INDEPENDENT AUDITORS' REPORT

To the Participants and Board of Trustees of
Integrated Employer Solutions 401(k) Plan
Salt Lake City, Utah

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Integrated Employer Solutions 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Integrated Employer Solutions 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors'

Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Integrated Employer Solutions 401(K) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Integrated Employer Solutions 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Integrated Employer Solutions 401(K) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Integrated Employer Solutions 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

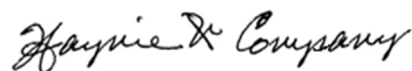

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule of Assets Held is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Integrated Employer Solutions 401(k) Plan

Notes to Basic Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the Integrated Employer Solutions (Company) 401(k) (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a “Multiple Employer” 401(k) plan (“MEP”) maintained by Integrated Employer Solutions, Inc., a “Professional Employer Organization” (“PEO”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Each of the participating employers had the option of selecting a plan that would best fit their organization, varying in regard to eligibility, matching contribution rates, safe harbor election, profit sharing, and vesting percentage. Of the options available, all of the participating employers had chosen two separate types of plans. According to Plan documents these plans are named "Plan 101B" and "Plan 104". These plans will be referred to in the disclosures listed below.

Both Plan 101B and Plan 104 cover employees who are age 18 or older, who are not collective bargaining employees, leased employees, non-resident aliens, or independent contractors.

Eligibility - Employees of a participating employer enrolled in plan option 101B become eligible to participate in the Plan on the later of the completion of one year of service or (1,000 hours) as defined by the Plan and upon reaching the age of 18. Employees of a participating employer enrolled in plan 104 become eligible after 90 days of service and upon reaching the age of 18.

Participant accounts - Each participant's account, regardless of the plan option they are enrolled in, is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions - Each year, participants enrolled in both plan options may contribute up to 100 percent of pretax annual compensation, subject to IRS limits, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The respective participating employers may make discretionary matches, subject to a vesting schedule, as determined by management. When contributing, the matching company contributions are invested as directed by plan participants.

Integrated Employer Solutions 401(k) Plan

Notes to Basic Financial Statements

December 31, 2024 and 2023

1. Description of Plan (continued)

Payment of benefits - Upon termination of service, a participant will receive a lump sum payment equal to the value of the participant's vested interest in his or her account at the time of termination.

Notes receivable from participants - Any participant may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan in their account during the prior twelve-month period or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at prime plus 2% per year. Principal and interest is paid ratably through bi-weekly payroll deductions.

Vesting - Participants are vested immediately in their elective deferrals plus actual earnings thereon. Vesting in the Company's matching contributions portion of their accounts is based on years of continuous service. A participant meeting eligibility requirement enrolled in plan option 101B is 100 percent vested immediately upon enrollment in the plan. Whereas a participant enrolled in plan option 104 is 100 percent vested after four years of credited service. The vested percentage in participants' accounts attributable to non-elective profit-sharing contributions is determined under the following schedules, as applicable:

Vesting schedule non-elective contributions plan option 101B:

Years of	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Vesting schedule non-elective contributions plan option 104:

Years of	Percentage
1	20%
2	40%
3	60%
4	100%

Integrated Employer Solutions 401(k) Plan

Notes to Basic Financial Statements

December 31, 2024 and 2023

1. Description of Plan (continued)

Plan termination - Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Investment options - Upon enrollment in the Plan, a participant directs both the participant and Company contributions in any or all of the investment options. Participants may change their investment options at will.

2. Significant Accounting Policies

Basis of accounting - The Plan's financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Use of estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis.

The Plan provides that participants may direct how their account balance is invested among the investment alternatives offered by the Plan.

Notes receivable from participants - Loans to participants are classified as receivables from participants, measured at their unpaid principal balance plus any accrued interest and net of any allowance. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. Management of the Plan estimates that these notes receivable from participants are fully collectible and, therefore, no reserve for bad debt against them has been recorded.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - The majority of the administrative expenses of maintaining the plan are paid by the Plan. Any remaining costs are paid by the plan sponsor.

Integrated Employer Solutions 401(k) Plan

Notes to Basic Financial Statements

December 31, 2024 and 2023

2. Significant Accounting Policies (continued)

Forfeited accounts - As of December 31, 2024 and 2023, the balance of the forfeited non-vested accounts totaled \$12,787 and \$2,870, respectively. Forfeited non-vested accounts are used to offset plan administrative expenses and reduce matching contributions when applicable.

Subsequent events - The Plan evaluated all events or transactions that occurred after December 31, 2024 through September 11, 2025, the date these financial statements were available to be issued. During this period, the Plan did not have any material recognizable subsequent events.

3. Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by Transamerica Retirement Solutions:

- a. Total investments shown in the accompanying Statements of Net Assets Available for Plan Benefits of \$14,296,970 and \$11,716,861 as of December 31, 2024 and 2023, respectively.
- b. Net investment income as shown in the accompanying Statement of Changes in Net Assets Available for Plan Benefits of \$1,581,556 for the year ended December 31, 2024.

Investment information is also included in the Schedule H – Schedule of Assets (Held at End of year) – December 31, 2024.

The Plan Sponsor has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As such, the Plan’s independent accountants did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Parties-In-Interest

Certain plan investments are shares of mutual funds managed by Transamerica Retirement Solutions. Transamerica Retirement Solutions is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Plan administration fees paid by the Plan for the year ended December 31, 2024, amounted to \$244,382.

5. Income Tax Status

The Company adopted a Prototype Non-Standardized 401(k) Plan which received a favorable opinion letter from the Internal Revenue Service, dated June 30, 2020, in which the Internal Revenue Service stated that the Plan, as then designed, was tax exempt and in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Fair Value Measurements

As noted in Note 2 above, the accompanying Statements of Net Assets Available for Plan Benefits reports the Plan's investments at fair value or contract value. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Section 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Integrated Employer Solutions 401(k) Plan

Notes to Basic Financial Statements

December 31, 2024 and 2023

8. Fair Value Measurements (continued)

Level 2

Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to their fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Pooled Investments (mutual funds excluding Stable Value Fund)

Valued generally based on the daily closing price as reported by the Transamerica pooled separate account. The mutual funds held by the Plan in the pooled account are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price.

Stable Value Fund:

Valued generally by the reference to a Collective Trust which is the only investment of the fund (see Note 9), using the unit price quoted daily by Transamerica in its pooled separate account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. Fair Value Measurements (continued)

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Trustees evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of transfer relative to total net assets available for benefits. There were no transfers in 2024 and 2023.

The following table sets forth by level, within the fair value hierarchy, the Plan's unaudited assets at fair value as of December 31, 2024:

	Assets measured at fair value	Fair value hierarchy level		
		Level 1	Level 2	Level 3
Pooled investments:				
Mutual funds	\$ 14,296,970	\$ 14,296,970	\$ -	\$ -
Total assets at fair value	\$ 14,296,970	\$ 14,296,970	\$ -	\$ -

The following table sets forth by level, within the fair value hierarchy, the plan's unaudited assets at fair value as of December 31, 2023:

	Assets measured at fair value	Fair value hierarchy level		
		Level 1	Level 2	Level 3

9. Stable Value Investment

Transamerica's Stable Value Option Investment choices in the Group Annuity Contract comply with the Financial Accounting Standards Board's (FASB's) fully benefit-responsive requirements, and thus are reportable at contract value in the plan's financial statements. In accordance with FAS 107 and SOP 94-4-1, this type of investment is considered a deposit liability with no defined maturities and is fairly valued at contract value. That is the contract value on the statement of net assets is also the fair value.

The Stable Value Option investment choice is a non-tradable obligation of Transamerica. The investment's contract or proceeds cannot nor will not be assigned or sold to another party without the consent of Transamerica. The repayment of principal and interest credited to participants holding the investment is a financial obligation of Transamerica. The terms require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the Plan's agreement such as withdrawals for benefits, loans, or transfers to other investment choices within the plan. Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable. The Stable Value Option investment choice allows a participant reasonable access to their assets.

The Stable Value Option investment choices are not considered a Guaranteed Interest Contract (GIC) or Common Collective Trust (CCT) and there is no stated minimum or maximum interest rate.

10. Contributions Receivable

The Plan has contributions receivable from both the employees and employers. The employee contribution receivables at December 31, 2024, are fully related to payroll remittances for 2024 and funded in January 2025 in the amount of \$3,366. The employer contributions receivable consists of three amounts for separate purposes for a balance of \$25,115 at December 31, 2024. The amount for payroll remittances for 2024 funded in January 2025 is \$19,409. The true-up amounts for the current year of 2024 for top heavy testing was calculated by the TPA and booked at December 31, 2024, in the amount of \$5,706 and was funded by the employers in 2025.

11. Transfer of Assets from Previous Carriers and to Other Carriers

During the year ended December 31, 2024, five employers began participating in the Plan and one of them rolled over (transferred in) respective assets from other Plans. In 2024, three employers transferred out of the plan and transferred their respective assets to other Plans. The following represents the breakout of the employer assets transferred:

Participating employer transferring in	2024
Fink Engineering USA	\$ 20,806
Total assets transferred in	\$ 20,806

Participating employer transferred out	2024
Dream Green Homes	\$ 16,914
Taqueria 27	18,796
Fink Hyperbaric	19,160
Total assets transferred out	\$ 54,870
