Opinion

We have audited the accompanying financial statements of Tech-Etch, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material aspects, the net assets (deficit) available for benefits of Tech-Etch, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the change in its net assets (deficit) available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tech-Etch, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech-Etch, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Tech-Etch, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech-Etch, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Assets Held at End of Year is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following brief description of the Tech-Etch, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Tech-Etch, Inc. (the "Company"), established the Tech-Etch, Inc. Employee Stock Ownership Plan (Plan) effective as of March 1, 1999. As of March 1, 2014, the Plan was restated and operates, in relevant part, as a leveraged employee stock ownership plan, and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an Employee Benefits Administration Committee comprised of up to three persons appointed by the Sponsor Company's Management. The trust department of an independent third-party bank is the Plan's Trustee.

As of February 28, 2018, the Plan held 272,546 shares of the Company's common stock all of which were allocated to participants' accounts. As of February 28, 2018, there were no unreleased ESOP shares. On August 31, 2018, the Plan acquired 685,000 shares of the Company's common stock for a total purchase price of $45,295,355 or $66.12 per share. The Plan funded the purchase by using $2,000,000 of cash to purchase 30,246 shares, borrowing $5,000,000 from the Company to purchase 75,615 shares (Note 7), and delivering a promissory note to the selling shareholder in the amount of $38,295,355 to purchase the remaining 579,139 shares (Note 7). The borrowings are to be repaid over a period of twenty years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, a proportionate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. Shares vest fully upon allocation.

The borrowings are collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the provisions of ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of employees with vested rights in allocated common stock (Allocated) and
(b) common stock not yet allocated to employees (Unallocated).

Eligibility - A newly hired employee that is at least 18 years of age will automatically become a participant in the Tech-Etch ESOP following 90-days of employment, during which a participant works a minimum of 250 hours. In such case, the employee will automatically enter the ESOP as a Participant on the preceding January 1st. Participants who do not have at least 250 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions - The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on their loans. Employees are not permitted to make contributions.

Note 1 - Plan Description (continued)

Payment of Benefits - No distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise separates from employment with the Company. Distributions for other separations from service commence in the second Plan year following the separation from service for pre-March 2018 acquired stock. For post-March 2018 acquired stock, distributions for other separations from service commence in the sixth Plan year following the separation from service and are made in five annual installments.

Distributions are made in the form of Company common stock, cash or a combination of Company stock and cash. The participant or beneficiary has the right (a put option) to require the Company to purchase the shares of Company stock for their fair market value, determined pursuant to the Plan. Benefits are recorded when paid.

Voting Rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination - Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Employee Benefits Administration Committee should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation and participant's years of service with the Company, relative to total years of services of all Plan participants eligible to receive an allocation during the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting - If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company.

Note 1 - Plan Description (continued)

Participant accounts vest as follows:

Put Option - Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. Total diversification distributions amounted to $379,768 and $224,220 for the years ended December 31, 2024 and 2023, respectively.

Forfeitures - Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated non vested account balances allocated to remaining participants at December 31, 2024 and 2023, totaled $120,510 and $87,388, respectively. Forfeited non vested accounts to be allocated to participant accounts in future years as of December 31, 2024 and 2023, totaled $163,673 and $110,806, respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

Use of Estimates - The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from these estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Allocations - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (*a*) the accounts of employees with rights in allocated stock ("allocated") and (*b*) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition - The shares of Company common stock are valued at fair value on December 31, 2024 and 2023. Fair value is determined by annual independent appraisals. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Operating Expenses - All expenses of maintaining the Plan are paid by the Company.

Payment of Benefits - Benefits are recorded when paid.

Unrecognized Tax Benefits - The Plan's income tax filings are subject to audit by various taxing authorities. The Plan believes its tax positions will be sustained upon examination by taxing authorities. There are no uncertain tax positions for the years ended December 31, 2024 and 2023.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Note 3 - Fair Value Measurements (continued)

Level 1 Fair Value Measurements
The fair value of money market funds is based on quoted net asset values of the shares held by the Plan at year-end. The money market funds held by the Plan are open-end money market funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The money market funds held by the Plan are considered to be actively traded.

Level 3 Fair Value Measurements
The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches consistent with prior years. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparable, and applicable discounts and premiums.

The Plan's Trustee determines the fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following tables present fair value measurement information for certain financial instruments. The carrying values of receivables included in the accompanying statements of net assets available for benefits approximated fair value at December 31, 2024 and 2023, and is thus not included in the following table:

		Fair Value Measurements at the end of the Reporting Period Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2024

	$ 44,452,874	$ 51,443	$ -	$ 44,401,431

Note 3 - Fair Value Measurements (continued)

Following is a reconciliation of activity for the years ended December 31, 2024 and 2023 for assets measured at fair value based on significant unobservable information:

Year Ended December 31, 2024

Beginning balance	$ 44,401,431
Total gain or loss included in changes in net assets available for benefits	(2,202,357)
Purchases, issues, sales and settlements	-
Ending balance	$ 42,199,074
Total gains or losses for the year included in changes in net assets (deficit) available for benefits attributable to the change in unrealized gains or losses relating to investments held at the end of the reporting period.	$ (2,202,357)

Year Ended December 31, 2023

Beginning balance	$ 41,873,508
Total gain or loss included in changes in net assets available for benefits	2,527,923
Purchases, issues, sales and settlements	-
Ending balance	$ 44,401,431
Total gains or losses for the year included in changes in net assets (deficit) available for benefits attributable to the change in unrealized gains or losses relating to investments held at the end of the reporting period.	$ 2,527,923

Gains and losses included in changes in net assets (deficit) available for benefits for the year ended December 31, 2024, are reported in net depreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2024, there were no transfers into or out of Level 3.

Note 4 - Tax Status

The Plan obtained its latest determination letter on August 3, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was qualified and the trust established under the Plan was tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan’s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 4 - Tax Status (continued)

Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 6 - Investments

The Plan’s investments in Company common stock, at December 31, are as follows:

	2024		**2023**	
	Allocated	**Unallocated**	**Allocated**	**Unallocated**
Tech Etch, Inc. common stock:				
Number of Shares	531,957	425,589	499,219	458,327
Cost	$ 28,962,711	$ 28,142,084	$ 26,797,931	$ 30,306,864
Fair Value	$ 23,443,317	$ 18,755,757	$ 23,148,769	$ 21,252,662

Note 7 - Loans Payable

On August 31, 2018, the Plan entered into a $5,000,000 loan agreement with Tech-Etch, Inc. The proceeds of the loan were used to purchase 75,615 shares of the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants when principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments.

This resulted in 3,781 shares being released and allocated for the Plan during both the years ended December 31, 2024 and 2023, respectively. The agreement provides for the loan to be repaid over twenty years. The fair value of the note payable as of December 31, 2024 and 2023, was approximately $2,951,000 and $3,081,000, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk. The loan bears interest at the rate of 4.3%. The scheduled amortization of the loan for the next five years and thereafter is as follows:

Year	Amount
2025	$ 212,603
2026	221,745
2027	231,279
2028	240,879
2029	251,583
Thereafter	2,443,455
Balance as of December 31, 2024	$ 3,601,544

On August 31, 2018, the Plan entered into a $38,295,355 loan agreement with the selling shareholder. The proceeds of the loan were used to purchase 579,139 shares of the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants when principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments.

This resulted in 28,957 shares being released and allocated for the plan during both the years ended December 31, 2024 and 2023, respectively. The agreement provides for the loan to be repaid over twenty years. The fair value of the note payable as of December 31, 2024 and 2023, was approximately $22,588,000 and $23,582,000, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk. The loan bears interest at the rate of 4.3%.

Note 7 - Loans Payable (continued)

The schedule amortization of the loan for the next five years and thereafter is as follows:

Year	Amount
2025	$ 1,627,196
2026	1,697,166
2027	1,770,144
2028	1,843,613
2029	1,925,536
Thereafter	18,701,455
Balance as of December 31, 2024	$ 27,565,110

Note 8 - Risks and Uncertainties

The Plan investments consist primarily of Tech-Etch, Inc. common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 9 - Related-Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. This is a related party and party-in-interest transaction. As described in Note 2, the Company pays all plan expenses. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

Note 10 - Subsequent Events

The Plan has evaluated all subsequent events through August 29, 2025, the date the financial statements were available to be issued. The Plan did not have any recognized or non-recognized subsequent events after December 31, 2024, the date of the financial statements.
