Independent Auditor's Report

The Plan Administrator
The Gates Matchmaker Plan
Denver, Colorado

Opinion

We have audited the financial statements of The Gates Matchmaker Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional

procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Gates Matchmaker Plan

Notes to Financial Statements

1. Description of the Plan

The following description of The Gates Matchmaker Plan (the Plan) provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan, which was established December 1, 1960, was restated most recently effective January 1, 2022. The Plan is a defined contribution plan available to eligible employees in the domestic operations of The Gates Corporation and certain of its subsidiaries (collectively, the Company or Employer), the Plan sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (ERISA).

Gates Industrial Corporation, which was formed in September 2017 and completed an initial public offering on January 25, 2018, indirectly owns all equity interest in the Company.

Trustee and Administration of the Plan

The Gates Retirement Board (the Plan Administrator or Retirement Board) is the administrator of the Plan. The Plan Administrator has full power, authority, and responsibility to control and manage the operations and administration of the Plan. The Retirement Board determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Charles Schwab Trust Bank, (Charles Schwab), as appointed by the Retirement Board, is the trustee for the Plan. Charles Schwab Retirement Plan Services Company (Schwab Retirement) serves as the recordkeeper of the Plan.

The Bank of New York Mellon (BNY Mellon) was appointed by the Retirement Board to act as a sub-custodian of the Gates Stable Value Fund.

Eligibility

Each full-time and benefits eligible part-time employee, as defined by the Plan, becomes an eligible participant of the Plan on their date of hire. Each part-time benefits ineligible employee, as defined by the Plan, becomes a participant on any day after completing one year of employment and at least 1,000 hours of service. Effective January 1, 2024, part-time employees who complete at least three (two starting January 1, 2025) consecutive 12-month periods in which they complete at least 500 hours of service will be eligible to participate in the Plan. Leased employees, non-resident aliens, and independent contractors are not eligible to participate in the Plan. Members of collective bargaining groups participate in accordance with their most recent collective bargaining agreement.

Certain specified employees whose retirement benefits are subject to certain collective bargaining agreements are not eligible to participate in the Plan, unless specifically provided for in the union contracts. Employees represented by the United Steelworkers of America Local Union #8031 and the United Steelworkers of America Local Union #685L are eligible to participate in the Plan.

The Gates Matchmaker Plan

Notes to Financial Statements

Contributions

Participants may elect to defer up to 75% of their annual eligible compensation as pre-tax, after-tax, and Roth contributions, subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained or will attain the age of 50 by the last day of the Plan year may elect to make catch-up contributions, as defined by the Plan, subject to IRC limitations.

The Plan includes an automatic enrollment provision whereby eligible employees are automatically enrolled in the Plan at a 3% pre-tax contribution approximately 30 days after employment begins. Participants may waive the automatic enrollment provision. Participants may increase or decrease their deferral percentages on the first day of any pay period, in accordance with administrative procedures.

The Plan includes an automatic increase provision. Participants who are automatically enrolled will have their contribution percentage increased 1% per year until their contribution percentage equals 8%. In addition, participants who have made an affirmative election, but are contributing less than 8% shall have their contribution percentage increased 1% per year until their contribution percentage equals 8%. The automatic increase provision shall be effective for the first full payroll period of April each year. Participants may override or opt out of the automatic increase provision.

The Company makes a safe harbor contribution, each pay period, equal to 3% of compensation, as defined by the Plan, for all eligible employees, regardless of whether they are contributing to the Plan.

The Company also makes a matching contribution, on behalf of each contributing participant for whom pre-tax or Roth contributions are being made, of an amount equal to 100% of the first 3% of pre-tax and Roth contributions made during the Plan year. A true-up match contribution process is in place that reviews each participant's matching contribution annually to ensure that they received the maximum employer match based on annual compensation and employee pre-tax or Roth contributions.

Rollover contributions transferred from other qualified retirement plans or Individual Retirement Accounts (IRA) are accepted as permitted by the Plan Document.

Participants' Accounts and Investment Options

Each participant's account is credited with (1) the participant's pre-tax, after-tax, Roth, rollover, and catch-up contributions; (2) the Company's employer matching and safe harbor contributions; and (3) an allocation of Plan earnings or losses. Each participant's account is charged with withdrawals and expenses. Investment earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each fund. Participants may direct the investment of their account balances into various investment options offered by the Plan and may change their investment elections at any time. The Plan offers various registered investment companies (mutual funds), collective investment trusts, and a stable value fund as investment options for participants. The benefit to which participants are entitled is the vested portion of their accounts. If a participant does not affirmatively elect an investment allocation, the Qualified Default Investment Alternative (QDIA) will be selected for them.

The Gates Matchmaker Plan

Notes to Financial Statements

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance over the past 12 months or the total of the participant's rollover and pre-tax accounts in the Plan. Note terms cannot exceed four and one half years, except for principal residence notes that were grandfathered into the Plan. Notes are secured by the participant's account and bear interest at a reasonable rate to be determined by the trustee based on current interest rates charged by persons in the business of lending money for similar loans and are fixed for the term of the note. Principal and interest are paid ratably through payroll deductions unless the participant elects to accelerate payment in a lump-sum payment by check. The maximum number of outstanding notes is limited to one.

Vesting

Participants are immediately 100% vested in their own contributions, rollover contributions, and the employer safe harbor contribution. Participants are 100% vested in the employer matching contribution after three years of service, upon reaching age 65, death, or becoming disabled. Additional special vesting provisions apply for all group reductions in workforce.

Unallocated Amounts

At December 31, 2024 and 2023, unallocated amounts held by the Plan totaled \$495,107 and \$149,436, respectively. These unallocated funds are comprised of forfeited non-vested accounts, monthly fees charged to participants pending payment of expenses incurred (the fee account), and accounts held for former employees who cannot be located. Forfeited non-vested accounts can be used to reduce future employer contributions or pay Plan administrative expenses. During the year ended December 31, 2024, approximately \$1,180,000 of forfeitures were used to reduce employer contributions and approximately \$56,000 were used to pay Plan administrative expenses. The majority of the Plan's expenses are paid by Plan participants through the use of the fee account.

Benefit Payments

A participant's vested interest in the Plan is payable upon termination of employment or upon death. Upon termination of service, the participant may elect (1) to receive the distribution in a lump sum; (2) to receive annual, semi-annual, quarterly, or monthly installments over any period designated by the participant, not to exceed the life expectancy of the participant or their beneficiary; (3) to roll over their account balance to another qualified plan or IRA; or (4) to leave the account in the Plan up to age 72, at which time one of the above distribution options must be selected if no longer employed.

If a participant dies before benefits have begun, the vested portion of the account is paid to the beneficiary in a lump sum. If the participant had elected distribution in installments, the remainder of the installments are paid to the beneficiary in a lump sum. If the participant dies before payment of the account begins, and if the beneficiary is the surviving spouse, the surviving spouse may elect to defer distribution until the participant would have reached the age of 72. However, if the beneficiary is other than the surviving spouse, the beneficiary may defer distribution until five years following the anniversary of the participant's death.

The Gates Matchmaker Plan

Notes to Financial Statements

Terminated participants, whose account value does not exceed \$1,000, will receive a lump-sum payment within 90 days of termination. Terminated participants may elect to withdraw any portion of their accounts at any time after they terminate, provided a minimum amount requested is at least \$5,000; or the total account balance if at that time is less than \$5,000.

Actively employed participants can begin drawing their employer matching contribution account along with their pre-tax, after-tax, Roth, and rollover balances without penalty at age 59½. In-service hardship distributions are allowed if certain criteria are met. A beneficiary may elect to roll over any portion of a distribution that would constitute an eligible rollover distribution if it were made by a participant, surviving spouse, or alternate payee.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, amounts credited to the individual participant's accounts would become 100% vested.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and such differences could be material.

Investment Valuation and Income Recognition

The Retirement Board adheres to the Gates Corporation Defined Contribution Retirement Plan Statement of Investment Policy (the Investment Policy), which is periodically reviewed and updated. All investments are managed in accordance with the applicable fund prospectus by which the investment managers have been given the authority to make individual investment decisions that are consistent with the Investment Policy. As stated in the Investment Policy, each participant is responsible for directing the investment of their account balance.

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Board determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee, and sub-custodian. See Note 4, Fair Value Measurements and Disclosures, for a discussion of fair value measurements.

The Gates Matchmaker Plan

Notes to Financial Statements

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income and capital gains are recorded on the ex-dividend date. The net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses (in the form of an expense ratio) charged to the Plan for investments in the mutual funds and stable value fund and common/collective trusts are deducted from income earned on a daily basis and reflected as a reduction of investment return for such investments.

Accounting for Fully Benefit-Responsive Investment Contracts

Contract value is the relevant measure for fully benefit-responsive contracts because it is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. See Note 3, Separately Managed Stable Value Fund, for further discussion on the Plan's investments that meet the fully benefit-responsive contract criteria.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Any accrued but unpaid interest was de minimis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Benefit Payments

Benefit payments to participants are recorded when paid. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2024 or 2023.

Contributions

Participant contributions and related employer contributions are recognized in the period during which the Company makes payroll deductions from the participant's compensation or to which year the compensation was paid.

Administrative Expenses

The Plan may pay for investment management fees, custodial fees, investment review fees, recordkeeping fees, trustee fees, eligible legal expenses, and audit expenses as provided by the Plan Document. A fee of \$50 is charged to the participant for initiation and processing of a participant loan. A flat fee of \$300 is charged to the participant for external legal expense of the review and qualification of a Domestic Relations Order. The Plan allows for a flat fee to be charged to each participant's account each month to cover certain Plan administrative expenses. Expenses of \$607,044 were paid by the Plan for the year ended December 31, 2024. All other expenses of the Plan incurred during 2024 were paid by the Company and are excluded from these financial statements.

The Gates Matchmaker Plan

Notes to Financial Statements

3. Separately Managed Stable Value Fund

The Gates Stable Value Fund is a separately managed account for the benefit of members of the Plan—all assets of the Gates Stable Value Fund are held in the name of the Plan for the exclusive use of Plan members. As permitted by the Plan’s Investment Policy and investment management agreement, the Gates Stable Value Fund holds a portfolio of investment contracts that are comprised of synthetic investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. The Plan owns the underlying assets of the synthetic investment contracts (comprised of a short-term investment fund and various common or collective term trust funds). Synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the crediting rate will not fall below 0%. Cash flow volatility as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjust renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting interest rates are generally reviewed and reset quarterly. Crediting interest rates are a function of contract value, market value, yield, and duration. Wrapper contracts guarantee the book value of the underlying portfolio against depreciation due to interest rate fluctuation. Wrapper contracts enable the Plan to execute participant-directed transactions without regard to volatility from appreciation or depreciation in the day-to-day value of the underlying assets. The effective yields on these contracts represent the crediting rate, less the “wrapper” fee paid to the insurance carrier. Global wraps do not expire as assets are sold or mature; instead, the wrap remains intact, and the maturity of the contract is open-ended. The underlying investments are valued at quoted redemption values on the last business day of the Plan’s year-end.

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments. There were no valuation reserves recorded to adjust contract amounts as of December 31, 2024 or 2023.

The following summarizes the stable value fund’s wrapper contracts, at contract value:

December 31,

Contract Issuer	Major Credit Ratings	Contract Value	
		2024	2023
Synthetic GICs, including wrapper:			
Prudential Insurance Co. of America	AAA/Aaa	\$ 33,017,451	\$ 38,980,828
RGA Reinsurance Co.	AAA/Aaa	32,966,343	38,888,947
Transamerica Premier Life Insurance Company	AAA/Aaa	31,963,990	37,629,998
Short-term investment fund:			
BNY Mellon Collective Fund	AAA/Aaa	2,324,263	1,487,305
Total		\$ 100,272,047	\$ 116,987,078

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value for Plan permitted benefit payments. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan’s prohibition on competing investment options

The Gates Matchmaker Plan

Notes to Financial Statements

or deletion of equity wash provisions; (iii) bankruptcy of the Plan sponsor or other Plan sponsor events (e.g. divestitures or spin-offs of a subsidiary), which cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. There were no restrictions on employee directed trades applied in 2024 and 2023. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. Fair Value Measurements and Disclosures

Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered Investment Companies (Mutual Funds) - Prices of these funds are based on net asset value (NAV) calculated by the funds and are publicly reported on national exchanges. Although the prices are listed on national exchanges, exiting the investment is generally only accomplished through redemption with the fund itself. Thus, redemption with the fund is the principal market in which the Plan could exit the investments. The funds redeem shares at the NAV with few restrictions and redemption with the funds is within an active market. The Plan measures fair value of these investments using the daily NAV provided by the fund managers to Charles Schwab. These investments are classified as Level 1 in the fair value hierarchy.

The Gates Matchmaker Plan

Notes to Financial Statements

Collective Investment Trusts (CITs) - The fair values of the Plan's interest in the funds are based on the NAV of the CITs at the close of each business day. The NAV of each CIT is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. NAV is determined by the issuer based on the fair value of the underlying investments. Participants can ordinarily direct the withdrawal or transfer of all or a portion of their investment without penalty. All CITs are direct filing entities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

December 31, 2024

	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 381,046,514	\$ -	\$ -	\$ 381,046,514

^(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investments Measured Using the NAV per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

5. Tax Status

Effective January 1, 2022, the Plan adopted a Pre-Approved Schwab Retirement Plan Services, Inc. Defined Contribution Non-Standardized Plan Document. The Pre-Approved Plan Document received an opinion letter from the Internal Revenue Service (IRS), dated September 21, 2020, indicating that the form of the Prototype Plan Document was designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan, as amended and restated, is designed and currently being operated in compliance with the applicable provisions of the IRC and the Plan and related trust continue to be tax-exempt; therefore, no provision for income taxes have been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS audits for any tax periods in progress.

6. Exempt Related Party and Party-in-Interest Transactions

Charles Schwab is the trustee of the Plan. Certain Plan investments are units of a short-term investment fund managed by BNY Mellon. BNY Mellon is the sub-custodian of the Gates Stable Value Fund. The Plan also pays certain expenses for audit, legal, recordkeeping, trust, custodial, and investment management services from Plan assets. The Plan also issues loans to participants, which are secured by the vested balances of the participant's accounts. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Concentrations, Risks, and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are subject to various risks, such as interest rate, credit, and overall market volatility risk. Additionally, the value, liquidity, and related income of the investment securities are sensitive to changes in the economic

The Gates Matchmaker Plan

Notes to Financial Statements

conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is possible that changes in the value of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As of December 31, 2024 and 2023, approximately 14% and 18%, respectively, of the Plan's net assets were invested in the Gates Stable Value Fund.

As of December 31, 2024 and 2023, there was one investment that individually represented more than 10% of investments held. Refer to the supplemental Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2024.

8. Subsequent Events

The Plan Administrator has evaluated subsequent events through September 12, 2025, which is the date the financial statements were available to be issued. Management determined there were no material subsequent events that required recognition or additional disclosure in these financial statements.
