INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Central Steel & Wire Company Savings Plan
Chicago, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Central Steel & Wire Company Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

(Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4a – Schedule of Delinquent Participant Contributions – Modified Cash Basis for the year ended December 31, 2024 and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) – Modified Cash Basis as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules (modified cash basis), other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules (modified cash basis) that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules (modified cash basis), we evaluated whether the supplemental schedules (modified cash basis), other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(Continued)

In our opinion

- the form and content of the supplemental schedules (modified cash basis), other than the information in the supplemental schedules (modified cash basis) that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules (modified cash basis) related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Central Steel & Wire Company Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan booklet for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code (IRC) covering all full-time employees of Central Steel & Wire Company (the Company) who have completed the initial service requirements, as defined in the summary plan booklet. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is a wholly-owned subsidiary of Ryerson Holding Corporation (Ryerson).

Master Trust: Assets of the Plan are co-invested with the defined contribution plans sponsored by Ryerson and its subsidiaries in the Ryerson Savings Plan Master Trust (Master Trust).

Contributions: Separate participant account balances are maintained. Participants can elect pre-tax and after-tax deposits from 1% to 75% of their annual gross compensation, subject to a combined limitation of 60% and highly compensated employee limitations. Participants who have attained age 50 during the Plan year are eligible to make catch-up contributions. Participants may allocate their deposits among various investment fund options within the Plan. Investment income and Company contributions are credited to each account in proportion to each account balance to the total account balances within such funds. All new employees are automatically enrolled in the Plan at a 3% contribution rate. Employees are required to advise the trustee in order to opt out of the Plan. The Plan also includes an auto-increase provision by where on each July 1st following the date an individual is automatically enrolled, the pre-tax deferral rate of such auto-enrolled participants shall increase 1% up to a maximum of 15%.

Certain employees who do not participate in the Central Steel & Wire Retirement Plan will receive a Company matching contribution. These matching contributions equal 100% up to 4% and then 50% up to the next 2% of an eligible participant's eligible compensation contributed to the Plan. All Company matching contributions are invested at the participant's discretion among the investment fund options.

With the merger of the Central Steel & Wire Profit Sharing Plan ("Profit Sharing Plan"), effective October 1, 2020, the Plan also allows for a Company Profit Sharing contribution which consists of a portion of the Company's profits for the year. The Company Profit Sharing contribution is split into equal shares and credited to each participant's account within the Plan, as directed by the participant. A participant must be employed by the Company on the last day of the year and have worked 1,000 hours during that plan year to receive this contribution, the formula for which is outlined in the plan document. There was no Company Profit Sharing contribution made to the Plan during the plan year ended December 31, 2024.

Participant Accounts: Each participant's account is credited with the participant's contributions, any Company contributions, and an allocation of plan earnings/ (losses) and debited with their distributions and expenses based upon the relative account balances and investment funds in which the participant's account is invested. The benefit to which a participant is entitled upon retirement or termination of employment is the amount of the participant's vested account balance. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations.

(Continued)

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participation and Vesting: Full-time employees are eligible to participate in the Plan as of the first payroll of the month following thirty days of full-time credited service. Non-full-time employees are eligible to participate in the Plan as of the first payroll of the month following twelve months and completion of 1,000 hours of service. Participants are immediately vested in their contributions and the Company's matching contributions, plus actual earnings thereon. Participants are fully vested in the Company Profit Sharing contribution after 3 years of service.

Distributions: Participants receive distributions upon their request up to their pre-tax account balances on termination, retirement, attainment of age 59½, death, or in the event of financial hardship. Distributions from after-tax participant accounts are available upon request.

Notes Receivable from Participants: Any participant may take a loan on their account, limited to one outstanding loan per participant at any given time and a maximum of the lesser of $50,000 or 50% of that account balance. Loans are secured by the participant's account balances and are repayable through payroll deductions. Loan repayment terms are generally within five years but can have periods up to twenty-five years if the loan is used to purchase a principal residence. Loans on both pre-tax and after-tax accounts are permitted. Loans outstanding as of December 31, 2024 carry interest rates ranging from 5.25% to 10.25% with maturity dates through 2046.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on a modified cash basis method of accounting, which differs from U.S. generally accepted accounting principles by recognizing income when received rather than when earned and contributions and benefit payments are recorded when received or paid rather than when incurred.

Use of Estimates: The preparation of financial statements requires the plan administrator to make estimates and assumptions that affect certain reported amounts, changes therein, and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan's investment in the Master Trust is reported at estimated fair value based upon the fair values of the underlying investments held in the Master Trust. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties: The Master Trust, in which the Plan holds an interest, invests in various investments. The underlying investments are exposed to various risks, such as interest rate, market, and credit risks as well as risks associated with global events. Because of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses: Certain fees incurred in the administration of the Plan are paid by the Company. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are disclosed on the Statement of Changes (modified cash basis). Investment related expenses are included in net appreciation/(depreciation) in fair value of investments.

Notes Receivable from Participants: Notes receivable from participants represent the unpaid principal balance. Interest income is accounted on the modified cash basis. Related fees are recorded as expenses when they are paid. No allowance for credit losses have been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded at the time of the employee's termination, retirement or death.

Benefit Payments: Benefit payments are recorded when paid.

NOTE 3 – MASTER TRUST ASSETS

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and the assets of the Ryerson Combined Retirement Plan, the Ryerson Savings Plan and the Central Coil Processing, LLC Retirement Plan. Each participating retirement plan has a divided interest in the underlying assets of the Master Trust based upon Plan participant investment elections. The value of the Plan's interest in the Master Trust is based on the beginning of year (period) value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon their interests in each of the underlying participant-directed investments.

The following is a summary of net assets held by the Master Trust and the Plan's interest in the Master Trust as of December 31, 2024:

	Master Trust Balances	Plan's Interest in Master Trust Balances
Investments at fair value		
Mutual funds	$ 62,047,593	$ 3,073,772
Collective trusts	462,370,412	39,537,704
Total investments at fair value	524,418,005	42,611,476
Total assets and net assets of the Master Trust	$ 524,418,005	$ 42,611,476

(Continued)

NOTE 3 – MASTER TRUST ASSETS (Continued)

The following is a summary of net assets held by the Master Trust and the Plan's interest in the Master Trust as of December 31, 2023:

	Master Trust Balances	Plan's Interest in Master Trust Balances
Investments at fair value		
Mutual funds	$ 473,836,754	$ 46,301,521
Collective trusts	19,497,469	752,950
Total investments at fair value	493,334,223	47,054,471
Total assets and net assets of the Master Trust	$ 493,334,223	$ 47,054,471

The following are the changes in net assets for the Master Trust for the year ended December 31, 2024:

Changes in Net Assets:	
Net appreciation in fair value of investments	$ 54,138,617
Interest and dividends	1,359,411
Net investment income	55,498,028
Net transfers	(24,414,246)
Increase in net assets	31,083,782
Net assets:	
Beginning of year	493,334,223
End of year	$ 524,418,005

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participation units held in the collective trust funds are based on the net asset values per unit as reported by the fund managers. For the Vanguard Retirement Savings Trust IV, the fund manager does require twelve months advanced notice for Plan Sponsor-initiated redemptions. However, participant-initiated withdrawals from the fund can be made daily without any advance notice. The other collective trust funds held by the Plan provide for daily redemptions by both the Plan Sponsor and participants, with no advance notice requirement.

The methods described above may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

		Fair Value Measurements at December 31, 2024, Using		
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 62,047,593	$ 62,047,593	$ -	$ -
Collective trusts*	462,370,412	-	-	-
Total	$ 524,418,005	$ 62,047,593	$ -	$ -

		Fair Value Measurements at December 31, 2023, Using		
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 473,836,754	$ 473,836,754	$ -	$ -
Collective trusts*	19,497,469	-	-	-
Total	$ 493,334,223	$ 473,836,754	$ -	$ -

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the summary of net assets of the Master Trust.

NOTE 5 – CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2024 and 2023, and investment gain (loss) from the Plan's interest in the Master Trust, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company (the trustee of the Plan).

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. Certain Master Trust investments are managed by Fidelity or one of its affiliates. Fidelity is the trustee as defined by the Plan; therefore, these transactions and the Plan's payment of fees to Fidelity qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under section 408(b) of the ERISA regulations. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 7 – FEDERAL INCOME TAX

The Internal Revenue Service has determined and informed the Plan by a letter dated December 12, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The plan administrator is not aware of any activity or transactions that may adversely affect the qualified status of the Plan.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2021.

INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Central Steel & Wire Company Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Central Steel & Wire Company Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

(Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4a – Schedule of Delinquent Participant Contributions – Modified Cash Basis for the year ended December 31, 2024 and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) – Modified Cash Basis as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules (modified cash basis), other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules (modified cash basis) that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules (modified cash basis), we evaluated whether the supplemental schedules (modified cash basis), other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(Continued)

In our opinion

- the form and content of the supplemental schedules (modified cash basis), other than the information in the supplemental schedules (modified cash basis) that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules (modified cash basis) related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Central Steel & Wire Company Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan booklet for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code (IRC) covering all full-time employees of Central Steel & Wire Company (the Company) who have completed the initial service requirements, as defined in the summary plan booklet. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is a wholly-owned subsidiary of Ryerson Holding Corporation (Ryerson).

Master Trust: Assets of the Plan are co-invested with the defined contribution plans sponsored by Ryerson and its subsidiaries in the Ryerson Savings Plan Master Trust (Master Trust).

Contributions: Separate participant account balances are maintained. Participants can elect pre-tax and after-tax deposits from 1% to 75% of their annual gross compensation, subject to a combined limitation of 60% and highly compensated employee limitations. Participants who have attained age 50 during the Plan year are eligible to make catch-up contributions. Participants may allocate their deposits among various investment fund options within the Plan. Investment income and Company contributions are credited to each account in proportion to each account balance to the total account balances within such funds. All new employees are automatically enrolled in the Plan at a 3% contribution rate. Employees are required to advise the trustee in order to opt out of the Plan. The Plan also includes an auto-increase provision by where on each July 1st following the date an individual is automatically enrolled, the pre-tax deferral rate of such auto-enrolled participants shall increase 1% up to a maximum of 15%.

Certain employees who do not participate in the Central Steel & Wire Retirement Plan will receive a Company matching contribution. These matching contributions equal 100% up to 4% and then 50% up to the next 2% of an eligible participant's eligible compensation contributed to the Plan. All Company matching contributions are invested at the participant's discretion among the investment fund options.

With the merger of the Central Steel & Wire Profit Sharing Plan ("Profit Sharing Plan"), effective October 1, 2020, the Plan also allows for a Company Profit Sharing contribution which consists of a portion of the Company's profits for the year. The Company Profit Sharing contribution is split into equal shares and credited to each participant's account within the Plan, as directed by the participant. A participant must be employed by the Company on the last day of the year and have worked 1,000 hours during that plan year to receive this contribution, the formula for which is outlined in the plan document. There was no Company Profit Sharing contribution made to the Plan during the plan year ended December 31, 2024.

Participant Accounts: Each participant's account is credited with the participant's contributions, any Company contributions, and an allocation of plan earnings/ (losses) and debited with their distributions and expenses based upon the relative account balances and investment funds in which the participant's account is invested. The benefit to which a participant is entitled upon retirement or termination of employment is the amount of the participant's vested account balance. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations.

(Continued)

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participation and Vesting: Full-time employees are eligible to participate in the Plan as of the first payroll of the month following thirty days of full-time credited service. Non-full-time employees are eligible to participate in the Plan as of the first payroll of the month following twelve months and completion of 1,000 hours of service. Participants are immediately vested in their contributions and the Company's matching contributions, plus actual earnings thereon. Participants are fully vested in the Company Profit Sharing contribution after 3 years of service.

Distributions: Participants receive distributions upon their request up to their pre-tax account balances on termination, retirement, attainment of age 59½, death, or in the event of financial hardship. Distributions from after-tax participant accounts are available upon request.

Notes Receivable from Participants: Any participant may take a loan on their account, limited to one outstanding loan per participant at any given time and a maximum of the lesser of $50,000 or 50% of that account balance. Loans are secured by the participant's account balances and are repayable through payroll deductions. Loan repayment terms are generally within five years but can have periods up to twenty-five years if the loan is used to purchase a principal residence. Loans on both pre-tax and after-tax accounts are permitted. Loans outstanding as of December 31, 2024 carry interest rates ranging from 5.25% to 10.25% with maturity dates through 2046.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on a modified cash basis method of accounting, which differs from U.S. generally accepted accounting principles by recognizing income when received rather than when earned and contributions and benefit payments are recorded when received or paid rather than when incurred.

Use of Estimates: The preparation of financial statements requires the plan administrator to make estimates and assumptions that affect certain reported amounts, changes therein, and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan's investment in the Master Trust is reported at estimated fair value based upon the fair values of the underlying investments held in the Master Trust. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties: The Master Trust, in which the Plan holds an interest, invests in various investments. The underlying investments are exposed to various risks, such as interest rate, market, and credit risks as well as risks associated with global events. Because of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses: Certain fees incurred in the administration of the Plan are paid by the Company. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are disclosed on the Statement of Changes (modified cash basis). Investment related expenses are included in net appreciation/(depreciation) in fair value of investments.

Notes Receivable from Participants: Notes receivable from participants represent the unpaid principal balance. Interest income is accounted on the modified cash basis. Related fees are recorded as expenses when they are paid. No allowance for credit losses have been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded at the time of the employee's termination, retirement or death.

Benefit Payments: Benefit payments are recorded when paid.

NOTE 3 – MASTER TRUST ASSETS

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and the assets of the Ryerson Combined Retirement Plan, the Ryerson Savings Plan and the Central Coil Processing, LLC Retirement Plan. Each participating retirement plan has a divided interest in the underlying assets of the Master Trust based upon Plan participant investment elections. The value of the Plan's interest in the Master Trust is based on the beginning of year (period) value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon their interests in each of the underlying participant-directed investments.

The following is a summary of net assets held by the Master Trust and the Plan's interest in the Master Trust as of December 31, 2024:

	Master Trust Balances	Plan's Interest in Master Trust Balances
Investments at fair value		
Mutual funds	$ 62,047,593	$ 3,073,772
Collective trusts	462,370,412	39,537,704

Total assets and net assets of the Master Trust	$ 493,334,223	$ 47,054,471

The following are the changes in net assets for the Master Trust for the year ended December 31, 2024:

Changes in Net Assets:	
Net appreciation in fair value of investments	$ 54,138,617
Interest and dividends	1,359,411
Net investment income	55,498,028
Net transfers	(24,414,246)
Increase in net assets	31,083,782
Net assets:	
Beginning of year	493,334,223
End of year	$ 524,418,005

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participation units held in the collective trust funds are based on the net asset values per unit as reported by the fund managers. For the Vanguard Retirement Savings Trust IV, the fund manager does require twelve months advanced notice for Plan Sponsor-initiated redemptions. However, participant-initiated withdrawals from the fund can be made daily without any advance notice. The other collective trust funds held by the Plan provide for daily redemptions by both the Plan Sponsor and participants, with no advance notice requirement.

The methods described above may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2024, Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the summary of net assets of the Master Trust.

NOTE 5 – CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2024 and 2023, and investment gain (loss) from the Plan's interest in the Master Trust, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company (the trustee of the Plan).

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. Certain Master Trust investments are managed by Fidelity or one of its affiliates. Fidelity is the trustee as defined by the Plan; therefore, these transactions and the Plan's payment of fees to Fidelity qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under section 408(b) of the ERISA regulations. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 7 – FEDERAL INCOME TAX

The Internal Revenue Service has determined and informed the Plan by a letter dated December 12, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The plan administrator is not aware of any activity or transactions that may adversely affect the qualified status of the Plan.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2021.

INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Central Steel & Wire Company Savings Plan
Chicago, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Central Steel & Wire Company Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

(Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4a – Schedule of Delinquent Participant Contributions – Modified Cash Basis for the year ended December 31, 2024 and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) – Modified Cash Basis as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules (modified cash basis), other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules (modified cash basis) that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules (modified cash basis), we evaluated whether the supplemental schedules (modified cash basis), other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(Continued)

In our opinion

- the form and content of the supplemental schedules (modified cash basis), other than the information in the supplemental schedules (modified cash basis) that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules (modified cash basis) related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Central Steel & Wire Company Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan booklet for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code (IRC) covering all full-time employees of Central Steel & Wire Company (the Company) who have completed the initial service requirements, as defined in the summary plan booklet. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is a wholly-owned subsidiary of Ryerson Holding Corporation (Ryerson).

Master Trust: Assets of the Plan are co-invested with the defined contribution plans sponsored by Ryerson and its subsidiaries in the Ryerson Savings Plan Master Trust (Master Trust).

Contributions: Separate participant account balances are maintained. Participants can elect pre-tax and after-tax deposits from 1% to 75% of their annual gross compensation, subject to a combined limitation of 60% and highly compensated employee limitations. Participants who have attained age 50 during the Plan year are eligible to make catch-up contributions. Participants may allocate their deposits among various investment fund options within the Plan. Investment income and Company contributions are credited to each account in proportion to each account balance to the total account balances within such funds. All new employees are automatically enrolled in the Plan at a 3% contribution rate. Employees are required to advise the trustee in order to opt out of the Plan. The Plan also includes an auto-increase provision by where on each July 1st following the date an individual is automatically enrolled, the pre-tax deferral rate of such auto-enrolled participants shall increase 1% up to a maximum of 15%.

Certain employees who do not participate in the Central Steel & Wire Retirement Plan will receive a Company matching contribution. These matching contributions equal 100% up to 4% and then 50% up to the next 2% of an eligible participant's eligible compensation contributed to the Plan. All Company matching contributions are invested at the participant's discretion among the investment fund options.

With the merger of the Central Steel & Wire Profit Sharing Plan ("Profit Sharing Plan"), effective October 1, 2020, the Plan also allows for a Company Profit Sharing contribution which consists of a portion of the Company's profits for the year. The Company Profit Sharing contribution is split into equal shares and credited to each participant's account within the Plan, as directed by the participant. A participant must be employed by the Company on the last day of the year and have worked 1,000 hours during that plan year to receive this contribution, the formula for which is outlined in the plan document. There was no Company Profit Sharing contribution made to the Plan during the plan year ended December 31, 2024.

Participant Accounts: Each participant's account is credited with the participant's contributions, any Company contributions, and an allocation of plan earnings/ (losses) and debited with their distributions and expenses based upon the relative account balances and investment funds in which the participant's account is invested. The benefit to which a participant is entitled upon retirement or termination of employment is the amount of the participant's vested account balance. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations.

(Continued)

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participation and Vesting: Full-time employees are eligible to participate in the Plan as of the first payroll of the month following thirty days of full-time credited service. Non-full-time employees are eligible to participate in the Plan as of the first payroll of the month following twelve months and completion of 1,000 hours of service. Participants are immediately vested in their contributions and the Company's matching contributions, plus actual earnings thereon. Participants are fully vested in the Company Profit Sharing contribution after 3 years of service.

Distributions: Participants receive distributions upon their request up to their pre-tax account balances on termination, retirement, attainment of age 59½, death, or in the event of financial hardship. Distributions from after-tax participant accounts are available upon request.

Notes Receivable from Participants: Any participant may take a loan on their account, limited to one outstanding loan per participant at any given time and a maximum of the lesser of $50,000 or 50% of that account balance. Loans are secured by the participant's account balances and are repayable through payroll deductions. Loan repayment terms are generally within five years but can have periods up to twenty-five years if the loan is used to purchase a principal residence. Loans on both pre-tax and after-tax accounts are permitted. Loans outstanding as of December 31, 2024 carry interest rates ranging from 5.25% to 10.25% with maturity dates through 2046.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on a modified cash basis method of accounting, which differs from U.S. generally accepted accounting principles by recognizing income when received rather than when earned and contributions and benefit payments are recorded when received or paid rather than when incurred.

Use of Estimates: The preparation of financial statements requires the plan administrator to make estimates and assumptions that affect certain reported amounts, changes therein, and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan's investment in the Master Trust is reported at estimated fair value based upon the fair values of the underlying investments held in the Master Trust. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties: The Master Trust, in which the Plan holds an interest, invests in various investments. The underlying investments are exposed to various risks, such as interest rate, market, and credit risks as well as risks associated with global events. Because of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses: Certain fees incurred in the administration of the Plan are paid by the Company. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are disclosed on the Statement of Changes (modified cash basis). Investment related expenses are included in net appreciation/(depreciation) in fair value of investments.

Notes Receivable from Participants: Notes receivable from participants represent the unpaid principal balance. Interest income is accounted on the modified cash basis. Related fees are recorded as expenses when they are paid. No allowance for credit losses have been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded at the time of the employee's termination, retirement or death.

Benefit Payments: Benefit payments are recorded when paid.

NOTE 3 – MASTER TRUST ASSETS

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and the assets of the Ryerson Combined Retirement Plan, the Ryerson Savings Plan and the Central Coil Processing, LLC Retirement Plan. Each participating retirement plan has a divided interest in the underlying assets of the Master Trust based upon Plan participant investment elections. The value of the Plan's interest in the Master Trust is based on the beginning of year (period) value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon their interests in each of the underlying participant-directed investments.

The following is a summary of net assets held by the Master Trust and the Plan's interest in the Master Trust as of December 31, 2024:

	Master Trust Balances	Plan's Interest in Master Trust Balances
Investments at fair value		
Mutual funds	$ 62,047,593	$ 3,073,772
Collective trusts	462,370,412	39,537,704
Total investments at fair value	524,418,005	42,611,476
Total assets and net assets of the Master Trust	$ 524,418,005	$ 42,611,476

NOTE 3 – MASTER TRUST ASSETS (Continued)

The following is a summary of net assets held by the Master Trust and the Plan's interest in the Master Trust as of December 31, 2023:

	Master Trust Balances	Plan's Interest in Master Trust Balances
Investments at fair value		
Mutual funds	$ 473,836,754	$ 46,301,521
Collective trusts	19,497,469	752,950
Total investments at fair value	493,334,223	47,054,471
Total assets and net assets of the Master Trust	$ 493,334,223	$ 47,054,471

The following are the changes in net assets for the Master Trust for the year ended December 31, 2024:

Changes in Net Assets:	
Net appreciation in fair value of investments	$ 54,138,617
Interest and dividends	1,359,411
Net investment income	55,498,028
Net transfers	(24,414,246)
Increase in net assets	31,083,782
Net assets:	
Beginning of year	493,334,223
End of year	$ 524,418,005

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participation units held in the collective trust funds are based on the net asset values per unit as reported by the fund managers. For the Vanguard Retirement Savings Trust IV, the fund manager does require twelve months advanced notice for Plan Sponsor-initiated redemptions. However, participant-initiated withdrawals from the fund can be made daily without any advance notice. The other collective trust funds held by the Plan provide for daily redemptions by both the Plan Sponsor and participants, with no advance notice requirement.

The methods described above may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2024, Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the summary of net assets of the Master Trust.

NOTE 5 – CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2024 and 2023, and investment gain (loss) from the Plan's interest in the Master Trust, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company (the trustee of the Plan).

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. Certain Master Trust investments are managed by Fidelity or one of its affiliates. Fidelity is the trustee as defined by the Plan; therefore, these transactions and the Plan's payment of fees to Fidelity qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under section 408(b) of the ERISA regulations. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 7 – FEDERAL INCOME TAX

The Internal Revenue Service has determined and informed the Plan by a letter dated December 12, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The plan administrator is not aware of any activity or transactions that may adversely affect the qualified status of the Plan.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2021.
