Summary of Plan Provisions

Jewish Federation of Greater Harrisburg Pension Plan is a defined benefit pension plan that was established January 1, 1962, and was last amended and restated effective as of January 1, 2019. The plan year begins January 1 and ends December 31.

Eligibility To Participate

An employee becomes a participant in the Plan on the January 1 or July 1 after the date he meets the following requirements:

- Completes 1 year of eligibility service.
- Attains age 21.

Provided he has not elected to be excluded.

Participation under this Plan was frozen effective December 31, 2013, with respect to employees scheduled to participate on or after that date.

Normal Retirement Benefit

Normal Retirement Date

A participant is eligible for his normal retirement pension as of the first day of the month on or after the participant satisfies the following conditions:

- Attainment of age 65.
- Participation in the Plan for five years.

Normal Retirement Benefit

The normal retirement pension is payable monthly as long as the participant lives, with payments ceasing upon the participant's death.

Normal Retirement Pension Formula

Benefit accruals under this Plan were frozen effective December 31, 2013.

If the participant retires as of his normal retirement date, his monthly pension will equal 1/12 of:

- 1% of average annual compensation, plus
- 0.65% of average annual compensation in excess of the Social Security integration level,

both multiplied by years of benefit service up to 35 years.

PLUS

1% of average annual compensation multiplied by years of benefit service after the first 35 years.

Regardless of the benefit determined under the pension formula, the participant's normal retirement monthly pension will not be less than the accrued pension as of June 1, 2009.

Actuarial Valuation as of January 1, 2024
Summary of Plan Provisions

Social Security Integration Level

The Social Security integration level equals the average of the taxable wage bases over the 35-year period ending with the year the participant is entitled to full Social Security benefits.

Average Annual Compensation

"Average annual compensation" means the participant's annual compensation averaged over the 5-consecutive-year period which produces the highest average in the last 10 consecutive years including the current plan year.

For the purpose of determining average annual compensation, the Plan does not take into account:

- A year in which less than 1,000 hours of service are credited.

Compensation

For the purposes of the Plan, "compensation" means the participant's earnings for the plan year. The Plan takes into account W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Compensation excludes wages payable after employment termination under a severance agreement and wages earned after December 31, 2013.

Accrued Benefit

The accrued benefit on any date other than the normal retirement date is determined according to the normal retirement pension formula, but based upon the participant's compensation and benefit service to date.

Benefit accruals were frozen as of December 31, 2013.

Retirement Payment Options

A participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Lifetime Pension with Guaranteed Period** with guaranteed payments for 60, 120, or 180 months.
- **Joint and Survivor Pension** with 100%, 75% or 50% survivor pension.

If the present value of the vested pension does not exceed \$7,000, a lump sum is the only payment option.

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension.

Employment after Retirement. If a participant in pay status returns to employment, retirement benefits will not be suspended.

Summary of Plan Provisions

Other Retirement Benefits

Late Retirement

If a participant continues working after his normal retirement date, his pension will not commence until he actually retires. The late retirement benefit is the greater of:

- The retirement benefit accrued as of the end of the preceding plan year, as actuarially increased; or
- The normal retirement benefit determined under the pension formula using compensation and benefit service as of December 31, 2013.

Early Retirement

A participant is eligible for early retirement after attainment of age 60 and completion of 5 years of vesting service. The early retirement pension is the actuarial equivalent of the pension accrued to the date of early retirement.

Disability Retirement

A participant will be eligible for a disability retirement if he meets all of the following requirements as of the date he becomes disabled:

- Is actively employed.
- Becomes disabled and remains so for six months.
- Completes 5 years of vesting service.

The participant's disability retirement pension will be the early retirement actuarial equivalent of his accrued pension to the date of disability. A participant is disabled if he is eligible for Social Security disability benefits.

Death Benefit

Preretirement Survivor Benefit

If a participant dies after he has become vested under the Plan but before he begins to receive a retirement pension benefit, his surviving spouse will receive a 50% survivor benefit if he has been married at least one year. Payment will begin on the date on which he first would have been eligible for retirement. The amount of his surviving spouse's benefit is equal to the 50% survivor benefit payable under the joint and 50% survivor pension option, based upon his accrued pension at the date of death and reduced for early commencement of benefits, if applicable. If the participant is not married or has not been married for a full year at the time of death, no benefit will be paid by the Plan.

Summary of Plan Provisions

Termination Of Employment Benefits

Vesting in Accrued Pension

If employment terminates other than by retirement or disability, the amount payable from the Plan is based upon the following vesting schedule:

Years of Vesting Service	Vesting Percentage
0–4 Years	0%
5 or More Years	100%

Time of Payment

The participant may elect payment after his early retirement date, reduced to reflect the early commencement of benefits. No pension payment is available under the Plan prior to early retirement, disability, or death, with one exception. If the present value of the vested accrued benefit does not exceed \$7,000, the lump sum value can be paid following termination of employment.

Forfeitures and Restoration

Forfeiture occurs when the participant terminates employment before being vested. If a participant terminates employment after he is 100% vested and receives a distribution of his accrued pension, he cannot return his distribution to the Plan; the Plan will not count service credited prior to the participant's termination when determining his new accrued benefit.

Service Rules

Eligibility Service Rules

An employee is credited with a year of eligibility service when he completes at least 1,000 hours of service in the 12-month period.

Vesting Service Rules

An employee is credited with a year of vesting service when he completes at least 1,000 hours of service in a plan year.

Benefit Service Rules

A participant is credited with a year of benefit service for each benefit period he completes at least 1,000 hours of service. The benefit period is the 12-month period coinciding with the plan year.

For the purpose of determining years of benefit service, the Plan excludes hours of service after December 31, 2013.

Actuarial Equivalence

Actuarial equivalence is determined as set forth below.

Late Retirement – As described in Appendix L.

Early Retirement – As described in Appendix E. For example, the factor at age 62 is .8 and the factor at age 60 is .6667. The lump sum payment option will be equal to the greater of the present value of the early

Summary of Plan Provisions

retirement benefit or the present value of the normal retirement benefit, in each instance subject to the Code section 417 mortality table and the Code section 417 interest rates requirements.

Monthly Pension – As described in Appendix O. For example, in order to convert from the normal form of benefit to a Joint and 50% Survivor Pension where the spouse is assumed to be the same age, the factor at age 62 is .9200 and the factor at age 60 is .9250. To convert to a Lifetime Pension with 120-Month Guaranteed Period, the factor at age 62 is .9400 and the factor at age 60 is .9500.

Lump Sum – Actuarial equivalence will be determined based on the following mortality table and interest rate assumptions:

Mortality table: The Code section 417 mortality table

Interest rate: The Code section 417 interest rates

Code Section 417 Mortality Table

The Code section 417 mortality table is the Applicable Mortality Table released annually by the Internal Revenue Service.

Code Section 417 Interest Rates

The Code section 417 interest rates are the Segment Rates for the third month preceding the first day of the plan year that contains the annuity starting date.

Changes In Plan Provisions Since the Last Valuation

Effective in 2024, \$5,000 lump sum payment provisions are increased to \$7,000.

Significant Events That Occurred During the Year

From October 1, 2023 to November 30, 2023, the Plan offered a lump sum window to vested former members with accrued benefits.
