Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **DOEREN MAYHEW**

(2) EIN: **38-2492570**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Campus USA Credit Union Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Campus USA Credit Union Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2024, and reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CAMPUS USA CREDIT UNION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 1 – Description of the Plan

General

Campus USA Credit Union Retirement Plan (the Plan) is a defined benefit pension plan established October 20, 1966 covering substantially all salaried employees of the Campus USA Credit Union (the Credit Union). Employees are eligible to participate in the Plan on the commencement of employment as a salaried employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

Administration

The Credit Union is the Plan Sponsor and named Plan Administrator. The Plan Administrator is responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance and fees. The Plan's Investment Custodian is Principal Trust Company. The Investment Custodian holds all of the Plan's assets and executes all of the Plan's transactions. The Plan has also retained Principal Life Insurance Company to provide record keeping and administrative services.

Benefits:

Pension Benefits: The Plan provides for normal retirement benefits on the first day of the month on or after the date the participant reaches their normal retirement age, which is the older of age 65 or the participant's age on the date five years after the first day of the Plan year in which the participant's entry date occurred if the participant had an earned benefit.

For participants with an entry date prior to January 1, 2019, the accrued benefit is the sum of (i) and (ii):

- i. The sum of (a), (b) and (c):
 - a. 1.5% of the participant's average monthly compensation not in excess of \$2,000; which is multiplied by the accrual of service as of December 31, 2020 (maximum 35 years)
 - b. 2.0% of the average monthly compensation over \$2,000; which is multiplied by the accrual service as of December 31, 2020 (maximum 35 years)
 - c. 1.5% of the average monthly compensation multiplied by the part of the accrual service as of December 31, 2020 that is over 35 years
- ii. The sum of (a), (b) and (c):
 - a. 1.1% of the participant's average monthly compensation not in excess of covered compensation; which is multiplied by the accrual of service earned on and after January 1, 2021 (maximum 35 years)
 - b. 1.5% of the average monthly compensation in excess of covered compensation; which is multiplied by the accrual service earned on and after January 1, 2021 (maximum 35 years)
 - c. 1.1% of the average monthly compensation multiplied by the part of the accrual service that is over 35 years on or after January 1, 2021.

CAMPUS USA CREDIT UNION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

For a participant whose entry date is on or after January 1, 2019, the accrued benefit will be equal to 1.1% of the participant's average monthly compensation multiplied by accrual of service earned on or after December 31, 2023.

Further, the Plan provides for early retirement upon reaching the later of age 55 or 15 years of vesting service. The Plan also provides for late retirement, which begins on the first day of any month which is after the participant's normal retirement date. The early and late retirement options are subject to a reduction or increase in earned benefits, respectively, as defined in the Plan document. The Plan provides for the following options for payment of earned benefits (i) monthly income for life and no benefit payable after death, (ii) monthly income for life and if death occurs before a certain number of years (participant may choose five, ten, or fifteen years), payments continue to a participant's beneficiary until that period ends, (iii) monthly income for life with survivorship percentages of 50%, 66 2/3%, 75%, or 100% (as chosen by the participant) of monthly income to continue for the life of the named survivor or (iv) a single sum payment.

Death and Disability Benefits: If an active participant dies, a death benefit equal to the value of the participant's accumulated pension benefits is paid to the participant's beneficiary. No disability benefits are paid under the Plan.

Vesting:

Participants hired before January 1, 2010 become fully vested after three years of service (as defined by the Plan). No vesting occurs prior to three years of service. Effective January 1, 2010, participants become fully vested after five years of service. No vesting occurs prior to five years of service.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and the Investment Custodians. See Note 4 for discussion of fair value measurements.

Actuarial Present Value of Accumulated Plan Benefits

The purchase and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

CAMPUS USA CREDIT UNION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits expected to be paid to: (i) retired or terminated vested participants or their beneficiaries, (ii) beneficiaries of participants eligible to retire who have died, and (iii) present participants or their beneficiaries.

Benefits payable under all circumstances (retirement, death, and termination of employment) are included in the computation to the extent they are considered attributable to employee service rendered at the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits. The actuarial present value of accumulated Plan benefits is determined by an actuary from Principal Financial Group and it is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Change in Plan assumptions is related to changes in (i) the assumed asset return increased from 6.75% to 7.00% as of December 31, 2023 and 2022, respectively, (ii) the wage base remained the same at 3.50% as of December 31, 2023 and 2022, (iii) withdrawal rates utilized the 2003 Society of Actuaries Small Plan Age Table with a multiplier of 0.85 to better reflect the Plan experience, and (iv) the salary rate assumption remained the same at 4.75% as of December 31, 2023 and 2022.

The significant actuarial assumptions used in the valuation as of December 31, 2023 were (i) investment return of 7.00% per annum, (ii) life expectancy of participants (mortality) based upon mortality rates from the Society of Actuaries (SOA) Pri - 2012 Study with mortality improvement scale based on the SOA MI PI - 2023 model for male and female, (iii) salary scale from table S-5 from the actuary's Pension Handbook plus 4.75%, (iv) interest rate used to value Plan liabilities increased from 6.00% to 6.25% as of December 31, 2023 and 2022, respectively, and (v) normal retirement age assumptions as defined in the Summary of Plan Provisions. Actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was terminated, different actuarial assumptions might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded at the time of distribution.

Reclassification

Certain amounts reported in the 2023 financial statements have been reclassified to conform with the 2024 presentation. There were no changes to net assets available for benefits or net change in net assets available for benefits as a result of the aforementioned.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 12, 2025, which is the date the financial statements were available to be issued.

CAMPUS USA CREDIT UNION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 3 – Unaudited Information Certified by the Investment Custodian

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following information has been certified by Principal Trust Company, as to its completeness and accuracy and was not subjected to any auditing procedures performed by the Plan's independent auditors:

1. All investment balances reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023,
2. All investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 and 2023,
3. All investment-related information included in the Supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and the Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 or 2023.

Mutual funds: Valued at the daily net asset value (NAV) as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their NAV daily and transact at NAV. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at the NAV of shares held by the Plan at year end. The Investment Custodians consider the fair value of the underlying fund investments when establishing the value of the funds within the pooled separate accounts.

General investment account: Valued based on the amount the Plan receives if withdrawing funds from the participating contract. Fair value is calculated using a cash-out factor based on an associated pool of general assets.

CAMPUS USA CREDIT UNION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	As of December 31, 2024			
	Total	Level 1	Level 2	Level 3
General investment account	\$ 1,869,760	\$ -	\$ -	\$ 1,869,760

(a) (a) In accordance with Financial Accounting Standards Board Accounting Standards Codification Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Level 3 Gains and Losses

The following tables set forth a summary of changes in the fair value of the Plan's Level 3 assets:

	Years Ended December 31,	
	2024	2023
	General Investment Account	
Balance, beginning of year	\$ 41,964	\$ -
Purchases	1,863,426	41,964
Sales	(35,630)	-

Total losses for the period attributable to the change in unrealized losses relating to assets stillheld at the reporting date	\$ (384)	\$ (384)

Unrealized losses included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

Fair Value of Investments in Entities that use NAV

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV (or its equivalent) as of December 31, 2024 and 2023:

	As of December 31,		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2024 Fair Value	2023 Fair Value			
Pooled separate accounts (b)	\$ 50,433,714	\$ 44,863,971	\$ -	Daily	Daily

(b) The pooled separate accounts are comprised of a diversified group of investments offering competitive yields.

Note 5 – Investment Contract with Insurance Company

The Plan uses an annuity contract that has a benefit index for retired participants. The benefit index represents amounts needed to purchase an annuity for each retired participant. Annuity payments are made directly from Plan funds to these retirees as long as there are assets in the contract to support the payments. In the event that assets under the contract are equal to or less than the benefit index, annuities will be purchased from the Investment Custodians. The Investment Custodians issue a certificate to each retiree. The certificate is an irrevocable commitment to pay all the participants' earned benefits at a future date with no fluctuations in fair value. As a result of the guarantee of these allocated contracts, they are excluded from the Plan's assets. The balance of allocated contracts as of December 31, 2024 and 2023 was approximately \$5,064,000 and \$5,126,000, respectively.

CAMPUS USA CREDIT UNION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 6 – Party-in-Interest Transactions

Plan assets consist of pooled separate accounts, mutual funds, and a general investment account managed by the Investment Custodians. The Plan paid direct compensation of approximately \$84,000 and \$82,000 to the record keeper for services rendered for the years ended December 31, 2024 and 2023, respectively. Indirect compensation (that is netted against investment income in the Statement of Changes in Net Assets Available for Benefits) is paid to the record keeper from total annual operating expenses charged on the balance of fund investments, depending on the particular fund. Transactions involving these investments are considered party-in-interest transactions; however, these transactions are not considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

Note 7 – Plan Termination

In the event the Plan terminates, the rights of all participants to benefits accrued to the date of such termination or discontinuance, to the extent funded, shall be nonforfeitable. Accordingly, the net assets of the Plan will be allocated in accordance with the Plan document and as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits to former participants who have retired under the Plan prior to its termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for the accumulated benefit obligation and may also depend on the financial condition of the Credit Union and the level of benefit guaranteed by the PBGC.

The Pension Protection Act of 2006 (PPA) and Section 436 of the Internal Revenue Code (IRC) require the calculation of a funding ratio called the Adjusted Funding Target Attainment Percentage (AFTAP) in order to determine whether the Plan is subject to limits on certain transactions. As the Plan Sponsor is a tax exempt entity, there are no limits on prefunding the Plan and the Plan Sponsor has elected to prefund the Plan for the purpose of generating earnings to offset plan expenses and benefit payments. Should the Plan terminate, the amount of assets in excess of those required to pay accumulated benefits will revert to the Plan Sponsor. Reversion excise taxes under Section 4980 of the IRC would not be imposed as the Plan Sponsor is a tax exempt entity. Alternatively, in the event of Plan termination, the Plan Sponsor may elect to amend the Plan to provide additional benefits rather than reverting the excess to the Plan Sponsor.

CAMPUS USA CREDIT UNION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 8 – Plan Amendment and Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated February 28, 2023, that the Plan is designed in accordance with applicable sections of the IRC. The plan document was most recently restated, effective January 1, 2024. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan permitted provisions of SECURE Act 2.0 during the years ended December 31, 2024 and 2023. Written amendments to the Plan document to reflect these operational changes will be adopted at a later date in accordance with the deadlines pursuant to applicable laws and IRS guidance.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 – Risks and Uncertainties

Plan investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the short term would be material to the financial statements.

Note 10 – Funding Policy and Administrative Fees

The Plan is funded by contributions made by the Credit Union. The Credit Union's funding policy is to, at a minimum, make contributions to the Plan as recommended by the Plan's actuary. The Credit Union made contributions of \$1,000,000 and \$1,500,000 for the years ended December 31, 2024 and 2023, respectively, which were above, and in addition to, the amount recommended by the Plan's actuary. The contributions for 2024 and 2023 satisfied the minimum funding requirements of ERISA.

In order for the Investment Custodians to provide administrative services to the Plan, they charge an amount necessary to cover certain expenses. The Plan's expenses are paid either by the Plan or the Credit Union, as provided by the Plan document. Certain administrative functions are performed by officers and employees of the Credit Union. These administrative expenses, including salaries and overhead, are paid directly by the Credit Union. Expenses that are paid directly by the Credit Union are excluded from these financial statements. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Although it has not expressed any intention to do so, the Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Expected expense	<p>The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.</p>
Retirement	<p>Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
Upcoming year salary increase	<p>The preceding year's salary is increased by 4.75% at each age. Note: not used for Plan accounting calculations.</p> <p>Expected salary increase reflects company salary increase philosophies, and the rate of compensation was selected by Jill Harper, Vice President of Human Resources.</p>
Wage base increase	<p>3.50% increase each year until retirement.</p> <p>Our wage base increase assumption is based on inflation and the real wage differential forecast from the Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption at 1.10% above inflation of 2.40%.</p>
Disability	<p>None.</p> <p>This plan does not offer a subsidized disability benefit; therefore, the disability assumption is built into the withdrawal assumption.</p>

Marriage	<p>75% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>
Withdrawal	<p>2003 Society of Actuaries Small Plan Age Table multiplied by 0.85.</p> <p>We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.85 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.</p>
Form of benefit and basis	<p>50% of active participants will elect a benefit paid in a lump sum at the assumed retirement age. For active participants who terminate, become disabled or die before the assumed retirement age, 50% will receive a lump sum paid immediately.</p> <p>The remaining active participants and participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement age.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p> <p>The single sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.</p>

Methods prescribed by law

Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
Benefit accrual	<p>All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.</p> <ul style="list-style-type: none">The portion based on the plan's definition of accrued benefit.The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. <p>The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in funding target and an amount calculated assuming the participant accrues service through the end of the plan year.</p>
Lump sum payments	<p>Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance.</p>

Methods selected by plan sponsor

Asset method The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates 24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.01%	5.13%	5.15%

Methods elected by actuary

Retirees Assets and liabilities for current and future retirees are included.

Vested benefits A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant’s vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post-retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan’s regular funding target and target normal cost.

Mortality Based on Pri-2012 total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

Mortality base rates **Before benefit payment period**
 Employee amount-weighted, male and female

During benefit payment period
 Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe “Approach 1” is reasonable for this plan.

Mortality improvement Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None ¹

¹ Based on the sponsor’s input, plan experience does not show a need for long-term excess death or COVID death load adjustments.

See Mortality documentation for rationale and additional information.

[Interest rate used to value liabilities](#)

6.25%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

[Treatment of administrative expenses](#)

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

[Basis for lump sums](#)

[Interest rate](#)

Based on the three segment yield curve: 3.55%, 3.95% and 4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high-quality corporate bond yields. According to our most recent study, the long-term expected yields for short, intermediate and long corporate bonds are 3.55%, 3.95% and 4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

[Mortality](#)

We have selected the same mortality assumption for lump sum payments but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets
Campus USA Credit Union Retirement Plan
EIN 59-0637646 Plan No. 001

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$1,500,000 contributions received after the plan year end with a discounted value of \$1,493,650.

Line 2a includes assets allocated for retirees' guaranteed benefits of \$5,125,997.

In addition, there was a correction made to the 2023 ending value of assets due to a pricing error. This resulted in a difference of \$384.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 Campus USA Credit Union Retirement Plan
 EIN 59-0637646 Plan No. 001

Active participants are expected to retire at the plan's assumed retirement age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 12/09/2020 including amendments signed through 12/11/2023.

Plan eligibility

Class Salaried classification.

Normal retirement benefit

Age The later of attained age 65 or five years of service after entry date.

Form Monthly annuity payable for life (optional forms may be elected in advance of retirement).

Amount (accrued benefit) For participants with a plan entry date prior to 01/01/2019:
 The sum of (I) and (II):
 (I): the sum of (a), (b) and (c):
 (a) 1.50% of average compensation not in excess of \$2,000 multiplied by accrual service as of 12/31/2020 (maximum 35 years)
 (b) 2.00% of average compensation in excess of \$2,000 multiplied by accrual service as of 12/31/2020 (maximum 35 years)
 (c) 1.50% of average compensation multiplied by accrual service as of 12/31/2020 in excess of 35 years
 (II): the sum of (a), (b) and (c):
 (a) 1.10% of average compensation not in excess of covered compensation multiplied by accrual service earned on and after 01/01/2021 (maximum 35 years)
 (b) 1.50% of average compensation in excess of covered compensation multiplied by accrual service earned on and after 01/01/2021 (maximum 35 years)
 (c) 1.10% of average compensation multiplied by accrual service earned on and after 01/01/2021 in excess of 35 years

For participants with a plan entry date on or after 01/01/2019:
 1.10% of average compensation multiplied by accrual service

TEFRA minimum benefit 2% of the average of the highest consecutive five compensations for each top-heavy year of service after 1984 and before 1995, with a maximum of ten years. This benefit applies to all employees.
 This plan changed to non-top-heavy status in 1995.
 Effective October 22, 2002, only compensations for years in which the plan is top-heavy will be considered in determining top-heavy average compensation.

Early retirement benefit

Age and service	For a participant who became active on or after June 19, 1980, attained age 55 and 15 years of vesting service. For a participant who was active before June 19, 1980, the earlier of: (1) attained age 60 and 10 years of vesting service (2) attained age 55 and 15 years of vesting service
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 2% for each year up to five and 5% for each year between five and ten that the early retirement date precedes normal retirement date.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

Termination benefit

Vesting percentage	Effective January 1, 2010, 100% after three years of vesting service for employees hired before January 1, 2010 and 100% after five years of vesting service for employees hired on or after January 1, 2010.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage. A participant may receive a lump sum amount if their present value of vested accrued benefit is \$50,000 or less. Effective January 1, 2010, there is no longer a \$50,000 cap when receiving a lump sum amount.

Survivor annuity death benefit

Eligibility	Fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse or beneficiary, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse or beneficiary is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 100% survivor annuity in effect, then died the next day. A participant may receive a lump sum amount if their present value of vested accrued benefit is \$50,000 or less. Effective January 1, 2010, there is no longer a \$50,000 cap when receiving a lump sum amount.

First ad-hoc cost of living adjustments

Eligibility	Retirees with annuity commencement dates on or before November 1, 1996.
Amount	Payable as of November 1, 1997, a one-time adjustment equal to a 3.00% increase of the participant's monthly retirement benefit for each year the participant has received benefits from his retirement date through November 1, 1996.

Second ad-hoc cost of living adjustments

Eligibility	Retirees with annuity commencement dates on or before November 1, 2001.
Amount	The cumulative increase in the Consumer Price Index between the later of October 1996 and the month preceding the annuity commencement date and October 2001.

Third ad-hoc cost of living adjustments

Eligibility	Retirees (and their beneficiaries) with annuity commencement dates on or before January 1, 2005.
Amount	The cumulative annual increase, if any, in the Consumer Price Index between the later of October 2001 and the month preceding the annuity commencement date and December 2004.

Fourth ad-hoc cost of living adjustments

Eligibility	Retirees (and their beneficiaries) with annuity commencement dates on or before November 1, 2023.
Amount	The cumulative annual increase, if any, in the Consumer Price Index between the later of October 2020 and the month preceding the annuity commencement date and October 2023.

Definitions

Average compensation	The monthly average of plan compensation pay received for the sixty consecutive calendar months which gives the highest average.
Covered compensation	The monthly average of the social security taxable wage bases in effect under section 230 of the Social Security Act for each year in the 35 year period ending with the year in which the employee attains social security retirement age.
Optional forms of benefit payments	<p>The optional forms of benefit payments are:</p> <ul style="list-style-type: none">Monthly annuity payable for life, or 5, 10, or 15 years certain and lifeMonthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100Single sum payment equal to the present value of the retirement benefit if the present value is \$50,000 or less. Effective January 1, 2010, the cap of \$50,000 no longer applies <p>The optional form conversion basis is 7.50% interest and the 1983 Group Annuity Mortality Table for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the month.</p>

Changes in principal eligibility or benefit provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Campus USA Credit Union Retirement Plan
EIN 59-0637646 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 6.75% to 7.00%. This rate is used in the calculation of the actuarial value of plan assets.
