(1) Bonus Paid represents an allocation of contingent compensation (cash or non-cash) payable to the named producer on all policies that were considered in determining the producer's eligibility for and/or the actual calculation of any such bonus payment. These amounts are not directly charged to your policy premium rates but represent overhead expense incurred by The Hartford.

(2) Additional Compensation represents an allocation of non-contingent compensation (cash or non-cash) payable to the named producer on all policies that were considered in determining the producer's eligibility for and/or the actual calculation of any such additional compensation. These amounts are not directly charged to your policy premium rates but represent overhead expense incurred by The Hartford.

The Hartford compensates producers for the sale and service of our products. In most cases, producers are paid a commission, which is fixed or based on a percentage of the premium. In addition, producers may be eligible for various forms of incentive compensation, including contingent commission and other non-cash awards. Incentive compensation is based upon a variety of factors that may include the level of premium written, retention and growth of premium, overall profitability, or other performance measures. Some of our producers elect not to accept some or all forms of compensation from The Hartford. Please direct specific questions about your insurance producer's compensation to your producer.
