Goettle Employee Stock Ownership Plan

**Financial Statements with Supplemental Information
Years Ended November 30, 2023 and 2022
With Independent Auditors' Report**

Independent Auditors' Report

To the Plan Administrator of Goettle
Employee Stock Ownership Plan
Cincinnati, OH

Opinion

We have audited the accompanying financial statements of Goettle Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of November 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended November 30, 2023, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Goettle Employee Stock Ownership Plan as of November 30, 2023 and 2022 and the changes in its net assets available for benefits for the year ended November 30, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Goettle Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of a Matter

As discussed in Note 2 to the financial statements, the November 30, 2023 and 2022 financial statements include common stock of Goettle Holding Company, Inc., and Subsidiaries valued at \$41,556,515 (113% of net assets) and \$36,497,461 (122% of net assets), respectively, whose value has been estimated by the Trustees of the Goettle Employee Stock Ownership Plan, based on an independent appraisal, in the absence of a readily ascertainable market value. We have examined the procedures used by the Trustees in arriving at its estimate of the value of such securities and have inspected the underlying documentation, and in the circumstances, we believe that such procedures are reasonable and the documentation appropriate. However, because of inherent uncertainty of a valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. Our opinion is not modified with respect to the matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Independent Auditors' Report
(Continued)**

Responsibilities of Management for the Financial Statements (Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Goettle Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Goettle Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Goettle Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) at November 30, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

GOETTLE EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

NOTE 1 DESCRIPTION OF THE PLAN

The following description of Goettle Employee Stock Ownership Plan provides only general information. Participants should refer to their Goettle Employee Stock Ownership Plan document for a more complete description of the Plan's provisions.

General

Goettle Holding, Inc., and Subsidiaries (the "Company") established the Goettle Employee Stock Ownership Plan, formerly the Richard Goettle, Inc. Employee Stock Ownership Plan (the "Plan") effective as of December 1, 1981. The Plan has been set up to operate as a leveraged Employee Stock Ownership Plan (the "ESOP"). It is also designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code") and will be funded through Company contributions. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Trustees of the Employee Stock Ownership Plan of the Company appointed by the Company's Board of Directors. The common shares of the Company are valued annually as of November 30 (the "valuation date") based on an appraisal by an independent third party.

Eligibility and Participation

Employees of the Company except (i) leased employees, (ii) students or interns, (iii) employees covered by a collective bargaining agreement under which the Company has engaged in good faith negotiations about retirement benefits unless such bargaining results in participation in this plan, (iv) nonresident aliens receiving no earned income from sources within the United States, (v) employees of the company related or affiliated with the Company, unless that company is a participating employer in the plan, are generally eligible to participate in the Plan provided they have attained age 21 and have been credited with at least one full year of service, defined as a year in which an employee has earned not less than 1,000 hours of service.

Contributions

Contributions to the Plan are at the discretion of the Company provided that such contributions, shall be sufficient to cover principal and interest on any outstanding loans. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as the last day of each year with an allocation of company contributions released from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. At the end of each plan year after all allocations have been performed, the Trustee will rebalance the assets held in participant accounts. The assets held in participant accounts will be adjusted so that all accounts under the Plan hold the same percentage of Employer stock and other investments. The Plan does not allow for participant directed investments.

GOETTLE EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements (Continued)

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits

Subject to the Participant's consent, the Trustee shall commence distribution to the Participant as soon as administratively feasible following the end of the Plan year that includes the date the Participant terminates employment for any reason, including death, or if later, after distribution is elected in connection with the Participant's termination of employment.

Distributions due to the Participant attaining normal retirement age (age 65) may request a distribution of all or any portion of the Participant's vested account balance. The distribution of the requested amount shall be made as soon as administratively feasible after the distribution is elected.

Distributions will be made in the form of a lump sum payment or annual installments over a period not to exceed ten years based on the distribution policy adopted by the Company from time to time.

Expenses

All usual and reasonable expenses of the Plan Administrator may be paid in whole or in part by the Company. Any expense not paid by the Company shall be paid out of the principal or income of the Plan.

Participant Accounts and Forfeitures

Employer contributions and plan forfeitures are allocated to each participant's account based on the relation of the participant's compensation to total compensation for the plan year. Plan earnings are allocated to each participant's account based upon the beginning balances in their cash account less any distribution from such amount since the preceding allocation date. Plan expenses are allocated to each participants account based upon their total beginning account balances less any distributions since the preceding allocation date.

Vesting

Participant account balances vest at a rate of 20% per year in years two through six of participation in the Plan, with full vesting upon the earlier of normal retirement, disability, death or six years of vesting service.

Diversification

Shares purchased by the ESOP after November 30, 1986, are subject to the diversification rules of Code Section 401(a)(28)(B). Qualified participants (have obtained age 55 and 10 years of participation) must be permitted to diversify up to 25% of the value of post-1986 shares allocated to their account. This election period runs for each of the first five years in which a participant qualifies. Under Code Section 401(a)(28)(B), qualified participants (have obtained age 60 and 10 years of participation) must be permitted to diversify up to 50% of the value of post-1986 shares allocated to their account. This election period runs for each of the first five years in which a participant qualifies. In addition, the Plan allows for diversification rights regardless of whether the participant is a qualified participant. Under this provision, participants with certain years of participation may direct liquidation of the applicable percentage (25% in year 20 and 50% in year 30) of the number of shares of employee stock allocated. If a participant is eligible and fails to make election, this additional diversification will be segregated from participants account balance and the participant will receive cash for the liquidated shares.

Notes to Financial Statements (Continued)

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchases with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Investment Concentrations

The Plan holds a substantial portion of its investments as of November 30, 2023 and 2022 in shares of Company stock which are not readily tradable in an established market.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting using accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The Plan intends to invest primarily in common stock of the Company. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Administration of the Plan Assets

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

Certain expenses and costs of the Plan were paid by the Company and, accordingly, are not reflected in the Plan's financial statements.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The common stock of the Company (361,361 shares held at November 30, 2023 and 2022) is not actively traded. The estimated fair value of the common stock (\$115 at November 30, 2023) is based upon appraisals from an independent appraisal company. Such appraisals represent a fair value for the stock in the opinion of the Plans' Trustees. The cost of common stock redeemed from participants is determined by the average cost method.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

The Company has evaluated subsequent events to the balance sheet date of November 30, 2023, through September 12, 2024, which is the date these financial statements were available to be issued.

NOTE 3 TAX STATUS

The Plan Sponsor has received a favorable determination letter from the Internal Revenue Service dated June 30, 2020. Accordingly, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. They believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States require the evaluation of tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan and has concluded that as of November 30, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax filings are subject to examination generally for three years after they are filed.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 5 FAIR VALUE MEASUREMENTS

GAAP provisions for Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP provisions for Fair Value Measurements are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at November 30, 2023 and 2022:

Common Stock of Goettle Holding, Inc., and Subsidiaries: Valued at fair value as determined by the Plan's Trustees as of the last day of the Plan year (Level 3 inputs), based on the recommendation of an independent appraiser selected by the Plan's Trustees. This appraisal is performed using a combination of the income approach, which applies the discounted cash flow methodology, and the market approach, which applies the valuation multiples methodologies of guideline public companies and guideline transactions. Under the discounted cash flow method, projections are based upon past performance as identified in audited financial statements of the Company and management's projections of future performance. The resulting cash flow projections are discounted using a market related discount rate (which incorporates the Company's estimated weighted average cost of capital). The guideline public companies which are used for the valuation multiples are deemed to be as comparable as possible to the Company. The guideline transactions used include those in which the buyer acquired at least a majority stake in a target company determined to be comparable to the Company. Under both approaches a discount is applied for the lack of marketability since the Company's stock is not readily tradable on an established market. The historical and projected financial information of the Company which is used by the appraiser is provided by the Company's financial management. The appraiser prepares a preliminary report which management and the Plan's Trustees, reviews in detail and approves the final value of the stock.

NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)

Common Stock: Valued using publicly traded prices of the shares.

Mutual Funds: Valued using quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

Corporate bonds: Value is estimated using various techniques, which consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (when observable), bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 NOTES PAYABLE

The Plan has various term notes with the Company during 2012 through 2021. The notes are payable in annual installments ranging from \$50,106 to \$261,822 and mature on various dates through 2031. The notes bear interest at a fixed rate ranging from 1.12% to 3.28%. The notes are collateralized by the unallocated shares of Company common stock.

As of the end of each plan year, the number of the unallocated shares to be allocated shall be calculated by multiplying the number of unallocated shares immediately before the release by a fraction: the numerator of the fraction shall be the amount of principal and interest paid with respect to the note payable during the year; the denominator of the fraction shall be the sum of the numerator and the remaining payments of principal and interest thereon.

The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock and (b) stock not yet allocated to employees. During the year ending November 30, 2023, 14,752.47 shares of Company common stock with a fair value of \$1,696,534 were released from the Plan's unallocated shares, as a result of repayments of the ESOP debt. As of November 30, 2023, 106,176.31 shares of Company common stock were held as collateral for the ESOP debt.

Long-term debt maturities during the next five years are tabulated as follows:

2024	\$ 847,543
2025	865,348
2026	788,620
2027	542,707
2028	434,763

Total reinvested is the total of all reinvested dividends. It does not include any cash dividends. It is not a tax lot for the purposes of determining holding periods or cost basis. The shares you receive each time you reinvest dividends become a separate tax lot.

Cost basis is the total purchase cost of the security, including reinvested dividends. The cost basis may need to be adjusted for return of capital payments in order to determine the adjusted cost basis for tax reporting purposes.

Unrealized (tax) gain or loss is the difference between the current value and the cost basis and would generally be your taxable gain or loss if the security was sold on this date. The unrealized (tax) gain or loss may need to be adjusted for return of capital payments in order to determine the realized gain or loss for tax reporting purposes.

Investment return is the current value minus the amount you invested. It does not include shares that are not reflected on your statement, including shares that have been realized as either a gain or a loss. It also does not include cash dividends that were not reinvested.

Prices are obtained from independent quotation bureaus that use computerized valuation formulas to calculate current values. Actual market values may vary and thus gains/losses may not be accurately reflected. Cost basis has been adjusted for accreted original issue discount (OID). Cost basis has been

automatically adjusted for amortization of bond premium using the constant yield method. If you have made a tax election to deduct the premium amortization on taxable debt securities, you may request UBS adjust cost basis for the bond premium amortization.

Total reinvested is the total of all reinvested dividends. It does not include any cash dividends. It is not a tax lot for the purposes of determining holding periods or cost basis. The shares you receive each time you reinvest dividends become a separate tax lot.

Cost basis is the total purchase cost of the security, including reinvested dividends. The cost basis may need to be adjusted for return of capital payments in order to determine the adjusted cost basis for tax reporting purposes.

Unrealized (tax) gain or loss is the difference between the current value and the cost basis and would generally be your taxable gain or loss if the security was sold on this date. The unrealized (tax) gain or loss may need to be adjusted for return of capital payments in order to determine the realized gain or loss for tax reporting purposes.

Investment return is the current value minus the amount you invested. It does not include shares that are not reflected on your statement, including shares that have been realized as either a gain or a loss. It also does not include cash dividends that were not reinvested.

Total reinvested is the total of all reinvested dividends. It does not include any cash dividends. It is not a tax lot for the purposes of determining holding periods or cost basis. The shares you receive each time you reinvest dividends become a separate tax lot.

Cost basis is the total purchase cost of the security, including reinvested dividends. The cost basis may need to be adjusted for return of capital payments in order to determine the adjusted cost basis for tax reporting purposes.

Unrealized (tax) gain or loss is the difference between the current value and the cost basis and would generally be your taxable gain or loss if the security was sold on this date. The unrealized (tax) gain or loss may need to be adjusted for return of capital payments in order to determine the realized gain or loss for tax reporting purposes.

Investment return is the current value minus the amount you invested. It does not include shares that are not reflected on your statement, including shares that have been realized as either a gain or a loss. It also does not include cash dividends that were not reinvested.
