Independent Auditors' Report

To the Trustees
Nutter, McClennen & Fish, LLP
401(k) Savings and Profit Sharing Plan
Boston, Massachusetts

Opinion

We have audited the financial statements of the Nutter, McClennen & Fish, LLP 401(k) Savings and Profit Sharing Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

Note 1 - Description of the Plan

The following is only a general description of the Nutter, McClennen & Fish, LLP 401(k) Savings and Profit Sharing Plan (the “Plan”). Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan that is intended to meet the requirements of Sections 401(a) and 401(k) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. All employees of Nutter, McClennen & Fish, LLP and its subsidiary, Nutter Investment Advisors, L.P. (the “Firm”), who are at least 21 years of age, are eligible to participate in the Plan. The Plan is administered by a Retirement Committee consisting of partners (the “Trustees”), who are appointed by the Executive Committee of the Firm. Substantially all investments are participant directed.

Participant Deferral Contributions

Active participants may elect, but shall not be required, to contribute between 1% and 99% of eligible compensation on a pre-tax basis, or to an after-tax Roth option. Participants who have reached age 50 are also eligible to contribute an additional catch-up contribution. Both regular Roth and catch-up contributions are subject to annual IRS dollar limits. Employees, whether or not active participants, may contribute distributions from other qualified plans if the contribution satisfies the tax law requirements for a qualified rollover.

The Plan has an auto enroll feature for eligible employees equal to 6% of eligible compensation unless an alternative election is made. The Plan also added an auto increase feature whereby contributions will increase by 1% on each January 1st until the contribution reaches 10%.

Profit Sharing Contribution

Each year, the Firm contributes a profit sharing contribution for eligible non-legal staff employees equal to a percentage of gross compensation. For 2024, the profit sharing contribution was equal to 4% of eligible gross compensation. To be eligible for the profit sharing contribution, employees must have attained the age of 21, worked a minimum of 1,000 hours in the calendar year and be an active employee on December 31. During the year ended December 31, 2024, the Firm made a profit sharing contribution of \$671,229.

Employer Matching Contributions

Each year, the Firm contributes for each non-legal staff employee with at least one year of service, an amount equal to 50% of the Participant’s elective contribution, up to an annual maximum of \$1,000 per participant. During the year ended December 31, 2024, the Firm made a matching contribution of \$128,330.

Note 1 - Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with their elective contribution, rollover contribution, the Firm's profit sharing and matching contributions and allocations of the Plan's investment earnings/losses and charged for administrative fees related to participant loans. Earnings are allocated based on the proportion of a participant's balance to the total of all accounts covered by the allocation. The benefit to which a participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting

Participants are fully vested in all amounts related to their elective and rollover contributions, Firm matching contributions and earnings thereon. Participants become vested in the Firm profit sharing contributions and related earnings upon completion of three credited years of service or attainment of normal retirement age. A participant receives a credited year of service for the anniversary year in which he or she works at least 1,000 hours.

Forfeitures

Forfeitures are used to reduce future Firm contributions and pay administrative expenses. At December 31, 2024 and 2023, unused forfeited account balances totaled \$15,151 and \$44,832, respectively. Forfeitures totaling \$49,522 were utilized to pay administrative expenses during the year ended December 31, 2024.

Payment of Benefits

The Plan provides for benefit payments to participants upon retirement, disability, death or termination in accordance with the Plan document. Participants who retire or terminate employment with the Firm for any reason other than death shall be entitled to a benefit equal to his or her vested balance valued as of the date coinciding with or immediately preceding the date the distribution is to be made.

In the event of the death of a participant, his or her beneficiary will have a non-forfeitable interest in, and will be entitled to receive, a benefit equal to the balance in the Participant's account valued as of the date coinciding with or immediately preceding the date the distribution is to be made.

Upon the retirement or termination of a participant, vested account balances greater than \$1,000, but not more than \$5,000 (increased to \$7,000 effective January 1, 2024), will be transferred to a rollover IRA unless a cash or rollover distribution is requested. Account balances of \$1,000 or less will automatically be distributed to participants.

In-service withdrawals from a participant's account are permitted due to (1) financial hardship or (2) in special circumstances for participants who have achieved age 59½, have suffered a financial hardship, and are on an authorized leave from the Firm that is expected to continue for an uninterrupted period of the shorter of six months or the remainder of the participant's life. Participants must exhaust all other options before financial hardship withdrawals are allowed except in the case of hardships that are approved under the special circumstances.

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow against their vested account balance for any reason. The amount of the loan is restricted to the lesser of \$50,000, or 50% of the vested account balance, and must be a minimum of \$1,000. All loans are secured by the Participant's account balance and bear interest at the prime rate at time of borrowing, plus 2%. Principal and interest are paid ratably through payroll deductions over a term not to exceed five years, unless the proceeds of the loan are used to acquire a principal residence for the participant and only two outstanding loans are allowed at a time.

Plan Expenses

Certain expenses incurred in the administration of the Plan are paid by the Firm as well as with Fidelity rebates, with the exception of fees relating to individual accounts, which are paid by the Plan and charged to the participant's account.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investments, Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the cash basis. Related fees are recorded as administrative expenses and are charged to expense as incurred.

Benefits Paid

Benefit payments to participants are recorded upon distribution.

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could vary from those estimates.

Contributions

Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

Subsequent Events

The Firm has evaluated subsequent events through September 2, 2025, the date that the financial statements were available to be issued. No matters of significance were identified for disclosure during this evaluation.

Note 3 - Investments

Under the Plan, a participant selects the manner in which his or her account will be invested by choosing from a variety of mutual funds, commingled funds or a collective trust fund. If the participant makes no investment election, their 401(k) contributions and their Employer contributions will be invested in the age appropriate Fidelity Freedom Fund. Participants may make transfers within the various mutual funds offered at any time.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Collective Trust Fund

Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Commingled Funds

Commingled funds are valued by calculating the NAV of each investment by multiplying the investment’s total capital from audited financial statements by the Plan’s ownership percentage in that investment. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. Redemptions may be processed daily.

Mutual Funds, Exchange Traded Funds, and Cash Funds (Self-Directed Brokerage Account)

Valued at closing price reported on the active market on which the individual securities are traded.

(a) In accordance with ASC Subtopic 820-10, "Fair Value Measurements," certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified within the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy amounts to amounts presented in the Statements of Net Assets Available for Benefits.

401(k) SAVINGS AND PROFIT SHARING PLAN

Notes to Financial Statements

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events such as an international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 7 - Related-Party Transactions and Exempt Party-In-Interest Transactions

Plan investments include shares of mutual funds managed by FMR Corp., commonly known as Fidelity Investments, of which Fidelity Management Trust Company is an affiliated company. Fidelity Management Trust Company is the recordkeeper and directed custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest. Notes receivable from participants are also considered party-in-interest transactions.

For the year ended December 31, 2024, Fidelity charged \$44,594 for fees related to Plan recordkeeping and testing and participant recordkeeping, loan, RMD and portfolio advisory fees. For the year ended December 31, 2024, the Plan paid \$49,538 to service providers. During the year ended December 31, 2024, participants received \$74,672 of revenue credits from Fidelity and the Plan received \$6,355.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in all of their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Firm may determine.

Note 9 - Tax Status

The Plan obtained its latest determination letter dated August 3, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
