Independent Auditor's Report

To the Plan Administrator
GFHC Employee Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of GFHC Employee Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. GFHC Employee Retirement Savings Plan

Notes to Financial Statements December 31, 2024

Note 1 - Description of Plan

The following description of GFHC Employee Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document, and any amendments thereto, for a more complete description of the Plan's provisions.

General

The Plan is a contributory defined contribution retirement plan established under Internal Revenue Code (the "IRC") Section 403(b) covering all eligible employees of Generations Family Health Center, Inc. (the "Company"). Participants are eligible to make salary deferral contributions to the Plan immediately following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Directors is responsible for oversight of the Plan. The Finance Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

Contributions

Each year, participants may make salary deferral contributions to the Plan based on a percentage of their pre-tax annual compensation, as defined by the Plan, up to IRC limits. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may designate all or a portion of their salary deferral contributions as Roth deferral contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their pre-tax deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company may, at its discretion, make matching and employer nonelective contributions to the Plan on behalf of each eligible participant. To be eligible for discretionary matching and employer nonelective contributions, participants are required to have completed one year of service (with a minimum of 1,000 hours) and attained 21 years of age. Additionally, participants must be employed on the last day of the quarter and work a minimum of 250 hours during the quarter to be eligible to receive discretionary employer nonelective contributions. Participants will become eligible to receive discretionary matching contributions on the first pay period following the date that eligibility requirements are met. Participants will become eligible to receive employer nonelective contributions the first day of the Plan year quarter following the date that eligibility requirements are met. For the year ended December 31, 2024, the Company elected to make discretionary matching contributions to the Plan equal to 50% of participant's salary deferral contributions up to 4% of eligible compensation. For the year ended December 31, 2024, the Company elected to make a discretionary employer nonelective contribution to the Plan equal to 2% of each participant's eligible quarterly compensation, as defined by the Plan. Employees who normally work less than 20 hours per week are excluded from discretionary matching and employer nonelective contributions. Participants also direct the investment of the Company's contributions. All contributions are subject to certain IRC limitations.

GFHC Employee Retirement Savings Plan

Notes to Financial Statements December 31, 2024

Participant accounts

Each participant's account is credited with the participant's contributions and any discretionary matching contributions as well as allocations of any discretionary employer nonelective contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in all contributions made to their account plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account. The loan interest rate is set at 1% above the prime rate published in *The Wall Street Journal* on the first business day of the month the loan is originated, as defined. Principal and interest payments are made ratably by participants through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or normal or early retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's interest in his or her account, installment payments for a specified term or purchase of an annuity contract available under the terms of the Plan. For termination of service for other reasons, a participant with an account balance of less than \$1,000 may receive the value of his or her account as a lump-sum distribution. Unless a participant directs otherwise, participants with an account balance greater than \$1,000 but less than \$7,000 will receive an automatic rollover to an individual retirement account specified by the Plan. Participants with an account balance greater than \$7,000 may defer payments until a later time.

Withdrawals from the salary deferral portion of a participant's account may also be made upon reaching age 59 1/2, in the event of disability, or for a financial hardship, in accordance with the provisions specified by the Plan. Withdrawals may be made from the rollover portion of a participant's account at any time.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

GFHC Employee Retirement Savings Plan

Notes to Financial Statements December 31, 2024

Investment valuation and income recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Finance Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Contributions

Contributions from Plan participants and the discretionary matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation. The nonelective contributions from the Company are recorded in the year in which the contributions are earned.

Payment of benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to distributions and the administration of notes receivable from participants, as well as certain asset-based investment management fees, are charged directly to the participant's account and are included in administrative expenses. Other indirect investment-related expenses are included in the net appreciation in fair value of investments.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated subsequent events through September 5, 2025, the date the financial statements were available to be issued.

GFHC Employee Retirement Savings Plan

Notes to Financial Statements December 31, 2024

Note 3 - Certified investments

The Plan's administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2024 and 2023, and investment income and interest income on notes receivable from participants for the year ended December 31, 2024, that are disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Empower Trust Company, LLC and Massachusetts Mutual Life Insurance Company ("MassMutual"), the custodians of the Plan.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board-issued Accounting Standards Codification 820, *Fair Value Measurement*, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023:

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

GFHC Employee Retirement Savings Plan

Notes to Financial Statements December 31, 2024

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023.

Assets at fair value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Investments measured at fair value				
Mutual funds	\$ 12,444,067	\$ -	\$ -	\$ 12,444,067
Assets at fair value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Investments measured at fair value				
Mutual funds	\$ 10,419,427	\$ -	\$ -	\$ 10,419,427

Note 5 - Fully benefit-responsive investment contract

The Plan has entered into a traditional fully benefit-responsive guaranteed investment contract with MassMutual totaling \$695,409 and \$834,665 as of December 31, 2024 and 2023, respectively. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The contract with MassMutual is reinsured by Empower Annuity Insurance Company of America. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

GFHC Employee Retirement Savings Plan

Notes to Financial Statements December 31, 2024

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

Note 6 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Tax status

The Plan has been designed using a volume submitter 403(b) plan document sponsored by Empower Retirement, LLC. Empower Retirement, LLC received an advisory letter dated April 7, 2021, in which the Internal Revenue Service ("IRS") stated that the volume submitter 403(b) plan document, as then designed, satisfies the applicable requirements of the IRC. Although the Plan itself has not received a determination letter from the IRS, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and deemed to be tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Related party transactions and party-in-interest transactions

Plan investments include mutual funds held by Empower Trust Company, LLC and a guaranteed interest account held by MassMutual. Empower Trust Company, LLC and MassMutual are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Indirect fees incurred by the Plan for investment management services are included in the net appreciation in fair value of investments. Direct expenses paid by the Plan to the custodians for certain administrative expenses totaled \$82,895 for the year ended December 31, 2024. The Company pays directly any other fees related to the Plan's operations. The Plan allows participants to take loans against their account balances, which also qualify as party-in-interest transactions.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
