Independent Auditor's Report

Plan Administrator
Alliance Holdings, Inc.
Employee Stock Ownership Plan and Trust
Horsham, Pennsylvania

Opinion

We have audited the financial statements of the Alliance Holdings, Inc. Employee Stock Ownership Plan and Trust (Plan), an employee benefit Plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Alliance Holdings, Inc. Employee Stock Ownership Plan and Trust

The following description of the Alliance Holdings, Inc. Employee Stock Ownership Plan and Trust (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator, Alliance Holdings, Inc. (Company).

General

The Company established the Plan effective as of December 1, 1995. The Company now operates as a holding company for the acquisition of equity interest in operating entities. The Plan owns approximately 43% of the Company's outstanding common stock. Substantially all of the Company's remaining common stock is now owned by AH Transition Corporation (Transition), which was established in 2005. As a part of the establishment of Transition, the shares of stock previously allocated became a combination of C corporation (Company) and S corporation (Transition) shares. All of Transition's outstanding common stock is owned by the Plan.

As of January 1, 2007, the Plan was amended and restated to operate as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. The Plan is administered by Company management. The managing director of the Company serves as Plan trustee.

In 2007, the Plan purchased substantially all remaining shares of the Company and Transition's common stock with a loan of \$21,340,000. That loan was paid off in May of 2019 and, as a result, the Plan does not have any outstanding ESOP security acquisition loans as of December 31, 2024 and 2023.

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after completing one hour of service and receiving compensation in excess of \$200. Employees who are terminated during the Plan year due to death, disability, or having attained normal retirement age are also generally eligible to participate in the Plan.

Vesting

Participants vest in the Company's and Transition's contributions and earnings thereon at a rate of 20% for each year of service, after one year of service is completed, becoming fully vested upon completing six years of service. Participants terminating due to normal retirement, death, or disability will be 100% vested.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan, which when aggregated with the Plan's dividends and interest earnings, of an amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its long-term debt, if any. There were no contributions made to the Plan for the years ended December 31, 2024 and 2023, as the loan was paid off in May of 2019.

Notes to Financial Statements
December 31, 2024 and 2023

Participant Accounts

The Plan is a defined contribution Plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's and Transition's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company, Transition, and its subsidiaries as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Plan provides that, while the Company is an S corporation, if a distribution is made in the form of Company stock, the put option must be exercised immediately. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Payment of Benefits

Participants will become eligible to receive a distribution from the Plan upon the date, in which a participant retires, dies (in which case, payment shall be made to the participant's beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company, Transition, or its participating subsidiaries. Distributions are generally a lump-sum, cash payment. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are also subject to the following guidelines:

1. If a participant's vested account balance is less than \$500 upon severance from service, a lump-sum distribution will be made to the participant on the severance date.
2. If a participant's vested account balance is greater than \$500, and the participant so elects, benefits are payable as soon as practicable following one year after the close of the Plan year in which the participants separated from service.
3. If a participant's vested account balance is greater than \$500, and the participant does not elect the option indicated above, benefits are payable no later than the 60th day after the latest of the close of the Plan year in which:
 - a. The participant attains the age of 65.
 - b. The participant reaches the 10th anniversary of the year in which the participant commenced participation.
 - c. The participant's severance date, provided that the participant may elect to further defer the commencement of his or her retirement or disability benefits.

Under the provisions of the Plan, the Company and Transition are obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2024, the Plan distributed, and the Company and Transition repurchased from participants 130,910 and 21,550 shares, respectively, at the immediately preceding valuation value. During 2023, these amounts were 105,541 and 21,469 shares, respectively.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which a participant has not given instructions. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company and Transition common stock into investments, which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account during a 90-day election period upon the close of each Plan year in which participant is eligible. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, in which case, shares are distributed.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants during the years ended December 31, 2024 and 2023, totaled \$1,610,457 and \$1,438,736, respectively. There were no unallocated forfeitures at December 31, 2024 or 2023.

Plan Termination

The Company and Transition reserve the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the employee benefits administration committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary to repay any outstanding loan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company and Transition are valued at estimated fair value. Fair value is determined by annual independent appraisals. Mutual funds are reported at fair value.

Employee Stock Ownership Plan and Trust
Notes to Financial Statements
December 31, 2024 and 2023**

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Plan Compensation

Plan compensation is calculated as participant wages, salaries, fees for professional services, and other amounts received during the course of employment, including, but not limited to, employee elective deferrals, commissions, bonuses, and contributed or deferred compensation not included in gross income.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. In 2024 and 2023, the Company paid all Plan operating expenses.

Note 3. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consists of the Company's and Transition's common stock and cash.

Company and Transition contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income, and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company, Transition, or the subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 5. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair-value measurement must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

**Alliance Holdings, Inc.

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023:

	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Alliance Holdings, Inc. and AH Transition Corporation - common stock	<u>\$ 69,396,330</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 69,396,330</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets, pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2024 and 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Company and Transition Common Stock
Balance, January 1, 2023	\$ 75,128,634
Total realized and unrealized gains and losses included in net increase in net assets available for benefits	(788,840)
Shares distributed	<u>(4,943,464)</u>
Balance, December 31, 2023	69,396,330
Total realized and unrealized gains and losses included in net decrease in net assets available for benefits	(724,863)
Shares distributed	<u>(5,163,977)</u>
Balance, December 31, 2024	<u>\$ 63,507,490</u>

Unobservable (Level 3) Inputs

Investment in Company and Transition common stock is valued by an independent third-party appraiser as of December 31, 2024 and 2023. The fair value of the investments are primarily determined using a combination of the asset, discounted cash flow, and market methods.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. This matter includes the following:

Valuation of Alliance Holdings, Inc. and AH Transition Corporation Common Stock

The common stock of the Company and Transition owned by the Plan is valued at the estimated fair value as determined by annual independent appraisals. The actual fair value of the common stock can only be determined based on an ultimate sale of the Company.

Note 7. Risks and Uncertainties

The Plan primarily invests in Company and Transition common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 8. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated January 18, 2018, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the IRC and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons. The Plan invests in Company and Transition common stock. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

The Company provides certain administrative services at no cost to the Plan.

Note 10. Subsequent Events

Subsequent events have been evaluated through September 4, 2025, which is the date the financial statements were available to be issued.
