### **Wilson College Defined Contribution Retirement Plan**

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the accompanying financial statements of Wilson College Defined Contribution Retirement Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects,

the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## DEFINED CONTRIBUTION RETIREMENT PLAN

### NOTES TO FINANCIAL STATEMENTS

FOR THE PLAN YEARS ENDED DECEMBER 31, 2024 AND 2023

---

#### 1. Description of the Plan

The following description of the Wilson College Defined Contribution Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

##### General

The Plan is a defined contribution plan covering substantially all non-student employees of Wilson College (College). Such employees become eligible once they meet certain service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's Board of Directors is responsible for oversight of the Plan. The Board of Directors determines the appropriateness of the Plan's investment offerings and monitors investment performance.

##### Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined by the Plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participant contributions are defaulted to 2.50 percent of compensation unless an alternative amount or no deferral is selected. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or benefit contribution plans (rollover). The College may make a discretionary match equal to a percentage of eligible compensation determined annually by the College. Only participants whose deferral are greater than or equal to the default deferral rate are eligible for the match. A participant must also obtain one year of service, as defined by the Plan, to be eligible for the discretionary match, unless the participant was active in a 403(b) plan or other qualified retirement plan at another educational institution on their last day of work prior to the employment at the College. For both 2024 and 2023, the College's discretionary match was 7.50 percent. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

## DEFINED CONTRIBUTION RETIREMENT PLAN

### NOTES TO FINANCIAL STATEMENTS

FOR THE PLAN YEARS ENDED DECEMBER 31, 2024 AND 2023

---

#### Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the College's contribution and (b) the Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### Vesting and Forfeitures

Participants are immediately vested in their contributions and the College's contributions plus actual earnings thereon. Forfeitures are used to reduce employer contributions and to pay administrative expenses. Forfeitures totaled \$0 for the years ended December 31, 2024 and 2023.

#### Notes Receivable from Participants

Participants are not permitted to borrow from their fund accounts.

#### Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in their account or an annuity payment, as specified by the Plan.

## **2. Summary of Significant Accounting Policies**

#### Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is

---

the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

#### Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Directors determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and insurance companies. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

#### Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the College. Expenses that are paid by the College are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

#### Payment of Benefits

Benefits are recorded when paid.

#### Reclassifications

Certain reclassifications of amounts previously reported have been made to the accompanying financial statements to maintain consistency between periods presented. The reclassifications had no impact on previously reported net assets available for benefits.

#### Subsequent Events

Subsequent events have been evaluated through the Independent Auditor's Report date, which is the date the financial statements were available to be issued.

### **3. Investment Contract with Insurance Company**

The TIAA Traditional Annuity is composed of fixed annuity contracts that are fully and unconditionally guaranteed by Teachers Insurance and Annuity Association of America (TIAA). The TIAA Traditional Annuity guarantees principal and a minimum interest rate, plus the opportunity for additional amounts in excess of the guaranteed rate. These additional amounts, when declared by the TIAA Board of Trustees, remain in effect for the "declaration year." The declaration year begins each March 1. Interest credited to TIAA Traditional Annuity accumulations includes a guaranteed rate, plus additional amounts that are established on a year-by-year basis. The guaranteed annual interest rate is 3% for all premiums remitted since 1979. When a participant's account in the TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan.

The TIAA Traditional Annuity is composed of fully benefit-responsive and non-fully benefit-responsive contracts and is included in the financial statements at contract value and fair value, respectively. Under the fully benefit-responsive contract, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The non-fully benefit-responsive contract does not allow lump-sum cash withdrawals from the TIAA Traditional Annuity and transfers must be spread over a period of ten annual installments. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the non-benefit-responsive investment contract at December 31, 2024 and 2023 was \$6,664,115 and \$6,768,257, respectively. The contract value of the benefit-responsive investment contract was \$127,485 and \$125,791 at

December 31, 2024 and 2023, respectively. The effective annual yield and crediting interest rate for the years ended December 31, 2024 and 2023 was approximately 4.85% and 4.85%. Interest is compounded daily and is periodically adjusted by TIAA; however, the interest rate may not be less than 3.0%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event that would limit the Plan's ability to transact at contract value with participants is probable.

Teachers Insurance and Annuity Association, College Retirement Equities Fund (TIAA and CREF) is responsible for maintaining the balances due to each of the eligible participants in the Plan. The net assets available for benefits include assets available to current eligible employees as well as terminated employees who have not yet been paid their benefit by the Plan. TIAA and CREF is also responsible for the proper payouts of benefits to eligible terminated employees per the terms of the Plan documents.

#### **4. Plan Termination**

Although it has not expressed any intent to do so, the College has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

#### **5. Tax Status**

Currently, the IRS does not require a tax determination letter for defined contribution pension plans exempt under Internal Revenue Code section 403(b). However, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provisions for

income tax have been included in the Plan's financial statements. Further, the Plan annually files a Form 5500.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation

techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds are valued at the closing price reported on the active market on which the individual securities are traded.

The CREF accounts' objective is to provide a wide range of investment alternatives and each account has its own individual investment objective, policies, and special risks. Each of the accounts will provide its participants with at least 60 days' prior notice before making changes to its investment strategy. The accounts invest principally in equity securities, fixed-income instruments, and short-term investments. Account investments are valued at fair value, which is primarily derived from the market quotations or prices, obtained from independent pricing sources who may employ various pricing methods to value the investments including matrix pricing. Each account determines its unit value on a daily basis. In an effort to reduce market timing and excessive trading, shareholders are not permitted to make electronic transfers back into a specific account through a purchase or exchange for 90 calendar days, if a purchase or sale within that same account was made within a sixty-day period. There were no unfunded commitments as of December 31, 2024 and 2023.

Pooled separate accounts are valued based upon the unit values of such pooled accounts held by the Plan at year-end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means, although are not based upon quoted market prices in an active market. The underlying investments of the pooled separate accounts consist of mutual funds, each of which follows a separate investment strategy. Due to the nature of these pooled accounts, there are no unfunded commitments or redemptions restrictions.

The real estate fund is a pooled separate account. Interest in the pooled separate account, which funds variable annuity contracts issued by TIAA, is valued at fair value, which is principally derived from the market value, as determined using external appraisals of the underlying real estate holdings and real estate related investments. Unit values are

---

calculated on a daily basis. Transactions out of the account are limited to one per calendar quarter. There were no unfunded commitments as of December 31, 2024 and 2023.

The TIAA Access Annuity is a variable annuity product that is funded through a pooled separate account. This pooled separate account invests in proprietary and nonproprietary mutual funds through various subaccounts. Subaccount unit values are calculated daily. The underlying investments are generally valued using market quotations obtained from independent pricing services.

The guaranteed annuity contract is composed of fully benefit-responsive and non-fully benefit responsive contracts, and is included in the financial statements at contract value and fair value, respectively. Contract value, which approximates fair value, based on TIAA's ability to pay the guaranteed claims in accordance with the terms of the contract.

As of December 31, 2024, TIAA-CREF's credit ratings were as follows: A++ by A.M. Best Company, AAA by Fitch Ratings, Aa1 by Moody's Investors Service, and AA+ by Standard & Poor's. The high credit ratings of TIAA-CREF as of the measurement date uphold the TIAA Account's ability to meet obligations set forth in the contract.

Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Account's historical crediting rates.

The non-fully benefit responsive investment contract is valued at fair value, which approximates the amount that would have been paid if the contract had been terminated as of the last day of the reporting period and represents accumulated cash contributions made under the contract, plus earnings, less withdrawals, and administrative expense.

### **7. Information Certified by TIAA and CREF**

The Plan's administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan's administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by TIAA-CREF, except for comparing such information certified by TIAA-CREF to information included in the Plan's financial statements. TIAA-CREF certified to the completeness and accuracy of all investment activity reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the statements of changes in net assets available for benefits for the Plan years ended December 31, 2024 and 2023, and the information reflected on the supplemental schedule for the year ended December 31, 2024.

#### **8. Related Party and Party-in-Interest Transactions**

Plan investments in the pooled separate accounts, the investment contract, and certain mutual funds are managed by TIAA and CREF. TIAA and CREF is the recordkeeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees for investment management services incurred by the Plan are included in net appreciation in fair value of the investment, rather than a direct payment. The College pays directly any other fees related to the Plan's operations.

#### **9. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investments securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

#### **10. Revenue Sharing Arrangement**

The Plan participates in a revenue-sharing arrangement with certain investment providers. Under these agreements, a portion of investment-related fees is rebated to the Plan to offset administrative expenses or benefit participants.

During the year ended December 31, 2024 and 2023, the Plan received revenue sharing funds of \$31,724 and \$23,453 of which \$9,410 and \$19,804 were applied to administrative expenses, respectively. As of December 31, 2024 and 2023, the Plan's revenue sharing account balance was \$40,616 and \$18,302, respectively. These funds are maintained within the Plan's trust and are available for future administrative expenses or additional allocations to participants as determined by the Plan administrator.
