Employees' Retirement Plan of Mitsubishi International Corporation

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Employees' Retirement Plan of Mitsubishi International Corporation (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits (in liquidation) as of November 22, 2024 and December 31, 2023, the related statements of changes in net assets available for benefits (in liquidation) for the period from January 1, 2024 to November 22, 2024 and the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of November 22, 2024 and December 31, 2023, and for the period from January 1, 2024 to November 22, 2024 and the year ended December 31, 2023, stating that the certified investment information, as described in Note 11 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As further discussed in Notes 1 and 4 to the financial statements, the Executive Committee of the Board of Directors of Mitsubishi International Corporation approved the termination of the Plan effective May 1, 2023. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed the basis of accounting used to determine the amounts at which plan assets are stated from the ongoing basis to the liquidation basis for periods after December 31, 2022. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such

procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The Schedule of Reportable Transactions (Schedule H, Line 4j) for the period from January 1, 2024 to November 22, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Employees' Retirement Plan of Mitsubishi International Corporation

Notes to Financial Statements November 22, 2024 and December 31, 2023

Note 1 - Description of the Plan

The following description of Employees' Retirement Plan of Mitsubishi International Corporation (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

Prior to its termination, the Plan was a defined benefit pension plan established effective January 1, 1961, and most recently amended effective July 15, 2024. The Plan covered substantially all employees of Mitsubishi International Corporation (the "Company") who were participants in the Plan on March 31, 2014. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Employees were eligible to participate in the Plan upon attainment of age 21 and completion of one year of service.

The Plan was administered by the Retirement Board, which was appointed by the Board of Directors of the Company. The Retirement Board had overall responsibility for the operation and administration of the Plan and determined the appropriateness of the Plan's investment offerings and monitored investment performance.

Plan termination

The Executive Committee of the Board of Directors of the Company agreed to terminate the Plan effective May 1, 2023. As a result of the termination, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), the financial statements are presented on the liquidation basis of accounting for periods after December 31, 2022 (see Note 2).

On April 17, 2023, the Plan was amended to offer a one-time lump sum distribution option to eligible participants, including certain employees, surviving spouses, and alternate payees, through a special election window. All accrued benefits for active employees as of the termination date became fully vested and nonforfeitable.

Effective April 1, 2024, all remaining benefits provided under the Plan were transferred to an annuity contract issued and guaranteed by Pacific Life & Annuity Company ("Pacific Life"). To fund the purchase of this annuity, the Plan paid premiums totaling \$114,000 and \$62,493,824 during the period from January 1, 2024 to November 22, 2024 and the year ended December 31, 2023, respectively.

On July 15, 2024, the Plan was amended in connection with the Internal Revenue Services' final determination review. The amendment included updates to the joint and survivor annuity provisions for married participants, clarification of minimum required distribution rules, and made revisions to the interest crediting methodology and certain minimum account balance protections. These amendments were effective retroactively to January 1, 2016.

All plan assets were liquidated as of November 22, 2024.

Funding policy

Prior to its termination, the Plan's funding policy was for the Company to contribute an amount which would meet or exceed the annual ERISA minimum funding requirement. There was no minimum required contribution for the period from January 1, 2024 to November 22, 2024 and the year ended December 31, 2023. During 2024 and 2023, the Company made contributions to the Plan of \$948,165 and \$1,196,307, respectively.

Employees' Retirement Plan of Mitsubishi International Corporation

Notes to Financial Statements November 22, 2024 and December 31, 2023

Pension benefits

Effective January 1, 1989, the benefit formula was revised in accordance with an amendment to the Plan document dated March 27, 1990, as follows:

1.8% of five-year average final compensation times credited service up to 40 years less the lesser of (i) 0.5% of average compensation limit* and (ii) 0.9% of five-year average final compensation times credited service up to 35 years. Credited service was frozen effective March 31, 2014. Average final compensation and the average compensation limit was frozen effective March 31, 2014 for active participants that had not attained age 55 and had not completed ten years of continuous service as of March 31, 2014 and effective March 31, 2019 for active participants that had attained age 55 and had completed ten years of continuous service as of March 31, 2014. The benefit was computed by projecting service to age 65 and then prorating for service for participants who terminate prior to age 65.

*Average compensation limit was the three-year average of a member's compensation, limited to the Social Security Wage Base in each year, or the participant's covered compensation if less.

Effective April 1, 2014, a floor offset cash balance formula was added to the Plan for active participants who had attained age 50 and had earned at least five years of eligibility service as of March 31, 2014. The age requirement was subject to limitations based on results of nondiscrimination testing. Effective January 1, 2015, the requirement to have attained age 50 was removed. Under the cash balance formula, these participants' accounts were credited with 2.5% of compensation, as defined in the Plan, paid during the Plan year. Each participant's account was credited at the beginning of each calendar quarter, with a periodic adjustment percentage equal to one quarter of the yield on One-Year Treasury Constant Maturities on November 30 preceding the start of each calendar year as published in the Federal Reserve Statistical Release H.15. At the earliest of the participant's termination of employment, annuity start date and March 31, 2019, the participant's cash balance account would be reduced by the retirement contribution source of his or her account including earnings, in the Savings Plan (401(k)) of Mitsubishi International Corporation (the "Savings Plan"). Retirement contributions for this purpose did not take into account any employee contributions to the Savings Plan. Any remaining positive balance in the cash balance account would be converted to an actuarially equivalent annuity and paid at the same time, and in the same form, as the rest of the participant's accrued benefit under the Plan. The participant's accrued benefit under this formula was fully vested upon completion of three years of continuous service following April 1, 2014.

For employees who were members prior to January 1, 1982, benefits would be paid based on the new formula above, or the old formula, whichever had the higher results. The old benefit formula was 1.25% of average compensation up to \$7,800, plus 1.50% of average compensation over \$7,800 multiplied by credited service up to 40 years.

Participants could begin receiving their benefit as early as age 55, if they had completed 15 years of service prior to termination. Benefits were reduced by 4% per year for commencement prior to age 65. The benefit for employees who completed 25 years of service and attained age 55 prior to termination was only reduced by 4% per year for commencement prior to age 62.

Vested participants were eligible to receive benefits beginning at normal retirement age of 65. However, in the case of an employee who was hired on or after November 1, 1997, normal retirement age was age 65 and either the employee had attained the 5th anniversary since the employee became a member or completed five years of continuous service. The Plan excluded

Employees' Retirement Plan of Mitsubishi International Corporation

Notes to Financial Statements November 22, 2024 and December 31, 2023

individuals transferred to the Company from Mitsubishi Corporation who were covered under another retirement plan, any employee who had a contract with the Company that stipulated the employee was not entitled to benefits under the Plan, leased employees, and contract employees of a third party.

Benefits were based on salary and length of service and were fully vested after five years of continuous service. Employees could also elect to receive the value of their accumulated plan benefits as a life or joint and survivor annuity payable monthly from retirement date. If a distribution occurred prior to normal retirement age and the employee's vested benefit were \$1,000 or less, the participant would receive a lump-sum payment. In the event of a mandatory distribution to a participant whose vested balance was between \$1,000 and \$5,000, if the participant did not elect to have the distribution paid directly to an eligible retirement plan specified by the participant or to receive a lump-sum payment, then the participant would receive the distribution in a direct rollover to an individual retirement plan designated by the Plan administrator.

Death benefits

If a vested participant who had been married for at least one-year dies, the surviving spouse would receive the survivor portion of a 50% joint and survivor benefit commencing at the earliest date the employee would have been eligible to retire.

Note 2 - Summary of accounting policies

Basis of accounting

In accordance with U.S. GAAP, due to the termination of the Plan effective May 1, 2023, the financial statements as of November 22, 2024 and December 31, 2023 and for the period from January 1, 2024 to November 22, 2024 and the year ended December 31, 2023 were prepared using the liquidation basis of accounting to determine the amounts at which Plan assets are stated.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition

Prior to its termination, investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Board determined the Plan's valuation policies utilizing information provided by its investment advisers, custodians and insurance company. See Note 5 for a discussion of fair value measurements. In instances wherein quoted market prices were not available, the fair value of investments were estimated primarily by independent investment brokerage firms and insurance companies. Funds were also held under an investment contract with Prudential Retirement Insurance and Annuity Company ("PRIAC") until May 1, 2023, when they were liquidated and used to purchase an annuity contract issued and guaranteed by Pacific Life. Funds that had been allocated and applied to purchase annuities, for which PRIAC was obligated to pay the related pension benefits, were excluded from the Plan's assets. Additionally, the Plan had purchased a nonparticipating allocated contract with MetLife to cover substantially all vested benefits from the inception of the Plan through December 31, 1986. These funds have been excluded from the Plan's assets. The contract provides retirement annuities

Employees' Retirement Plan of Mitsubishi International Corporation

Notes to Financial Statements November 22, 2024 and December 31, 2023

for both immediate and deferred annuitants. Retired participants began receiving annuity payments from the contract on June 1, 1987.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Prior to its termination, benefit payments to participants were recorded upon distribution.

Administrative expenses

Prior to its termination, the Plan was responsible for payment of the custodian and trustee expenses and fees including actuarial and recordkeeping services; however, the Company would pay the Plan expenses directly. Expenses that were paid directly by the Company were excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that were paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits (in liquidation). There were no such expenses paid by the Plan during the period from January 1, 2024 to November 22, 2024 and the year ended December 31, 2023.

Subsequent events

The Plan has evaluated subsequent events through September 15, 2025, which was the date the financial statements were available to be issued.

Note 3 - Actuarial present value of accumulated plan benefits (in liquidation)

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service.

The accumulated plan benefits for active employees were based on their highest average compensation in five consecutive years during the 10 years ending on the date as of which the benefits information was presented (the valuation date). The average final compensation was frozen effective either March 31, 2014 or March 31, 2019 (see Note 1). For employees who were members prior to January 1, 1982, benefits were paid based on this formula or the old formula, whichever had the higher results. Benefits payable under all circumstances (retirement, death, or termination of employment) were included, to the extent they were deemed attributable to employee service rendered to the valuation date. Benefits provided via allocated annuity contracts were excluded from Plan assets and excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits was determined by an independent actuary, and was that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2023 were: (a) mortality assumptions (Pri-2012 Healthy Employee White Collar Mortality and Pri-2012 Healthy Annuitant White Collar

Employees' Retirement Plan of Mitsubishi International Corporation

Notes to Financial Statements November 22, 2024 and December 31, 2023

Mortality using the MP-2021 mortality improvement table fully generational), (b) retirement age assumptions, and (c) investment return (assumed average rate of return compounded annually at 7.65%). The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

Note 4 - Plan termination

As discussed in Note 1, the Plan sponsor terminated the Plan effective May 1, 2023 subject to the provisions of ERISA. As a result, the Plan recorded accrued investment income expected to be earned in liquidation of \$21,394, estimated employer contributions in liquidation of \$948,165, estimated other payables in liquidation of \$314,557, and estimated payments to participants upon liquidation of \$3,257,400 as of December 31, 2023.

The net assets of the Plan were allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount was limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount was further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") up to the applicable limitations.
- c. All other vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Benefits provided via contracts under which PRIAC was obligated to pay was obligated to pay the benefits were excluded for allocation purposes.

Certain benefits under the Plan were insured by the PBGC when a Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection was subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits upon Plan termination depends on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Employees' Retirement Plan of Mitsubishi International Corporation

Notes to Financial Statements November 22, 2024 and December 31, 2023

Note 5 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification ("ASC") 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no assets were held by the Plan at November 22, 2024. Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2023:

Pooled separate account: Valued at unit value reported by PRIAC based on accumulated values of underlying investments. The unit value is an equivalent to NAV and is used as a practical expedient to estimate fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments measured at NAV (a)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,602,398</u>
Total investments, at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,602,398</u>

Employees' Retirement Plan of Mitsubishi International Corporation

Notes to Financial Statements November 22, 2024 and December 31, 2023

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits (in liquidation).

Changes in fair value of Level 3 assets and related gains and losses

The following table sets forth a summary of changes in the fair value of the Plan's guaranteed investment contract with PRIAC (a Level 3 asset) for the year ended December 31, 2023:

Balance, beginning of year	\$ 10,772,714
Unrealized gains (losses) relating to instruments still held at the reporting date	69,507
Purchases	105,562
Sales	<u>(10,947,783)</u>
Balance, end of year	<u>\$ -</u>

Unrealized gains (losses) included in changes in net assets for the period above were reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits (in liquidation).

Fair value of investments in entities that use NAV

The following table summarizes investments for which fair value is measured using NAV per share practical expedient as December 31, 2023. There were no participant redemption restrictions for these investments; the redemption notice period was applicable only to the Plan:

	Fair value	Unfunded commitments	Redemption frequency (if currently eligible)	Redemption notice period
Pooled separate account	<u>\$ 2,602,398</u>	None	Daily	None

Note 6 - Risks and uncertainties

Plan contributions were made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 7 - Investment contract with insurance company

The Company held a guaranteed investment contract with PRIAC between January 1, 2023 and May 1, 2023, the date of which responsibility for providing benefits under the Plan was transferred to Pacific Life. PRIAC and Pacific Life maintained the assets in an unallocated fund to which they credit interest at varying rates. During the period from January 1, 2024 to November 22, 2024 and for the period from May 1, 2023 to December 31, 2023, Pacific Life credited interest at a rate of 5.70%. During the period from January 1, 2023 to April 30, 2023, PRIAC recorded cumulative contributions and credited interest at a rate of 2.35% to amounts received prior to January 1, 2023

during 2023. PRIAC credited interest at a rate of 3.50% for money deposited in the Prudential Guaranteed Deposit Fund for the period from January 1, 2023 to April 30, 2023.

Note 8 - Tax status

The Plan obtained a determination letter on November 7, 2017 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan was designed and was operated in compliance with the applicable requirements of the IRC. The IRS also determined and informed the Company by a letter dated July 2, 2024, that the termination did not adversely affect its qualification for federal tax purposes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Related party and party-in interest transactions

Plan assets included an investment in a pooled separate account managed by Empower Annuity Insurance Company ("EAIC") for the period of January 1, 2023 through May 1, 2023. EAIC was the Plan's custodian, as such, transactions with the custodian qualify as party-in-interest transactions. The Plan was also a party to a guaranteed investment contract with the custodian through May 1, 2023, the date of which funds were liquidated to purchase the annuity contract issued and guaranteed by Pacific Life. As described in Note 2, the Plan paid certain expenses related to investment activity to the custodian. Certain other administrative expenses of the Plan are paid by the Company.
