## Independent Auditor's Report

Plan Administrator and Trustees  
Precise Products Corporation Employee Stock Ownership Plan

We have audited the accompanying financial statements of Precise Products Corporation Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of November 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended November 30, 2024, and the related notes to the financial statements.

### **Management's Responsibility for the Financial Statements**

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of November 30, 2024 and 2023, and the changes in net assets available for benefits for the year ended November 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

## Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4(i) Schedule of Assets (held at end of year) as of November 30, 2024, referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

November 30, 2024 and 2023

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

1. Basis of Presentation

The accompanying financial statements of Precise Products Corporation Employee Stock Ownership Plan (the Plan) have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (US GAAP).

2. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date.

Purchases and sales are recorded on the trade date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan presents, in the statement of changes in net assets available for benefits, the net change in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

3. Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. As of November 30, 2024 and 2023, a particularly sensitive estimate made by the Plan includes the fair value of the Plan's investment in the common stock of Precise Products Corporation (the Employer). Actual results could differ from those estimates.

4. Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**

5. Cash

The Plan maintains cash balances primarily in one financial institution located in Minnesota. At times, the cash balances may be in excess of the federally insured limits.

**NOTE B - DESCRIPTION OF THE PLAN**

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Employer established the Plan effective as of December 1, 1978. The Plan was amended and restated as of December 1, 2014, and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act (ERISA) of 1974. The Plan is administered by Boulay, a third-party administrator appointed by the Employer's board of directors. The Plan has two trustees of which both are on the board of directors of the Employer.

The Plan purchased shares of the Employer's common stock between 1978 and 1999 from the stockholders for a price ranging from \$584 to \$928 per share. Certain shares were purchased in exchange for notes payable to the stockholders. Stock purchases made after 1999 are made directly from the Employer using the latest available fair market value (FMV) which is based on an annual appraisal. The Employer's common stock is held in a trust established under the Plan.

2. Eligibility

Employees are generally eligible to participate in the Plan upon attaining 18 years of age and after one year of service, providing they worked at least 1,000 hours during such Plan year. Participants will enter the Plan on the first day of the first month or seventh month of the Plan year following the date the eligibility requirements are met. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Employer contributions for such year.

NOTES TO FINANCIAL STATEMENTS

November 30, 2024 and 2023

**NOTE B - DESCRIPTION OF THE PLAN - CONTINUED**

3. Contributions

The Employer is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's earnings, equal the amount necessary to enable the Plan to make total contribution payments. Employee contributions are not permitted.

4. Payments of Benefits

Distributions on account of death, disability, or retirement, with balances less than \$5,000 are made in a lump sum in the Plan year following the event. Distributions on account of death, disability, or retirement, with balances greater than \$5,000 are made in five annual installments starting in the Plan year following the event, with balances less than \$5,000 distributed in a lump sum. Distributions for other separations from service commence in the fifth Plan year following the separation from service. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash.

5. Voting Rights

The trustees generally vote the stock in the participants' accounts. By voting the stock, the trustees and the other shareholders of the Employer decide who will be on the Employer's board of directors. In general, the trustees vote on matters which require or are submitted for a shareholder vote. The participants, however, will have the right to vote on certain major corporate transactions; such as, a merger or liquidation of the Employer.

6. Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Employer's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance from which the earnings are attributed.

Precise Products Corporation Employee Stock Ownership Plan

NOTES TO FINANCIAL STATEMENTS

November 30, 2024 and 2023

**NOTE B - DESCRIPTION OF THE PLAN - CONTINUED**

7. Administrative Expenses

As provided in the Plan agreement, administrative expenses are paid by the Employer.

8. Vesting

If a participant's employment with the Employer ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Employer. Participants vest 20% after two years of service, with an additional 20% per year being vested thereafter until the participant is 100% vested after six years of service, as defined. A participant is 100% vested due to reaching normal retirement age, death or disability.

9. Put Option

Under federal income tax regulations, the Employer stock that is held by the Plan and its participants that is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Employer buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Employer can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

10. Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Employer common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify will have the cash proceeds transferred to the Precise Products Corporation Profit Sharing /401(k) Plan.

Precise Products Corporation Employee Stock Ownership Plan

NOTES TO FINANCIAL STATEMENTS

November 30, 2024 and 2023

**NOTE B - DESCRIPTION OF THE PLAN - CONTINUED**

11. Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during the years ended November 30, 2024 and 2023 totaled \$7,023 and \$9,269, respectively. There were no unallocated forfeitures held in suspense as of November 30, 2024 and 2023.

**NOTE C - INVESTMENTS**

The Plan's investments, at November 30, are as follows:

	<u>2024</u>	<u>2023</u>
Precise Products Corporation common stock:		
Number of shares	3,916	3,916
Cost	\$ <u>3,234,880</u>	\$ <u>3,234,880</u>
Estimated fair value	\$ <u>7,770,793</u>	\$ <u>7,433,038</u>

**NOTE D - FAIR VALUE MEASUREMENTS**

Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1        Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Precise Products Corporation Employee Stock Ownership Plan

NOTES TO FINANCIAL STATEMENTS

November 30, 2024 and 2023

**NOTE D – FAIR VALUE MEASUREMENTS - CONTINUED**

Level 2            Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3            Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2024 and 2023.

*Employer Securities:* Valued at estimated fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the cost and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable and estimated fair value of Employer assets and liabilities.

The valuation process involves Plan management's selection of an independent appraiser under contract with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Employer. The appraiser prepares a preliminary report which the board of directors and trustees review in detail, discuss and approve.

**NOTE D – FAIR VALUE MEASUREMENTS - CONTINUED**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2024 and 2023:

		Investments at Fair Value as of November 30, 2024			
		Level 1	Level 2	Level 3	Total
Employer stock	\$	-	-	7,770,793	7,770,793

  

		Investments at Fair Value as of November 30, 2023			
		Level 1	Level 2	Level 3	Total
Employer stock	\$	-	-	7,433,038	7,433,038

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended November 30, 2024:

Balance, beginning of year	\$	7,433,038
Total gain included in changes in net assets		<u>337,755</u>
Balance, end of year	\$	<u>7,770,793</u>
Change in unrealized gain for the period included in changes in net assets held at the end of the reporting period	\$	<u>337,755</u>

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Precise Products Corporation Employee Stock Ownership Plan

NOTES TO FINANCIAL STATEMENTS

November 30, 2024 and 2023

**NOTE D – FAIR VALUE MEASUREMENTS - CONTINUED**

The following table presents qualitative information about Level 3 fair value measurements as of November 30, 2024:

	Fair Value as of November 30, 2024	Valuation Technique	Unobservable Input	Range
Employer common stock	\$ 7,770,793	Cost and income approach	Public comparables Revenue multiple EBITA multiple Discount for lack of marketability Net income Weighted average cost of capital Discount rate	90%- 110%

The Employer common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the cost and income valuation techniques consistent with prior years.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**NOTE E – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

The Plan invests in the Employer common stock and had indebtedness guaranteed by the Employer. As described in Note B, the Employer pays all Plan expenses. These are related party and party-in-interest transactions.

Boulay is the Plan administrator and record keeper, which are party-in-interest transactions.

Precise Products Corporation Employee Stock Ownership Plan

NOTES TO FINANCIAL STATEMENTS

November 30, 2024 and 2023

**NOTE F - RISK AND UNCERTAINTIES**

The Plan's investments consist primarily of the Employer's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and due to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the investment will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

**NOTE G - PLAN TERMINATION**

The Employer reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the board of directors will direct the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

**NOTE H - TAX STATUS**

The Plan has received a determination letter from the IRS dated October 3, 2016, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date. There were no reconcilable differences between the financial statements and the Form 5500 as of November 30, 2024 and 2023 and for the year ended November 30, 2024.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTES TO FINANCIAL STATEMENTS

November 30, 2024 and 2023

**NOTE I - SECURE ACT 2.0**

On December 29, 2022, President Biden signed into law the Consolidated Appropriations Act of 2023, which includes the package of retirement provisions referred to as "SECURE Act 2.0". SECURE Act 2.0 contains over 90 new retirement provisions continuing the reforms that began with the 2019 SECURE Act. These provisions have varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the Plan administrator will determine the optional provisions to elect and amend the Plan document accordingly. Most of the significant provisions go into effect in 2024 and thereafter. Accordingly, there is no material impact to the Plan's 2024 financial statements.

**NOTE J - SUBSEQUENT EVENTS**

The Plan has evaluated subsequent events through August 25, 2025, the date which the financial statements were available to be issued.
