Savings and Loan Association of Kansas City
EIN/PN: 44-0246815 / 003

(iv) Retirement

Rates varying by age, as follows:

Age	Rate
45 - 59	5.0%
60 - 62	30.0%
63 - 64	50.0%
65+	100.0%

Retirements from active and terminated vested status are assumed to commence receiving payments immediately according to the rates above.

(v) Marital Status

For valuing death benefits, 100% of Participants are assumed to be married with males 3 years older than their female spouses.

(vi) Form and Timing of Payment

Terminations and retirees from active status are assumed to elect the following forms of payment: 25% elect the normal form of payment (i.e. single life annuity with death benefit feature); 20% elect a single life annuity; and 55% elect a joint and survivor annuity with 100% continued to a beneficiary and 10 years of payments guaranteed. No employees are assumed to elect a refund of employee contributions. The pre-retirement death benefit is assumed to be paid as a lump sum.

ACTUARIAL METHODS

a. Funding Cost Method

The actuarial cost method is the Unit Credit cost method.

On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant.

The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Asset Valuation Method

For funding purposes, the actuarial value of assets is equal to the market value. Accrued contributions are discounted back to the valuation date at the prior year's effective interest rate.

c. Valuation Procedures

No actuarial liability is accrued for non-vested terminated employees, even if a break in service had not occurred as of the actuarial valuation date. An actuarial liability is accrued for all other terminated employees, even if a claim for benefits has not been made.

2024 Schedule SB, Part V – Summary of Plan Provisions
Defined Benefit Plan for Former Employees of Inter-State Federal
Savings and Loan Association of Kansas City
EIN/PN: 44-0246815 / 003

The following is a summary of the major plan provisions used to determine the plan's financial position as of January 1, 2024. It should not be relied upon for determining individual plan benefits.

Effective Date

The Plan was originally effective July 1, 2017. It was most recently amended in 2019.

Status of Plan

The plan is closed to new members, but has ongoing benefit accruals for current members.

Eligibility

Employees who were employed by Inter-State Federal Savings and Loan Association of Kansas City ("Inter-State") immediately prior to the merger of Inter-State and First Federal Bank on May 1, 2016 are eligible to participate in the Plan effective July 1, 2017. Original participation in the prior plan began on the first of the month following the attainment of age 21 and 6 months of employment, except that no new members were eligible to participate after May 1, 2016.

Vesting Service

Vesting Service is credited for the entire period of employment with Inter-State and First Federal Bank, including fractional periods expressed in terms of days. An Employee will also receive credit for any period of severance of less than 12 consecutive months.

Benefit Service

Benefit Service is credited for the total years and months of service employed by Inter-State and First Federal Bank after original participation in the plan. A full month of Benefit Service is credited if the member worked at least one hour during the month.

Earnings

Earnings is determined for a given calendar year as the basic annual salary rate as of January 1st. Special payments such as overtime, bonuses, or commissions are excluded. Changes in the basic annual salary rate during the year are not recognized.

Final Average Earnings

Final Average Earnings is the average annual Earnings over the 5 consecutive years of highest Earnings while being credited with Benefit Service (or during all the years of Benefit Service if less than 5).

Pension Benefit

The annual pension benefit is equal to 2% times Final Average Earnings times Benefit Service.

Normal Retirement

The Normal Retirement Date is the first of the month coinciding with or next following the attainment of age 65. A member is fully vested on his normal retirement date. The Pension Benefit is determined as of the Normal Retirement Date.

2024 Schedule SB, Part V – Summary of Plan Provisions
Defined Benefit Plan for Former Employees of Inter-State Federal
Savings and Loan Association of Kansas City
EIN/PN: 44-0246815 / 003

Early Retirement

A member may retire early on or after attaining age 45 and completing 5 years of Vesting Service. The Pension Benefit is determined as of that early retirement date, with such monthly benefit reduced by 3% per year by which the early retirement date precedes the Normal Retirement Date.

Postponed Retirement

A member may postpone retirement beyond his normal retirement date. The Pension Benefit at the late retirement date is the greater of the benefit determined as of the late retirement date, or the Actuarial Equivalent of the benefit determined as of the Normal Retirement Date.

Vested Benefit

A member who terminates employment for any reason other than retirement, death, or disability, and after completing five years of Vesting Service or attaining age 65, is entitled to a Pension Benefit determined as of the date of termination deferred to normal retirement age.

Special Early Retirement Window

The plan was amended in April 2019 to provide enhanced pension benefits to certain eligible employees who elected to retire in a limited window. Eligible employees were any active employees who would have attained age 60 prior to September 15, 2019. If an eligible employee elected to retire in the limited window between April 24, 2019 and June 10, 2019, they would receive their full accrued pension benefit at retirement, without any reduction for early retirement.

Pre-Retirement Death Benefit

Upon the death of a member who is survived by a spouse, the spouse will receive a lump sum death benefit equal to 12 times the annual Pension Benefit, less the sum of the payments made prior to death, if any.

If a participant dies while in active service, the lump sum death benefit is the larger of that described above, or equal to 100% of the last 12 months' salary, plus an additional 10% of such salary for each year of Benefit Service until a maximum of 300% of such Salary is reached for 20 or more years, plus a refund of the employee contributions with interest. The beneficiary may elect to have the benefit paid in the form of installments over a period of up to 10 years, or as an actuarially equivalent lifetime annuity.

Disability Benefit

The plan does not provide for any enhanced disability benefits. Upon disability, a member is entitled to his vested accrued benefit based on the early retirement or normal retirement provisions.

Post-Retirement Supplement

Each year after attaining age 66, a retiree will receive an annual increment lump sum payment. The annual increment lump sum is equal to 1% of the retiree's annual Pension Benefit multiplied by the number of years from the calendar year the retiree attained age 65 to the current year.

2024 Schedule SB, Part V – Summary of Plan Provisions
Defined Benefit Plan for Former Employees of Inter-State Federal
Savings and Loan Association of Kansas City
EIN/PN: 44-0246815 / 003

Retirement Adjustment Payment (RAP)

The RAP provides an additional lump sum benefit to those members who 1) met participation requirements for the plan prior to July 1, 1983, and 2) retire after age 55. The RAP lump sum is equal to three monthly installments of the retiree's monthly Pension Benefit (before any optional form modification) and is determined and payable as of the date retirement benefits commence.

Forms of Payment

The basic form of the Pension Benefit is a monthly lifetime annuity with the lump sum death benefit feature described above. The death benefit feature does not apply to the optional forms of payment. Other optional forms, determined as the actuarial equivalent of the basic form, include:

- (a) Monthly lifetime annuity
- (b) Monthly lifetime annuity with 100% continued to the contingent annuitant, with 120 payments guaranteed
- (c) Monthly lifetime annuity with 75% or 50% continued to the contingent annuitant

The Actuarial Equivalent adjustments are based on tables defined in the plan.

Limitations

No benefit for any calendar year may exceed the maximum limitation for that year as defined in Internal Revenue Code Section 415. Earnings in any calendar year are limited by Internal Revenue Code Section 401(a)(17). The plan provides for increasing both dollar limits automatically as such changes become effective.

Contributions

The plan requires employee contributions at a rate ranging from 1.8% to 3.9% per year, depending on age at enrollment in the Plan. Employee contributions earn interest each year at 120% of the Federal mid-term rate.

Changes in Plan Provisions since the Prior Valuation

No plan changes have been reflected since the prior valuation as of January 1, 2023.
