## Independent Auditor's Report

To the Plan Administrator of  
Wang Laboratories, Inc. Pension Plan:

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Wang Laboratories, Inc. Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of November 30, 2024 (in liquidation) and 2023 (ongoing), and the related statement of changes in net assets available for benefits for the year ended November 30, 2024 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Wang Laboratories, Inc. Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of November 30, 2024 and 2023, and for the year ended November 30, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Wang Laboratories, Inc. Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Emphasis of Matter- Plan Termination and Liquidation Basis of Accounting**

As discussed in Note 3 to the financial statements, the directors of the plan sponsor of Wang Laboratories, Inc. Pension Plan approved termination of Wang Laboratories, Inc. Pension Plan as of June 30, 2023, and it was determined that liquidation was imminent. As a result, the plan changed its basis of accounting from the going concern basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3) (C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wang Laboratories, Inc. Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Other Matter - Supplemental Schedule Required by ERISA**

The supplemental schedule, Schedule H, Line 4j - Schedule of Reportable Transactions as for the year ended November 30, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Notes to Financial Statements**

### **November 30, 2024 and 2023**

#### **1. Description of Plan**

The following description of Wang Laboratories, Inc. Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

##### **General**

The Plan is a noncontributory defined benefit plan established effective July 1, 1987, as restated January 1, 2010. Prior to the plan freeze, the Plan covered all United States and Puerto Rico employees of Getronics USA Inc., (the "Company"), as defined by the Plan Document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Getronics Pension Committee is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Getronics Pension Committee.

On March 25, 1992, the Plan was amended to cease benefit accruals to participants of the Plan. As a result, a participant's retirement income benefit under the Plan is based on years of service and compensation determined as of June 30, 1992. Accordingly, all benefit accruals under the Plan were frozen as of that date. On June 22, 1999, pursuant to a Certificate of Ownership and Merger on file with the Delaware Secretary of State, Getronics Acquisition, Inc. was merged into Wang Laboratories, Inc., with Getronics USA Inc. (the "Company") eventually being the surviving corporation through May 12, 2008. Effective May 13, 2008, the name of the Plan sponsor was changed to Getronics US Operations, Inc. The Company is the Plan sponsor and the administrator of the Plan.

During 2008, all assets and liabilities of the Olsy North America Pension Plan and the HFSI Retirement Plan were transferred to the Wang Laboratories, Inc. Pension Plan.

##### **Plan Administrator**

The Company is the Plan administrator and has the authority to appoint person(s) or entities to carry out the operation of the Plan.

##### **Funding Policy**

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. As the plan was terminated effective June 30, 2023, no minimum funding requirement applied for the plan year ended November 30, 2024.

During the years ended November 30, 2024 and 2023, the Company made contributions of \$0 and \$7,614,086, respectively, which met or exceeded the minimum funding requirements of ERISA .

##### **Pension Benefits**

Plan participants receive a monthly pension benefit based on length of service with the Company and earnings history prior to July 1, 1992, and age when Plan benefits began. As of June 30, 1992, benefit payment amounts were frozen.

The Plan provides benefit payments in the form of a single life annuity and joint and survivor annuity as the participant or beneficiary may elect.

The Plan permits early retirement at the later of the attainment of age 55 and the date at which age plus years of service exceeds 75. Benefits are determined in the same manner as normal retirement and are reduced by 0.5% for the number of months the annuity commencement date precedes the normal retirement date, as defined in the Plan document.

##### **Death Benefits**

If a participant entitled to a vested benefit dies, a death benefit equal to the vested pension benefit, as adjusted for joint and survivor benefits, will become payable to the employee's spouse any time after the deceased participant's early retirement date.

##### **Disability Benefits**

If a participant entitled to a vested benefit becomes disabled, a disability benefit equal to the accrued benefit at date of disability reduced by the value of workers' compensation benefits is immediately payable to the participant, provided the participant does not die within 6 months of the date of disability.

# **Wang Laboratories, Inc. Pension Plan**

## **Notes to Financial Statements**

### **November 30, 2024 and 2023**

#### **Vesting**

A participant's vested interest is based on years of continuous service. A participant is 100% vested in his/her benefits after five years of service with the Company. One year of service for purposes of vesting is reached upon completion of 1,000 hours of service in a given year. This benefit was frozen as of June 30, 1992.

#### **Plan Termination**

The Company has the right to terminate the Plan. See Note 3 for update on Plan termination.

## **2. Summary of Accounting Policies**

#### **Basis of Accounting**

On June 30, 2023, the Plan was terminated. As a result, the Plan changed its basis of accounting from going concern basis used in presenting the November 30, 2023, financial statements to the liquidation basis used in presenting the November 30, 2024 financial statements.

#### **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

#### **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### **Payment of Benefits**

Benefits payments to participants are recorded upon distribution.

#### **Administrative Expenses**

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

#### **Subsequent Events**

The Plan's management evaluated events that occurred after November 30, 2024 through September 4, 2025, the date when the financial statements were available to be issued. Based on this evaluation, Plan's management has determined that no subsequent events have occurred which would require disclosure in the financial statements.

# Wang Laboratories, Inc. Pension Plan

## Notes to Financial Statements

### November 30, 2024 and 2023

#### 3. Plan Termination

On February 24, 2023, the director of the Company approved the termination of the plan effective June 30, 2023.

The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five-years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Upon satisfaction of all regulatory requirements, the Plan fully funded and liquidated all plan assets to purchase annuity contracts from an insurance company for all the participants who did not elect a lump sum distribution. The Company filed the required form with the PBGC and completed the liquidation process on August 14, 2024.

#### 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, are described as follows:

*Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2* - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at November 30, 2024 and 2023.

**Wang Laboratories, Inc. Pension Plan**  
**Notes to Financial Statements**  
**November 30, 2024 and 2023**

*Partnerships/Joint Venture Interests:* Valued at net asset value (“NAV”) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common Investment Trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2023:

	<b>November 30, 2023</b>			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Investments valued at NAV (a)	\$ -	\$ -	\$ -	\$ 100,207,098
<b>Total investments at fair value</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 100,207,098</b>

(a) In accordance with FASB ASC 820, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

**Fair Value of Investments that Calculate Net Asset Value**

The following table summarizes investments measured at fair value based on net asset value per share as of November 30, 2023. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<b>November 30, 2023</b>	<b>Fair Value</b>	<b>Unfunded Commitments</b>	<b>Redemption Frequency (if currently eligible)</b>	<b>Redemption Notice Period</b>
Common investment trust	\$ 77,131,564	N/A	Daily	30 Days
Partnership/ joint venture interest	\$ 23,075,534	N/A	Quarterly	65 Days

The objective of the common investment trusts is to provide investors with a competitive rate of return and a high level of stability of principal and liquidity.

The objective of the partnership/joint venture interest is to seek to maximize risk-adjusted returns over a market index.

**5. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service.

## **Wang Laboratories, Inc. Pension Plan Notes to Financial Statements November 30, 2024 and 2023**

The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included to the extent that they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, and it is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 1, 2022 were (a) pre and post-retirement mortality (Pri-2012 Table with Scale MP-2021 generational improvements (Male/Female), Pri-2012 Table with Scale MP-2021 generational improvements (Male/Female) for 2022, respectively), (b) retirement age assumptions (assumed retirement age of 65), (c) investment return (assumed rate of return of 6.60% for 2023) and (d) interest discount rate (6.60% for 2023).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of December 1, 2022. Had the valuations been performed as of December 1, 2023, there would be no material differences.

The accumulated plan benefits as of and for the year ended November 30, 2024, have been presented on the liquidation basis of accounting and therefore the changes in assumptions represent the change from the actuarially determined benefit obligation to the liquidation basis. The remaining accumulated plan benefits represent the portion of plan assets that were used to purchase annuities for participants, with the final transfer completed on August 14, 2024.

### **6. Information Certified by Trustee (Unaudited)**

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, The Bank of New York Mellon/ BNY Mellon, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of November 30, 2024 and 2023, and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of November 30, 2024, and the related investment activity reported in the statement of changes in net assets available for benefits for the year ended November 30, 2024.

### **7. Related-Party and Party In Interest Transactions**

The Plan's investments are administered under a contract with The Bank of New York Mellon/ BNY Mellon, the trustee of the Plan. Contributions are held and managed by The Bank of New York Mellon/ BNY Mellon, who invests cash received, interest, and dividend income and makes distributions to participants. These transactions are party-in-interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party-in-interest transactions under ERISA.

The Company has contracted with an independent third party for the purposes of handling administrative procedures related to the calculation of benefits, administrative communication, and issue resolution of beneficiary inquiries. Amounts paid to such third party for these services are included within the administrative expenses reported on the statement of changes in net assets available for benefits.

**Wang Laboratories, Inc. Pension Plan**  
**Notes to Financial Statements**  
**November 30, 2024 and 2023**

**8. Tax Status**

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 23, 2024, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

The Plan adopted an individually designed plan offered by Wang Laboratories, Inc. Pension Plan. The individually designed plan received an IRS Determination Letter dated April 23, 2024, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC").

Plan management is required to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**9. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
