Independent Auditor's Report

Board of Directors
Sayers Technology Holdings, Inc. Employee Stock Ownership Plan
Vernon Hills, Illinois

Opinion

We have audited the financial statements of Sayers Technology Holdings, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Sayers Technology Holdings, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sayers Technology Holdings, Inc. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sayers Technology Holdings, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Sayers Technology Holdings, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1. Description of the Plan

General

The following description of Sayers Technology Holdings, Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

Sayers Technology Holdings, Inc. (Company) established the Plan effective March 26, 2018. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974*, as amended by subsequent legislation (ERISA). The Plan is administered by Sayers Technology Holdings, Inc. Board of Directors. The Plan is intended to invest primarily in the common stock of the Company which is held in the Sayers Technology Employee Stock Ownership Trust (Trust). The Trust, together with the Plan, form the ESOP. As of April 13, 2023, the Company has engaged Ventura Trust as Trustee of the Plan, formerly Neil M. Brozen, and has engaged Blue Ridge ESOP Associates to perform third party recordkeeping and compliance services for the Plan.

On March 26, 2018, the Plan purchased 1,000,000 shares of the Company's common stock for a purchase price of \$1,000,000 with proceeds of a note payable of \$1,000,000 between the Company and the ESOP (see Note 7). The common stock of the Company is held in the Trust established under the Plan.

Unallocated and Allocated Shares

The note payable is collateralized by the unallocated shares of Company common stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, present separately the assets and liabilities and changes therein pertaining to:

- (A) The accounts of employees with vested rights in allocated common stock (Allocated), and
- (B) Common stock not yet allocated to employees (Unallocated)

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such plan year and have attained the age of 21. Employees may enter the Plan on January 1 or July 1 depending on when service and age requirements are met. The Company received Internal Revenue Service (IRS) approval in 2019 for an amendment dated April 8, 2019, that made all active employees of the Company as of March 26, 2018, eligible for the Plan regardless of the Plan's service requirements set forth in the original plan documents.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only the participants who are eligible employees of the Company as of the last

Sayers Technology Holdings, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the plan year. For purposes of allocations, eligible compensation includes base wages or salaries including overtime pay, bonuses, commissions, and all salary reductions elected under a Section 125 cafeteria plan or 401(k) plan, but excludes any amount in excess of \$345,000. For new participants, compensation prior to entry date is excluded. Plan earnings are allocated to each participant's account based on the beginning balances in their cash account less any distribution from such account since the preceding allocation date.

Vesting

Participants begin vesting in the Company's contributions and earnings thereon after two years of service. Thereafter, participants will vest at a rate of 20% for each year of service up to six years. Participants terminating due to normal retirement, death or disability will be 100% vested. An employee's credited service shall be the number of plan years with at least 1,000 hours of service. Credited service does not include years prior to March 26, 2018, the date of plan inception.

Payment of Benefits and Put Option

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to the participant's beneficiary or, if none, his or her legal representatives) or otherwise terminates employment with the Company. The Company is obligated at the option of each beneficiary to repurchase shares of the ESOP upon the beneficiary's termination or retirement. In addition, the Company is subject to put options granted to participants of the Plan whereby participants have the right to sell their Company stock to the Company at a price equal to the fair value of the stock as of the most recent valuation date. The put options must be exercised during the 60-day period beginning on the date of distribution of the stock or the 60-day period beginning after each new valuation date and delivery of notice of the fair value to the participant.

Voting Rights

The Trustee of the Plan will vote all Company stock held by it as part of the plan assets, provided that participants or their beneficiaries will be entitled to direct the Trustee as to the manner in which voting rights on shares of Company stock which are allocated to participant accounts are to be exercised. If participants do not timely exercise their right, the Trustee will then vote on behalf of the participant.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the plan year. For the years ended December 31, 2024 and 2023, forfeitures of \$53,612 and \$69,953, respectively, were allocated to participants' accounts.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the plan terms and the Code.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Sayers Technology Holdings, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, changes in net assets and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term in the estimated fair value of the Plan's investment in the Company's securities.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value. Fair value is determined by annual independent appraisals. The fair value of the common stock was \$44.89 and \$25.39 per share at December 31, 2024 and 2023, respectively. The investment in the Company's common shares by the Plan represents all of the Company's outstanding common shares at December 31, 2024 and 2023.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid. Allocations of shares generally occurs on December 31 of each year when payments on the note payable are made.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. Expenses paid out of the Plan may be reimbursed to the Company. Administrative expenses were paid by the Company for the years ended December 31, 2024 and 2023.

Note 3. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consist of Company common shares.

Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Note 4. Dividends

To the extent dividends are not used by the Plan for debt service, participants are given the right to take a distribution of such dividends in cash or leave the funds in the Plan to be invested in Company stock, as provided by the Plan. No dividends were paid in 2024 and 2023.

Note 5. Investments

The Plan's investments at December 31, 2024 and 2023, are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Investments, at fair value

Fair value	\$ 22,445,000	\$ 22,445,000	\$ 11,425,500	\$ 13,964,500

Note 6. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Sayers Technology Holdings, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023:

	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2024				
Company common stock	<u>\$ 44,890,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 44,890,000</u>
December 31, 2023				
Company common stock	<u>\$ 25,390,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 25,390,000</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2024 and 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Unobservable (Level 3) Inputs

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the Company's financial data for the appraiser from the audited financial statements of the Company including EBITDA and net income measures as well as other key inputs including the Company's weighted average cost of capital, long-term growth rates, and discount rates. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses, and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

December 31, 2024 and 2023

Note 7. Loan Payable

On March 26, 2018, the Plan entered into a \$1,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company’s common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral times the ratio of the current year payments divided by the total of this year’s payments, plus all future years’ principal and interest payments. This resulted in 50,000 shares being released and allocated for each of the years ended December 31, 2024 and 2023.

The agreement provides for the loan to be repaid ratably through December 31, 2034. The fair value of the note payable as of December 31, 2024, approximates the outstanding balance due of \$525,963. The loan bears interest at 2.88%.

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2025	46,134
2026	47,463
2027	48,830
2028	50,236
2029	51,683
Thereafter	<u>281,617</u>
	<u>\$ 525,963</u>

Note 8. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. The Plan has a number of service providers. Such providers are parties in interest under ERISA. All fees for administrative services were paid for by the plan sponsor for the years ended December 31, 2024 and 2023.

The Company provides certain administrative services at no cost to the Plan.

Note 9. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 12, 2019, stating that the Plan and related Trust, as then designed, were in compliance with the applicable requirements of the Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related Trust are currently designed and being operated in compliance with the applicable requirements of the Code.

Sayers Technology Holdings, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Risks and Uncertainties

The Plan is invested in Company common stock, which is exposed to various risks, such as interest rate, market and credit risks as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 11. Subsequent Events

Subsequent events have been evaluated through September 4, 2025, which is the date the financial statements were available to be issued.
