Independent Auditor's Report

To the Trustees and Participants of the
Air Tractor Holdings, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Air Tractor Holdings, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents as of December 31, 2024 is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The Trustees and Participants of the
Air Tractor Holdings, Inc. Employee Stock Ownership Plan

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Air Tractor Holdings, Inc.

Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Air Tractor Holdings, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

The Plan, established as of January 1, 2007, is a stock bonus plan covering all employees of Air Tractor, Inc. who have one year of service and are age twenty-one or older. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Air Tractor Holdings, Inc. (the Company) acts as the Plan administrator and, accordingly, is responsible for compliance with the reporting and disclosure rules under ERISA. The Plan is administered by an ESOP Committee (consisting of one or more members) appointed by the Company or, in the absence of such, by the Board of Directors of the Company.

The Plan purchased common shares of the Company using the proceeds of a borrowing from the Company and holds the stock in a trust established under the Plan. The borrowings will be repaid over the term of the debt by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated to the participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the years then ended present separately the assets, liabilities, and changes therein pertaining to:

- 1) The accounts of employees with vested rights in allocated common stock (allocated); and
- 2) Stock not yet allocated to employees (unallocated).

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Participant Accounts

At each valuation date (December 31), the net income of the Plan, exclusive of any gain or loss on Company common stock, is allocated to the participants in the ratio which the participant's interest in the Plan assets other than Company stock, determined as of the beginning of the year, bears to the total interest of all participants. Any gain or loss on Company common stock during the year is allocated based on the number of shares held by each participant on the valuation date. At the end of each year, the employer contribution to the trust and forfeitures are prorated among all participants having completed at least 1,000 hours of service and who are employed by the Company on December 31 in the ratio which the total aggregate compensation of each such participant for the Plan year bears to the sum of the total aggregate compensation of all such participants for the Plan year. On December 31, all net assets available for benefits are allocated to participants as defined above.

Employee Stock Ownership Plan

Notes to Financial Statements

Vesting

Vesting in the proportionate share of employer contributions, net income and forfeitures is as follows:

- a. Upon completion of two years of service, the participant shall have a vested interest of 20%. This vested interest shall increase 20% for each additional year of service so that at the end of six years of service the participant shall be 100% vested.
- b. A participant's account balance shall be fully vested upon the attainment of normal retirement age (generally, the later of the date the participant reaches age 65 or the date which is the fifth anniversary of an employee's participant commencement date). Additionally, in the event of the death or disability of a participant, such amounts shall be fully vested.

Payment of Benefits

Under the terms of the Plan, generally the ESOP Committee will direct the Plan's trustee to distribute the participant's vested account balance as soon as administratively practicable after the close of the Plan year in which the participant incurred a separation from service. Notwithstanding the preceding sentence, the ESOP Committee will direct the Plan's trustee to commence distributions of the participant's vested account balance to such participant not later than the earlier of the dates described below:

- a. Unless the participant elects otherwise, sixty (60) days after the Plan year in which the latest of the following events occurs: (i) the participant attains normal retirement age; (ii) the participant's tenth (10th) anniversary of the year in which the participant commenced participating in the Plan; or (iii) the participant's separation from service, and
- b. April 1 of the calendar year following the later of (i) the calendar year in which the participant attains age 73 or (ii) the calendar year of the participant's retirement.

Forfeited Accounts

The amount of forfeitures allocated to eligible plan participants during 2024 was \$81,072, which equates to 188.435 forfeited shares allocated, based on a \$430.24 share value. The amount of forfeitures allocated to eligible plan participants during 2023 was \$12,251, which equates to 32.5763 forfeited shares allocated, based on a \$376.06 share value.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to major corporate events, as defined in the Plan agreement. For any allocated securities for which it has not received direction from a participant (or beneficiary), the Plan's trustee shall vote. Additionally, the trustee shall vote for all unallocated employer securities.

Employee Stock Ownership Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company stock are reported at fair value. See Note 4 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Management's Review of Subsequent Events

The Plan has evaluated subsequent events through August 27, 2025, the date the financial statements were available to be issued.

Note 3. Investments

During the year ended December 31, 2008, the Plan purchased 1,000,000 shares of common stock of Air Tractor, Inc. at a cost of \$32,000,000. In conjunction with a corporate reorganization effective May 31, 2017, the Plan contributed all of the issued and outstanding shares of common stock of Air Tractor, Inc. to the Company, and received, in consideration of such contribution, all of the issued and outstanding shares of the Company.

During the year ended December 31, 2023, the Plan purchased 150,000 shares of treasury stock of the Company at a cost of \$53,037,000.

Notes to Financial Statements

The appraised value of each share of common stock was \$430.24 and \$376.06 at December 31, 2024 and 2023, respectively. Net appreciation in fair value of the Plan's investments in plan sponsor common stock was \$50,537,700 and \$21,296,686 for the years ended December 31, 2024 and 2023, respectively.

The Plan's investments, at December 31, 2024 and 2023, are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	311,652	621,122	308,523	638,839
Cost	\$ 11,178,804	\$ 66,906,977	\$ 9,872,728	\$ 68,679,840
Fair value	\$ 134,085,209	\$ 267,231,501	\$ 116,023,067	\$ 240,241,702

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market funds: Valued using the NAV of the fund shares.

Company common stock: Valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years.

Notes to Financial Statements

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

	2024	2023
Level 1:		
Money market fund	\$ 32,389	\$ 281,581
Level 3:		
Plan sponsor's common stock	401,316,710	356,264,769
Total investments at fair value	\$ 401,349,099	\$ 356,546,350

Changes in Fair Value of Level 3 Assets

The Plan distributed 14,587 and 20,630 shares valued at \$5,485,757 and \$7,294,402, respectively, of the Plan's level 3 assets for the years ended December 31, 2024 and 2023.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Plan sponsor common stock held by the Plan is reported at fair value based upon an independent appraisal, the most recent of which was performed as of December 31, 2024. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Air Tractor Holdings, Inc. Common Stock	\$401,316,710	Combination of Market and Income approaches	EBITDA Selection of EBITDA and revenue multiples projections Lack of marketability discount Discount rate Weighting of the approaches to value Guideline Public Companies ("GPCs") Discounts to the GPC multiples Selection and weighting of GPC multiples Terminal value & terminal growth rate Debt-free, cash-free net working capital ESOP amortization benefit Control Premium Investments by the Company Management incentive plan dilution

Air Tractor Holdings, Inc.

Employee Stock Ownership Plan

Notes to Financial Statements

The valuation process involves the selection of an appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The ESOP trustee and Company management review and approve the stock appraisal.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Loan Payable

Effective November 29, 2023, the Company refinanced note 1 with a non-recourse promissory note to Air Tractor, Inc. that matures on December 1, 2058 (refinanced note 1). Payments on refinanced note 1 are due annually in the amount of \$1,168,027. Refinanced note 1 bears an interest rate of 4.83% and is secured by the Plan's investment in common stock of the Company.

Effective November 29, 2023, the Company entered into a non-recourse promissory note to Air Tractor, Inc. that matures on December 1, 2063 (note 2). Payments on note 2 are due annually in the amount of \$3,021,579. Note 2 bears an interest rate of 4.83% and is secured by the Plan's investment in common stock of the Company.

The scheduled principal amortization of the loans for the next five years and thereafter is as follows:

Year Ending December 31,	
2025	716,363
2026	750,963
2027	787,235
2028	816,041
2029	864,673
Thereafter	<u>67,974,532</u>
	<u>\$ 71,909,807</u>

Note 6. Related Party Transactions and Party in Interest Transactions

The Plan invests in Company common stock and has a loan payable to the Company. These are related party and party-in-interest transactions. Additionally, the Plan has a number of service providers. Such parties are parties in interest under ERISA.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees and certain other Plan expenses are paid directly by the Company.

Note 7. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 8. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 24, 2017, stating that the Plan qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan's investments consist of the Company stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
