exceeds statutory limits. If the vested accrued benefit of the participant does not exceed \$10,000, distributions shall commence within one year after the close of the Plan year in which service is terminated.

Distributions are made in cash or, if a participant elects, the form of whole shares of common stock with cash equal to the value of any fractional shares. The amount to be distributed is based upon the immediately preceding valuation date. Benefits are recorded when paid. Distributions of cash and shares of common stock totaling \$1,273,374 and \$38,414 were paid to participants during the years ending December 31, 2024 and 2023, respectively.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Company made repurchases of participant shares of \$1,273,327 and \$0 during the years ended December 31, 2024 and 2023, respectively.

VOTING RIGHTS

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is required to vote any allocated shares of common stock as to which no voting instructions have been received on behalf of the collective best interests of the Plan participants and beneficiaries.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the interest of each participant in the trust fund will be distributed to the participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan administration will direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale is necessary in order to repay the loan.

VESTING

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants become 20% vested in their account balance after two years of service and vest ratably thereafter until 100% vested after six years of credited service. A participant will be credited with one year of service upon completing 1,000 hours of service during a plan year.

RIGHTS, RESTRICTIONS AND OPTIONS

Shares of common stock distributed to participants are subject to a right of first refusal that provides the trust first priority and the Company second priority to exercise the right to purchase the common stock at fair market value.

The Company shall issue a put option to each participant who receives a distribution of common stock if, at the time of distribution, the common stock is not readily tradable on an established market or is subject to trading limitations under federal income tax regulations. The put option permits the participant or beneficiary to sell the common stock at its then fair market value to the Company at any time during the 60-day period following the date the common stock was distributed. The trustee also may be permitted by the Company to purchase the stock put to the Company under the put option. Payment for the common stock sold pursuant to a put option shall be made in a lump sum payment or with equal annual installments including interest over a maximum period of five years.

DIVERSIFICATION

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in common stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50%. Participants who elect to diversify receive a cash distribution or a direct transfer to a qualified plan. The election to diversify must be made within 90 days subsequent to receiving their annual benefit statement for the prior plan year.

FORFEITURES

Non-vested employer contributions are forfeited upon the earlier of (1) the date the participant receives a distribution of their vested account balance or (2) the occurrence of the participant's fifth consecutive one year break in service. A participant that has no vested balance upon termination of

service shall be deemed to have received a full distribution. Forfeitures of non-vested employer contributions are added to the employer contribution and allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures of non-vested accounts allocated to participants totaled approximately \$213,000 and \$23,000 for the years ended December 31, 2024 and 2023, respectively. The forfeited non-vested accounts to be allocated to remaining participant accounts in the future was approximately \$85,000 and \$173,000 at December 31, 2024 and 2023, respectively.

ADMINISTRATION OF PLAN ASSETS

Administrative expenses may be paid by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Note 2 - SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

ALLOCATIONS

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (1) the accounts of employees with rights in allocated common stock ("allocated") and (2) common stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

INVESTMENT VALUATION AND INCOME RECOGNITION

The shares of common stock are valued at fair value (Note 4). Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Net depreciation for the year ended December 31, 2023 also includes the clawback adjustments.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through August 28, 2025, the date the financial statements were available to be issued.

Note 3 - INVESTMENTS

The Plan's investments at December 31 consists of the following:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
MediaMosaic Inc. (d.b.a The Mosaic Company) Common Stock:				
Number of shares	370,654.32	541,907.24	406,354.35	609,645.65
Cost	\$ 7,025,879	\$ 10,272,036	\$ 7,699,171	\$ 11,550,919
Estimated fair value	\$ 6,608,767	\$ 9,662,206	\$ 5,002,222	\$ 7,504,738

Note 4 - FAIR VALUE MEASUREMENTS

The Plan's investment is reported at fair value in the accompanying statement of net assets (deficit) available for benefits.

December 31, 2024	Fair value	Fair value measurements using:		
		Quoted prices in active markets for identical assets (Level 1)	Other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
MediaMosaic, Inc. (d.b.a The Mosaic Company) Common Stock	\$ 16,270,973	\$ -	\$ -	\$ 16,270,973

December 31, 2023	Fair value	Fair value measurements using:		
		Quoted prices in active markets for identical assets (Level 1)	Other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
MediaMosaic, Inc. (d.b.a The Mosaic Company) Common Stock	\$ 12,506,960	\$ -	\$ -	\$ 12,506,960

FASB ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority and Level 3 inputs have the lowest priority. Level 2 inputs consist of inputs other than quoted market prices included within Level 1 that are observable for valuing the asset. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its

investment. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 or 2 inputs were available to the Plan. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 3 Fair Value Measurements

The Company's Common Stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques as illustrated in the following tables:

2024

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
MediaMosaic, Inc. (d.b.a The Mosaic Company) Common Stock	\$ 16,270,973	Income	EBITDA Net income Clawbacks Discount rate Discount for lack of marketability
		Market	Public comparables Revenue multiples EBITDA multiples Discount for lack of marketability

2023

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
MediaMosaic, Inc. (d.b.a The Mosaic Company) Common Stock	\$ 12,506,960	Income	EBITDA Net income Clawbacks Discount rate Discount for lack of marketability
		Market	Public comparables Revenue multiples EBITDA multiples Discount for lack of marketability

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a preliminary report that Plan management, along with the ESOP trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different

methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth a summary of changes in fair value of the Plan's Level 3 assets:

Investment in MediaMosaic, Inc. (d.b.a The Mosaic Company) Common Stock	2024	2023

Note 5 - RISKS AND UNCERTAINTIES

The Plan investment consists of common stock in MediaMosaic, Inc. (d.b.a The Mosaic Company), which is exposed to various risks, such as interest rate, credit and overall market volatility risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic, tariffs or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets (deficit) available for benefits.

Note 6 - NOTE PAYABLE

The Plan entered into a \$19,551,140 term loan agreement with the Company to fund the purchase of the common stock. The agreement provides for the loan to be repaid in equal annual installments of \$1,600,685 including interest of 2.95% and maturing December 2032. Under the terms of the loan, any prepayments of principal will reamortize the loan so that the remaining principal balance will be due in equal annual installments over the remaining term of the loan. As a result of the clawback adjustment (Note 1), the loan was reamortized and annual installments on the loan are now \$1,564,577, including interest. The outstanding loan balance was \$11,006,053 and \$12,210,423 at December 31, 2024 and 2023, respectively.

Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to active participants as payments of principal and interest are made. The number of shares released in any year are the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 67,738.41 and 67,687.68 shares being released and allocated for the Plan years ended December 31, 2024 and 2023, respectively.

Future payments to be made on the note payable are as follows:

Year ending December 31,	Principal	Interest	Total
2025	\$ 1,239,899	\$ 324,678	\$ 1,564,577
2026	1,276,476	288,101	1,564,577
2027	1,314,132	250,445	1,564,577
2028	1,352,899	211,678	1,564,577
2029	1,392,809	171,768	1,564,577
Thereafter	4,429,838	263,893	4,693,731
Total	\$ 11,006,053	\$ 1,510,563	\$ 12,516,616

Note 7 - COMPANY DIVIDENDS

The Company paid dividends to the Plan totaling \$1,171,407 and \$788,471 during the years ended December 31, 2024 and 2023, respectively. Dividends on allocated shares in the amount of \$468,510 and \$250,019, respectively, were applied to debt service. This is reported as a transfer from the allocated accounts to the unallocated accounts on the statement of changes in net assets (deficit) available for benefits. As required by the Plan document, the current appraised value of the shares returned to participant accounts in exchange for the use of such dividends was at least equal to the current value of such dividends.

Note 8 - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the company by letter dated April 9, 2020, that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. The Plan trustee and Plan administrator believe that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in the common stock of MediaMosaic, Inc. (d.b.a The Mosaic Company) and has indebtedness guaranteed by the Company. The trustee is an individual appointed by the Company who is also a stockholder of the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company pays for certain plan expenses. The Plan also has a number of service providers. Such providers are parties-in-interest under ERISA.
