Independent Auditor's Report

Plan Administrator
Bayerische Landesbank NY Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Bayerische Landesbank NY Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Bayerische Landesbank NY Employees' Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Bayerische Landesbank NY Employees' Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established as of January 1, 1990, by Bayerische Landesbank New York Branch in the United States and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by Bayerische Landesbank New York Branch (the Company, Employer or Plan Sponsor). Principal Trust Company is the trustee of the Plan and provides all custodial and recordkeeping services with respect to the Plan.

Eligibility: The 401(k) portion of the Plan covers all local and expatriate employees who completed at least six months of service to become eligible for participation in the Plan. Nonresident aliens, leased employees, independent contractors, interns sponsored through the German American Chamber of Commerce Internship Program and interns hired through the Company's internship program and paid on an hourly basis, and employees hired on a per project basis are not eligible. An employee may enroll in the Plan on the first day of the quarter the employee becomes eligible to participate.

The employer discretionary contribution portion of the Plan covers local employees who, regardless of hire date, are active participants of the Plan at December 31, 2024. Nonresident aliens, expatriate employees, leased employees, independent contractors, interns sponsored through the German American Chamber of Commerce Internship Program and interns hired through the Company's internship program and paid on an hourly basis, and employees hired on a per-project basis are not eligible for employer discretionary contributions. Eligible employees are enrolled in the employer discretionary contribution portion on the first day of the quarter after they become eligible to participate and the amount of eligible compensation used by the Company is retroactive to the date of hire for eligible employees.

Contributions: Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan, up to the maximum allowable under the income tax regulations. The Internal Revenue Code (IRC) sets maximum limits that participants can save as pretax contributions. The limit was \$23,000 for the year ended December 31, 2024. Participants who have attained age 50 before the end of the plan year are eligible to contribute an additional catch-up contribution up to \$7,500 for the year ended December 31, 2024. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, pooled separate accounts, collective investment trusts and a guaranteed investment contract as investment options for participants. Participants may change their contributions rate four times per year via the trustee's secured website or the Voice Response System. Participants may discontinue their contributions at any time. The Company contributes up to 100% of the first 6% of eligible compensation that a participant contributes during the plan year. Additional discretionary Company contributions may be contributed at the option of the Company's board of directors. Contributions from Plan participants and the matching employer contribution are recorded in the year in which the related employee contributions are withheld from compensation.

With regard to employer discretionary contributions of the Plan, each year, the Company shall make additional contributions for eligible employees who are not expatriate staff members in an amount equal to 10% of annual compensation. The Employer discretionary matching contributions are recorded in the year related to when participant compensation is earned. An employee is considered eligible if the employee was an active participant on the last day of the plan year or was an active participant at any time during the plan year and retires, becomes totally and permanently disabled, or dies.

Note 1. Description of the Plan (Continued)

All contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited and debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Participants are vested immediately in their contributions plus/minus actual earnings/losses thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service per the schedule below. A service period is a one-year period ending on December 31. Participants have one year of service for each period in which they have 1,000 or more hours of service. A participant is 100% vested after six years of credited service.

	Percentage Vested
Years of continuous service:	
0 to 1 year (but less than 2)	0%
2 years (but less than 3)	20%
3 years (but less than 4)	40%
4 years (but less than 5)	60%
5 years (but less than 6)	80%
6 years or more	100%

If participants terminate employment and are less than 100% vested, they will forfeit the nonvested portion of their account. If the Plan is terminated, all participants become fully vested.

Notes receivable from participants: Notes receivable from participants represent loans, which allow a participant to borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25% to 10.50%, which is commensurate with the local prevailing rate, as determined by the Plan administrator (at the time the loan is entered into). The period of repayment of any loan is determined by mutual agreement between the Plan administrator and the borrower, but such period may in no event exceed five years from the effective date of the loan. A participant may have only two loans outstanding at any given time. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: Participants may withdraw their account balance on their retirement date or make withdrawals based on hardship, death, disability, loans and termination of employment, as defined in the Plan document.

When participation in the Plan terminates for any reason other than death, the participant's account balance shall be distributed to such participant. When participation in the Plan is terminated by reason of death, the participant's entire account balance shall be distributable to the participant's designated beneficiary or executor. Distributions may be elected to be made in a lump sum at the next valuation date or in a lump sum at some other valuation date no later than 60 days after the close of the plan year in which employment terminates.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Forfeited accounts: Forfeitures are retained in the Plan and are eligible to be used to reduce future employer contributions and/or pay administrative expenses for the Plan. At December 31, 2024 and 2023, on an accrual accounting basis there were no remaining forfeited nonvested accounts. Forfeitures of \$66,881 were used to reduce the 2024 employer contributions.

Subsequent events: The Plan evaluates events occurring after the date of the financial statements to consider whether or not the impact of such events needs to be reflected and/or disclosed in the financial statements. Such evaluation is performed through the date the financial statements are available for issuance, which was September 4, 2025, for these financial statements.

Note 2. Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Investments valuation and income recognition: Except for certain contracts held by the custodian described in Note 5, investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For further discussion about the fair value of the Plan's investments, see Note 4, fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are treated as distributions based upon the terms of the Plan document.

Administrative expenses: Certain administrative expenses of the Plan are paid from participant accounts, investment income or forfeitures. The remainder of the Plan expenses is paid by the Company.

Note 3. Information Certified and Provided by Principal Trust Company

The following is a summary of the Plan's asset and income information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal), the trustee, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that the information provided to the Plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets at December 31:

	2024	2023
Investments:		
Guaranteed fund contract, at contract value	\$ 27,568,132	\$ 7,304,034

Notes receivable from participants	286,801	310,174
Total assets certified	<u>\$112,179,863</u>	<u>\$104,475,355</u>

Principal also certified the completeness and accuracy of net appreciation in fair value of investments of \$13,230,102, interest and dividend income of \$516,298 and interest income on notes receivable from participants of \$28,308 related to the aforementioned assets for the year ended December 31, 2024.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Bayerische Landesbank NY Employees' Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value at December 31, 2024 and 2023.

Registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Collective investment trusts: Valued based on the NAV of units of the collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled separate accounts: Valued at NAV in each account held by Plan at year-end, as provided by the trustee. The NAV is not a publicly quoted price in an active market. The NAV is used as a practical expedient to estimating fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024

Note 4. Fair Value Measurements (Continued)

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2024 and 2023:

Bayerische Landesbank NY Employees' Retirement Plan

Notes to Financial Statements

Note 5. Guaranteed Fund Contracts

The Plan maintains a benefit-responsive annuity contract with Principal Life Insurance Company (Principal Life). The Plan terminated its interest in the BayernLB Fixed Income Account that was made up of two investments: Principal Guaranteed Option (PGO) and principal fixed income guaranteed option. The Plan's interest in the BayernLB Fixed Income Account was transferred over to the PGO effective February 2024. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

PGO is not Federal Deposit Insurance Corporation insured and is not an obligation or deposit for any bank nor guaranteed by a bank. The guarantees provided with regard to the PGO are supported by the general account of Principal Life. PGO is the custodial guaranteed option group annuity contract available through Principal Life.

For investment contracts that are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by Principal. Contract value represents contributions made under the contract plus earnings less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a semiannual basis for resetting. During 2024, the interest rates for the PGO 6.05% from January 1, 2024 to May 31, 2024, and 5.15% from June 1, 2024 to November 31, 2024, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed fund contracts do not permit Principal Life to terminate the agreement prior to the scheduled maturity date.

Note 6. Related-Party and Party-in-Interest Transactions

Certain plan investments are shares of pooled separate accounts, shares of collective investment trusts and a guaranteed fund options managed by affiliates of Principal, the trustee. In addition, as described in Notes 1 and 2, the Plan has other arrangements with related parties and parties-in-interest during the normal operations. These transactions are considered exempt party-in-interest transactions under ERISA.

Bayerische Landesbank NY Employees' Retirement Plan

Notes to Financial Statements

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, by action of its plan committee, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination or partial termination, participants would become 100% vested in their employer contributions.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Principal Life Insurance Company in a letter dated June 30, 2020, that the volume submitter plan and is designed in accordance with applicable sections of the IRC.

The Plan Sponsor's management evaluates the Plan's tax positions in conjunction with FASB guidance on accounting for uncertain tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements as of December 31, 2024 and 2023, and for the year ended December 31, 2024. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
