Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Administrator of

Pension Plan for Certain Salaried Employees of Alcoa USA Corp.,
Pension Plan for Certain Hourly Employees of Alcoa USA Corp.,
Alcoa Subsidiaries Merged Inactive Plan,
Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan I, and
Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan II

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed an audit of each of the accompanying financial statements of the Pension Plan for Certain Salaried Employees of Alcoa USA Corp., the Pension Plan for Certain Hourly Employees of Alcoa USA Corp., the Alcoa Subsidiaries Merged Inactive Plan, the Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan I, and the Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan II (the "Plans"), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The individual plan financial statements comprise the statements of individual plan net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in individual plan net assets available for benefits for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plans' individual plan financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plans (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 8 to the individual plan financial statements, is complete and accurate.

Opinions

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Individual Plan Financial Statements section of our report

- the amounts and disclosures in each of the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in each of the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the

information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Individual Plan Financial Statements section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinions.

Responsibilities of Management for the Individual Plan Financial Statements

Management is responsible for the preparation and fair presentation of the individual plan financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the individual plan financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the individual plan financial statements.

In preparing the individual plan financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for one year after the date the individual plan financial statements are available to be issued.

Management is also responsible for maintaining current plan instruments, including all plan amendments, administering the plans, and determining that the plans' transactions that are presented and disclosed in the individual plan financial statements are in conformity with the plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Individual Plan Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the individual plan financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the individual plan financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the individual plan financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the individual plan financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the individual plan financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the individual plan financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the individual plan financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

1. Description of Plans

The following description of each Plan's provisions provides only general information. Participants should refer to each Plan document for a more complete description of each Plan's provisions.

General

The Alcoa USA Corp. and Subsidiary Companies' ("Alcoa Corp." or the "Company") Pension Plan for Certain Salaried Employees of Alcoa USA Corp. (Alcoa Corp. Salary Plan), Pension Plan for Certain Hourly Employees of Alcoa USA Corp. (Alcoa Corp. Hourly Plan), Alcoa Subsidiaries Merged Inactive Plan (Alcoa Subsidiaries Merged Inactive Plan), Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan I (Suriname Plan I) and Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan II (Suriname Plan II) (each referred to as the "Plan") are noncontributory defined benefit plans that cover eligible United States employees and certain employees in foreign countries and participate in the Pension Plans Master Trust for Alcoa USA Corp. ("Master Trust").

The investments of the Plans are maintained under one trust pursuant to a "Master Trust Agreement" with the trustee, The Bank of New York Mellon ("trustee").

All fiduciary responsibility for the Plans is maintained by the Alcoa Corp. Benefits Management Committee. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plans provide, in general, for monthly pensions upon retirement at or after age 65, or earlier upon disability, incapacity, special circumstances, or with certain minimum age and service requirements. Pension benefits generally depend upon length of service, job grade or remuneration, and certain social security and other benefits.

Eligibility and Vesting

Employees hired before March 1, 2006 are eligible to participate in the Alcoa Corp. Salary Plan after they have attained age 21 with one year of service. Certain new employees hired after March 1, 2006 are not eligible to participate in the Alcoa Corp. Salary Plan. Certain hourly employees hired before January 1, 2020 are eligible to participate in the Alcoa Corp. Hourly Plan after they have attained age 21 with one year of service.

Suriname salaried employees hired after December 31, 2011 are no longer eligible to participate in Suriname Plan I. Suriname hourly employees hired after December 31, 2012 are no longer eligible to participate in Suriname Plan II. If hired prior to these dates, employees are eligible to participate in Suriname Plan I and Suriname Plan II after they have attained age 21 with one year of service.

There are no longer any active participants accruing benefits in the Alcoa Subsidiaries Merged Inactive Plan. Benefits are being provided to retired participants and will be provided to deferred vested participants in accordance with Plan provisions applicable at the time of their termination.

All eligible participants currently accruing benefits in the Plans fully vest after a five-year period.

Benefit Provisions

The benefit provisions for the Alcoa Corp. Salary Plan and the Suriname Plan I determine the retirement benefit on a compensation-based formula.

The Alcoa Corp. Hourly Plan and the Suriname Plan II determine the retirement benefits on a factor times years of service.

Benefit provisions for certain participants of the Alcoa Subsidiaries Merged Inactive Plan determine the retirement benefit on a compensation-based formula while the remaining is based on hypothetical account balances.

Normal retirement for the Alcoa Corp. Salary Plan, the Alcoa Corp. Hourly Plan and the Alcoa Subsidiaries Merged Inactive Plan is age 65 with five years of service.

Normal retirement for the Suriname Plan I is the later of the date of age 60 or 18 months of service, or age 55 with 30 years of service.

Normal retirement for the Suriname Plan II is the later of the date of age 65 or 18 months of service, or age 55 with 30 years of service.

Risks and Uncertainties

The Plans invest in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Individual Plan Net Assets Available for Benefits and Statements of Changes in Individual Plan Net Assets Available for Benefits.

Plans' contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the individual Plans' financial statements.

Termination of Plans

Benefits under the Plans (except for the Suriname Plans, which are not subject to Title IV of ERISA) are insured by the Pension Benefit Guaranty Corporation ("PBGC"). Should the Plans terminate at some future time, the net assets of the Plans generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

A full description of each Plan's termination priorities is available in each Plan document.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plans are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Employees' Retirement Plans of Alcoa USA Corp. and Subsidiary Companies

Notes to Financial Statements

December 31, 2024 and 2023

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Plans' interest in the Master Trust Investment income includes the Plans' unrealized and realized gains and losses on investments, dividends, interest income, and investment management/trustee fees.

The fair value of the Plans' interest in the Master Trust are based on the beginning-of-year value of the Plans' interest in the Master Trust plus actual contributions and allocated investment income less actual distributions, allocated investment loss, and administrative expenses.

The individual Plans participate in the operations of the Master Trust through the purchase and sale of units. Cash inflows and outflows between the Plans and the Master Trust are accounted for at the beginning-of-the-month unit value. Units are revalued monthly to reflect changes in the investment values. Net investment income and losses are allocated to the Plans that participate in the Master Trust based on each Plan's units held.

Benefit Payments

Benefit payments to participants are recorded when paid.

Administrative Expenses

Trustee, audit, legal, actuarial, recordkeeping, and other administrative expenses are paid by the Plans. Expenses for services provided for the Master Trust are allocated to the Plans ratably. Expenses for services provided directly to a specific plan are attributed only to that plan.

Investment Management Fees

Investment management fees are paid by the Plans and are included in Plans' interest in the Master Trust's Investment income.

Employer Contributions Receivable

Employer contributions receivable represent the remaining funding amounts the Company is required to contribute to meet the minimum contribution levels established by law or as a result of a formal commitment by the Company to make a contribution into the respective Plans.

Funding Policy

The Plans are defined benefit pension plans. No employee contributions to the Plans are required or permitted. The Company contributes such amounts as are necessary on an actuarial basis to provide the individual Plans with assets sufficient to meet the benefits to be paid to current and future retirees or their beneficiaries. The minimum contributions required, if any, for the Plans are designed to fund the Target Normal cost and an amortization installment towards any funding shortfalls. A funding shortfall occurs when there is an excess of Funding Target liability over the Actuarial Value of Plan Assets. The amortization installment is designed to fully fund the funding shortfall in a given year over a 15-year period. The Company may also voluntarily contribute amounts in excess of those minimum required amounts to meet certain funding thresholds or company objectives.

Employees' Retirement Plans of Alcoa USA Corp. and Subsidiary Companies

Notes to Financial Statements

December 31, 2024 and 2023

The actuarial determined pension contribution is calculated using the Unit Credit Cost Method. The Funding Target liability is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected expenses to be paid from plan assets during the year.

The Plans have met the minimum funding requirements under the provisions of ERISA in 2024 and 2023.

Investment Policy and Strategy

The Master Trust's target asset allocation at December 31, 2024 and 2023, by asset class, are as follows:

Asset Class	Target Asset Allocation	
	2024	2023
Equity securities	15.0 %	15.0 %
Fixed income securities	77.5 %	77.5 %
Other investments	7.5 %	7.5 %

The principal objectives underlying the investment of the pension plan assets are to ensure that the Company can properly fund benefit obligations as they become due under a broad range of potential economic and financial scenarios, maximize the long-term investment return with an acceptable level of risk based on such obligations, and broadly diversify investments across and within various asset classes to protect asset values against adverse movements. Investment risk is controlled by rebalancing to target allocations on a periodic basis and ongoing monitoring of investment manager performance.

The portfolio includes an allocation to investments in long-duration corporate credit and government debt, public and private market equities, intermediate duration corporate credit and government debt, global-listed infrastructure, high-yield bonds and bank loans, real estate, and securitized credit.

Investment practices comply with the requirements of applicable laws and regulations in the respective jurisdictions, including ERISA in the United States.

4. Fair Value Measurements

The Financial Accounting Standard Board (FASB) Accounting Standards Codification No. 820, *Fair Value Measurements and Disclosures* (ASC 820), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data correlation or other means.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

Cash and Cash Equivalents

Interest-bearing cash is valued at carrying value which approximates fair value.

Cash and cash equivalents held within commingled funds (institutional short-term investment funds) are fully liquid within 30 days and are valued at the closing Net Asset Value ("NAV") of shares held at year end as a practical expedient.

Cash and cash equivalents held within commingled funds (short-term investment funds) that are publicly traded are valued at the closing price reported on an active market (included in Level 1).

Employees' Retirement Plans of Alcoa USA Corp. and Subsidiary Companies

Notes to Financial Statements

December 31, 2024 and 2023

Fixed Income Securities

U.S. government debt is valued at the closing price reported on an active market on the last business day of each period presented (included in Level 1).

U.S. and non-U.S. fixed interest obligations (principally corporate bonds and debentures) are valued through consultation and evaluation with brokers in the institutional market using quoted prices and other observable market data (included in Level 2).

Emerging market debt registered with investments companies is generally valued at the last quoted sale or trade price on the primary market or exchange on which they are traded (included in Level 1). In the absence of such data, emerging market debt would be valued at the closing NAV of shares held at year end as a practical expedient.

Structured credit securities are valued by institutional pricing services using publicly available market quotations (included in Level 1). In the absence of such data, structured credit securities are valued at the closing NAV of shares held at year end as a practical expedient.

Equity Securities – Common Stocks

Valued at the closing price reported on an active market on the last business day of each period presented (included in Level 1).

Equity Securities – Commingled Trust Funds

Valued at the closing NAV of shares held at year end as a practical expedient. These funds are not publicly listed.

Equity Securities – Registered Investment Companies

Valued at the closing NAV of shares held at year end. These funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. They are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded with readily determinable fair values (included in Level 1).

Alternative Investments

Valued primarily at the closing NAV of shares held at year end as a practical expedient as reported in audited financial statements. In the event that audited financial statements for these investments are not available in time to prepare the financial statements or management believes the value reported by the investment advisor does not accurately reflect fair value due to an event in the market place, management will adjust the reported value to fair value based upon information provided by the investment manager and independent valuation experts. The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

December 31, 2024 and 2023

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy.

The Master Trust uses the NAV as a practical expedient for all of the underlying investments which (a) do not have a readily determinable fair value and (b) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principals of an investment company.

There have been no transfers between levels during the year.

The following table sets forth a summary of liquidity consideration of the investments valued at the closing NAV of shares held at year end as a practical expedient:

(A) Redemption not permitted during life of funds. Sale or transfer subject to approval of the general partner.

(B) Hedge Fund Redemption terms vary by fund. Under normal conditions, most funds are available within one year.

(C) Redemption terms vary by fund. Redemption notice periods vary by fund and range from 1-30 days.

5. Derivatives

Derivatives Policy

The Master Trust enters into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to (1) manage interest rate risk within the portfolio, (2) manage exposure to a market more efficiently than could be accomplished through the use of cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments. The Master Trust may utilize exchange traded instruments such as interest rate futures and foreign currency forward contracts. The Master Trust is subject to enforceable master netting arrangements, or netting arrangements, with certain counterparties. Master netting agreements may not be specific to each different asset type; in such instances, they would allow the Master Trust to close out and net its total exposure to a specified counter party in the event of a

default. The Master Trust's derivative holdings at December 31, 2024 and 2023 and the activity for the year ended December 31, 2024 were not material to the Plans' financial statements.

6. Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments that are attributable, under each Plan's provisions, to employees' service rendered to the benefit information date. Accumulated plan benefits comprise benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The Plans' actuary made this determination.

Based upon actuarial estimates at December 31, 2024, the present value of accumulated plan benefits for the Plans are as follows:

	Actuarial Present Value of Accumulated Plan Benefits at December 31, 2024			
	Vested Benefits of Participants Currently Receiving Benefits	Other Vested Benefits	Nonvested Benefits	Total Present Value of Accumulated Plan Benefits
	\$		\$	\$

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company that the Plans and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

The Plans have been amended since receiving the determination letters. However, the Plans' administrator believes that the Plans are currently designed and operating in compliance with the applicable requirements of the IRC. Therefore, the Plans' administrator believes the Plans were qualified and the related trust was tax-exempt as of the financial statements date.

Determination letters received were dated as follows:

Alcoa Corp. Salary Plan	May 8, 2017
Alcoa Corp. Hourly Plan	May 8, 2017
Alcoa Subsidiaries Merged Inactive Plan	December 8, 2016
Suriname Plan I	April 24, 2017
Suriname Plan II	May 4, 2017

U.S. GAAP requires the Plans' management to evaluate tax positions taken by the Plans and recognize a tax liability (or asset) if the organization has taken an uncertain position that would not be sustained upon examination by the IRS. The Plans' administrator has analyzed the tax positions taken by the Plans and has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure to the financial statements. As such, no reserve is required under U.S. GAAP.

The Plans are subject to audit by the IRS. However, there are no current IRS audits for any plans or years. The Plans' administrator believes the Plans are no longer subject to IRS audits outside the statutory audit period.

8. Information Certified by the Plans' Trustee

The information included in the Plans' financial statements and Note 3 was prepared by Bank of New York Mellon, the trustee of the Plans, as of December 31, 2024 and 2023 and for the period ended December 31, 2024 and furnished to the Plans' administrator. The Plans' administrator has obtained a certification from the trustee that such information is complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plans' management relies on third party valuation statements in valuing its alternative investments. In substantiating the reasonableness of

9. Related Party Transactions

The Plans invest in funds managed by The Bank of New York Mellon. The Bank of New York Mellon is the trustee as defined by the Plans; therefore, these transactions, and expenses paid to The Bank of New York Mellon, qualify as party-in-interest transactions.

The Company makes minimum funding contributions, and at times discretionary contributions, to the Plans; therefore, these transactions qualify as party-in-interest transactions.

10. Plan Specific Activities

Alcoa Corp. Salary Plan and Alcoa Subsidiaries Merged Inactive Plan

The Company merged the Alcoa Subsidiaries Merged Inactive Plan into the Alcoa Corp. Salary Plan effective December 31, 2024. As a result, \$117 million and \$134 million in plan obligations and plan assets, respectively, were transferred from the Alcoa Subsidiaries Merged Inactive Plan to the Alcoa Corp. Salary Plan. The merger did not result in changes to the amounts of participants' benefits.

11. Commitments and Contingencies

The Master Trust has capital commitments of \$6,414,987 and \$9,246,236 at December 31, 2024 and 2023, respectively, in relation to additional funding for Limited Partnerships in which it invests. Capital commitments are at the request of individual fund managers. The reduction in capital commitments is primarily a result of reduced funding requirements.

12. Subsequent Events

Management has evaluated the events and transactions that have occurred through September 11, 2025, the date the financial statements were available to be issued, and noted no items requiring adjustment of the financial statements or additional disclosures, other than that which is described below.

In the first quarter of 2025, the Company made cash contributions of \$10,486,534 to its Plans and they were applied to the 2024 plan year. These employer contributions are reflected as receivables on the Statement of Individual Plan Net Assets Available for Benefits and as employer contributions on the Statement of Changes in Individual Plan Net Assets Available for Benefits.

--	--------------------------	------------------------------

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Methods

Valuation Date	First day of plan year
Funding Target	Present value of accrued benefits as required by regulations under IRC §430.
Target Normal Cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Assumed return for asset smoothing	The assumed returns used for asset smoothing is the expected return on assets assumption chosen by the client for the applicable plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client’s best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation. The assumed returns used in the actuarial value of assets calculations are limited by each respective plan year’s third segment rate, as applicable.

Assumptions Rationale – Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on an experience study conducted in 2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.</p>
Retirement	Retirement rates were based on an experience study conducted in 2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred benefits:

- Preretirement death benefit Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

- Deferred vested benefit Commencement ages for deferred vested participants were based on an experience study conducted in 2019.

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

Form of payment

The percentage of retiring participants assumed to take the various optional forms of payment available are based on observed experience during a study performed in 2019.

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

Marital assumptions:

- Percent married The assumed percentage married is based on the marital status of plan participants.

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality tables used to calculate the funding target and target normal cost were updated as required by IRC §430, including the change from using a static projection of mortality improvement to a generational projection.

The assumed plan-related expenses added to the target normal cost were updated to reflect current experience.

Change in methods since prior valuation None.

Interest rates

	Reflecting Stabilization	Not Reflecting Stabilization
--	--------------------------	------------------------------

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Methods

Valuation Date	First day of plan year
Funding Target	Present value of accrued benefits as required by regulations under IRC §430.
Target Normal Cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Assumed return for asset smoothing	The assumed returns used for asset smoothing is the expected return on assets assumption chosen by the client for the applicable plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client’s best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation. The assumed returns used in the actuarial value of assets calculations are limited by each respective plan year’s third segment rate, as applicable.

Assumptions Rationale – Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on an experience study conducted in 2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.</p>
Retirement	Retirement rates were based on an experience study conducted in 2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred benefits:

- Preretirement death benefit Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

- Deferred vested benefit Commencement ages for deferred vested participants were based on an experience study conducted in 2019.

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

Form of payment

The percentage of retiring participants assumed to take the various optional forms of payment available are based on observed experience during a study performed in 2019.

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

Marital assumptions:

- Percent married The assumed percentage married is based on the marital status of plan participants.

For reasons described above, we believe the assumptions do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality tables used to calculate the funding target and target normal cost were updated as required by IRC §430, including the change from using a static projection of mortality improvement to a generational projection.

The assumed plan-related expenses added to the target normal cost were updated to reflect current experience.

Change in methods since prior valuation

None.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

Covered employees	Every regular employee of a Company authorized by the Board of Directors to participate who is not (1) accruing service countable for pension benefit accrual purposes under another retirement plan of Alcoa or a Subsidiary, (2) in a collective bargaining unit, (3) in temporary or special employment or (4) in receipt of a pension (with certain limited exceptions), commissions, severance pay, retainer or fee under contract is generally covered under the Plan upon reaching age 21 with 1 year of service.
Participation date	Date of becoming a covered employee

Definitions

Service	Based on years, months, and days of continuous regular employment with the Company. Certain locations included do not recognize benefit service for all periods of service with the Company. These limitations are specified in the Plan document. Service is frozen for all Plan participants effective January 1, 2021.
Other pension	Any pension, other than Social Security or Railroad Retirement benefit that a participant is entitled to from a governmental plan, foreign or domestic, or a benefit from a nongovernmental plan to which Alcoa Corp. or a subsidiary has contributed.
Compensation	Total payments made by the Company other than payments made for specific purposes not in the category of wages or salary. Compensation includes profit sharing amounts paid. Compensation excludes SPP pay and for Rule IM, compensation excludes overtime pay. Compensation is frozen for all Plan participants effective January 1, 2021.

Accrued Benefit

Consists of 1.875% of Average Earnings multiplied by service up to 10 years, plus 1.75% of Average Earnings multiplied by service in excess of 10 years, less Social Security offset when first payable of 1.25% of Social Security benefit multiplied by years of service up to 40 years. Minimum annual benefit is \$252 multiplied by years of service.

All benefits accrued through December 31, 2003 and December 31, 2004, depending on location, are frozen. Those participants with Rule IP accrued amounts are generally currently covered by Rule IN.

Accrued benefits are frozen effective January 1, 2021.

Normal Retirement

Eligibility: Age 65, except age 60 for flight crew employees

Benefit: Accrued Benefit payable immediately

Early Retirement

Eligibility: Within 10 years of Normal Retirement with 1 year of service and age plus service equals 60 or greater

Benefit: Accrued Benefit reduced 1/4 of 1% for each of the first 24 months and 5/12 of 1% for each additional month commencement date precedes 3 years prior to the participant's Normal Retirement Date.

The Social Security offset will not apply until the participant is first entitled to Social Security benefits. The Social Security offset is determined as the Social Security benefit as if the participant had remained in service to his Normal Retirement Date at his rate of compensation at the time of retirement, multiplied by the ratio of his years of service at retirement to the years of service he would have had at Normal Retirement reduced by 5/9 of 1% for each of the first 36 months and 5/12 of 1% for each additional month by which the participant is younger than the Social Security Retirement Date.

Deferred Vested

Eligibility: 5 years of service

Benefit: Accrued Benefit deferred to Normal Retirement, or actuarially reduced pension commencing at early retirement age. If participant terminates within 15 years of his Normal Retirement Date and his age plus service equals 70 or greater, he may receive a benefit commencing at his early retirement age equal to the early retirement benefit.

Preretirement Surviving Spouse Benefit

Eligibility: Death after 5 years of service or becoming eligible for Early Retirement

Benefit: If eligible for Early Retirement at death, 100% of Accrued Benefit actuarially reduced for surviving spouse coverage payable immediately. If not eligible for Early Retirement but has at least 5 years of service at death, 55% of Accrued Benefit actuarially reduced for surviving spouse coverage payable at the later of the date of death or early retirement age.

Child Benefit

Eligibility: For an active participant eligible for an early or normal retirement benefit or a retired participant eligible for a deferred early retirement benefit for whom no spouse's benefit is payable

Benefit: The benefit payable to a surviving child is 82% of the benefit that would have been payable for the participant's life, until such child is age 21. If there is more than one child, the benefit is divided equally amongst them and payable until the youngest child is age 21.

Forms of Payment

- 100%, 55%, 50% joint and survivor annuity—reduced benefit to retiree until death and then X% of benefit payable to spouse.
- Straight life—payments to retiree until death.
- Lump sum payment.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

Covered employees	Every regular employee of a Company authorized by the Board of Directors to participate who is not (1) accruing service countable for pension benefit accrual purposes under another retirement plan of Alcoa or a Subsidiary, (2) in a collective bargaining unit, (3) in temporary or special employment or (4) in receipt of a pension (with certain limited exceptions), commissions, severance pay, retainer or fee under contract is generally covered under the Plan upon reaching age 21 with 1 year of service.
Participation date	Date of becoming a covered employee

Definitions

Service	Based on years, months, and days of continuous regular employment with the Company. Certain locations included do not recognize benefit service for all periods of service with the Company. These limitations are specified in the Plan document. Service is frozen for all Plan participants effective January 1, 2021.
Other pension	Any pension, other than Social Security or Railroad Retirement benefit that a participant is entitled to from a governmental plan, foreign or domestic, or a benefit from a nongovernmental plan to which Alcoa Corp. or a subsidiary has contributed.
Compensation	Total payments made by the Company other than payments made for specific purposes not in the category of wages or salary. Compensation includes profit sharing amounts paid. Compensation excludes SPP pay and for Rule IM, compensation excludes overtime pay. Compensation is frozen for all Plan participants effective January 1, 2021.

Rule IP

Plan Provisions

Accrued Benefit

Consists of 1.875% of Average Earnings multiplied by service up to 10 years, plus 1.75% of Average Earnings multiplied by service in excess of 10 years, less Social Security offset when first payable of 1.25% of Social Security benefit multiplied by years of service up to 40 years. Minimum annual benefit is \$252 multiplied by years of service.

All benefits accrued through December 31, 2003 and December 31, 2004, depending on location, are frozen. Those participants with Rule IP accrued amounts are generally currently covered by Rule IN.

Accrued benefits are frozen effective January 1, 2021.

Normal Retirement

Eligibility: Age 65, except age 60 for flight crew employees

Benefit: Accrued Benefit payable immediately

Early Retirement

Eligibility: Within 10 years of Normal Retirement with 1 year of service and age plus service equals 60 or greater

Benefit: Accrued Benefit reduced 1/4 of 1% for each of the first 24 months and 5/12 of 1% for each additional month commencement date precedes 3 years prior to the participant's Normal Retirement Date.

The Social Security offset will not apply until the participant is first entitled to Social Security benefits. The Social Security offset is determined as the Social Security benefit as if the participant had remained in service to his Normal Retirement Date at his rate of compensation at the time of retirement, multiplied by the ratio of his years of service at retirement to the years of service he would have had at Normal Retirement reduced by 5/9 of 1% for each of the first 36 months and 5/12 of 1% for each additional month by which the participant is younger than the Social Security Retirement Date.

Deferred Vested

Eligibility: 5 years of service

Benefit: Accrued Benefit deferred to Normal Retirement, or actuarially reduced pension commencing at early retirement age. If participant terminates within 15 years of his Normal Retirement Date and his age plus service equals 70 or greater, he may receive a benefit commencing at his early retirement age equal to the early retirement benefit.

Preretirement Surviving Spouse Benefit

Eligibility: Death after 5 years of service or becoming eligible for Early Retirement

Benefit: If eligible for Early Retirement at death, 100% of Accrued Benefit actuarially reduced for surviving spouse coverage payable immediately. If not eligible for Early Retirement but has at least 5 years of service at death, 55% of Accrued Benefit actuarially reduced for surviving spouse coverage payable at the later of the date of death or early retirement age.

Child Benefit

Eligibility: For an active participant eligible for an early or normal retirement benefit or a retired participant eligible for a deferred early retirement benefit for whom no spouse's benefit is payable

Benefit: The benefit payable to a surviving child is 82% of the benefit that would have been payable for the participant's life, until such child is age 21. If there is more than one child, the benefit is divided equally amongst them and payable until the youngest child is age 21.

Forms of Payment

- 100%, 55%, 50% joint and survivor annuity—reduced benefit to retiree until death and then X% of benefit payable to spouse.
- Straight life—payments to retiree until death.
- Lump sum payment.

Note: 55% J&S, Straight life, and Lump Sum are the only forms of payment available upon election for termination retirements.

Special Credited Service

Service earned at High Altitude locations is increased 20% for each year after age 35 subject to a maximum increase of 5 years, except for calculation of minimum benefit

Supplemental Amounts

Certain retirees who retired prior to May 1, 1988 receive supplemental monthly amounts, which were paid from the Company's general assets prior to 1998
