- **Timely deliverables and follow-through.** We commit to planning and executing engagements to meet your deadlines. We understand that financial reporting should provide value and ensure compliance, not hinder your operations.
- **Efficiencies in your engagements.** We incorporate advanced technology to create efficient processes with less time required of your staff. This includes day-to-day engagement work as well as remote and offsite options.

Employee Benefit Plan Expertise

Getting your benefit plan audit completed and filed on time is your priority and should be your auditor's. Timely filing, along with responsiveness and accessibility, as well as solid expertise set the Employee Benefit Plan Team of Smith + Howard apart. Unlike many other firms who dabble in benefit plan audits, we have assembled a national team that focuses year-round solely on benefit plan audits. You can have confidence that our EBP professionals understand the regulatory and compliance standards related to ERISA and execute your engagement to ensure compliance in a timely, efficient and cost-effective way.

When measured against the U.S. Department of Labor's definition of qualified firms, we stand apart in serving hundreds of benefit plan audit clients. You also benefit from our ability to coordinate with your plan service providers. We have worked with third party administrators and other plan advisors across the country and leverage those relationships and knowledge to deliver a seamless process for you.

Our benefit plan clients include public and private businesses, with participants ranging from the minimum to over 21,000 and assets that range from start-up plans to those valued at over \$1 billion. Benefit plan audits that we perform include:

- 401(k) Plans (full scope and ERISA Section 103(a)(3)(C) audits)
- 401(a) Welfare Benefit Compensation Plans
- 403(b) Plans (full scope and ERISA Section 103(a)(3)(C) audits)
- Defined Benefit Plans (full scope and ERISA Section 103(a)(3)(C) audits)
- Employee Stock Ownership Plans
- Health and Welfare Plans (full scope and ERISA Section 103(a)(3)(C) audits)
- Multiple Employer Plan (MEP)
- Pooled Employer Plan (PEP)

Employee Benefit Plan Expertise

We are subject to the highest level of quality review by the Public Company Accounting Oversight Board, and we have received the best reports possible from them for the quality of our benefit plan audits. We are members of the AICPA Employee Benefit Plan Audit Quality Center (EBPAQC) since 2004, the year the EBPAQC was established.

Department of Labor Criteria

The U.S. Department of Labor (DOL) has been emphasizing the importance of selecting a “qualified” accounting firm to perform benefit plan audits. When measured against the five criteria set out by the DOL, Smith + Howard more than proves our EBP practice as qualified. Failure to submit an EBP audit that meets standards may result in actions or fines by the DOL, resulting in unnecessary time and money spent on trying to resolve the situation. Smith + Howard has never been involved with any audit failures with the DOL.

Benefit Plan Affiliations

Audit Approach

Employee Benefit Plan Audit

Our EBP team possesses extensive education and training. You will find that our audit approach and procedures have been designed in a very organized, systematic and efficient manner that is cost effective and considerate of your time.

Specific Training That Sets Us Apart

Annual training is another criterion of the DOL. Our benefit plan professionals regularly attend internal and annual national conference training sessions. These conferences, such as the Employee Benefit Plan (EBP) Conference and EBP Regulatory Update, are hosted by the American Institute of Certified Public Accountants. In addition, our EBP professionals have presented at EBP conferences and serve as hosts for an annual EBP seminar for clients.

On-Site vs. Remote

We are willing to come on-site at the client's preference. We utilize a secure, online portal called Suralink to exchange information for the audit. More on technology in the audit on page 7.

Audit Approach

Technology in the Audit

Workpapers along with any information you provide us and any other data you have in electronic format are scanned and filed electronically and securely. This increases efficiency in the review and tax processes, reduces time required of your staff and provides for more integrated and effective review and tax processes.

- The Suralink Professional Document Exchange platform we use combines a dynamic “Provided by Client” (PBC) list, assignment workflow and secure file hosting to deliver a more efficient and organized engagement. Everyone involved has a real-time view of the document collection process.
- IDEA is a data extraction and analysis tool that runs system checks to assess data reliability and detect system weaknesses and allows us to get a big picture perspective on activity within your accounting system and business year-over-year. Benefits include completeness testing, journal entry and posting dates and comparison of employee to vendor detail.

Timing and Communication

We commit to planning and executing engagements to meet your deadlines. We understand the importance of efficiency and accuracy in EBP audits. With our combined expertise and streamlined processes, we deliver timely audits without compromising quality.

Clear and proactive communication is a core value within our team, as we believe that it is the foundation upon which successful partnership is built. We are committed to prioritizing front-end communication between our team and yours, ensuring that you receive the highest level of value and satisfaction. Whether it be through our advanced technology or a simple phone call, we ensure that your engagement is completed seamlessly.

We believe that a successful partnership with you includes communication throughout the year, and we invite you and your team to contact us at any time. We hold fast to our values, and we make sure our clients have everything they need to succeed.
