INDEPENDENT AUDITOR'S REPORT

To the Plan Committee
Transhumance Employee Stock Ownership Plan
Sacramento, California

Opinion

We have audited the financial statements of Transhumance Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of November 2, 2024 and November 4, 2023, and the related statements of change in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of November 2, 2024 and November 4, 2023, and the change in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Emphasis of Matter – Common Stock Valuation

As explained in Note 1, the Plan is an Employee Stock Ownership Plan and invests in common stock of the Plan Sponsor valued at \$10,596,339 and \$23,798,548 in 2024 and 2023, respectively. The fair value of company stock is determined by the Trustee based on an annual valuation of the common stock prepared by an independent appraiser. However, because of the inherent uncertainty of the valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investment existed, and the differences could be material.

Other Matter—Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year, as of November 2, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

TRANSHUMANCE EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS November 2, 2024 and November 4, 2023

NOTE 1: **DESCRIPTION OF PLAN**

The following description of the Transhumance Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Transhumance Employee Stock Ownership Plan became effective October 28, 1990 to provide retirement benefits for employees of Transhumance Holding Company, Inc. (the “Company” and “Plan Sponsor”) and its subsidiaries. The Plan is an employee stock ownership plan (ESOP) under Section 4975(e) (7) of the Internal Revenue Code (the “Code”). The Plan is also a stock bonus plan under Section 401(a) of the Code and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, (ERISA) as amended. The Plan is administered by an Employee Benefits Administration Committee comprised of five persons appointed by the Company's Board of Directors. An independent individual serves as Trustee of the Plan.

The Plan is a defined contribution plan covering all full-time, non-union employees. The Plan holds Company common stock on behalf of participating employees in the ESOP Trust (the “Trust”). These shares were purchased with acquisition loans, financed by the Company and the selling shareholders. The loans have been fully repaid by contributions from the Company to the Trust and all stock has been allocated to employee accounts. The final acquisition loan was fully repaid on March 1, 2015.

Plan Year

The Plan has adopted a 52-week/53-week plan year, which ends on the Saturday closest to October 31. The Plan year corresponds with the Company's accounting year-end.

Eligibility

Employees of the Company and its participating subsidiaries, who are 18 years of age or older, are eligible to participate in the Plan after one year of service providing they are credited with 1,000 hours of service. Participants become eligible for 401(k) safe harbor matching contributions upon completion of three months of service.

Contributions

Participants are not permitted to make contributions to the Plan. The Plan allows for the following types of contributions:

Employer Contributions

Contributions are discretionary, as determined by the Company's Board of Directors. However, each year the Company must make a contribution to the trust equal to the amount needed by the Plan to make the payments required on any acquisition loans outstanding. Contributions shall be limited to comply with the various nondiscrimination tests and limitations prescribed by the Code. The Plan Sponsor made discretionary contributions of 439,509 and 191,127 shares, valued at \$624,103 and \$584,848, for the Plan years ending November 2, 2024 and November 4, 2023, respectively. There were no cash contributions by the Plan Sponsor during the years ending November 2, 2024 and November 4, 2023, respectively, except for the safe harbor matching contributions.

“Safe Harbor” 401(k) Matching Contributions

The Company may declare “Safe Harbor” 401(k) matching contributions in accordance with certain rules of the Code. Contributions are made to the Plan on behalf of each employee participating in the Company's 401(k) Plan. The “Safe Harbor” 401(k) matching contribution is a dollar for dollar match of participant salary deferrals, limited to 3% of compensation, plus 50% of the excess over 3% up to 5% of eligible compensation. Contributions may be made in cash or shares of Company stock. Total “Safe Harbor” 401(k) matching contributions were \$392,759 and \$394,836 in 2024 and 2023, respectively.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Vesting

A participant becomes 100% vested upon death, disability, or attaining age 65. Participants are always 100% vested in the portion of their accounts attributable to the “Safe Harbor” 401(k) matching contributions.

Participants become 100% vested in their individual accounts upon completion of three years of credited service.

Participants’ Accounts and Allocations

The Plan is a defined contribution plan under which a separate individual ESOP and Safe Harbor 401(k) account is established for each participant. Each participant’s account is credited as of the last day of each plan year with an allocation of employer contributions and forfeitures of terminated participants’ non-vested accounts. “Safe Harbor” 401(k) matching contributions are allocated based on the amount of a participant’s 401(k) salary deferrals. Allocations are based on a participant’s eligible compensation, relative to total eligible compensation as limited by the applicable regulations under the Code. Plan earnings and losses are allocated to each participant’s account based on the ratio of the participant’s account balance to total participant account balances. Plan assets are non-participant directed.

Participants must be employed on the last day of the Plan year in order to receive an allocation of discretionary employer contributions or forfeitures.

Forfeitures

Non-vested participant accounts are forfeited immediately upon termination. Plan forfeitures are allocated to each participant’s account based upon the relation of the participant’s compensation to total qualified plan compensation for the Plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at November 2, 2024 and November 4, 2023 totaled \$271,302 and \$138,745, respectively. There were no unallocated forfeitures as of November 2, 2024 and November 4, 2023.

Retirement

Normal retirement under the Plan is age 65.

Payment of Benefits

Vested benefits are distributable from Plan assets upon retirement (age 65), termination, death, or disability. The manner of distribution is determined by the Trustee as either: (1) a lump sum, (2) installments not to exceed five years, or (3) a combination of the above. Under certain circumstances, distributions may be made in Company stock.

When a participant attains 55 years of age and has 10 years of participation in the Plan, they may exercise diversification of their investment in Company stock at the rate of 25% per year in the first five years of the election period and 50% in the sixth year, based on the diversification formula in the Plan document.

Stock Purchase Requirement

Under federal income tax regulations, the Plan Sponsor stock that is held by the Plan and its participants (and is not readily tradeable on an established market or subject to trading limitations), includes a put option. The purpose of the requirement is to ensure that the participant has the ability to ultimately obtain cash. Pursuant to the Code, and to preserve the Plan Sponsor’s S Corporation status, the Plan document provides that the Plan Sponsor must repurchase any shares of its stock distributed to participants for cash. The purchase price is representative of the fair market value of the stock.

Administrative Expenses

All reasonable expenses of administering the Plan and the related trust may be paid out of plan assets. The Company, however, may pay all or any portion of such expenses directly and payment of such expense shall not be deemed to be an employer contribution. The Company paid all significant administrative expenses of the Plan in 2024 and 2023.

NOTE 1: **DESCRIPTION OF PLAN (Continued)**

Voting Rights

Shares of Company stock are voted by the Trustee except under certain circumstances as described in the Plan document. Each participant or beneficiary in the Plan shall be entitled to direct the Trustee as to the manner in which voting rights attributable to shares of Company stock allocated to such participant's company stock account are to be exercised, solely with respect to corporate matters which (by Code section 409(e)(3)) must be decided by pass-through voting of outstanding common shares voted. The Trustee shall determine the manner in which voting rights are to be exercised with respect to any unallocated shares of Company stock and any allocated shares for which directions are not received from participants shall not be voted.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

Benefit Payments

Benefits are recorded when paid.

Investments and Income Recognition

Investments are stated at their current fair value. The Plan invests in common stock of the Company as well as short term investment funds. The fair value of Company stock is determined by the Trustee based upon an independent appraisal by a valuation consultant. Because of the inherent uncertainty of the valuation, estimated and appraised values for the investment in employer stock may differ significantly from values that would have been used had a ready market for such investments existed and the differences could be material. Net appreciation or depreciation in the value of the common stock of the Company represents the change in unrealized appreciation or loss from one period to the next. Interest income from short term investment funds is recorded when earned.

Income Taxes

The Plan obtained a favorable determination letter on October 30, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has determined that as of November 2, 2024, there are no uncertain tax positions taken or expected to be taken that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 5: FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) ASC 820 provides a framework for measuring fair value. That framework provides a three-tier hierarchy that prioritizes the inputs to valuation techniques used for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Inputs other than level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5: FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Short term investment fund: The fund has underlying short term investments, with observable inputs or quoted prices in active markets to preserve the value of the investment at \$1 per unit.

Employer common stock: Measured at fair value as determined by the Trustee based on an independent appraisal. The valuation utilizes the income and market approaches. Specifically, the discounted cash flow, public company guidelines, tangible assets, and market transaction methods are utilized containing significant unobservable inputs including EBITDA multiples, weighted average cost of capital and discounts for lack of marketability.

There have been no changes to the methodologies used at November 2, 2024 and November 4, 2023.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 2, 2024 and November 4, 2023:

	Assets at Fair Value as of November 2, 2024			
	Level 1	Level 2	Level 3	Total
Investment in employer common stock	\$ -	\$ -	\$ 10,596,339	\$ 10,596,339
Short term investment fund	32,949	-	-	32,949
	<u>\$ 32,949</u>	<u>\$ -</u>	<u>\$ 10,596,339</u>	<u>\$ 10,629,288</u>

	Assets at Fair Value as of November 4, 2023			
	Level 1	Level 2	Level 3	Total
Investment in employer common stock	\$ -	\$ -	\$ 23,798,548	\$ 23,798,548
Short term investment fund	531,191	-	-	531,191
	<u>\$ 531,191</u>	<u>\$ -</u>	<u>\$ 23,798,548</u>	<u>\$ 24,329,739</u>

The following table discloses the summary of changes in fair value of assets valued using Level 3 inputs:

	Employer Common Stock

Unrealized depreciation	(12,238,026)
Ending Balance, November 2, 2024	<u>\$ 10,596,339</u>

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan invests in a short-term investment fund security. Investment securities are exposed to various risks such as interest rates, market changes, and credit risks. The Plan also invests in the plan sponsor stock that is valued by the Trustee based on an independent appraisal. Due to the level of risk associated with investments, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in these financial statements.

NOTE 8: PARTY-IN-INTEREST AND RELATED-PARTY TRANSACTIONS

The Plan invests in the common stock of the Company. This investment and related transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

NOTE 9: SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 12, 2025, the date the financial statements were available to be issued, and management has determined that no subsequent events have occurred that should be disclosed.
