## **Independent Auditor's Report**

The Plan Administrator  
Pfeiffer Foods Hourly Employees Pension Plan  
Westerville, Ohio

### ***Opinion on the November 30, 2024 Financial Statements***

We have audited the financial statements of Pfeiffer Foods Hourly Employees Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of November 30, 2024, and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the period from July 1, 2024 through November 30, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and accumulated plan benefits of the Plan as of November 30, 2024, and the changes in its net assets available for benefits and changes in its accumulated plan benefits for the period from July 1, 2024 through November 30, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

### ***Basis for Opinion on the November 30, 2024 Financial Statements***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the November 30, 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the November 30, 2024 Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Auditor's Responsibilities for the Audit of the November 30, 2024 Financial Statements***

Our objectives are to obtain reasonable assurance about whether the November 30, 2024 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter – Auditor's Report on the June 30, 2024 Financial Statements***

We performed an audit of the June 30, 2024 financial statements of the Pfeiffer Foods Hourly Employees Pension Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, our audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. In our report dated May 2, 2025, we indicated that in our opinion (a) the amounts and disclosures in the June 30, 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the June 30, 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### 1. Description of Plan and Tax Status

The Pfeiffer Foods Hourly Employees Pension Plan (Plan) is contained in the agreement dated October 1, 2006 between T. Marzetti Company (Company) and the Bakery, Confectionery, Tobacco Workers, and Grain Millers International Union of America Local No. 802. Pfeiffer Foods was a division of the Company. The Plan is a noncontributory defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants should refer to the Plan document, as well as the aforementioned agreement for more complete information. See Note 7 for amendments to benefit provisions.

The Plan invests its assets in a Lancaster Colony Corporation Master Pension Trust (Master Trust) with other subsidiaries of Lancaster Colony Corporation (the Plan Administrator) whereby they pool their investment assets. Allocations of net assets, net investment income, and gains and losses to participating plans are allocated to the plans on a pro-rata basis based on the Plan's undivided interest. Participants should refer to the Master Pension Trust Agreement for more complete information. See Note 5 for summary information on the Master Trust. The Plan's interest in the Master Trust was approximately 0% and 14% at November 30, 2024 and June 30, 2024, respectively.

In September 2009, the Company committed to a plan to close the facility whose employees are participants in the Plan. As a result of this event, Plan participants terminated after September 10, 2009 became 100% vested in the Plan.

The Plan obtained a favorable determination letter dated October 14, 2014 from the Internal Revenue Service (IRS). The Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, including any which have become effective since the effective date of the amendments in the latest determination letter, and continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### *Plan Merger and Termination*

On August 14, 2024, the Company's Board of Directors announced their intent to (1) merge the Plan into the Indiana Glass Company Union Employees' Retirement Benefit Plan; (2) rename the Indiana Glass Company Union Employees' Retirement Benefit Plan to be the Lancaster Legacy Pension Plan (Legacy Plan); and (3) terminate the Legacy Plan effective November 30, 2024. The Plan document was amended and restated effective November 30, 2024.

Effective November 30, 2024, the Plan's assets were merged into the Legacy Plan. The merged plan assets includes net assets of \$3,980,875. There were no changes to participant benefits as a result of the plan merger.

### ***Benefit Payments***

The Plan generally provides for normal retirement benefits at age 65, early retirement benefits at age 55, and ten years of service, disability benefits, and survivor benefits. A vested participant who terminates for any reason other than retirement, disability, or death is entitled to the monthly vested termination benefit beginning on his or her normal retirement date in the amount of his or her accrued benefit. The benefit payment is based on participants' years of service and the corresponding amount per credited service year on their last day worked with the Company.

Participants may elect to receive their distributions, subject to certain Plan provisions, in the form of various annuity payment options. If the participant's actuarial equivalent of the accrued benefit payable at their normal retirement date is less than \$1,000, the participant is paid a lump-sum payment as soon as practicable after his or her termination date. If the participant's actuarial equivalent of the accrued benefit payable at their normal retirement date is less than \$5,000 but greater than \$1,000, the participant may elect to receive a single lump-sum payment in full discharge and satisfaction of any benefit otherwise payable under the Plan.

## **2. Summary of Significant Accounting Policies**

### ***Basis of Accounting***

The accompanying financial statements are prepared on the accrual basis of accounting.

### ***Use of Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

### ***Investment Valuation and Income Recognition***

Fair values of investments are based on the latest securities quotations available as provided by the trustee of the Plan. See Note 5 for discussion of the investment in the Master Trust and Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments purchased and sold, as well as held during the year.

### ***Actuarial Present Value of Accumulated Plan Benefits***

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date the benefit

## Notes to Financial Statements

---

information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, CBIZ Benefits & Insurance Services, Inc., and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of November 30, 2024 and June 30, 2024 were (a) life expectancy of participants (the SOA PRI-2012 *Blue-Collar Dataset Amount-Weighted Mortality for Employees, Retirees, and Contingent Survivor*, projected with Scale MP-2021 fully generation, was used); (b) retirement age assumptions (the assumed average retirement age was 65); and (c) discount rate (5.0%).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Plan amendments are included in the actuarial calculation of accumulated plan benefits as of their effective date (see Note 7).

### ***Payment of Benefits***

Benefit payments to participants are recorded upon distribution.

### ***Certification of Investment Information***

Certain information disclosed in the accompanying financial statements related to the Plan's interest in Master Trust held at June 30, 2024 was obtained by management and agreed to or derived from information certified as complete and accurate by Charles Schwab Trust Bank, a qualified institution.

### ***Administrative Expenses***

Substantially all administrative expenses are paid by the Plan.

## **3. Funding Policy**

The Company's funding policy is to make annual contributions to the Plan at least equal to an amount based on an actuarial calculation of the Plan's minimum funding requirements under ERISA. There was no contribution required for the period from July 1, 2024 through November 30, 2024.

## **4. Plan Termination**

The Company has the right under the Plan, in certain circumstances, to discontinue its contributions and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the assets of the Plan would be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

# Pfeiffer Foods Hourly Employees Pension Plan

## Notes to Financial Statements

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

On August 14, 2024, the Company's Board of Directors announced its intent to also terminate the Legacy Plan effective November 30, 2024.

### 5. Investment in Master Trust

At November 30, 2024 and June 30, 2024, the Plan's assets were held in a Master Trust. At November 30, 2024 and June 30, 2024, the Plan had an undivided interest in the Master Trust having a fair market value of \$0 and \$3,831,600, respectively.

### 6. Fair Value Measurements

Accounting Standards Codification (ASC) 820-10, *Fair Value of Measurements and Disclosure*, defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with GAAP.

ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

*Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2* - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodology used at November 30, 2024 and June 30, 2024. Following is a description of the valuation methodology used for assets measured at fair value:

*Level 1* - The securities classified as Level 1 include a money market fund and mutual funds. Quoted market prices in active markets are available for investments in this category.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## 7. Plan Amendments

As of December 31, 2009, the Plan effectively ceased the crediting of credited service for benefits since the Company no longer employed any of the participants and the status of the Plan became "frozen" with regards to each participant's accrued benefit. This change in the Plan simply freezes the amounts of the accrued retirement benefits and the Plan will otherwise continue and does not affect the basic amount of any pension that is currently payable to, or on behalf of, any retired employee or former employee who previously retired or terminated employment with a vested right to benefits under the Plan.

Effective July 1, 2020, the Plan was amended to update Section 4.02, *Benefits Upon Postponed Retirement*, and Section 4.04, *Deferred Vested Retirement Benefit*, to specify when a participant commences benefits, their pension benefit would not be less than the actuarial equivalent value of the accrued benefit at the normal retirement date.

Effective for annuity starting dates after September 1, 2021, the Plan amended Sections 4.02 and 4.05 to specify when a participant commences benefits and the annuity starting date is after the date described in Section 5.06(a), their pension benefit will be equal to the benefit payable on the date described in Section 5.06(a). The participant must receive a make-up payment (including interest) to reflect any missed payments for the period from the date described in the immediately prior sentence to the date of the actual make-up payment.

## 8. Related Parties and Parties-in-Interest Transactions

Parties-in-interest are defined under the Department of Labor's (DOL) Rules and Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The Plan holds investment interest in the Master Trust. The Plan's trustee, Charles Schwab Trust Bank, is the trustee of the Master Trust (see Note 5). Accordingly, the Plan's investments in the

## Notes to Financial Statements

---

Master Trust qualify as party-in-interest transactions, which are exempt from prohibited transaction rules under ERISA.

In addition, certain employees of Lancaster Colony Corporation provide administrative and investment services, some of which may be fiduciary in nature, to the Plan; however, the Plan does not provide any compensation for these services.

### 9. Risks and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities in the Master Trust, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in these risks, estimates, and assumptions in the near term could materially affect the amounts reported in the financial statements.

### 10. Subsequent Events

The Plan has evaluated events and transactions that occurred between December 1, 2024 and September 12, 2025, the date the financial statements were available to be issued.

The Company offered participants in the Legacy Plan a lump-sum benefit payout option to be distributed, resulting in approximately \$2,549,000 of payments in December 2024 to participants who elected this option.

During December 2024, the Company completed the purchase of a group annuity contract with an insurance company, in which the liability, plan administration, and payout of benefits were irrevocably transferred. On December 18, 2024, assets related to the purchase were transferred out of the Legacy Plan amounting to approximately \$22.6 million. In March 2025, the insurance company began paying plan benefits to eligible plan participants through the group annuity contract.

Effective June 30, 2025, the Legacy Plan was fully liquidated.

## SUMMARY OF ASSUMPTIONS

**Funding Discount Rates**      IRS-Prescribed Three-Segment Rates, for the month prior to the valuation (June).

	Non-Stabilized	Limited to 25- Year Corridor
Segment 1:	4.93%	4.93%
Segment 2:	5.27%	5.27%
Segment 3:	5.26%	5.59%

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the American Rescue Plan Act of 2021 ('ARPA-21') for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

The interest rates used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

**Effective Interest Rate**      The Effective Interest Rate (EIR) for the current Plan Year is 5.38%. For the prior Plan Year, the EIR was 5.29%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would equal the Funding Target determined using the Plan Sponsor's above elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

**Funding Expected Return on Assets** The Expected Return on Assets (EROA) used in the calculation of the Actuarial Value of Assets is the lesser of a) or b), below:

- a) The Plan Sponsor's expected long-term rate of return on assets based on policy trust allocations; or
- b) The third segment rate in the IRS-prescribed three-segment rate assumption, based on the elections made by the Plan Sponsor for minimum funding purposes.

The results are as follows:

Plan Year	Assumption a)	Seg. III b)	EROA (smaller of a or b)
2023	5.00%	5.74%	5.00%
2022	5.00%	5.92%	5.00%

The assumed rate of return used for determination of the actuarial value of assets was selected taking into consideration input from the Plan's asset advisor and publicly available survey information on expected returns by asset class as of July 1, 2024.

**Expenses** Administrative expenses are assumed to equal the prior year's actual administrative expenses.

**Salary Scale** Not applicable.

Rationale: The Plan has no active participants.

**Inflation** Not applicable.

Rationale: This assumption affects long-term assumed increases in the Social Security Taxable Wage base and the IRS Compensation Limits. Because the Plan has no actives and there are no benefits over the IRS Compensation Limits, this assumption is not applicable.

<b>Benefit Commencement Age</b>	<p>Normal Retirement Age, or valuation age, if later.</p> <p>Death benefits are assumed to be paid at the earliest retirement age of the participant.</p> <p>Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to Benefit Commencement Age, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.</p>
<b>Form of Payment</b>	<p>All benefits are assumed to be paid in the Normal Form defined under the terms of the Plan.</p> <p>Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to Form of Payment, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.</p>
<b>Changes in non-required Funding assumptions since the prior valuation</b>	<p>None</p>
<b>Changes in Prescribed Funding assumptions since the prior valuation</b>	<p>The funding mortality tables were changed from the IRS 2023 Static Mortality Tables to the IRS 2024 Generational Mortality Tables.</p> <p>The discount rates for funding and PBGC premiums were updated from the rates shown in the 2023 valuation report to the rates shown above.</p>

## SUMMARY OF METHODS

**Minimum Funding Cost Method**

The actuarial cost method used to determine the liabilities for minimum funding calculations is the Traditional Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for each participant. The individual accrued liability for a participant is the present value of the accrued benefit as of the valuation date taking into account service and/or pay as of the valuation date. The individual normal cost for a participant is the present value of the benefit expected to accrue in the plan year being valued.

If a plan is frozen, there is no normal cost attributable to benefit accruals.

**Maximum Deductible Contribution Method**

The actuarial cost method used to determine the liabilities for maximum deductible calculations is the Projected Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for all participant. The individual accrued liability for a participant is the sum of 1) the present value of the accrued benefit earned as of the valuation date taking into account service and/or pay as of the valuation date; plus 2) the present value of the accrued benefit expected to be earned because of any expected future compensation increases.

The individual normal cost for a participant is the sum of the present value of the benefit expected to accrue in the plan year being valued taking into account any expected future compensation increases.

**Asset Method**

We used financial data submitted by the trustee as of the valuation date without further audit. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

**Actuarial Value of Assets** For funding purposes, Actuarial Value of Assets is a smoothed market value assets adjusted by the applicable percentage of gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value, and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted at the expected interest rate to the valuation date. The expected interest rate for each year is the lesser of the expected rate of return and the third segment rate. The applicable percentage is 66-2/3% for the year preceding the valuation date, and 33-1/3% for the second year preceding the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets.

Receivable contributions are discounted back to the valuation date at the prior year's effective interest rate.

**Changes in methods since the prior valuation** None.
