REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Benefits Committee and Participants and Their Beneficiaries
WBC Holdings, L.P. Cash Balance Retirement Plan

Opinion

We have audited the financial statements of WBC Holdings, L.P. Cash Balance Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in

conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental schedules required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain

additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE A - DESCRIPTION OF THE PLAN

The following description of the WBC Holdings, L.P. Cash Balance Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit plan established by WBC Holdings, L.P. (the Company or Plan Sponsor) effective January 1, 2020 for eligible partners, as defined by the Plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Plan Administration

The directed trustee of the Plan is Charles Schwab Trust Company (Charles Schwab).

Participation

A partner, as defined in the Plan document, becomes eligible upon having completed two years of service, commencing with their employment date, and having attained the age of 21. Once a partner becomes a participant in the Plan they shall continue to participate in the Plan unless they cease to be eligible by reason of change in employment classification. Non-resident aliens and leased employees are not eligible to participate.

Participant Accounts

Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. Participants receive an annual cash balance credit, which is determined in accordance with the Plan's established formula credit matrix. The accounts are allocated using a formula credit based on benefit service, age and group (as defined in the Plan document) and interest credits at the end of the year. A participant's plan benefit equals their annual cash balance credits plus their share of actual investment returns on plan assets.

Funding

The Company contributes such amounts as necessary on an actuarial basis to provide sufficient assets to meet benefit payments to Plan participants and fund prior-year service costs. The Plan has met the ERISA minimum funding requirements for 2024.

Vesting

A participant shall have a fully vested and non-forfeitable interest in their accrued benefit under the Plan at all times.

Benefit Payments

Benefits are determined based on the participant's hypothetical account balance. The Plan allows for benefit payments to commence upon the attainment of the normal retirement age, as defined by the Plan, permanent disability, or death. The participant will be entitled to receive a single lump-sum payment or an annual retirement income. Participants may also withdraw all or any portion of their account prior to termination upon attainment of age 59½. Any participant whose employment is terminated prior to normal retirement age is eligible to receive a distribution of their vested accrued benefit.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to use estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

See Note F for discussion of fair value measurements. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the transaction date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

Administrative expenses can be paid by the Plan or paid by the Company.

Payment of Benefits

Benefits paid to participants are recorded when paid.

NOTE C - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service, to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Schwab Retirement Plan Services, Inc. and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

WBC Holdings, L.P.
Cash Balance Retirement Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The following summarizes the significant actuarial assumptions used in calculating the actuarial present value of accumulated plan benefits using the entry age normal method of valuation for the years ended December 31, 2024 and 2023:

Interest crediting rate	2024: 3.00%
	2023: 3.00%
Assumed retirement age	Age 62
Mortality basis	The fully generational White Collar Pri-2012 base mortality tables projected with the MP-2021 improvement scale.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefit were made as of January 1, 2025, and 2024. Had the valuations been performed as of December 31, 2024 and 2023, there would be no material differences.

The actuarial present value of accumulated plan benefits as of December 31 are as follows:

	2024	2023
Vested benefits		
Active participants	\$ 94,302,783	\$ 73,983,908
Terminated vested participants	8,394,753	5,598,338
Actuarial present value of accumulated plan benefits	\$ 102,697,536	\$ 79,582,246

Changes in the actuarial present value of accumulated Plan benefits for the year ended December 31 are as follows:

	2024
Actuarial present value of accumulated plan benefits at beginning of year	\$ 79,582,246
Increase during the year attributable to	
Benefits accumulated and actuarial gains and losses	26,731,872
Increase in interest	2,298,738
Benefits paid	(5,915,320)
Actuarial present value of accumulated plan benefits at end of year	\$ 102,697,536

NOTE D - TAX STATUS

The Internal Revenue Services (IRS) has determined and informed the Company by letter dated March 25, 2021, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the letter was issued, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

WBC Holdings, L.P.
Cash Balance Retirement Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken by the Plan and has concluded that, as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress.

NOTE E - PLAN TERMINATION AND PENSION BENEFIT GUARANTY CORPORATION MATTERS

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions; however, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE F - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification 820 guidance are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and

WBC Holdings, L.P.
Cash Balance Retirement Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used to measure assets at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Collective trust funds – Collective trust funds that publish the net asset value (NAV) of the fund on NASDAQ are included in level 1 of the fair value hierarchy as the published NAV is that which is used for daily transactions. Other collective trust funds use the NAV, as provided by the trustee of the collective trust fund, as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded commitments as of December 31, 2024 and 2023.

Mutual funds - Valued at the daily quoted NAV of shares held by the Plan at year end as quoted on an active market.

The preceding methodologies described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investments securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE H - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

One of the Plan's investments is managed by Charles Schwab Institutional, an affiliate of Charles Schwab. Charles Schwab is the trustee as defined by the Plan and, therefore, transactions in this investment qualify as party-in-interest transactions.

The Company has engaged Callan LLC (Callan) to provide advisory and consulting services to the Plan. The Plan holds a collective trust fund for which Callan selects and appoints third-party Investment Managers as sub-advisors or sub-managers with respect to the multi-manager collective investment trust trustees by Wilmington Trust. Transactions in this investment qualify as party-in-interest transactions.

NOTE I - SUBSEQUENT EVENTS

Management has considered subsequent events through September 2, 2025, the date through which the financial statements were available to be issued. Plan management is not aware of any subsequent events that would require recognition or additional disclosure in the financial statements.
