Independent Auditor's Report

To the Participants and Plan Administrator of the
Preferred Pump & Equipment Employee Stock Ownership Plan
Fort Worth, Texas

Opinion

We have audited the financial statements of the Preferred Pump & Equipment Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents as of December 31, 2024, is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Preferred Pump & Equipment Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Preferred Pump & Equipment Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

PPE Genpar, Inc. (the Company) established the Plan effective as of January 1, 2019 and covers all eligible employees of its subsidiary, Preferred Pump & Equipment, L.P. PPE Genpar, Inc. and Preferred Pump & Equipment, L.P. are collectively referred to hereinafter as the "Company". The Plan was established and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Preferred Pump & Equipment ESOP Committee (ESOP Committee) comprising up to four persons appointed by the Company's board of directors. Alberto Tarajano is the Plan third-party trustee and custodian that holds the stock for the participants and the unallocated shares.

Employee Stock Ownership Plan

During 2019, the Plan purchased 100,000 shares of the Company's common stock. The stock was purchased at a price of \$662 per share. Of the 100,000 shares purchased, 6,344.411 shares were purchased with cash in the amount of \$4,200,000 and 93,655.589 shares were purchased with a promissory note to the Company for \$62,000,000. That loan is scheduled to be paid off on December 31, 2059. As the Plan makes each payment of principal and interest, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the years then ended; present separately the assets, liabilities, and changes therein pertaining to:

- (a) The accounts of employees with rights in allocated common stock (Allocated); and
- (b) Common stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after attaining the age of 20 ½ and after one year of service, providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during each Plan year or are not employed on the last working day of a Plan year for reasons other than due to death, disability or retirement are not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions to the Plan, which, are aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Company contributions are determined annually at the discretion of the Company's Board of Directors and may be in the form of cash or in shares of Company common stock, or a combination of both. Employee contributions are not permitted.

Preferred Pump & Equipment Employee Stock Ownership Plan

Notes to Financial Statements

Payment of Benefits

Subject to certain Plan provisions and participant elections, distributions on account of death, disability, or retirement commence in the Plan year following separation of service. Subject to RMD requirements, certain Plan provisions and participant elections, distributions for other separations from service commence in the sixth Plan year following the separation from service. The value of the portion of a separated participant's account that is held in Company stock is based upon the value established on the next valuation date following separation of service. Distributions are made in cash.

For account balances less than \$1,000, the Plan shall distribute the participants balance in a lump sum or direct rollover to another qualified plan as soon as administratively practicable. For account balances that exceed \$1,000, but are equal to or less than \$7,000, and the participant does not elect to receive a distribution, the Plan will pay the distribution in a direct rollover to an individual retirement account designated by the plan administrator as soon as administratively practicable following the end of the plan year in which the participant incurred the separation from service. If a participant's vested balance exceed \$7,000 and the participant does not consent to an earlier distribution, the Plan will commence distribution of the participant's balance no later than 60 days after the close of the plan year in which the later of the following occur unless the participant affirmatively elects to delay distribution in writing to a later date:

- 1) The participant reaches normal retirement age;
- 2) The participant's 10th anniversary of the year in which the participant commenced participating in the plan;
- 3) The participant's separation from service; or
- 4) The beginning date of required minimum distributions.

The total vested account balance of participants meeting such eligibility requirements at December 31, 2024 and 2023 is \$5,092,474 and \$2,516,211, respectively.

Administrative Expenses

As provided by the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

In certain circumstances, each participant is entitled to direct the Trustee regarding the voting of the shares allocated to the participant's account. The Trustee exercises the voting rights for all shares held within the Plan in all situations requiring a vote of the shareholders and has a fiduciary duty to vote on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company common stock released by the Trustee from the unallocated account and forfeitures of terminated participant's non-vested accounts. Except for participants who have separated from service due to death, disability or retirement during the Plan year, only those participants who are eligible employees of the Company as of the last day of the Plan year and who have worked at least 1,000 hours during the Plan year will receive an allocation for such Plan year. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Preferred Pump & Equipment Employee Stock Ownership Plan

Notes to Financial Statements

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service starting after 2 years of service and are 100 percent vested after six years of service:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand the Company buy any shares of its stock distributed to participants for which there is no market. The Plan does not distribute Company stock to Plan participants.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 31, 2024 and 2023 totaled \$168,025 and \$350,532, respectively. There were no forfeited non-vested accounts to be allocated to participant accounts in future years.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. In each of the first five Plan years of a participant's qualified election period, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the last Plan year in a Participant's qualified election period, the percentage changes to 50%. A qualified participant electing to diversify may do so by directing the transfer to another qualified plan of the Employer which accepts such transfers but only if the transferee plan permits employee-directed investment with at least three investment options and does not invest in Company stock to a substantial degree. The direct transfer will be made no later than ninety days after the last day of the period during which the Participant may make the election.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Preferred Pump & Equipment Employee Stock Ownership Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments, including shares of Company stock are reported at fair value. Fair value of Company stock is determined annually by an independent appraisal. See Note 4 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported using the specific identification method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded when paid.

Management's Review of Subsequent Events

The Plan has evaluated subsequent events through August 14, 2025, the date the financial statements were available to be issued.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market funds: Valued using the NAV of the fund shares.

Cash and cash equivalents: Held primarily in short-term money market funds, which are valued at cost plus accrued interest.

Exchange traded funds: Valued at the daily closing price as reported by the fund. Exchange traded funds held by the Plan are open-end exchange traded funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The exchange traded funds held by the Plan are deemed to be actively traded.

Company common stock: Valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years.

Notes to Financial Statements

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

	2024	2023
Level 1		
Cash and cash equivalents	\$ 15,041	\$ 4,153
Money market funds	2,725,874	634,500
Exchange traded funds	7,466	6,401
Level 3		
PPE Genpar, Inc. common stock	325,700,000	277,900,000
Total assets in the fair value hierarchy	328,448,381	278,545,054
Investments at fair value	\$ 328,448,381	\$ 278,545,054

Changes in Fair Value of Level 3 Assets

The Plan Level 3 investment had net appreciation of \$47,800,000 and \$115,900,000, respectively, for the years ended December 31, 2024 and 2023. The Plan trustee exercised put options and sold and repurchased 930.6652 shares valued at \$2,586,318 and 208.5928 shares valued at \$337,920, respectively, of the Plan's Level 3 assets for the years ended December 31, 2024 and 2023.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The Company common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
PPE Genpar, Inc. common stock	\$ 325,700,000	Income	EBITDA Net income Weighted average cost of capital Discount rate Discount for lack of marketability
		Market	Public comparables Revenue multiples EBITDA multiples Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Loan Payable

In 2019, the Plan entered into a \$62,200,000 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by current and future years' principal and interest payments. This resulted in 2,341.3897 shares being released and allocated for each of the plan years ended December 31, 2024 and 2023. The agreement provides for the loan to be repaid over 40 years.

The aggregate scheduled amortization of the loan for the next five years and thereafter is as follows:

Years Ending December 31,	Total
2025	\$ 1,116,260
2026	1,139,590
2027	1,163,407
2028	1,187,722
2029	1,212,546
Thereafter	50,932,745
Total loan payments	\$ 56,752,270

The loan bears interest at a fixed rate of 2.09 percent per annum.

Note 6. Related Party Transactions and Party in Interest Transactions

The Plan invests in Company common stock and has indebtedness with the Company. These are related party and party in interest transactions. Certain Plan investments are investment funds provided through Blue Ridge ESOP Associates (Blue Ridge) and Charles Schwab. Blue Ridge is the record keeper and Charles Schwab is a custodian for the Plan and, therefore, these transactions qualify as party in interest transactions. All investment fund earnings or losses posted to the Plan are net of investment management fees charged by each investment fund under the Plan. As described in Note 1, the Company pays all plan expenses.

Note 7. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP Committee or the Company directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 9. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated September 8, 2020, stating that the Plan qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
