INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
The Washington Trust Company 401(k) Plan
Westerly, Rhode Island

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Washington Trust Company 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section -

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information Required by ERISA

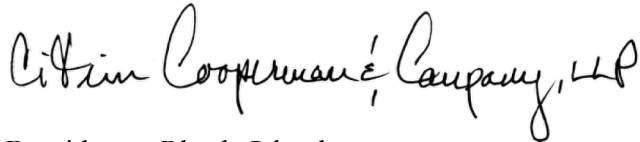

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Supplemental Information Required by ERISA (Continued)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE WASHINGTON TRUST COMPANY 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

Note 1 - Description of Plan

The following brief description of The Washington Trust Company 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all employees of The Washington Trust Company, of Westerly and its subsidiaries (collectively, the “Employer”) who have completed three months of service. It became effective and contributions commenced as of July 1, 1985. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. As required by the Internal Revenue Service (“IRS”), the Plan administrator amended and restated the previously adopted Fidelity Basic Plan Document No. 17 (“Fidelity Basic Plan”) to include amendments, regulatory changes and other enhancements, since its initial adoption, so that the Plan can maintain its tax-qualified status. The adoption of the amended and restated Fidelity Basic Plan became effective on May 25, 2021.

The Plan adopted amendments, effective in 2024, to update and expand certain eligibility requirements. These amendments included the elimination of the three-month service requirement, as employees are eligible on the date they start employment. In addition, updates were made to participant eligibility requirements pertaining to non-elective employer contributions and rollover contributions.

Contributions

Participants may contribute up to a maximum of plan compensation as defined by the Plan, subject to annual IRS dollar limits. Participants may contribute to the Plan on a pre-tax, Roth, or after-tax basis, subject to a limit of the lesser of 75% of plan compensation or the IRS dollar limit. The plan allows for catch-up contributions for participants who have attained age 50.

Employee contributions are made via payroll deductions to the Plan, and may also be referred to as elective deferrals. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants may make changes to their deferral election at any time, with such changes generally becoming effective in the next payroll that is administratively feasible following the date of change.

The Plan contains automatic enrollment and automatic increase features. When an employee becomes eligible to participate in the Plan, the employee is automatically enrolled with a deferral rate, unless they affirmatively elect not to participate in the Plan or make an alternative deferral rate election. The automatically enrolled deferral rate is 5% and this rate is increased by 1% each January following or coinciding with the six-month anniversary of Plan participation until the deferral rate reaches a maximum as stated in the Plan. The maximum stated in the Plan is 10%.

The Plan provides for an Employer matching contribution of 100% of the first 1% of compensation and 50% of the next 4% of such compensation an employee elects to contribute, up to a maximum match of 3% of a participant’s compensation. The Plan also provides for a true-up contribution that ensures that participants receive the full employer match based on their annual contribution level.

The Plan provides for a non-elective employer contribution of 4% of Plan compensation for eligible participants.

Participant Accounts

Each participant’s account is credited with the participant’s elective deferrals or contributions, the Employer’s contributions and an allocation of the Plan earnings.

Participants may elect to have their accounts invested in one or more of the investment funds offered within the Plan. Allocations of Plan earnings are based upon account balances in the Plan’s various investment funds. The

THE WASHINGTON TRUST COMPANY 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

benefit to which a participant is entitled is the benefit that can be provided from the participant's account. If no investment election is made by a participant, all account balances of a participant, including deferrals, default to a specified investment in the Plan.

Vesting

Participants are fully vested immediately in their deferrals and contributions. Participants become fully vested in the Employer contributions after two years of service.

Notes Receivable from Participants

Participants may elect to borrow up to the lesser of \$50,000 or 50% of the participant's account balance; provided however that the loan(s) cannot be funded from the employer contributions made after January 1, 2008 and related earnings. The minimum loan amount is \$1,000. Principal and interest is paid ratably through payroll deductions. The notes receivable are secured by the balance in the participant's account and bear interest based on prevailing interest rates as determined by the Plan recordkeeper. Participants may have up to two outstanding loans at any point in time. Loan terms cannot exceed 5 years, unless the loan is used towards the purchase of a participant's primary residence, in which case the loan term cannot exceed 15 years.

Forfeitures

Upon separation from service, the nonvested portion of the participant's account is forfeited to the Plan. These forfeitures may be used periodically to restore previously forfeited amounts, to reduce future employer contributions and/or to pay Plan administrative expenses. During the years ended December 31, 2024 and 2023, forfeited amounts totaling \$95,550 and \$99,454, respectively, were used to reduce employer contributions. The Plan's forfeiture account balance was immaterial at both December 31, 2024 and 2023.

Payment of Benefits

Participants may make in-service discretionary or hardship withdrawals from their accounts. Prior to age 59 ½, discretionary withdrawals are limited to certain sources or events. Participants who have attained age 59 ½ may make a discretionary withdrawal of the participant's elective deferrals and contributions, employer contributions made prior to January 1, 2008, and related earnings.

Hardship distributions are available to all participants, and are subject to IRS restrictions including the reason for which a distribution can be allowed and the amount of the distribution. Hardship distributions are limited to employee deferrals and contributions as defined in the plan document (but not earnings on deferrals), and Employer contributions made prior to January 1, 2008.

Upon separation from service due to death, disability, retirement or other termination of employment, a participant may receive a full or partial distribution of the fully vested value of the participant's account.

Net Transfers

Participants may elect to transfer any or all of their account balances within the various investment funds offered by the Plan.

Note 2 - Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

THE WASHINGTON TRUST COMPANY 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Dividends are recorded as income on the ex-dividend date. Interest income is recorded on the accrual method.

Other Income

Other income includes revenue credits associated with Plan recordkeeping services and these credits are included in the Plan's cash equivalents balance. The Plan's revenue credit account balance totaled \$83,532 and \$72,687, respectively, at December 31, 2024 and 2023.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus any unpaid accrued interest. No allowance for credit losses was deemed necessary as of December 31, 2024 and 2023. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Fees related to the administration of notes receivable from participants and distributions to participants are charged directly to the participant's account and are included in administrative expenses when incurred. Trustee and recordkeeping fees are also included in administrative expenses when incurred. Investment related expenses are included in net appreciation (depreciation) in fair value of investments. Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements.

Subsequent Events

The Plan has evaluated subsequent events through August 21, 2025, the date the financial statements were available to be issued. There were no subsequent events that required disclosure under GAAP, except as disclosed in Note 10.

Note 3 - Plan Termination

Although the Employer does not have any present intention to terminate the Plan, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 4 - Fair Value

Fair value is a market-based measurement, not an entity-specific measurement. Fair value measurements are determined based on the assumptions the market participants would use in pricing the asset or liability. In addition, GAAP specifies a hierarchy of valuation techniques based on whether the types of valuation information ("inputs") are observable or unobservable. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Plan's market assumptions. These two types of inputs have created the following fair value hierarchy:

THE WASHINGTON TRUST COMPANY 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

- Level 1 - Quoted prices for *identical* assets or liabilities in active markets.
- Level 2 - Quoted prices for *similar* assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are *unobservable* in the markets and which reflect the Plan’s market assumptions.

The Plan uses fair value measurements to record fair value adjustments to the securities held in the investment portfolio. The asset’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies utilized for assets at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Cash Equivalents

Cash equivalents are valued at the deposit amount plus accrued interest, which approximates fair value and are classified as Level 1.

Mutual Funds

Mutual funds, which consist of fixed income funds, lifecycle and other asset allocation funds, domestic stock funds and international stock funds, are valued at quoted market prices in active markets, which represent the net asset value of the funds. Mutual funds are classified as Level 1.

The tables below present the Plan’s assets reported at fair value on a recurring basis.

Note 5 - Federal Income Taxes

The Fidelity Basic Plan received an IRS opinion letter dated June 30, 2020 indicating that the Fidelity Basic Plan was designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended and restated since the Fidelity Basic Plan received its opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Notes to Financial Statements December 31, 2024 and 2023

GAAP requires the Plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor (“DOL”). The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there were no uncertain tax positions taken or expected to be taken that would require recognition of an asset or liability or disclosure in the financial statements. The Plan is subject to routine audits by the IRS and DOL, however, as of the date these financial statements were available to be issued, there were no audits for any tax periods in progress.

Note 6 - Unaudited Information Certified or Provided by Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of information regarding the Plan as of December 31, 2024 and 2023 and for the years then ended, which was prepared by or derived from information prepared by Fidelity Management Trust Company, Trustee of the Plan (the Trustee), and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that such information along with the information included in the Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024 is complete and accurate.

As of and for the years ended December 31,	2024	2023
Investments, at fair value	\$141,087,953	\$129,418,802
Notes receivable from participants	1,865,448	1,614,420
Net appreciation in fair value of investments	14,009,183	16,999,029
Dividends and interest	4,538,965	2,854,272
Interest income on notes receivable from participants	115,739	65,305

Note 7 - Party-in-Interest Transactions

The Plan's assets, which consist principally of mutual funds, are held by Fidelity Management Trust Company (“Fidelity”), Trustee of the Plan. Accordingly, Fidelity is considered a party-in-interest.

Notes receivable from participants consists of loans made against the participant's account balance in the Plan and are considered party-in-interest transactions.

Contributions are held and managed by the Trustee, which invests cash received, interest and dividend income in accordance with the directives of the participants and makes distributions to participants.

Administrative expenses for trustee and recordkeeping fees paid to Fidelity are paid directly by the Plan.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 9 - Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads, or 12b-1 fees. The 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the mutual funds. The sales charges are deducted prior to the allocation of the Plan's investment earnings (losses); therefore, they are not separately identifiable as an expense.

Notes to Financial Statements December 31, 2024 and 2023

Note 10 - Subsequent Events

In August 2025, surplus assets from the Employer's defined benefit pension plan, which was recently terminated, are expected to be transferred directly to the Plan (a qualified replacement plan). The one-time transfer of approximately \$10.5 million will be used to fund future non-elective employer contributions.
